The reimbursement authorized in this subparagraph (e) may be made only to facilities the construction of which was completed after June 30, 1989. Before the division shall be authorized to make the reimbursement authorized in this subparagraph (e), the division first must have received approval from the Health Care Financing Administration of the United States Department of Health and Human Services of the change in the state Medicaid plan providing for such reimbursement.

The division may include in its periodic screening and diagnostic program those discretionary services authorized under the federal regulations adopted to implement Title XIX of the federal Social Security Act, as amended. The division, in obtaining physical therapy services, occupational therapy services, and services for individuals with speech, hearing and language disorders, may enter into a cooperative agreement with the State Department of Education for the provision of such services to handicapped students by public school districts using state funds which are provided from the appropriation to the Department of Education to obtain federal matching funds through the division. Product selection shall be made in compliance with existing state law; however, the division may reimburse as if the prescription had been filled under the generic name. The division may provide otherwise in the case of specified drugs when the consensus of competent medical advice is that trademarked drugs are substantially more effective.

Such authorization must be filed with the division before it will be effective, and the authorization shall be effective for three (3) months from the date it is received by the division, unless it is revoked earlier by the physician because of a change in the condition of the patient.

(b) All state-owned intermediate care facilities for the mentally retarded shall be reimbursed on a full reasonable cost basis.

(13) Family planning services, including drugs, supplies and devices, when such services are under the supervision of a physician.

Payment for such services shall be limited to individuals who would be eligible for and would otherwise require the level of care provided in a nursing facility. The division shall certify case management agencies to provide case management services and provide for home- and community-based services for eligible individuals under this paragraph. The home- and community-based services under this

paragraph and the activities performed by certified case management agencies under this paragraph shall be funded using state funds that are provided from the appropriation to the Division of Medicaid and used to match federal funds under a cooperative agreement between the division and the Department of Human Services.

(16) Mental health services. Approved therapeutic and case management services provided by (a) an approved regional mental health/retardation center established under Sections 41-19-31 through 41-19-39, or by another community mental health service provider meeting the requirements of the Department of Mental Health to be an approved mental health/retardation center if determined necessary by the Department of Mental Health, using state funds which are provided from the appropriation to the State Department of Mental Health and used to match federal funds under a cooperative agreement between the division and the department, or (b) a facility which is certified by the State Department of Mental Health to provide therapeutic and case management services, to be reimbursed on a fee for service basis.
