AMENDMENT No. 1 PROPOSED TO

House Bill NO. 1280

By Senator(s) Committee

17 **Amend by striking all after the enacting clause and inserting**
18 **in lieu thereof the following:**

19

20 SECTION 1. Section 43-13-117, Mississippi Code of 1972, as
21 amended by Senate Bill No. 2143, 1999 Regular Session, which
22 became law after veto by approval of the Legislature during the
23 2000 Regular Session, is amended as follows:

24 43-13-117. Medical assistance as authorized by this article
25 shall include payment of part or all of the costs, at the
26 discretion of the division or its successor, with approval of the
27 Governor, of the following types of care and services rendered to
28 eligible applicants who shall have been determined to be eligible
29 for such care and services, within the limits of state
30 appropriations and federal matching funds:

31 (1) Inpatient hospital services.

32 (a) The division shall allow thirty (30) days of
33 inpatient hospital care annually for all Medicaid recipients. The
34 division shall be authorized to allow unlimited days in
35 disproportionate hospitals as defined by the division for eligible
36 infants under the age of six (6) years.

37 (b) From and after July 1, 1994, the Executive
38 Director of the Division of Medicaid shall amend the Mississippi
39 Title XIX Inpatient Hospital Reimbursement Plan to remove the

40 occupancy rate penalty from the calculation of the Medicaid
41 Capital Cost Component utilized to determine total hospital costs
42 allocated to the Medicaid program.

43 (c) Hospitals will receive an additional payment
44 for the implantable programmable pump for approved spasticity
45 patients implanted in an inpatient setting, to be determined by
46 the Division of Medicaid and approved by the Medical Advisory
47 Committee. The payment pursuant to written invoice will be in
48 addition to the facility's per diem reimbursement and will
49 represent a reduction of costs on the facility's annual cost
50 report, and shall not exceed Ten Thousand Dollars (\$10,000.00) per
51 year per recipient. This paragraph (c) shall stand repealed on
52 July 1, 2000.

53 (2) Outpatient hospital services. Provided that where
54 the same services are reimbursed as clinic services, the division
55 may revise the rate or methodology of outpatient reimbursement to
56 maintain consistency, efficiency, economy and quality of care.
57 The division shall develop a Medicaid-specific cost-to-charge
58 ratio calculation from data provided by hospitals to determine an
59 allowable rate payment for outpatient hospital services, and shall
60 submit a report thereon to the Medical Advisory Committee on or
61 before December 1, 1999. The committee shall make a
62 recommendation on the specific cost-to-charge reimbursement method
63 for outpatient hospital services to the 2000 Regular Session of
64 the Legislature.

65 (3) Laboratory and x-ray services.

66 (4) Nursing facility services.

67 (a) The division shall make full payment to
68 nursing facilities for each day, not exceeding fifty-two (52) days
69 per year, that a patient is absent from the facility on home
70 leave. Payment may be made for the following home leave days in
71 addition to the fifty-two-day limitation: Christmas, the day
72 before Christmas, the day after Christmas, Thanksgiving, the day
73 before Thanksgiving and the day after Thanksgiving. However,
74 before payment may be made for more than eighteen (18) home leave

75 days in a year for a patient, the patient must have written
76 authorization from a physician stating that the patient is
77 physically and mentally able to be away from the facility on home
78 leave. Such authorization must be filed with the division before
79 it will be effective and the authorization shall be effective for
80 three (3) months from the date it is received by the division,
81 unless it is revoked earlier by the physician because of a change
82 in the condition of the patient.

83 (b) From and after July 1, 1997, the division
84 shall implement the integrated case-mix payment and quality
85 monitoring system, which includes the fair rental system for
86 property costs and in which recapture of depreciation is
87 eliminated. The division may reduce the payment for hospital
88 leave and therapeutic home leave days to the lower of the case-mix
89 category as computed for the resident on leave using the
90 assessment being utilized for payment at that point in time, or a
91 case-mix score of 1.000 for nursing facilities, and shall compute
92 case-mix scores of residents so that only services provided at the
93 nursing facility are considered in calculating a facility's per
94 diem. The division is authorized to limit allowable management
95 fees and home office costs to either three percent (3%), five
96 percent (5%) or seven percent (7%) of other allowable costs,
97 including allowable therapy costs and property costs, based on the
98 types of management services provided, as follows:

99 A maximum of up to three percent (3%) shall be allowed where
100 centralized managerial and administrative services are provided by
101 the management company or home office.

102 A maximum of up to five percent (5%) shall be allowed where
103 centralized managerial and administrative services and limited
104 professional and consultant services are provided.

105 A maximum of up to seven percent (7%) shall be allowed where
106 a full spectrum of centralized managerial services, administrative
107 services, professional services and consultant services are
108 provided.

109 (c) From and after July 1, 1997, all state-owned

110 nursing facilities shall be reimbursed on a full reasonable cost
111 basis.

112 (d) When a facility of a category that does not
113 require a certificate of need for construction and that could not
114 be eligible for Medicaid reimbursement is constructed to nursing
115 facility specifications for licensure and certification, and the
116 facility is subsequently converted to a nursing facility pursuant
117 to a certificate of need that authorizes conversion only and the
118 applicant for the certificate of need was assessed an application
119 review fee based on capital expenditures incurred in constructing
120 the facility, the division shall allow reimbursement for capital
121 expenditures necessary for construction of the facility that were
122 incurred within the twenty-four (24) consecutive calendar months
123 immediately preceding the date that the certificate of need
124 authorizing such conversion was issued, to the same extent that
125 reimbursement would be allowed for construction of a new nursing
126 facility pursuant to a certificate of need that authorizes such
127 construction. The reimbursement authorized in this subparagraph
128 (d) may be made only to facilities the construction of which was
129 completed after June 30, 1989. Before the division shall be
130 authorized to make the reimbursement authorized in this
131 subparagraph (d), the division first must have received approval
132 from the Health Care Financing Administration of the United States
133 Department of Health and Human Services of the change in the state
134 Medicaid plan providing for such reimbursement.

135 (e) The division shall develop and implement a
136 case-mix payment add-on determined by time studies and other valid
137 statistical data which will reimburse a nursing facility for the
138 additional cost of caring for a resident who has a diagnosis of
139 Alzheimer's or other related dementia and exhibits symptoms that
140 require special care. Any such case-mix add-on payment shall be
141 supported by a determination of additional cost. The division
142 shall also develop and implement as part of the fair rental
143 reimbursement system for nursing facility beds, an Alzheimer's
144 resident bed depreciation enhanced reimbursement system which will

145 provide an incentive to encourage nursing facilities to convert or
146 construct beds for residents with Alzheimer's or other related
147 dementia.

148 (f) The Division of Medicaid shall develop and
149 implement a referral process for long-term care alternatives for
150 Medicaid beneficiaries and applicants. No Medicaid beneficiary
151 shall be admitted to a Medicaid-certified nursing facility unless
152 a licensed physician certifies that nursing facility care is
153 appropriate for that person on a standardized form to be prepared
154 and provided to nursing facilities by the Division of Medicaid.
155 The physician shall forward a copy of that certification to the
156 Division of Medicaid within twenty-four (24) hours after it is
157 signed by the physician. Any physician who fails to forward the
158 certification to the Division of Medicaid within the time period
159 specified in this paragraph shall be ineligible for Medicaid
160 reimbursement for any physician's services performed for the
161 applicant. The Division of Medicaid shall determine, through an
162 assessment of the applicant conducted within two (2) business days
163 after receipt of the physician's certification, whether the
164 applicant also could live appropriately and cost-effectively at
165 home or in some other community-based setting if home- or
166 community-based services were available to the applicant. The
167 time limitation prescribed in this paragraph shall be waived in
168 cases of emergency. If the Division of Medicaid determines that a
169 home- or other community-based setting is appropriate and
170 cost-effective, the division shall:

171 (i) Advise the applicant or the applicant's
172 legal representative that a home- or other community-based setting
173 is appropriate;

174 (ii) Provide a proposed care plan and inform
175 the applicant or the applicant's legal representative regarding
176 the degree to which the services in the care plan are available in
177 a home- or in other community-based setting rather than nursing
178 facility care; and

179 (iii) Explain that such plan and services are

180 available only if the applicant or the applicant's legal
181 representative chooses a home- or community-based alternative to
182 nursing facility care, and that the applicant is free to choose
183 nursing facility care.

184 The Division of Medicaid may provide the services described
185 in this paragraph (f) directly or through contract with case
186 managers from the local Area Agencies on Aging, and shall
187 coordinate long-term care alternatives to avoid duplication with
188 hospital discharge planning procedures.

189 Placement in a nursing facility may not be denied by the
190 division if home- or community-based services that would be more
191 appropriate than nursing facility care are not actually available,
192 or if the applicant chooses not to receive the appropriate home-
193 or community-based services.

194 The division shall provide an opportunity for a fair hearing
195 under federal regulations to any applicant who is not given the
196 choice of home- or community-based services as an alternative to
197 institutional care.

198 The division shall make full payment for long-term care
199 alternative services.

200 The division shall apply for necessary federal waivers to
201 assure that additional services providing alternatives to nursing
202 facility care are made available to applicants for nursing
203 facility care.

204 (5) Periodic screening and diagnostic services for
205 individuals under age twenty-one (21) years as are needed to
206 identify physical and mental defects and to provide health care
207 treatment and other measures designed to correct or ameliorate
208 defects and physical and mental illness and conditions discovered
209 by the screening services regardless of whether these services are
210 included in the state plan. The division may include in its
211 periodic screening and diagnostic program those discretionary
212 services authorized under the federal regulations adopted to
213 implement Title XIX of the federal Social Security Act, as
214 amended. The division, in obtaining physical therapy services,

215 occupational therapy services, and services for individuals with
216 speech, hearing and language disorders, may enter into a
217 cooperative agreement with the State Department of Education for
218 the provision of such services to handicapped students by public
219 school districts using state funds which are provided from the
220 appropriation to the Department of Education to obtain federal
221 matching funds through the division. The division, in obtaining
222 medical and psychological evaluations for children in the custody
223 of the State Department of Human Services may enter into a
224 cooperative agreement with the State Department of Human Services
225 for the provision of such services using state funds which are
226 provided from the appropriation to the Department of Human
227 Services to obtain federal matching funds through the division.

228 On July 1, 1993, all fees for periodic screening and
229 diagnostic services under this paragraph (5) shall be increased by
230 twenty-five percent (25%) of the reimbursement rate in effect on
231 June 30, 1993.

232 (6) Physician's services. All fees for physicians'
233 services that are covered only by Medicaid shall be reimbursed at
234 ninety percent (90%) of the rate established on January 1, 1999,
235 and as adjusted each January thereafter, under Medicare (Title
236 XVIII of the Social Security Act, as amended), and which shall in
237 no event be less than seventy percent (70%) of the rate
238 established on January 1, 1994. All fees for physicians' services
239 that are covered by both Medicare and Medicaid shall be reimbursed
240 at ten percent (10%) of the adjusted Medicare payment established
241 on January 1, 1999, and as adjusted each January thereafter, under
242 Medicare (Title XVIII of the Social Security Act, as amended), and
243 which shall in no event be less than seven percent (7%) of the
244 adjusted Medicare payment established on January 1, 1994.

245 (7) (a) Home health services for eligible persons, not
246 to exceed in cost the prevailing cost of nursing facility
247 services, not to exceed sixty (60) visits per year.

248 (b) Repealed.

249 (8) Emergency medical transportation services. On

250 January 1, 1994, emergency medical transportation services shall
251 be reimbursed at seventy percent (70%) of the rate established
252 under Medicare (Title XVIII of the Social Security Act, as
253 amended). "Emergency medical transportation services" shall mean,
254 but shall not be limited to, the following services by a properly
255 permitted ambulance operated by a properly licensed provider in
256 accordance with the Emergency Medical Services Act of 1974
257 (Section 41-59-1 et seq.): (i) basic life support, (ii) advanced
258 life support, (iii) mileage, (iv) oxygen, (v) intravenous fluids,
259 (vi) disposable supplies, (vii) similar services.

260 (9) Legend and other drugs as may be determined by the
261 division. The division may implement a program of prior approval
262 for drugs to the extent permitted by law. Payment by the division
263 for covered multiple source drugs shall be limited to the lower of
264 the upper limits established and published by the Health Care
265 Financing Administration (HCFA) plus a dispensing fee of Four
266 Dollars and Ninety-one Cents (\$4.91), or the estimated acquisition
267 cost (EAC) as determined by the division plus a dispensing fee of
268 Four Dollars and Ninety-one Cents (\$4.91), or the providers' usual
269 and customary charge to the general public. The division shall
270 allow five (5) prescriptions per month for noninstitutionalized
271 Medicaid recipients; however, exceptions for up to ten (10)
272 prescriptions per month shall be allowed, with the approval of the
273 director.

274 Payment for other covered drugs, other than multiple source
275 drugs with HCFA upper limits, shall not exceed the lower of the
276 estimated acquisition cost as determined by the division plus a
277 dispensing fee of Four Dollars and Ninety-one Cents (\$4.91) or the
278 providers' usual and customary charge to the general public.

279 Payment for nonlegend or over-the-counter drugs covered on
280 the division's formulary shall be reimbursed at the lower of the
281 division's estimated shelf price or the providers' usual and
282 customary charge to the general public. No dispensing fee shall
283 be paid.

284 The division shall develop and implement a program of payment

285 for additional pharmacist services, with payment to be based on
286 demonstrated savings, but in no case shall the total payment
287 exceed twice the amount of the dispensing fee.

288 As used in this paragraph (9), "estimated acquisition cost"
289 means the division's best estimate of what price providers
290 generally are paying for a drug in the package size that providers
291 buy most frequently. Product selection shall be made in
292 compliance with existing state law; however, the division may
293 reimburse as if the prescription had been filled under the generic
294 name. The division may provide otherwise in the case of specified
295 drugs when the consensus of competent medical advice is that
296 trademarked drugs are substantially more effective.

297 (10) Dental care that is an adjunct to treatment of an
298 acute medical or surgical condition; services of oral surgeons and
299 dentists in connection with surgery related to the jaw or any
300 structure contiguous to the jaw or the reduction of any fracture
301 of the jaw or any facial bone; and emergency dental extractions
302 and treatment related thereto. On July 1, 1999, all fees for
303 dental care and surgery under authority of this paragraph (10)
304 shall be increased to one hundred sixty percent (160%) of the
305 amount of the reimbursement rate that was in effect on June 30,
306 1999. It is the intent of the Legislature to encourage more
307 dentists to participate in the Medicaid program.

308 (11) Eyeglasses necessitated by reason of eye surgery,
309 and as prescribed by a physician skilled in diseases of the eye or
310 an optometrist, whichever the patient may select, or one (1) pair
311 every three (3) years as prescribed by a physician or an
312 optometrist, whichever the patient may select.

313 (12) Intermediate care facility services.

314 (a) The division shall make full payment to all
315 intermediate care facilities for the mentally retarded for each
316 day, not exceeding eighty-four (84) days per year, that a patient
317 is absent from the facility on home leave. Payment may be made
318 for the following home leave days in addition to the
319 eighty-four-day limitation: Christmas, the day before Christmas,

320 the day after Christmas, Thanksgiving, the day before Thanksgiving
321 and the day after Thanksgiving. However, before payment may be
322 made for more than eighteen (18) home leave days in a year for a
323 patient, the patient must have written authorization from a
324 physician stating that the patient is physically and mentally able
325 to be away from the facility on home leave. Such authorization
326 must be filed with the division before it will be effective, and
327 the authorization shall be effective for three (3) months from the
328 date it is received by the division, unless it is revoked earlier
329 by the physician because of a change in the condition of the
330 patient.

331 (b) All state-owned intermediate care facilities
332 for the mentally retarded shall be reimbursed on a full reasonable
333 cost basis.

334 (c) The division is authorized to limit allowable
335 management fees and home office costs to either three percent
336 (3%), five percent (5%) or seven percent (7%) of other allowable
337 costs, including allowable therapy costs and property costs, based
338 on the types of management services provided, as follows:

339 A maximum of up to three percent (3%) shall be allowed where
340 centralized managerial and administrative services are provided by
341 the management company or home office.

342 A maximum of up to five percent (5%) shall be allowed where
343 centralized managerial and administrative services and limited
344 professional and consultant services are provided.

345 A maximum of up to seven percent (7%) shall be allowed where
346 a full spectrum of centralized managerial services, administrative
347 services, professional services and consultant services are
348 provided.

349 (13) Family planning services, including drugs,
350 supplies and devices, when such services are under the supervision
351 of a physician.

352 (14) Clinic services. Such diagnostic, preventive,
353 therapeutic, rehabilitative or palliative services furnished to an
354 outpatient by or under the supervision of a physician or dentist

355 in a facility which is not a part of a hospital but which is
356 organized and operated to provide medical care to outpatients.
357 Clinic services shall include any services reimbursed as
358 outpatient hospital services which may be rendered in such a
359 facility, including those that become so after July 1, 1991. On
360 July 1, 1999, all fees for physicians' services reimbursed under
361 authority of this paragraph (14) shall be reimbursed at ninety
362 percent (90%) of the rate established on January 1, 1999, and as
363 adjusted each January thereafter, under Medicare (Title XVIII of
364 the Social Security Act, as amended), and which shall in no event
365 be less than seventy percent (70%) of the rate established on
366 January 1, 1994. All fees for physicians' services that are
367 covered by both Medicare and Medicaid shall be reimbursed at ten
368 percent (10%) of the adjusted Medicare payment established on
369 January 1, 1999, and as adjusted each January thereafter, under
370 Medicare (Title XVIII of the Social Security Act, as amended), and
371 which shall in no event be less than seven percent (7%) of the
372 adjusted Medicare payment established on January 1, 1994. On July
373 1, 1999, all fees for dentists' services reimbursed under
374 authority of this paragraph (14) shall be increased to one hundred
375 sixty percent (160%) of the amount of the reimbursement rate that
376 was in effect on June 30, 1999.

377 (15) Home- and community-based services, as provided
378 under Title XIX of the federal Social Security Act, as amended,
379 under waivers, subject to the availability of funds specifically
380 appropriated therefor by the Legislature. Payment for such
381 services shall be limited to individuals who would be eligible for
382 and would otherwise require the level of care provided in a
383 nursing facility. The home- and community-based services
384 authorized under this paragraph shall be expanded over a five-year
385 period beginning July 1, 1999. The division shall certify case
386 management agencies to provide case management services and
387 provide for home- and community-based services for eligible
388 individuals under this paragraph. The home- and community-based
389 services under this paragraph and the activities performed by

390 certified case management agencies under this paragraph shall be
391 funded using state funds that are provided from the appropriation
392 to the Division of Medicaid and used to match federal funds.

393 (16) Mental health services. Approved therapeutic and
394 case management services provided by (a) an approved regional
395 mental health/retardation center established under Sections
396 41-19-31 through 41-19-39, or by another community mental health
397 service provider meeting the requirements of the Department of
398 Mental Health to be an approved mental health/retardation center
399 if determined necessary by the Department of Mental Health, using
400 state funds which are provided from the appropriation to the State
401 Department of Mental Health and used to match federal funds under
402 a cooperative agreement between the division and the department,
403 or (b) a facility which is certified by the State Department of
404 Mental Health to provide therapeutic and case management services,
405 to be reimbursed on a fee for service basis. Any such services
406 provided by a facility described in paragraph (b) must have the
407 prior approval of the division to be reimbursable under this
408 section. After June 30, 1997, mental health services provided by
409 regional mental health/retardation centers established under
410 Sections 41-19-31 through 41-19-39, or by hospitals as defined in
411 Section 41-9-3(a) and/or their subsidiaries and divisions, or by
412 psychiatric residential treatment facilities as defined in Section
413 43-11-1, or by another community mental health service provider
414 meeting the requirements of the Department of Mental Health to be
415 an approved mental health/retardation center if determined
416 necessary by the Department of Mental Health, shall not be
417 included in or provided under any capitated managed care pilot
418 program provided for under paragraph (24) of this section.

419 (17) Durable medical equipment services and medical
420 supplies. The Division of Medicaid may require durable medical
421 equipment providers to obtain a surety bond in the amount and to
422 the specifications as established by the Balanced Budget Act of
423 1997.

424 (18) Notwithstanding any other provision of this

425 section to the contrary, the division shall make additional
426 reimbursement to hospitals which serve a disproportionate share of
427 low-income patients and which meet the federal requirements for
428 such payments as provided in Section 1923 of the federal Social
429 Security Act and any applicable regulations.

430 (19) (a) Perinatal risk management services. The
431 division shall promulgate regulations to be effective from and
432 after October 1, 1988, to establish a comprehensive perinatal
433 system for risk assessment of all pregnant and infant Medicaid
434 recipients and for management, education and follow-up for those
435 who are determined to be at risk. Services to be performed
436 include case management, nutrition assessment/counseling,
437 psychosocial assessment/counseling and health education. The
438 division shall set reimbursement rates for providers in
439 conjunction with the State Department of Health.

440 (b) Early intervention system services. The
441 division shall cooperate with the State Department of Health,
442 acting as lead agency, in the development and implementation of a
443 statewide system of delivery of early intervention services,
444 pursuant to Part H of the Individuals with Disabilities Education
445 Act (IDEA). The State Department of Health shall certify
446 annually in writing to the director of the division the dollar
447 amount of state early intervention funds available which shall be
448 utilized as a certified match for Medicaid matching funds. Those
449 funds then shall be used to provide expanded targeted case
450 management services for Medicaid eligible children with special
451 needs who are eligible for the state's early intervention system.

452 Qualifications for persons providing service coordination shall
453 be determined by the State Department of Health and the Division
454 of Medicaid.

455 (20) Home- and community-based services for physically
456 disabled approved services as allowed by a waiver from the United
457 States Department of Health and Human Services for home- and
458 community-based services for physically disabled people using
459 state funds which are provided from the appropriation to the State

460 Department of Rehabilitation Services and used to match federal
461 funds under a cooperative agreement between the division and the
462 department, provided that funds for these services are
463 specifically appropriated to the Department of Rehabilitation
464 Services.

465 (21) Nurse practitioner services. Services furnished
466 by a registered nurse who is licensed and certified by the
467 Mississippi Board of Nursing as a nurse practitioner including,
468 but not limited to, nurse anesthetists, nurse midwives, family
469 nurse practitioners, family planning nurse practitioners,
470 pediatric nurse practitioners, obstetrics-gynecology nurse
471 practitioners and neonatal nurse practitioners, under regulations
472 adopted by the division. Reimbursement for such services shall
473 not exceed ninety percent (90%) of the reimbursement rate for
474 comparable services rendered by a physician.

475 (22) Ambulatory services delivered in federally
476 qualified health centers and in clinics of the local health
477 departments of the State Department of Health for individuals
478 eligible for medical assistance under this article based on
479 reasonable costs as determined by the division.

480 (23) Inpatient psychiatric services. Inpatient
481 psychiatric services to be determined by the division for
482 recipients under age twenty-one (21) which are provided under the
483 direction of a physician in an inpatient program in a licensed
484 acute care psychiatric facility or in a licensed psychiatric
485 residential treatment facility, before the recipient reaches age
486 twenty-one (21) or, if the recipient was receiving the services
487 immediately before he reached age twenty-one (21), before the
488 earlier of the date he no longer requires the services or the date
489 he reaches age twenty-two (22), as provided by federal
490 regulations. Recipients shall be allowed forty-five (45) days per
491 year of psychiatric services provided in acute care psychiatric
492 facilities, and shall be allowed unlimited days of psychiatric
493 services provided in licensed psychiatric residential treatment
