287 would greatly exceed the aggregate costs of constructing two (2)
288 or more segments; or

289 (vi) The segment is in an urban area and involves
290 the completion of bypasses or other construction which will
291 facilitate and accommodate major traffic movement.

292 (b) In any case in which the Transportation Commission
293 authorizes the construction of a highway segment of less than ten
294 (10) miles in length, the commission shall set forth and record in
295 its official minutes explanation and justification therefor based
296 upon one or more of the conditions prescribed in paragraph (7) (a)

309 (b) Five Million Dollars (\$5,000,000.00) from matched
310 federal bridge replacement funds for fiscal year 1988 and each
311 fiscal year thereafter when the segments proposed for construction
312 contain bridges that are eligible for replacement under the
313 Federal Aid Bridge Replacement Program.

314 (9) The Transportation Department shall submit a report to
315 the Legislature by January 10 of each calendar year setting forth
316 the current status of the construction program set forth in this

- 338 (i) A schedule of all complete and open-to-traffic
339 highway segments and the related total cost of each segment;
- 340 (j) A schedule of all highway segments on which all
341 contracts necessary for completion of the segments were not let as
342 of the date required by law;

344 and of all disbursements for the prior fiscal year and cumulative
345 totals since the inception of the program as compared to
