BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 27-25-501, Mississippi Code of 1972, is amended as follows:

27-25-501. Whenever used in this article, the following words and terms shall have the definition and meaning ascribed to them in this section, unless the intention to give a more limited meaning is disclosed by the context:
(a) "Tax commission" means the Tax Commission of the State of Mississippi.

(b) "Commissioner" means the Chairman of the State Tax Commission.

(c) "Annual" means the calendar year or the taxpayer's fiscal year when permission is obtained from the commissioner to use a fiscal year as a tax period in lieu of a calendar year.

(d) "Value" means the sale price, or market value, at the mouth of the well. If the oil is exchanged for something other than cash, or if there is no sale at the time of severance, or if the relation between the buyer and the seller is such that the consideration paid, if any, is not indicative of the true value or market price, then the commissioner shall determine the value of the oil subject to tax, considering the sale price for cash of oil of like quality. With respect to salvaged crude oil as hereinafter defined, the term "value" shall mean the sale price or market value of such salvaged crude oil at the time of its sale after such salvaged crude oil has been processed or treated so as to render it marketable.

(e) "Taxpayer" means any person liable for the tax imposed by this article. With respect to the tax imposed upon salvaged crude oil as hereinafter defined, the term "taxpayer" shall mean the person having title to the salvaged crude oil at the time it is being processed or treated so as to render it marketable.

(f) "Oil" means petroleum, other crude oil, natural gasoline, distillate, condensate, casinghead gasoline, asphalt or other mineral oil which is mined, or produced, or withdrawn from below the surface of the soil or water, in this state. Any type of salvaged crude oil which, after any treatment, becomes marketable shall be defined as crude oil which has been severed from the soil or water.

(g) "Severed" means the extraction or withdrawing from below the surface of the soil or water of any oil, whether such
extraction or withdrawal shall be by natural flow, mechanically
enforced flow, pumping or any other means employed to get the oil
from below the surface of the soil or water, and shall include the
withdrawing by any means whatsoever of oil upon which the tax has
not been paid, from any surface reservoir, natural or artificial,
or from a water surface. * * * However, * * * in the case of
salvaged crude oil, "severed" means the process of treating such
oil so that it will become marketable and the time of severance
shall occur upon completion of said treatment.

(h) "Person" means any natural person, firm,
copartnership, joint venture, association, corporation, estate,
trust or any other group, or combination acting as a unit, and the
plural as well as the singular number.

(i) "Producer" means any person * * * controlling,
managing or leasing any oil property, or oil well, and any person
who produces in any manner any oil by taking it from the earth or
water in this state, and shall include a person acting on behalf
of an interest owner of oil being produced, either by lease
contract or otherwise.

(j) "Engaging in business" means any act or acts
engaged in (personal or corporate) by producers, or parties at
interest, the result of which, oil is severed from the soil or
water, for storage, transport or manufacture, or by which there is
an exchange of money, or goods, or thing of value, for oil which
has been or is in process of being severed, from the soil or
water.

(k) "Barrel" for oil measurement, means a barrel of
forty-two (42) United States gallons of two hundred thirty-one
(231) cubic inches per gallon, computed at a temperature of sixty
(60) degrees Fahrenheit.

(l) "Production" means the total gross amount of oil
produced, including all royalty or other interest; that is, the
amount for the purpose of the tax imposed by this article shall be
measured or determined by tank tables compiled to show one hundred percent (100%) of the full capacity of tanks without deduction for overage or losses in handling. Allowance for any reasonable and bona fide deduction for basic sediment and water, and for correction of temperature to sixty (60) degrees Fahrenheit will be allowed. If the amount of oil produced has been measured or determined by tank tables compiled to show less than one hundred percent (100%) of the full capacity of tanks, then such amount shall be raised to a basis by one hundred percent (100%) for the purpose of the tax imposed by this article.

(m) "Gathering system" means the pipelines, pumps and other property used in gathering oil from the property on which it is produced, the tanks used for storage at a central place, loading racks and equipment for loading oil into tank cars or other transporting media, and all other equipment and appurtenances necessary to a gathering system for transferring oil into trunk pipelines.

(n) "Discovery well" means any well producing oil from a single pool in which a well has not been previously produced in paying quantities after testing.

(o) "Development wells" means all oil producing wells other than discovery wells and replacement wells.

(p) "Replacement well" means a well drilled on a drilling and/or production unit to replace another well which is drilled in the same unit and completed in the same pool.

(q) "Three-dimensional seismic" means data which is regularly organized in three (3) orthogonal directions and thus suitable for interpretation with a three-dimensional software package on an interactive work station.

(r) "Two-year inactive well" means any oil or gas well certified by the State Oil and Gas Board as having not produced oil or gas in more than a total of thirty (30) days during a
twelve (12) consecutive month period in the two (2) years before the date of certification.

(s) "Interest owner" means any person owning any royalty or other interest in oil or its value.

(1) Except as otherwise provided herein, there is hereby levied, to be collected hereafter, as provided herein, annual privilege taxes upon every interest owner who is producing, or severing oil in this state, from the soil or water for sale, transport, storage, profit or for commercial use. The amount of such tax shall be measured by the value of the oil produced, and shall be levied and assessed at the rate of six percent (6%) of the value thereof at the point of production. However, such tax shall be levied and assessed at the rate of three percent (3%) of the value of the oil at the point of production on oil produced by an enhanced oil recovery method in which carbon dioxide is used; provided, that such carbon dioxide is transported by pipeline to the oil well site and on oil produced by any other enhanced oil recovery method approved and permitted by the State Oil and Gas Board on or after April 1, 1994, pursuant to Section 53-3-101 et seq.

(2) The tax is hereby levied upon the entire production in this state regardless of whether the interest owner resides in this state, regardless of the place of sale, or to whom sold, or by whom used, or regardless of the fact that the delivery may be made to points outside the state. The tax shall accrue at the time such oil is severed from the soil, or water, and in its natural, unrefined or unmanufactured state.

(3) (a) Oil produced from a discovery well for which drilling or reentry commenced on or after April 1, 1994, but before July 1, 1999, shall be exempt from the taxes levied under this section for a period of five (5) years beginning on the date
of first sale of production from such well, provided that the
average monthly sales price of such oil does not exceed
Twenty-five Dollars ($25.00) per barrel. The exemption for oil
produced from a discovery well as described in this paragraph (a)
shall be repealed from and after July 1, 2003, provided that any
such production for which a permit was granted by the board before
July 1, 2003, shall be exempt for an entire period of five (5)

become effective. Oil produced from development wells or
replacement wells drilled in connection with discovery wells for
which drilling commenced on or after January 1, 1994, but before
July 1, 1999, shall be assessed at the rate of three percent (3%)
of the value of the oil at the point of production for a period of
three (3) years. The reduced rate of assessment of oil produced
from development wells or replacement wells as described in this
paragraph (a) shall be repealed from and after January 1, 2003,
provided that any such production for which drilling commenced
before January 1, 2003, shall be assessed at the reduced rate for
an entire period of three (3) years, notwithstanding that the
repeal of this provision has become effective.

(b) Oil produced from a discovery well for which
drilling or reentry commenced on or after July 1, 1999, shall be
assessed at the rate of three percent (3%) of the value of the oil
at the point of production for a period of five (5) years
beginning on the date of first sale of production from such well,
provided that the average monthly sales price of such oil does not
exceed Twenty Dollars ($20.00) per barrel. The reduced rate of
assessment of oil produced from a discovery well as described in
this paragraph (b) shall be repealed from and after July 1, 2003,
provided that any such production for which a permit was granted
by the board before July 1, 2003, shall be assessed at the reduced
rate for an entire period of five (5) years, notwithstanding that
the repeal of this provision has become effective. Oil produced
from development wells or replacement wells drilled in connection
with discovery wells for which drilling commenced on or after July
1, 1999, shall be assessed at the rate of three percent (3%) of
the value of the oil at the point of production for a period of
three (3) years. The reduced rate of assessment of oil produced
from development wells or replacement wells as described in this
paragraph (b) shall be repealed from and after January 1, 2003,
provided that any such production for which drilling commenced
before July 1, 2003, shall be assessed at the reduced rate for an
entire period of three (3) years, notwithstanding that the repeal
of this provision has become effective.

(4) (a) Oil produced from a development well for which
drilling commenced on or after April 1, 1994, but before July 1,
1999, and for which three-dimensional seismic was utilized in
connection with the drilling of such well shall be assessed at the
rate of three percent (3%) of the value of the oil at the point of
production for a period of five (5) years, provided that the
average monthly sales price of such oil does not exceed
Twenty-five Dollars ($25.00) per barrel. The reduced rate of

five hundred (7,500) feet or less; or

(ii) A well producing a monthly average of forty
(40) barrels of oil a day or less from a depth that is more than
seven thousand five hundred (7,500) feet.

(b) The owner of a marginal well shall be entitled to a
refund of two-thirds (2/3) of the taxes he pays monthly pursuant
to this section on oil produced from such well if the average
monthly sales price of oil he produces from such well does not
exceed Twelve Dollars ($12.00) per barrel. In order to receive
the refund provided for in this subsection the owner shall present
the State Tax Commission with a statement from the State Oil and
Gas Board certifying that the well is a marginal well within the
meaning of this subsection. The State Tax Commission shall then
determine the average monthly sales price of the oil sold from
such well and pay the refund to the owner if it determines that
the owner is eligible for such refund. Funds for such refund
shall come from the General Fund.

(c) This subsection (6) shall stand repealed from and
after July 1, 2003.

(7) The State Oil and Gas Board shall have the exclusive
authority to determine the qualification of wells defined in

SECTION 3. Section 27-25-507, Mississippi Code of 1972, is
amended as follows:

27-25-507. When any regular monthly report required from
producers or interest owners by this article, does not disclose
the actual source of any oil taxable under this article, but does
show such oil to have escaped from a well or wells and to have
been recovered from streams, lakes, ravines, or other natural
depressions, it shall be the duty of the commissioner to collect,
in addition to the privilege tax herein imposed, an additional
amount equal to fourteen percent (14%) of the gross value of such
escaped oil. The commissioner shall hold such additional
collection in a special escrow account for a period of twelve (12)
months from the date of the collection, during which time any
person or persons who claim to be the rightful owner or owners of
any royalty interest in the escaped oil, shall present proper and
satisfactory proof of such ownership to the commissioner. If the
commissioner shall be satisfied as to the ownership of such
escaped oil, then he shall pay to such claimant or claimants a
proportionate part of such additional collection held in escrow,
according to their proper interest or interests. No payment to
any claimant shall be made, however, before it is approved by the
Attorney General, or before it is ordered by any court having
proper jurisdiction. After the lapse of twelve (12) months from
the date of any additional collection, if no claim or claims have
been made to it, or to the balance remaining of it after the
payment by the commissioner of any claim or claims, the
commissioner shall distribute the additional collection or any
balance of it in the same manner as is herein provided for the
distribution of the tax imposed by this article.

SECTION 4. Section 27-25-509, Mississippi Code of 1972, is
amended as follows:

27-25-509. (1) The tax hereby imposed is levied upon the
interest owners of such oil in the proportion of their ownership
at the time of severance, but, except as otherwise herein
provided, may be paid by the person in charge of the production
operations, who, in such case shall deduct from any amount due to
interest owners of such production at the time of severance the
proportionate amount of the tax herein levied before making
payments to such interest owners. The tax shall become due and
payable as provided by this article and ** shall constitute a
first lien upon any of the oil so produced, when in the hands of
the interest owner, or any purchaser of such oil in its
unmanufactured state or condition. In the event the person in charge of production operations fails to pay the tax, then the commissioner shall proceed against the interest owner to collect the tax in accordance with the provisions made for the collection of delinquent taxes by the Mississippi Sales Tax Law.

(2) When any person in charge of the production operations shall sell the oil produced by him to any person under contracts requiring such purchaser to pay all owners of such oil direct, then the person in charge of the production operations may not be required to deduct the tax herein levied, but in which event such deduction shall be made by the purchaser before making payments to each interest owner of such oil. * * * The purchaser in that case shall account for the tax; provided that nothing herein shall be construed as releasing the person in charge of production operations from liability for the payment of said tax.

(3) When any person in charge of production operations shall sell oil produced by him on the open market, he shall withhold the tax imposed by this article, and if he is required to pay other interest holders, * * * shall deduct from any amount due them, the amount of tax levied and due under the provisions of this article before making payment to them.

(4) Every person in charge of production operations by which oil is severed from the soil or water in this state, who fails to deduct and withhold, as required herein, the amount of tax from sale or purchase price, when such oil is sold or purchased under contract, or agreement, or on the open market, or otherwise, shall be liable to the state for the full amount of taxes, interest, and penalties which should have been deducted, withheld and remitted to the state. * * * The commissioner shall proceed to collect the tax from the person in charge of production operations, under the provisions of this article, as if he were the interest owner of the oil.
SECTION 5. Section 27-25-511, Mississippi Code of 1972, is amended as follows:

27-25-511. When the title to any oil being severed from the soil, or water, is in dispute, or whenever the producer, interest owner of such oil from the soil, or water, or purchaser thereof, shall be withholding payments on account of litigation, or for any other reason, such producer, interest owner or purchaser shall deduct from the gross amount thus held the amount of the tax herein levied and imposed, and to make remittance thereof to the commissioner as provided by this article.

SECTION 6. Section 27-25-513, Mississippi Code of 1972, is amended as follows:

27-25-513. Every interest owner, producer or person in charge of production operations by which oil is severed from the soil, or water, in this state, when making the reports required by this article, shall file with the commissioner a statement, under oath, on forms prescribed by him, of the business conducted by such producer or person in charge of production operations, during the period for which the report is made, showing gross quantity of oil and the value thereof, so severed or produced, and such other reasonable and necessary information pertaining thereto as the commissioner may require for the proper enforcement of the provisions of this article.

SECTION 7. Section 27-25-517, Mississippi Code of 1972, is amended as follows:

27-25-517. The commissioner shall have the power to require any interest owner, producer, or person in charge of production operations, or person purchasing any oil from the soil, or water, to furnish any additional information by him deemed to be necessary for the purpose of computing the amount of said tax; and for said purpose to examine the books, records, and all files of such person; and, to that end, the commissioner shall have the power to examine witnesses, and if any such witness shall fail or...
refuse to appear at the request of the commissioner, or refuse access to books, records and files, said commissioner shall have the power and authority to proceed as provided by the Mississippi Sales Tax Law.

SECTION 8. Section 27-25-521, Mississippi Code of 1972, is amended as follows:

27-25-521. Every person who is an interest owner of oil or who is engaged in the business of producing or purchasing any oil in this state, or who is in charge of production operations, and who is required to pay the tax imposed by this article, shall make and keep, for a period of three (3) years, a complete and accurate record, in the form required by the commissioner, showing the gross quantity of oil produced and value of same, the names of the persons from whom purchased, and the time of purchase. It is the duty of such person to file quarterly with the commissioner a statement, under oath, showing the names and addresses of all persons from whom has been purchased any oil, produced or severed from the soil, or water, in Mississippi during the preceding quarter (three (3) months), and the county from which the oil was severed, together with a total gross quantity and value of oil so purchased, and any other information which the commissioner may require. Said report shall begin with the first calendar quarter after this article becomes effective and shall thereafter be filed within thirty (30) days after the expiration of each quarter and shall be made on such forms as may be prescribed by the commissioner. Any person failing to make the report required by this section shall be guilty of a misdemeanor and be punished by a fine of not less than Fifty Dollars ($50.00) or more than Five Hundred Dollars ($500.00) for each such offense.

SECTION 9. Section 27-25-523, Mississippi Code of 1972, is amended as follows:

27-25-523. (1) All oil produced or under the ground on producing properties within the State of Mississippi and all
producing oil equipment, including wells, connections, pumps, derricks and other appurtenances actually owned by and belonging to the producer, and all leases in production, including mineral rights in producing properties, shall be exempt from all ad valorem taxes now levied or hereafter levied by the State of Mississippi, or any county, municipality, levee district, road, school or any other taxing district within this state. This exemption shall not apply to drilling equipment, including derricks, machinery, and other materials necessary to drilling, nor to oil gathering systems, nor to the surface of lands leased for oil production or upon which oil producing properties are situated, but all such drilling equipment, gathering systems, and lands shall be assessed as are other properties and shall be subject to ad valorem tax. However, no additional assessment shall be added to the surface value of such lands by reason of the presence of oil thereunder or its production therefrom. The exemption herein granted shall apply to all ad valorem taxes levied in the year 1944 and each year thereafter.

(2) The exemption from ad valorem taxes granted in this section shall not apply to the percentage of ad valorem taxes that the owner or holder of a nonproducing oil interest in real estate, which is owned or held separately and apart from and independently of the rights owned in the surface of such real estate, must pay on the land under which the oil interest is located, in accordance with the provisions of Section 28 of this act.

The amount of such tax shall be measured by the value of the gas produced and shall be levied and assessed at a rate of six percent (6%) of the value thereof at the point of production, except as otherwise provided in subsection (4) of this section.

(2) The tax is hereby levied upon the entire production in this state, regardless of whether the interest owner resides in this state, regardless of the place of sale or to whom sold or by whom used, or regardless of the fact that the delivery may be made to points outside the state, but not levied upon that gas, lawfully injected into the earth for cycling, repressuring, lifting or enhancing the recovery of oil, nor upon gas lawfully vented or flared in connection with the production of oil, nor upon gas condensed into liquids on which the oil severance tax of six percent (6%) is paid; save and except, however, if any gas so injected into the earth is sold for such purposes, then the gas so sold shall not be excluded in computing the tax. The tax shall accrue at the time the gas is produced or severed from the soil or water, and in its natural, unrefined or unmanufactured state.

(3) Natural gas and condensate produced from any wells for which drilling is commenced after March 15, 1987, and before July 1, 1990, shall be exempt from the tax levied under this section

SECTION 12. Section 27-25-705, Mississippi Code of 1972, is
amended as follows:

[With regard to any county which is exempt from the
provisions of Section 19-2-3, this section shall read as follows:]

27-25-705. All taxes herein levied and collected by the
State Tax Commission shall be paid into the State Treasury on the
same day in which such taxes are collected. The commissioner
shall apportion all such tax collections to the state and to the
county in which the gas was produced, in the proportion of
sixty-six and two-thirds percent (66-2/3%) to the state and
thirty-three and one-third percent (33-1/3%) to the county. * * *
However, when the price of the gas subject to the tax levied in
this article is increased, and such increase is subject to
approval by a federal regulatory board or commission, and when the
interest owner and producer of the gas so requests, the State
Treasurer is * * * authorized to hold the severance tax collected
on the price increase in escrow until such time as the price
increase or a portion thereof is finally granted or approved. The
severance tax thus held in escrow shall be deposited by the State
Treasurer to an account in a state depository to be invested in an
interest-bearing account in the manner provided by law. When the
price increase in question or a portion thereof is granted or
approved, the commissioner shall compute the correct severance tax
due on such increase and certify the amount of tax thus computed.
This amount and interest earned from the depository shall be
distributed to the General Fund and to the county or counties
proportionately as herein provided. The balance, if any, of the
tax and interest held in escrow on the price increase shall be
returned to the taxpayer.

The state's share of all gas severance taxes collected
pursuant to this section shall be deposited into a special fund
provided for in Section 27-25-506.

The commissioner shall certify at the end of each month the
apportionment to each county to the State Treasurer, who shall
remit the county's share of said funds on or before the twentieth
day of the month next succeeding the month in which such
collections were made for division among the municipalities and
taxing districts of the county. The commissioner shall submit a
report to the State Treasurer for distribution to each county
receiving such funds showing from whom said tax and interest, if
any, were collected. Upon receipt of said funds, the board of
supervisors of the county shall allocate the same to the
municipalities and to the various maintenance and bond and
interest funds of the county, school districts, supervisors
districts and road districts, as hereinafter provided.

When there shall be any gas producing properties within the
corporate limits of any municipality, then such municipality shall
participate in the division of the tax and interest, if any,
returned to the county in which the municipality is located in the
proportion which the tax on production of gas from properties
located within the municipal corporate limits bears to the tax on
total production of gas in the county. In no event, however,
shall the amount allocated to the municipalities exceed one-third
(1/3) of the tax and interest produced in the municipality and
returned to the county. Any amount received by any municipality
as a result of the allocation herein provided shall be used for
such purposes as are authorized by law.

The balance remaining of any funds returned to the county
after the allocation to municipalities shall be divided among the
various maintenance and bond and interest funds of the county,
school districts, supervisors districts and road districts, in the
discretion of the board of supervisors, and such board shall make
the division in consideration of the needs of the various taxing
districts. The funds so allocated shall be used only for such
purposes as are authorized by law.

[With regard to any county which is required to operate on a
countywide system of road administration as described in Section
19-2-3, this section shall read as follows:]

27-25-705. All taxes herein levied and collected by the
State Tax Commission shall be paid into the State Treasury on the
same day in which such taxes are collected. The commissioner
shall apportion all such tax collections to the state and to the
county in which the gas was produced, in the proportion of
sixty-six and two-thirds percent (66-2/3%) to the state and
thirty-three and one-third percent (33-1/3%) to the county. * * *
However, when the price of the gas subject to the tax levied in
this article is increased, and such increase is subject to
approval by a federal regulatory board or commission, and when the
interest owner and producer of the gas so requests, the State
Treasurer is * * * authorized to hold the severance tax collected
on said price increase in escrow until such time as the price
increase or a portion thereof is finally granted or approved. The
severance tax thus held in escrow shall be deposited by the State
Treasurer to an account in a state depository to be invested in an
interest-bearing account in the manner provided by law. When the
price increase in question or a portion thereof is granted or
approved, the commissioner shall compute the correct severance tax
due on such increase and certify the amount of tax thus computed.
This amount and interest earned from the depository shall be
distributed to the General Fund and to the county or counties
proportionately as herein provided. The balance, if any, of the
tax and interest held in escrow on the price increase shall be
returned to the taxpayer.
The state's share of all gas severance taxes collected pursuant to this section shall be deposited into a special fund provided for in Section 27-25-506.

The commissioner shall certify at the end of each month the apportionment to each county to the State Treasurer, who shall remit the county's share of said funds on or before the twentieth day of the month next succeeding the month in which such collections were made for division among the municipalities and taxing districts of the county. The commissioner shall submit a report to the State Treasurer for distribution to each county receiving such funds showing from whom said tax and interest, if any, were collected. Upon receipt of said funds, the board of supervisors of the county shall allocate the same to the municipalities and to the various maintenance and bond and interest funds of the county and school districts, as hereinafter provided.

When there shall be any gas producing properties within the corporate limits of any municipality, then such municipality shall participate in the division of the tax and interest, if any, returned to the county in which the municipality is located in the proportion which the tax on production of gas from properties located within the municipal corporate limits bears to the tax on total production of gas in the county. In no event, however, shall the amount allocated to the municipalities exceed one-third (1/3) of the tax and interest produced in the municipality and returned to the county. Any amount received by any municipality as a result of the allocation herein provided shall be used for such purposes as are authorized by law.

The balance remaining of any funds returned to the county after the allocation to municipalities shall be divided among the various maintenance and bond and interest funds of the county and school districts, in the discretion of the board of supervisors, and such board shall make the division in consideration of the
needs of the various taxing districts. The funds so allocated shall be used only for such purposes as are authorized by law.

SECTION 13. Section 27-25-707, Mississippi Code of 1972, is amended as follows:

27-25-707. (1) The tax hereby imposed is levied upon the interest owners of such gas in the proportion of their ownership at the time of severance but, except as otherwise herein provided, may be paid by the person in charge of the production operations, who, in such case, shall deduct from any amount due to interest owners of such production at the time of severance the proportionate amount of the tax herein levied before making payments to such interest owners. The tax shall become due and payable as provided by this article and shall constitute a first lien upon the property from which the gas was produced. In the event the person in charge of production operations fails to pay the tax, then the commissioner shall proceed against the interest owner to collect the tax in accordance with the provisions made for the collection of delinquent taxes by the Mississippi Sales Tax Law.

(2) When any person in charge of the production operations shall sell the gas produced by him to any person under contracts requiring such purchaser to pay all owners of such gas direct, then the person in charge of the production operations may not be required to deduct the tax herein levied, but in which event such deduction shall be made by the purchaser before making payments to each interest owner of such gas. The purchaser in that case shall account for the tax; provided that nothing herein shall be construed as releasing the person in charge of production operations from liability for the payment of said tax.

(3) When any person in charge of production operations shall sell gas produced by him on the open market, he shall withhold the tax imposed by this article, and if he is required to pay other interest holders, is hereby authorized, empowered and required to
deduct from any amount due them, the amount of tax levied and due under the provisions of this article before making payment to them.

(4) Every person in charge of production operations by which gas is severed from the soil or water in this state, who fails to deduct and withhold, as required herein, the amount of tax from sale or purchase price, when such gas is sold or purchased under contract or agreement, or on the open market, or otherwise, shall be liable to the state for the full amount of taxes, interest, and penalties which should have been deducted, withheld and remitted to the state. ** ** ** The commissioner shall proceed to collect the tax from the person in charge of production operations, under the provisions of this article, as if he were the interest owner of the gas.

SECTION 14. Section 27-25-709, Mississippi Code of 1972, is amended as follows:

27-25-709. When the title to any gas being severed from the soil, or water, is in dispute, or whenever the producer or interest owner of such gas from the soil, or water, or purchaser thereof, shall be withholding payments on account of litigation, or for any other reason, such producer, interest owner, or purchaser shall deduct from the gross amount thus held the amount of the tax herein levied and imposed, and to make remittance thereof to the commissioner as provided by this article.

SECTION 15. Section 27-25-711, Mississippi Code of 1972, is amended as follows:

27-25-711. Every interest owner, producer or person in charge of production operations by which gas is severed from the soil, or water, in this state, when making the reports required by this article, shall file with the commissioner a statement, under oath, on forms prescribed by him, of the business conducted by such producer or person in charge of production operations, during the period for which the report is made, showing gross quantity of
gas and the value thereof, so severed or produced, and such other
reasonable and necessary information pertaining thereto as the
commissioner may require for the proper enforcement of the
provisions of this article.

SECTION 16. Section 27-25-715, Mississippi Code of 1972, is
amended as follows:

27-25-715. The commissioner shall have the power to require
any interest owner, producer or person in charge of production
operations, or person purchasing any gas from the soil, or water,
to furnish any additional information by him deemed to be
necessary for the purpose of computing the amount of said tax; and
for said purpose to examine the meter and other charts, books,
records, and all files of such person; and, to that end, the
commissioner shall have the power to examine witnesses, and if any
such witness shall fail or refuse to appear at the request of the
commissioner, or refuse access to books, records and files, said
commissioner shall have the power and authority to proceed as
provided by the Mississippi Sales Tax Law.

SECTION 17. Section 27-25-719, Mississippi Code of 1972, is
amended as follows:

27-25-719. Every person who is an interest owner of gas, or
who is engaged in the business of producing or purchasing any gas
in this state, or who is in charge of production operations, and
who is required to pay the tax imposed by this article, shall make
and keep, for a period of three (3) years, a complete and accurate
record, in the form required by the commissioner showing the gross
quantity of gas produced and value of same, the names of the
persons from whom purchased, and the time of purchase.

SECTION 18. Section 27-25-721, Mississippi Code of 1972, is
amended as follows:

[Until July 1, 2004, this section shall read as follows:]

27-25-721. (1) All gas and carbon dioxide produced or under
the ground on producing properties within the State of Mississippi
and all producing gas or carbon dioxide equipment, including
wells, connections, pumps, derricks and other appurtenances
actually owned by and belonging to the producer, and all leases in
production, including mineral rights in producing properties,
shall be exempt from all ad valorem taxes now levied or hereafter
levied by the State of Mississippi, or any other taxing district
within this state. This exemption shall not apply to drilling
equipment, including derricks, machinery, and other materials
necessary to drilling, nor to gas or carbon dioxide gathering
systems, nor to the surface of lands leased for gas or carbon
dioxide production or upon which gas or carbon dioxide producing
properties are situated, but all such drilling equipment,
gathering systems, and lands shall be assessed as are other
properties and shall be subject to ad valorem tax. However, no
additional assessment shall be added to the surface value of such
lands by reason of the presence of gas or carbon dioxide
thereunder or its production therefrom. The exemption herein
granted shall apply to all ad valorem taxes levied in the year
1948 and each year thereafter.

(2) The exemption from ad valorem taxes granted in this
section shall not apply to the percentage of ad valorem taxes that
the owner or holder of a nonproducing gas interest in real estate,
which is owned or held separately and apart from and independently
of the rights owned in the surface of such real estate, must pay
on the land under which the gas interest is located in accordance
with Section 28 of this act.

[From and after July 1, 2004, this section shall read as
follows:]
