26 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

27 SECTION 1. Section 25-11-109, Mississippi Code of 1972, is  
 28 amended as follows:

29 25-11-109. (1) Under such rules and regulations as the  
 30 board of trustees shall adopt, each person who becomes a member of  
 31 this retirement system, as provided in Section 25-11-105, on or  
 32 prior to July 1, 1953, or who becomes a member and contributes to  
 33 the system for a minimum period of four (4) years, shall receive  
 34 credit for all state service rendered before February 1, 1953. To  
 35 receive such credit, such member shall file a detailed statement  
 36 of all services as an employee rendered by him in the state  
 37 service before February 1, 1953. For any member who joined the  
 38 system after July 1, 1953, any creditable service for which the

39 member is not required to make contributions shall not be credited  
40 to the member until the member has contributed to the system for a  
41 minimum period of at least four (4) years.

42 (2) In the computation of membership service or prior  
43 service under the provisions of this article, the total months of  
44 accumulative service during any fiscal year shall be calculated in  
45 accordance with the schedule as follows: ten (10) or more months  
46 of creditable service during any fiscal year shall constitute a  
47 year of creditable service; seven (7) months to nine (9) months  
48 inclusive, three-quarters (3/4) of a year of creditable service;  
49 four (4) months to six (6) months inclusive, one-half-year of  
50 creditable service; one (1) month to three (3) months inclusive,  
51 one-quarter (1/4) of a year of creditable service. In no case  
52 shall credit be allowed for any period of absence without  
53 compensation except for disability while in receipt of a  
54 disability retirement allowance, nor shall less than fifteen (15)  
55 days of service in any month, or service less than the equivalent  
56 of one-half (1/2) of the normal working load for the position and  
57 less than one-half (1/2) of the normal compensation for the  
58 position in any month, constitute a month of creditable service,  
59 nor shall more than one (1) year of service be creditable for all  
60 services rendered in any one (1) fiscal year; provided that for a  
61 school employee, substantial completion of the legal school term  
62 when and where the service was rendered shall constitute a year of  
63 service credit for both prior service and membership service. Any  
64 state or local elected official shall be deemed a full-time  
65 employee for the purpose of creditable service for prior service  
66 or membership service. However, an appointed or elected official  
67 compensated on a per diem basis only shall not be allowed  
68 creditable service for terms of office.

69 In the computation of any retirement allowance or any annuity  
70 or benefits provided in this article, any fractional period of  
71 service of less than one (1) year shall be taken into account and

72 a proportionate amount of such retirement allowance, annuity or  
73 benefit shall be granted for any such fractional period of  
74 service.

75 In the computation of unused leave for creditable service  
76 authorized in Section 25-11-103, the following shall govern:  
77 twenty-one (21) days of unused leave shall constitute one (1)  
78 month of creditable service and in no case shall credit be allowed  
79 for any period of unused leave of less than fifteen (15) days.  
80 The number of months of unused leave shall determine the number of  
81 quarters or years of creditable service in accordance with the  
82 above schedule for membership and prior service. In order for the  
83 member to receive creditable service for the number of days of  
84 unused leave, the system must receive certification from the  
85 governing authority.

86 For the purpose of this subsection, for members of the system  
87 who are elected officers and who retire on or after July 1, 1987,  
88 the following shall govern:

89 (a) For service prior to July 1, 1984, the members  
90 shall receive credit for leave (combined personal and major  
91 medical) for service as an elected official prior to that date at  
92 the rate of thirty (30) days per year.

93 (b) For service on and after July 1, 1984, the member  
94 shall receive credit for personal and major medical leave  
95 beginning July 1, 1984, at the rates authorized in Sections  
96 25-3-93 and 25-3-95, computed as a full-time employee.

97 (3) Subject to the above restrictions and to such other  
98 rules and regulations as the board may adopt, the board shall  
99 verify, as soon as practicable after the filing of such statements  
100 of service, the services therein claimed.

101 (4) Upon verification of the statement of prior service, the  
102 board shall issue a prior service certificate certifying to each  
103 member the length of prior service for which credit shall have  
104 been allowed on the basis of his statement of service. So long as

105 membership continues, a prior service certificate shall be final  
106 and conclusive for retirement purposes as to such service,  
107 provided that any member may within five (5) years from the date  
108 of issuance or modification of such certificate request the board  
109 of trustees to modify or correct his prior service certificate.  
110 Any modification or correction authorized shall only apply  
111 prospectively.

112         When membership ceases, such prior service certificates shall  
113 become void. Should the employee again become a member, he shall  
114 enter the system as an employee not entitled to prior service  
115 credit except as provided in Sections 25-11-105(I), 25-11-113 and  
116 25-11-117.

117         (5) Creditable service at retirement, on which the  
118 retirement allowance of a member shall be based, shall consist of  
119 the membership service rendered by him since he last became a  
120 member, and also, if he has a prior service certificate which is  
121 in full force and effect, the amount of the service certified on  
122 his prior service certificate.

123         (6) Anything in this article to the contrary  
124 notwithstanding, any member who served on active duty in the Armed  
125 Forces of the United States, or who served in maritime service  
126 during periods of hostility in World War II, shall be entitled to  
127 creditable service for his service on active duty in the armed  
128 forces or in such maritime service, provided he entered state  
129 service after his discharge from the armed forces or entered state  
130 service after he completed such maritime service. The maximum  
131 period for such creditable service for all military service shall  
132 not exceed four (4) years unless positive proof can be furnished  
133 by such person that he was retained in the armed forces during  
134 World War II or in maritime service during World War II by causes  
135 beyond his control and without opportunity of discharge. The  
136 member shall furnish proof satisfactory to the board of trustees  
137 of certification of military service or maritime service records

138 showing dates of entrance into active duty service and the date of  
139 discharge. From and after July 1, 1993, no creditable service  
140 shall be granted for any military service or maritime service to a  
141 member who qualifies for a retirement allowance in another public  
142 retirement system administered by the Board of Trustees of the  
143 Public Employees' Retirement System based in whole or in part on  
144 such military or maritime service. In no case shall the member  
145 receive creditable service if the member received a dishonorable  
146 discharge from the Armed Forces of the United States.

147 (7) Any member of the Public Employees' Retirement System  
148 who has at least four (4) years of membership service credit shall  
149 be entitled to receive a maximum of five (5) years creditable  
150 service for service rendered in another state as a public employee  
151 of such other state, or a political subdivision, public education  
152 system or other governmental instrumentality thereof, or service  
153 rendered as a teacher in American overseas dependent schools  
154 conducted by the Armed Forces of the United States for children of  
155 citizens of the United States residing in areas outside the  
156 continental United States, provided that:

157 (a) The member shall furnish proof satisfactory to the  
158 board of trustees of certification of such services from the  
159 state, public education system, political subdivision or  
160 retirement system of the state where the services were performed  
161 or the governing entity of the American overseas dependent school  
162 where the services were performed; and

163 (b) The member is not receiving or will not be entitled  
164 to receive from the public retirement system of the other state or  
165 from any other retirement plan, including optional retirement  
166 plans, sponsored by the employer, a retirement allowance including  
167 such services; and

168 (c) The member shall pay to the retirement system on  
169 the date he or she is eligible for credit for such out-of-state  
170 service or at any time thereafter prior to date of retirement the

171 actuarial cost as determined by the actuary for each year of  
172 out-of-state creditable service. The provisions of this  
173 subsection are subject to the limitations of Section 415 of the  
174 Internal Revenue Code and regulations promulgated thereunder.

175 (8) Any member of the Public Employees' Retirement System  
176 who has at least four (4) years of membership service credit and  
177 who receives, or has received, professional leave without  
178 compensation for professional purposes directly related to the  
179 employment in state service shall receive creditable service for  
180 the period of professional leave without compensation provided:

181 (a) The professional leave is performed with a public  
182 institution or public agency of this state, or another state or  
183 federal agency;

184 (b) The employer approves the professional leave  
185 showing the reason for granting the leave and makes a  
186 determination that the professional leave will benefit the  
187 employee and employer;

188 (c) Such professional leave shall not exceed two (2)  
189 years during any ten-year period of state service;

190 (d) The employee shall serve the employer on a  
191 full-time basis for a period of time equivalent to the  
192 professional leave period granted immediately following the  
193 termination of the leave period;

194 (e) The contributing member shall pay to the retirement  
195 system the actuarial cost as determined by the actuary for each  
196 year of professional leave. The provisions of this subsection are  
197 subject to the regulations of the Internal Revenue Code  
198 limitations;

199 (f) Such other rules and regulations consistent  
200 herewith as the board may adopt and in case of question, the board  
201 shall have final power to decide the questions.

202 Any actively contributing member participating in the School  
203 Administrator Sabbatical Program established in Section 37-9-77

204 shall qualify for continued participation under this subsection  
205 (8).

206 (9) Any member of the Public Employees' Retirement System  
207 who has at least four (4) years of credited membership service  
208 shall be entitled to receive a maximum of ten (10) years  
209 creditable service for:

210 (a) Any service rendered as an employee of any  
211 political subdivision of this state, or any instrumentality  
212 thereof, which does not participate in the Public Employees'  
213 Retirement System; or

214 (b) Any service rendered as an employee of any  
215 political subdivision of this state, or any instrumentality  
216 thereof, which participates in the Public Employees' Retirement  
217 System but did not elect retroactive coverage; or

218 (c) Any service rendered as an employee of any  
219 political subdivision of this state, or any instrumentality  
220 thereof, for which coverage of the employee's position was or is  
221 excluded; provided that the member pays into the retirement system  
222 the actuarial cost as determined by the actuary for each year, or  
223 portion thereof, of such service. Payment for such service may be  
224 made in increments of one-quarter-year of creditable service.  
225 After a member has made full payment to the retirement system for  
226 all or any part of such service, the member shall receive  
227 creditable service for the period of such service for which full  
228 payment has been made to the retirement system.

229 (10) Any member of the Public Employees' Retirement System  
230 who is an elected official whose salary is paid by the State of  
231 Mississippi shall be entitled to receive additional creditable  
232 service for each year served as such an elected official after  
233 January 1, 2002, as follows:

234 (a) The member may purchase one-half (1/2) year of  
235 creditable service for each year of service as such an elected

236 official, up to a maximum of eight (8) years of additional  
237 creditable service;

238 (b) The member must make an election to purchase  
239 additional creditable service for the upcoming year by January 1  
240 of the year in which he or she takes office or by January 1 of  
241 each succeeding year during the member's term of office. If the  
242 member does not elect to purchase additional creditable service by  
243 January 1 of any year, the member will not receive additional  
244 creditable service for that year and he or she will not be allowed  
245 to retroactively purchase additional creditable service for that  
246 year; and

247 (c) The member must pay additional employee  
248 contributions during any year for which he or she has elected to  
249 purchase additional creditable service, in an amount equal to  
250 fifty percent (50%) of the combined total of the employee and  
251 employer contributions that are paid on the member's earned  
252 compensation. The additional employee contributions shall be  
253 deducted from the salary of the member in the same manner as  
254 regular employee contributions are deducted under Section  
255 25-11-123.

256 (11) Any member of the Public Employees' Retirement System  
257 who is an elected official holding office on July 1, 2001, whose

268           (c) The member must pay an amount equal to fifty  
269 percent (50%) of the combined total of the employee and employer  
270 contributions that would have been paid on his or her earned  
271 compensation for each year of additional creditable service that  
272 the member purchases; and

273           (d) The member must make an election to purchase  
274 additional creditable service under this subsection (11) before  
275 January 1, 2002, and must purchase all additional creditable  
276 service under this subsection before January 1, 2004.

277           SECTION 2. This act shall take effect and be in force from  
278 and after July 1, 2001.
