Counties designated by the Tax Commission qualify for the appropriate tax credit for jobs as provided in subsections (2), (3) and (4) of this section. The designation by the Tax Commission is effective for the tax years of permanent business enterprises which begin after the date of designation. (2) Permanent business enterprises primarily engaged in manufacturing, processing, warehousing, distribution, wholesaling and research and development, or permanent business enterprises designated by rule and regulation of the Mississippi Development Authority as air transportation and maintenance facilities, final destination or resort hotels having a minimum of one hundred fifty (150) guest rooms, recreational facilities that impact tourism, movie industry studios, telecommunications enterprises, data or information processing enterprises or computer software development enterprises or any technology intensive facility or enterprise, in counties designated by the Tax Commission as Tier Three areas are allowed a job tax credit for taxes imposed by

The number of new full-time jobs must be determined by comparing the monthly average number of full-time employees subject to the Mississippi income tax withholding for the taxable year with the corresponding period of the prior taxable year. Only those permanent businesses that increase employment by ten (10) or more in a Tier Three area are eligible for the credit. Credit is not allowed during any of the five (5) years if the net employment increase falls below ten (10). The Tax Commission shall adjust the credit allowed each year for the net new employment fluctuations above the minimum level of ten (10).

(3) Permanent business enterprises primarily engaged in manufacturing, processing, warehousing, distribution, wholesaling and research and development, or permanent business enterprises designated by rule and regulation of the Mississippi Development Authority as air transportation and maintenance facilities, final destination or resort hotels having a minimum of one hundred fifty (150) guest rooms, recreational facilities that impact tourism, movie industry studios, telecommunications enterprises, data or information processing enterprises or computer software development enterprises or any technology intensive facility or enterprise, in counties that have been designated by the Tax Commission as Tier Two areas are allowed a job tax credit for taxes imposed by Section 27-7-5 equal to One Thousand Dollars ($1,000.00) annually for each net new full-time employee job for five (5) years beginning with years two (2) through six (6) after the creation of the job. The number of new full-time jobs must be determined by comparing the monthly average number of full-time
employees subject to Mississippi income tax withholding for the taxable year with the corresponding period of the prior taxable year. Only those permanent businesses that increase employment by fifteen (15) or more in Tier Two areas are eligible for the credit. The credit is not allowed during any of the five (5) years if the net employment increase falls below fifteen (15).

The Tax Commission shall adjust the credit allowed each year for the net new employment fluctuations above the minimum level of fifteen (15).

(4) Permanent business enterprises primarily engaged in manufacturing, processing, warehousing, distribution, wholesaling and research and development, or permanent business enterprises designated by rule and regulation of the Mississippi Development Authority as air transportation and maintenance facilities, final destination or resort hotels having a minimum of one hundred fifty (150) guest rooms, recreational facilities that impact tourism, movie industry studios, telecommunications enterprises, data or information processing enterprises or computer software development enterprises or any technology intensive facility or enterprise, in counties designated by the Tax Commission as Tier One areas are allowed a job tax credit for taxes imposed by Section 27-7-5 equal to Five Hundred Dollars ($500.00) annually for each net new full-time employee job for five (5) years beginning with years two (2) through six (6) after the creation of the job. The number of new full-time jobs must be determined by comparing the monthly average number of full-time employees subject to Mississippi income tax withholding for the taxable year with the corresponding period of the prior taxable year. Only those permanent businesses that increase employment by twenty (20) or more in Tier One areas are eligible for the credit. The credit is not allowed during any of the five (5) years if the net employment increase falls below twenty (20). The Tax Commission
shall adjust the credit allowed each year for the net new employment fluctuations above the minimum level of twenty (20).

(5) In addition to the credits authorized in subsections (2), (3) and (4), an additional Five Hundred Dollars ($500.00) credit for each net new full-time employee or an additional One Thousand Dollars ($1,000.00) credit for each net new full-time employee who is paid a salary, excluding benefits which are not subject to Mississippi income taxation, of at least one hundred twenty-five percent (125%) of the average annual wage of the state or an additional Two Thousand Dollars ($2,000.00) credit for each net new full-time employee who is paid a salary, excluding benefits which are not subject to Mississippi income taxation, of at least two hundred percent (200%) of the average annual wage of the state, shall be allowed for any company establishing or transferring its national or regional headquarters from within or outside the State of Mississippi. A minimum of thirty-five (35) jobs must be created to qualify for the additional credit. The State Tax Commission shall establish criteria and prescribe procedures to determine if a company qualifies as a national or regional headquarters for purposes of receiving the credit awarded in this subsection. As used in this subsection, the average annual wage of the state is the most recently published average annual wage as determined by the Mississippi Employment Security Commission.

(6) In addition to the credits authorized in subsections (2), (3), (4) and (5), any job requiring research and development skills (chemist, engineer, etc.) shall qualify for an additional One Thousand Dollars ($1,000.00) credit for each net new full-time employee.

(7) Tax credits for five (5) years for the taxes imposed by Section 27-7-5 shall be awarded for additional net new full-time jobs created by business enterprises qualified under subsections (2), (3), (4), (5) and (6) of this section. The Tax Commission...
shall adjust the credit allowed in the event of employment fluctuations during the additional five (5) years of credit.

(8) The sale, merger, acquisition, reorganization, bankruptcy or relocation from one county to another county within the state of any business enterprise may not create new eligibility in any succeeding business entity, but any unused job tax credit may be transferred and continued by any transferee of the business enterprise. The Tax Commission shall determine whether or not qualifying net increases or decreases have occurred or proper transfers of credit have been made and may require reports, promulgate regulations, and hold hearings as needed for substantiation and qualification.

(9) Any tax credit claimed under this section but not used in any taxable year may be carried forward for five (5) years from the close of the tax year in which the qualified jobs were established but the credit established by this section taken in any one (1) tax year must be limited to an amount not greater than fifty percent (50%) of the taxpayer's state income tax liability which is attributable to income derived from operations in the state for that year.
