HOUSE BILL NO. 455

AN ACT TO AMEND SECTION 49-17-29, MISSISSIPPI CODE OF 1972, TO REINSTATE UNTIL JANUARY 1, 2003, THE PROVISION OF LAW THAT PROHIBITS THE ENVIRONMENTAL QUALITY PERMIT BOARD FROM ISSUING CERTAIN PERMITS FOR CONSTRUCTING A NEW OR EXPANDING AN EXISTING SWINE CONCENTRATED ANIMAL FEEDING OPERATION; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 49-17-29, Mississippi Code of 1972, is amended as follows:

49-17-29. (1) (a) Except as in compliance with paragraph (b) of this subsection, it is unlawful for any person to cause pollution of the air in the state or to place or cause to be placed any wastes or other products or substances in a location where they are likely to cause pollution of the air. It is also unlawful to discharge any wastes, products or substances into the air of the state which exceed standards of performance, hazardous air pollutant standards, other emission standards set by the commission, or which reduce the quality of the air below the air quality standards or increments established by the commission or prevent attainment or maintenance of those air quality standards. Any such action is hereby declared to be a public nuisance.

(b) It is unlawful for any person to build, erect, alter, replace, use or operate any equipment which will cause the issuance of air contaminants unless that person holds a permit from the Permit Board (except repairs or maintenance of equipment for which a permit has been previously issued), or unless that person is exempted from holding a permit by a regulation promulgated by the commission. Concentrated animal feeding operations may be a source or a category of sources exempted under

H. B. No. 455

PAGE 1 (TB\LH)
this paragraph. However, no new or existing applications relating to swine concentrated animal feeding operations within a county shall be exempted from regulations and ordinances which have been duly passed by the county's board of supervisors and which are in force on June 1, 1998.

(2) (a) Except as in compliance with paragraph (b) of this subsection, it is unlawful for any person to cause pollution of any waters of the state or to place or cause to be placed any wastes in a location where they are likely to cause pollution of any waters of the state. It is also unlawful to discharge any wastes into any waters of the state which reduce the quality of those waters below the water quality standards established by the commission; or to violate any applicable pretreatment standards or limitations, technology-based effluent limitations, toxic standards or any other limitations established by the commission. Any such action is declared to be a public nuisance.

(b) It is unlawful for any person to carry on any of the following activities, unless that person holds a current permit for that activity from the Permit Board as may be required for the disposal of all wastes which are or may be discharged into the waters of the state, or unless that person is exempted from holding a permit by a regulation promulgated by the commission: (i) the construction, installation, modification or operation of any disposal system or part thereof or any extension or addition thereto, including, but not limited to, systems serving agricultural operations; (ii) the increase in volume or strength of any wastes in excess of the permissive discharges specified under any existing permit; (iii) the construction, installation or operation of any industrial, commercial or other establishment, including irrigation projects or any extension or modification thereof or addition thereto, the operation of which would cause an increase in the discharge of wastes into the waters of the state or would otherwise alter the physical, chemical or biological
properties of any waters of the state in any manner not already
lawfully authorized; (iv) the construction or use of any new
outlet for the discharge of any wastes into the waters of the
state. However, no new or existing applications relating to swine
concentrated animal feeding operations within a county shall be
exempted from regulations and ordinances which have been duly
passed by the county's board of supervisors and which are in force
on June 1, 1998.

(3) (a) Except as otherwise provided in this section, the
Permit Board created by Section 49-17-28 shall be the exclusive
administrative body to make decisions on permit issuance,
reissuance, denial, modification or revocation of air pollution
control and water pollution control permits and permits required
under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter
17), and all other permits within the jurisdiction of the Permit
Board. After consideration of alternative waste treatment
technologies available to control air and water pollution and
odor, including appropriate siting criteria, the commission may
promulgate regulations establishing conditions, limitations and
exemptions under which the Permit Board shall make these
decisions. Regulations promulgated by the commission which
establish exemptions as authorized under Senate Bill No. 2895,
applicable facility in operation on the effective date of that
regulation and to any applicable facility constructed or operated
after the effective date of that regulation. The Permit Board may
issue multiple permits for the same facility or operation
simultaneously or in the sequence that it deems appropriate
consistent with the commission's regulations. Except as otherwise
provided in this paragraph, the Permit Board, under any conditions
that the board may prescribe, may authorize the Executive Director
of the Department of Environmental Quality to make decisions on
permit issuance, reissuance, denial, modification or revocation.
The executive director shall not be authorized to make decisions on permit issuance, reissuance, denial, modification or revocation for a commercial hazardous waste management facility or a municipal solid waste landfill or incinerator. A decision by the executive director shall be a decision of the Permit Board and shall be subject to formal hearing and appeal as provided in this section. The executive director shall report all permit decisions to the Permit Board at its next regularly scheduled meeting and those decisions shall be recorded in the minutes of the Permit Board. The decisions of the Permit Board shall be recorded in minutes of the Permit Board and shall be kept separate and apart from the minutes of the commission. The decision of the Permit Board or the executive director to issue, reissue, deny, modify or revoke permits shall not be construed to be an order or other action of the commission.

(b) The Executive Director of the Department of Environmental Quality shall also be the Executive Director of the Permit Board and shall have available to him, as Executive Director of the Permit Board, all resources and personnel otherwise available to him as executive director of the department.

(c) All persons required to obtain an air pollution control or water pollution control permit, a permit under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within the jurisdiction of the Permit Board shall make application for that permit with the Permit Board. The Permit Board, under any regulations as the commission may prescribe, may require the submission of those plans, specifications and other information as it deems necessary to carry out Sections 49-17-1 through 49-17-43 and Title 17, Chapter 17, or to carry out the commission's regulations adopted under those sections. The Permit Board, based upon any information as it deems relevant, shall issue, reissue, deny, modify or revoke
air pollution control or water pollution control permit or permits
required under the Solid Wastes Disposal Law of 1974 (Title 17,
Chapter 17) or any other permit within the jurisdiction of the
Permit Board under any conditions as it deems necessary that are
consistent with the commission's regulations. The Permit Board's
action of issuance, reissuance, denial, modification or revocation
of a permit as recorded in its minutes shall constitute a complete
decision of the board. All permits issued by the Permit Board
shall remain in full force and effect until the board makes a
final determination regarding any reissuance, modification, or
revocation thereof. The Permit Board shall take action upon an
application within one hundred eighty (180) days following its
receipt in the board's principal office. No action which affects
revocation of an existing permit shall take effect until the
thirty (30) days mentioned in paragraph (4)(b) of this section has
expired or until a formal hearing as prescribed in that paragraph
is held, whichever is later.

(d) The Permit Board may adopt rules of practice and
procedure governing its proceedings that are consistent with the
commission's regulations. All hearings in connection with permits
issued, reissued, denied, modified or revoked and all appeals from
decisions of the Permit Board shall be as provided in this
section.

(e) Upon any conditions that are consistent with the
commission's regulations and subject to those procedures for
public notice and hearings as provided by law, not inconsistent
with federal law and regulations, the Permit Board may issue
general permits and, where appropriate, may consolidate multiple
permits for the same facility or operation into a single permit.

(f) The Permit Board shall not issue any permit for a
new swine concentrated animal feeding operation or the expansion
of an existing swine concentrated animal feeding operation before
January 1, 2003, unless the department received the application
for that operation's new or modified permit before February 28, 1998, or except as provided in this paragraph (f). In issuing or modifying any permit for which the department received an application before February 28, 1998, the Permit Board shall apply those siting criteria adopted or used by the commission before February 28, 1998, unless federal law or regulations require more stringent criteria. The moratorium established in this paragraph shall not apply to the issuance of any permit for a new swine concentrated animal feeding operation or the expansion of an existing swine concentrated animal feeding operation that uses an animal waste management system which the applicant demonstrates to the Permit Board is innovative in significantly reducing the effects of the operation on the public health, welfare or the environment and which is approved by the Permit Board. The Permit Board shall not issue or modify more than five (5) permits under this innovative animal waste management system technology exemption to the moratorium.

(4) (a) Except as required by this section, before the issuance, reissuance, denial, modification or revocation of any air pollution control or water pollution control permit, permit required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within its jurisdiction, the Permit Board, in its discretion, may hold a public hearing or meeting to obtain comments from the public on its proposed action. Before the issuance, reissuance, denial, modification pertaining to the expansion of a facility, transfer or revocation of a permit for a commercial hazardous waste management facility or a commercial municipal solid waste landfill or incinerator, the Permit Board shall conduct a public hearing or meeting to obtain comments from the public on the proposed action. That hearing or meeting shall be informal in nature and conducted under those procedures as the Permit Board may deem appropriate consistent with the commission's regulations.
(b) Within thirty (30) days after the date the Permit Board takes action upon permit issuance, reissuance, denial, modification or revocation, as recorded in the minutes of the Permit Board, any interested party aggrieved by that action may file a written request for a formal hearing before the Permit Board. An interested party is any person claiming an interest relating to the property or project which is the subject of the permit action, and who is so situated that the person may be affected by the disposition of that action.

The Permit Board shall fix the time and place of the formal hearing and shall notify the permittee of that time and place.

In conducting the formal hearing, the Permit Board shall have the same full powers as to subpoenaing witnesses, administering oaths, examining witnesses under oath and conducting the hearing, as is now vested by law in the Mississippi Public Service Commission, as to the hearings before it, with the additional power that the Executive Director of the Permit Board may issue all subpoenas at the instance of the Permit Board or at the instance of any interested party. Any subpoenas shall be served by any lawful officer in any county to whom the subpoena is directed and return made thereon as provided by law, with the cost of service being paid by the party on whose behalf the subpoena was issued. Witnesses summoned to appear at the hearing shall be entitled to the same per diem and mileage as witnesses attending the circuit court and shall be paid by the person on whose behalf the witness was called. Sufficient sureties for the cost of service of the subpoena and witness fees shall be filed with the Executive Director of the Permit Board at the time that issuance of the subpoena is requested. At a hearing, any interested party may present witnesses and submit evidence and cross-examine witnesses.

The Permit Board may designate a hearing officer to conduct the formal hearing on all or any part of the issues on behalf of
the Permit Board. The hearing officer shall prepare the record of
the formal hearing conducted by that officer for the Permit Board
and shall submit the record to the Permit Board.

Upon conclusion of the formal hearing, the Permit Board shall
enter in its minutes the board’s decision affirming, modifying or
reversing its prior decision to issue, reissue, deny, modify or
revoke a permit. The Permit Board shall prepare and record in its
minutes findings of fact and conclusions of law supporting its
decision. That decision, as recorded in its minutes with its
findings of fact and conclusions of law, shall be final unless an
appeal, as provided in this section, is taken to chancery court
within twenty (20) days following the date the decision is entered
in the board’s minutes.

(c) Within twenty (20) days after the date the Permit
Board takes action upon permit issuance, reissuance, denial,
modification or revocation after a formal hearing under this
subsection as recorded in the minutes of the Permit Board, any
person aggrieved of that action may appeal the action as provided
in subsection (5) of this section.

(5) (a) Appeals from any decision or action of the Permit
Board shall be only to chancery court as provided in this
subsection.

(b) Any person who is aggrieved by any decision of the
Permit Board issuing, reissuing, denying, revoking or modifying a
permit after a formal hearing may appeal that decision within the
period specified in subsection (4)(c) of this section to the
chancery court of the county of the situs in whole or in part of
the subject matter. The appellant shall give a cost bond with
sufficient sureties, payable to the state in the sum of not less
than One Hundred Dollars ($100.00) nor more than Five Hundred
Dollars ($500.00), to be fixed by the Permit Board and to be filed
with and approved by the Executive Director of the Permit Board,
who shall forthwith certify the filing of the bond together with a
certified copy of the record of the Permit Board in the matter to
the chancery court to which the appeal is taken, which shall
thereupon become the record of the cause. An appeal to the
chancery court as provided in this section shall not stay the
decision of the Permit Board. The aggrieved party may, within
twenty (20) days following the date the board's decision after a
formal hearing is entered on the board's minutes, petition the
chancery court for an appeal with supersedeas and the chancellor
shall grant a hearing on that petition. Upon good cause shown,
the chancellor may grant that appeal with supersedeas. If
granted, the appellant shall be required to post a bond with
sufficient sureties according to law in an amount to be determined
by the chancellor. Appeals shall be considered only upon the
record as made before the Permit Board. The chancery court shall
always be deemed open for hearing of an appeal and the chancellor
may hear the same in termtime or in vacation at any place in the
chancellor's district, and the appeal shall have precedence over
all civil cases, except election contests. The chancery court
shall review all questions of law and of fact. If no prejudicial
error is found, the matter shall be affirmed. If prejudicial
error is found the decision of the board shall be reversed and the
chancery court shall remand the matter to the Permit Board for
appropriate action as may be indicated or necessary under the
circumstances. Appeals may be taken from the chancery court to
the Supreme Court in the manner as now required by law, except
that if a supersedeas is desired by the party appealing to the
chancery court, that party may apply for a supersedeas to the
chancellor of that court, who shall award a writ of supersedeas,
without additional bond, if in the chancellor's judgment material
damage is not likely to result thereby; but otherwise, the
chancellor shall require a supersedeas bond as the chancellor
deems proper, which shall be liable to the state for any damage.
SECTION 2. This act shall take effect and be in force from and after July 1, 2002.
