and two (2) for terms of four (4) years, dating from the date of
the adoption of the ordinance creating the district. Thereafter,
all appointments of the members shall be for terms of four (4) years.

(2) The board of commissioners shall have complete and sole authority to appoint a chairman and any other officers it may deem necessary from among the membership of the board of commissioners.

(3) A majority of the board of commissioners membership shall constitute a quorum and all official action of the board of commissioners shall require a quorum.

(4) The board of commissioners shall have authority to employ such employees, experts and consultants as it may deem necessary to assist the board of commissioners in the discharge of its responsibilities to the extent that funds are made available.

(5) In lieu of appointing a board of commissioners, the board of supervisors of the county may serve as the board of commissioners of the district, in which case it shall assume all the powers and duties of the board of commissioners as provided in Section 19-5-301 et seq.

(6) All emergency communications districts shall purchase, lease or lease-purchase equipment used to comply with the FCC Order, as defined in Section 19-5-333, from a products and equipment list maintained by the Mississippi Department of Information Technology Services; however, items not available from the list, or items which may be purchased at a lower price, shall be purchased in accordance with the Public Purchasing Law (Section 31-7-13).

(1) The board of supervisors may levy an emergency telephone service charge in an amount not to exceed One Dollar ($1.00) per residential telephone subscriber line per month and Two Dollars ($2.00) per commercial telephone subscriber line per month for exchange telephone service. Any emergency telephone service charge shall have uniform application and shall be imposed
throughout the entirety of the district to the greatest extent possible in conformity with availability of such service in any area of the district. Those districts which exist on the date of enactment of Chapter 539, Laws of 1993, shall convert to the following structure for service charge levy: If the current charge is five percent (5%) of the basic tariff service rate, the new collection shall be Eighty Cents ($.80) per month per residential subscriber line and One Dollar and Sixty Cents ($1.60) per month per commercial subscriber line. The collections may be adjusted as outlined in Chapter 539, Laws of 1993, and within the limits set forth herein.

(2) If the proceeds generated by the emergency telephone service charge exceed the amount of monies necessary to fund the service, the board of supervisors may authorize such excess funds to be expended by the county and the municipalities in the counties to perform the duties and pay the costs relating to identifying roads, highways and streets, as provided by Section 65-7-143. The board of supervisors shall determine how the funds are to be distributed in the county and among municipalities in the county for paying the costs relating to identifying roads, highways and streets. The board of supervisors may temporarily reduce the service charge rate or temporarily suspend the service charge if the proceeds generated exceed the amount that is necessary to fund the service and/or to pay costs relating to identifying roads, highways and streets. Such excess funds may also be used in the development of county or district communications and paging systems when used primarily for the alerting and dispatching of public safety entities and for other administrative costs such as management personnel, maintenance personnel and related building and operational requirements. Such excess funds may be placed in a depreciation fund for emergency and obsolescence replacement of equipment necessary for the
operation of the overall 911 emergency telephone and alerting

(3) No such service charge shall be imposed upon more than twenty-five (25) exchange access facilities per person per location. The duty of the service supplier to collect any such service charge shall commence upon the date of its implementation, which shall be specified in the resolution for the installation of such service. Any such emergency telephone service charge shall be added to and may be stated separately in the billing by the service supplier to the service user.

(4) The service supplier shall have no obligation to take any legal action to enforce the collection of any emergency telephone service charge. However, the service supplier shall annually provide the board of supervisors and board of commissioners with a list of the amount uncollected, together with the names and addresses of those service users who carry a balance that can be determined by the service supplier to be nonpayment of such service charge. The service charge shall be collected at the same time as the tariff rate in accordance with the regular billing practice of the service supplier. Good faith compliance by the service supplier with this provision shall constitute a complete defense to any legal action or claim which may result from the service supplier's determination of nonpayment and/or the identification of service users in connection therewith.

(5) The amounts collected by the service supplier attributable to any emergency telephone service charge shall be due the county treasury monthly. The amount of service charge collected each month by the service supplier shall be remitted to the county no later than sixty (60) days after the close of the
month. A return, in such form as the board of supervisors and the
service supplier agree upon, shall be filed with the county,
together with a remittance of the amount of service charge
collected payable to the county. The service supplier shall
maintain records of the amount of service charge collected for a
period of at least two (2) years from date of collection. The
board of supervisors and board of commissioners shall receive an
annual audit of the service supplier's books and records with
respect to the collection and remittance of the service charge.
From the gross receipts to be remitted to the county, the service
supplier shall be entitled to retain as an administrative fee, an
amount equal to one percent (1%) thereof. From and after March
10, 1987, the service charge is a county fee and is not subject to
any sales, use, franchise, income, excise or any other tax, fee or
assessment and shall not be considered revenue of the service
supplier for any purpose.

(6) In order to provide additional funding for the district,
the board of commissioners may receive federal, state, county or
municipal funds, as well as funds from private sources, and may
expend such funds for the purposes of Section 19-5-301 et seq.
