234 Transportation Department shall make other improvements and
235 highway modifications to such highway segment as needed, such as
236 straightening and realignment of the existing roadway, the
237 addition of passing lanes and the widening of existing lanes, and
238 may acquire any necessary right-of-way for such purposes and for
239 the purpose of future construction of four-lane highways along
240 such segments.

241 (4) The construction priorities established in this section

244 three-year plan under Section 65-1-141, and for which, on July 1,
245 1987, grade and drainage has been completed or contracts for grade
246 and drainage have been let.

247 (5) Contracts may be let and construction may commence and
248 be performed concurrently on any of the highway segments
249 designated in subsection (3) of this section, notwithstanding the
250 priorities established for the letting of contracts on the various
251 segments designated therein, provided that funds are available
252 and, provided that, at all times, the percentages of all contracts
253 required to be let on the segments designated in paragraphs
254 (3) (a), (3) (b), (3) (c) and (3) (d), respectively, are, in fact, let
255 no later than the dates established therein.

258 on competitive bid in the manner provided by statute; however,
259 highway segments shall be constructed in lengths of not less than
260 ten (10) miles.

261 (b) It is the intent of the Legislature that not less
262 than ten percent (10%) of the amounts authorized to be expended
263 for construction and reconstruction of the four-lane highway
264 segments designated in this section shall be expended with small
265 business concerns owned and controlled by socially and
266 economically disadvantaged individuals. The term "socially and
267 economically disadvantaged individuals" shall have the meaning
268 ascribed to such term under Section 8(d) of the Small Business Act
269 (15 USCS, Section 637(d)) and relevant subcontracting regulations
270 promulgated pursuant thereto; except that women shall be presumed
271 to be socially and economically disadvantaged individuals for the
272 purposes of this paragraph (b).

273 (7) (a) Notwithstanding the provisions of subsection (6) (a)
274 of this section, the Mississippi Transportation Commission may
275 construct highway segments of less than ten (10) miles in length
276 if:

277 (i) The segment as described in subsection (3) of
278 this section is less than ten (10) miles in length;

279 (ii) The segment will connect two (2) existing
280 four-lane highways;

281 (iii) The segment will connect an existing
282 four-lane highway with an incorporated municipality;

283 (iv) The segment will connect an existing
284 four-lane highway with a river, the state boundary or any other
285 natural or man-made barrier;

286 (v) For a particular project, the costs of
287 constructing a single segment of at least ten (10) miles in length

288 would greatly exceed the aggregate costs of constructing two (2)
289 or more segments; or

290 (vi) The segment is in an urban area and involves
291 the completion of bypasses or other construction which will
292 facilitate and accommodate major traffic movement.

293 (b) In any case in which the Transportation Commission
294 authorizes the construction of a highway segment of less than ten
295 (10) miles in length, the commission shall set forth and record in
296 its official minutes explanation and justification therefor based
297 upon one or more of the conditions prescribed in paragraph (7) (a)
298 of this section.

299 (8) (a) To assist in defraying the costs and expenses for
300 construction, reconstruction and relocation of the four-lane
301 highway system described in this section, the following revenues
302 shall be paid out of such funds made available to the
303 Transportation Commission and the Transportation Department:

304 (i) From matched federal funds or other federal
305 funds, Thirty-two Million Dollars (\$32,000,000.00) for fiscal year
306 1988, Twenty-five Million Dollars (\$25,000,000.00) for fiscal year
307 1989, Thirty Million Dollars (\$30,000,000.00) for fiscal year 1990
308 and fifty percent (50%) of such federal funds for fiscal year 1991
309 and each fiscal year thereafter; and

310 (ii) Five Million Dollars (\$5,000,000.00) from
311 matched federal bridge replacement funds for fiscal year 1988 and
312 each fiscal year thereafter when the segments proposed for
313 construction contain bridges that are eligible for replacement
314 under the Federal Aid Bridge Replacement Program.

315 (b) Federal funds in addition to the federal funds
316 specified in paragraph (a) of this subsection (8) may be used for
317 the construction, reconstruction and relocation of the four-lane
318 highway system described in this section. Such federal funds may
319 be used in lieu of state funding that would otherwise be used for
320 such system; however, the annual total amount of funding for the

321 construction, reconstruction and relocation of the four-lane
322 highway system described in this section shall not be less than it
323 otherwise would have been without the use of such additional
324 federal funds.

325 (9) The Transportation Department shall submit a report to
326 the Legislature by January 10 of each calendar year setting forth
327 the current status of the construction program set forth in this
328 section to include, but not be limited to, the following
329 information:

331 performed or has been completed;

333 acquired or is being acquired;

334 (c) Specific segments for which construction contracts
335 have been let;

336 (d) Specific segments on which construction is in
337 progress;

338 (e) Specific segments on which construction has been
339 completed;

340 (f) Projections for completion of the next step on each
341 segment;

342 (g) Revenue derived for such construction program from
343 each revenue source contained in Chapter 322, Laws, 1987, and in
344 Chapter 557, Laws, 1994;

345 (h) For each fiscal year beginning in 1994, a detailed
346 cash flow projection by source of program activities and an
347 estimate of when the program will encounter a funding shortage due
348 to costs exceeding original projections;

349 (i) A schedule of all complete and open-to-traffic
350 highway segments and the related total cost of each segment;

351 (j) A schedule of all highway segments on which all
352 contracts necessary for completion of the segments were not let as
353 of the date required by law;

354 (k) A complete recap of all program receipts by source,
355 and of all disbursements for the prior fiscal year and cumulative
356 totals since the inception of the program as compared to
357 projections; and

358 (l) A statement from the Department of Transportation
359 regarding the status of the funding of the program based on agency
360 cost experience and projections for the future.

361 The report shall be deemed submitted when ten (10) copies are
362 submitted to the Clerk of the House of Representatives and ten
363 (10) copies are submitted to the Secretary of the Senate.

364 **SECTION 2.** This act shall take effect and be in force from
