higher learning and to contract with all deans, professors, and other members of the teaching staff, and all administrative employees of said community colleges and institutions for a term of not exceeding four (4) years. It shall be the policy of the board to elect all officials for a definite tenure of service and to reelect during the period of satisfactory service. The board shall have the power to make any adjustments it thinks necessary between the various departments and schools of any community college or institution or between the different community colleges and institutions.

(g) The board shall keep complete minutes and records of all proceedings which shall be open for inspection by any citizen of the state.

(h) The board shall have the power to contract, on a shared-savings, lease or lease-purchase basis, for energy efficiency services and/or equipment as prescribed in Section 31-7-14, not to exceed ten (10) years.

The amount of the coverages shall be in such reasonable amount as may be determined by the board to be adequate, after due consideration of current health costs in Mississippi. The plan shall also include major medical benefits in such amounts as the board shall determine. The board is also
authorized to accept bids for such alternate coverage and optional benefits as the board shall deem proper. Any contract for alternative coverage and optional benefits shall be awarded by the board after it has carefully studied and evaluated the bids and selected the best and most cost-effective bid. The board may reject all such bids; however, the board shall notify all bidders of the rejection and shall actively solicit new bids if all bids are rejected. The board may employ or contract for such consulting or actuarial services as may be necessary to formulate the plan, and to assist the board in the preparation of specifications and in the process of advertising for the bids for the plan. Such contracts shall be solicited and entered into in accordance with Section 25-15-5. The board shall keep a record of all persons, agents and corporations who contract with or assist the board in preparing and developing the plan. The board in a timely manner shall provide copies of this record to the members of the advisory council created in this section and those legislators, or their designees, who may attend meetings of the advisory council. The board shall provide copies of this record in the solicitation of bids for the administration or servicing of the self-insured program. Each person, agent or corporation which, during the previous fiscal year, has assisted in the development of the plan or employed or compensated any person who assisted in the development of the plan, and which bids on the administration or servicing of the plan, shall submit to the board a statement accompanying the bid explaining in detail its participation with the development of the plan. This statement shall include the amount of compensation paid by the bidder to any such employee during the previous fiscal year. The board shall make all such information available to the members of the advisory council and those legislators, or their designees, who may attend meetings of the advisory council before any action is taken by the board on the bids submitted. The failure of any bidder to fully
and accurately comply with this paragraph shall result in the
rejection of any bid submitted by that bidder or the cancellation
of any contract executed when the failure is discovered after the
acceptance of that bid. The board is authorized to promulgate
rules and regulations to implement the provisions of this
subsection.

The board shall develop plans for the insurance plan
authorized by this section in accordance with the provisions of
Section 25-15-5.

Any corporation, association, company or individual that
contracts with the board for the third-party claims administration
of the self-insured plan shall prepare and keep on file an
explanation of benefits for each claim processed. The explanation
of benefits shall contain such information relative to each
processed claim which the board deems necessary, and, at a
minimum, each explanation shall provide the claimant's name, claim
number, provider number, provider name, service dates, type of
services, amount of charges, amount allowed to the claimant and
reason codes. The information contained in the explanation of
benefits shall be available for inspection upon request by the
board. The board shall have access to all claims information
utilized in the issuance of payments to employees and providers.

(b) There is created an advisory council to advise the
board in the formulation of the State and School Employees Health

certificated public school administrators appointed by the State
Board of Education, two (2) certificated classroom teachers
appointed by the State Board of Education, a noncertificated
school employee appointed by the State Board of Education and a
community college employee appointed by the Board of
Trustees of State Institutions of Higher Learning.

The Lieutenant Governor may designate the Secretary of the
Senate, the Chairman of the Senate Appropriations Committee, the
Chairman of the Senate Education Committee and the Chairman of the
Senate Insurance Committee, and the Speaker of the House of
Representatives may designate the Clerk of the House, the Chairman
of the House Appropriations Committee, the Chairman of the House
Education Committee and the Chairman of the House Insurance
Committee, to attend any meeting of the State and School Employees
Insurance Advisory Council. The appointing authorities may
designate an alternate member from their respective houses to
serve when the regular designee is unable to attend such meetings
of the council. Such designees shall have no jurisdiction or vote
on any matter within the jurisdiction of the council. For
attending meetings of the council, such legislators shall receive
per diem and expenses which shall be paid from the contingent
expense funds of their respective houses in the same amounts as
provided for committee meetings when the Legislature is not in
session; however, no per diem and expenses for attending meetings
of the council will be paid while the Legislature is in session.
No per diem and expenses will be paid except for attending
meetings of the council without prior approval of the proper
committee in their respective houses.

(c) No change in the terms of the State and School
Employees Health Insurance Plan may be made effective unless the
board, or its designee, has provided notice to the State and
School Employees Health Insurance Advisory Council and has called
a meeting of the council at least fifteen (15) days before the
effective date of such change. In the event that the State and
School Employees Health Insurance Advisory Council does not meet
to advise the board on the proposed changes, the changes to the
plan shall become effective at such time as the board has informed
the council that the changes shall become effective.

(d) Medical benefits for retired employees and
dependents under age sixty-five (65) years and not eligible for
Medicare benefits. The same health insurance coverage as for all
other active employees and their dependents shall be available to
retired employees and all dependents under age sixty-five (65)
years who are not eligible for Medicare benefits, the level of
benefits to be the same level as for all other active
participants. This section will apply to those employees who
retire due to one hundred percent (100%) medical disability as
well as those employees electing early retirement.

(e) Medical benefits for retired employees and
dependents over age sixty-five (65) years or otherwise eligible
for Medicare benefits. The health insurance coverage available to
retired employees over age sixty-five (65) years or otherwise
eligible for Medicare benefits, and all dependents over age
sixty-five (65) years or otherwise eligible for Medicare benefits,
shall be the major medical coverage with the lifetime maximum of
One Million Dollars ($1,000,000.00). Benefits shall be reduced by
Medicare benefits as though such Medicare benefits were the base
plan.

All covered individuals shall be assumed to have full
Medicare coverage, Parts A and B; and any Medicare payments under

(6) Any premium differentials, differences in coverages,
derivations determined by risk or by any other factors shall be
uniformly applied to all active employees participating in the
insurance plan. It is the intent of the Legislature that the state contribution to the plan be the same for each employee throughout the state.

renewed in accordance with the established rules and regulations of the State Department of Education.

(d) **Special License - Nonrenewable.** The State Board of Education is authorized to establish rules and regulations to allow those educators not meeting requirements in subsection (6)(a), (b) or (c) to be licensed for a period of not more than three (3) years, except by special approval of the State Board of Education.

(e) **Nonlicensed Teaching Personnel.** A nonlicensed person may teach for a maximum of three (3) periods per teaching day in a public school or a nonpublic school accredited/approved by the state. Such person shall submit to the department a transcript or record of his education and experience which substantiates his preparation for the subject to be taught and shall meet other qualifications specified by the commission and approved by the State Board of Education. In no case shall any local school board hire nonlicensed personnel as authorized under this paragraph in excess of five percent (5%) of the total number of licensed personnel in any single school.

(f) In the event any school district meets Level 4 or 5 accreditation standards, the State Board of Education, in its discretion, may exempt such school district from any restrictions in paragraph (e) relating to the employment of nonlicensed teaching personnel.

(7) **Administrator License.** The State Board of Education is authorized to establish rules and regulations and to administer the licensure process of the school administrators in the State of Mississippi. There will be four (4) categories of administrator licensure with exceptions only through special approval of the State Board of Education.

(a) **Administrator License - Nonpracticing.** Those educators holding administrative endorsement but have no
administrative experience or not serving in an administrative position on January 15, 1997.

(b) **Administrator License - Entry Level.** Those educators holding administrative endorsement and having met the department's qualifications to be eligible for employment in a Mississippi school district. Administrator license - entry level shall be issued for a five-year period and shall be nonrenewable.

(c) **Standard Administrator License - Career Level.** An administrator who has met all the requirements of the department for standard administrator licensure.

(d) **Administrator License - Alternate Route.** The board may establish an alternate route for licensing administrative personnel. Such alternate route for administrative licensure shall be available for persons holding, but not limited to, a master of business administration degree, a master of public administration degree or a master of public planning and policy degree from an accredited college or university, with five (5) years of administrative or supervisory experience. Successful completion of the requirements of alternate route licensure for administrators shall qualify the person for a standard administrator license.

Beginning with the 1997-1998 school year, individuals seeking school administrator licensure under paragraph (b), (c) or (d) shall successfully complete a training program and an assessment process prescribed by the State Board of Education. Applicants seeking school administrator licensure prior to June 30, 1997, and completing all requirements for provisional or standard administrator certification and who have never practiced, shall be exempt from taking the Mississippi Assessment Battery Phase I. Applicants seeking school administrator licensure during the period beginning July 1, 1997, through June 30, 1998, shall participate in the Mississippi Assessment Battery, and upon request of the applicant, the department shall reimburse the
applicant for the cost of the assessment process required. After June 30, 1998, all applicants for school administrator licensure shall meet all requirements prescribed by the department under paragraph (b), (c) or (d), and the cost of the assessment process required shall be paid by the applicant.

(8) **Reciprocity.** (a) The department shall grant a standard license to any individual who possesses a valid standard license from another state and has a minimum of two (2) years of full-time teaching or administrator experience.

(b) The department shall grant a nonrenewable special license to any individual who possesses a credential which is less than a standard license or certification from another state, or who possesses a standard license from another state but has less than two (2) years of full-time teaching or administration experience. Such special license shall be valid for the current school year plus one (1) additional school year to expire on June 30 of the second year, not to exceed a total period of twenty-four (24) months, during which time the applicant shall be required to complete the requirements for a standard license in Mississippi.

(9) **Renewal and Reinstatement of Licenses.** The State Board of Education is authorized to establish rules and regulations for the renewal and reinstatement of educator and administrator licenses. Effective May 15, 1997, the valid standard license held by an educator shall be extended five (5) years beyond the expiration date of the license in order to afford the educator adequate time to fulfill new renewal requirements established pursuant to this subsection. An educator completing a master of education, educational specialist or doctor of education degree in May 1997 for the purpose of upgrading the educator’s license to a higher class shall be given this extension of five (5) years plus five (5) additional years for completion of a higher degree.

(10) All controversies involving the issuance, revocation, suspension or any change whatsoever in the licensure of an
educator required to hold a license shall be initially heard in a
hearing de novo, by the commission or by a subcommittee
established by the commission and composed of commission members
for the purpose of holding hearings. Any complaint seeking the
denial of issuance, revocation or suspension of a license shall be
by sworn affidavit filed with the Commission of Teacher and
Administrator Education, Certification and Licensure and
Development. The decision thereon by the commission or its
subcommittee shall be final, unless the aggrieved party shall
appeal to the State Board of Education, within ten (10) days, of
the decision of the committee or its subcommittee. An appeal to
the State Board of Education shall be on the record previously
made before the commission or its subcommittee unless otherwise
provided by rules and regulations adopted by the board. The State
Board of Education in its authority may reverse, or remand with
instructions, the decision of the committee or its subcommittee.
The decision of the State Board of Education shall be final.

(11) The State Board of Education, acting through the
commission, may deny an application for any teacher or
administrator license for one or more of the following:

(a) Lack of qualifications which are prescribed by law
or regulations adopted by the State Board of Education;

(b) The applicant has a physical, emotional or mental
disability that renders the applicant unfit to perform the duties
authorized by the license, as certified by a licensed psychologist
or psychiatrist;

(c) The applicant is actively addicted to or actively
dependent on alcohol or other habit-forming drugs or is a habitual
user of narcotics, barbiturates, amphetamines, hallucinogens, or
other drugs having similar effect, at the time of application for
a license;

(d) Revocation of an applicant's certificate or license
by another state;
(e) Fraud or deceit committed by the applicant in securing or attempting to secure such certification and license;

(f) Failing or refusing to furnish reasonable evidence of identification;

(g) The applicant has been convicted, has pled guilty or entered a plea of nolo contendere to a felony, as defined by federal or state law; or

(h) The applicant has been convicted, has pled guilty or entered a plea of nolo contendere to a sex offense as defined by federal or state law.

(12) The State Board of Education, acting on the recommendation of the commission, may revoke or suspend any teacher or administrator license for specified periods of time for one or more of the following:

(a) Breach of contract or abandonment of employment may result in the suspension of the license for one (1) school year as provided in Section 37-9-57;

(b) Obtaining a license by fraudulent means shall result in immediate suspension and continued suspension for one (1) year after correction is made;

(c) Suspension or revocation of a certificate or license by another state shall result in immediate suspension or revocation and shall continue until records in the prior state have been cleared;

(d) The license holder has been convicted, has pled guilty or entered a plea of nolo contendere to a felony, as defined by federal or state law;

(e) The license holder has been convicted, has pled guilty or entered a plea of nolo contendere to a sex offense, as defined by federal or state law; or

(f) The license holder knowingly and willfully committing any of the acts affecting validity of mandatory uniform test results as provided in Section 37-16-4(1).
(13) (a) Dismissal or suspension of a licensed employee by a local school board pursuant to Section 37-9-59 may result in the suspension or revocation of a license for a length of time which shall be determined by the commission and based upon the severity of the offense.

(b) Any offense committed or attempted in any other state shall result in the same penalty as if committed or attempted in this state.

(c) A person may voluntarily surrender a license. The surrender of such license may result in the commission recommending any of the above penalties without the necessity of a hearing. However, any such license which has voluntarily been surrendered by a licensed employee may be reinstated by a unanimous vote of all members of the commission.

(14) A person whose license has been suspended on any grounds except criminal grounds may petition for reinstatement of the license after one (1) year from the date of suspension, or after one-half (1/2) of the suspended time has lapsed, whichever is greater. A license suspended on the criminal grounds may be reinstated upon petition to the commission filed after expiration of the sentence and parole or probationary period imposed upon conviction. A revoked license may be reinstated upon satisfactory showing of evidence of rehabilitation. The commission shall require all who petition for reinstatement to furnish evidence satisfactory to the commission of good character, good mental, emotional and physical health and such other evidence as the commission may deem necessary to establish the petitioner's rehabilitation and fitness to perform the duties authorized by the license.

(15) Reporting procedures and hearing procedures for dealing with infractions under this section shall be promulgated by the commission, subject to the approval of the State Board of Education. The revocation or suspension of a license shall be
effected at the time indicated on the notice of suspension or revocation. The commission shall immediately notify the superintendent of the school district or school board where the teacher or administrator is employed of any disciplinary action and also notify the teacher or administrator of such revocation or suspension and shall maintain records of action taken. The State Board of Education may reverse or remand with instructions any decision of the commission regarding a petition for reinstatement of a license, and any such decision of the State Board of Education shall be final.

(16) An appeal from the action of the State Board of Education in denying an application, revoking or suspending a license or otherwise disciplining any person under the provisions of this section, shall be filed in the Chancery Court of the First Judicial District of Hinds County on the record made, including a verbatim transcript of the testimony at the hearing. The appeal shall be filed within thirty (30) days after notification of the action of the board is mailed or served and the proceedings in chancery court shall be conducted as other matters coming before the court. The appeal shall be perfected upon filing notice of the appeal and by the prepayment of all costs, including the cost of preparation of the record of the proceedings by the State Board of Education, and the filing of a bond in the sum of Two Hundred Dollars ($200.00) conditioned that if the action of the board be affirmed by the chancery court, the applicant or license holder shall pay the costs of the appeal and the action of the chancery court.

(17) All such programs, rules, regulations, standards and criteria recommended or authorized by the commission shall become effective upon approval by the State Board of Education as designated by appropriate orders entered upon the minutes thereof.

(18) The granting of a license shall not be deemed a property right nor a guarantee of employment in any public school
district. A license is a privilege indicating minimal eligibility for teaching in the public schools of Mississippi. This section shall in no way alter or abridge the authority of local school districts to require greater qualifications or standards of performance as a prerequisite of initial or continued employment in such districts.

(19) In addition to the reasons specified in subsections (12) and (13) of this section, the board shall be authorized to suspend the license of any licensee for being out of compliance with an order for support, as defined in Section 93-11-153. The procedure for suspension of a license for being out of compliance with an order for support, and the procedure for the reissuance or reinstatement of a license suspended for that purpose, and the payment of any fees for the reissuance or reinstatement of a license suspended for that purpose, shall be governed by Section 93-11-157 or 93-11-163, as the case may be. Actions taken by the board in suspending a license when required by Section 93-11-157 or 93-11-163 are not actions from which an appeal may be taken under this section. Any appeal of a license suspension that is required by Section 93-11-157 or 93-11-163 shall be taken in accordance with the appeal procedure specified in Section 93-11-157 or 93-11-163, as the case may be, rather than the procedure specified in this section. If there is any conflict between any provision of Section 93-11-157 or 93-11-163 and any provision of this chapter, the provisions of Section 93-11-157 or 93-11-163, as the case may be, shall control.

37-4-1. The Legislature finds and determines that the social, cultural and economic well-being of the people of Mississippi, and hence the state, are enhanced by various educational experiences beyond the elementary and secondary school years. The Legislature hereby provides a means for the
continuation of a system of community colleges and declares the following to be the policy of the State of Mississippi:

   (a) The general purpose of the community colleges is to provide educational services for the people of its geographic area within the legal structure of the comprehensive community college. These services include the teaching and guiding of students who intend to transfer to senior colleges to pursue an academic degree and the teaching and guiding of career-oriented students in academic, technical and vocational programs. These services also include providing opportunities for continuing education in academic, technical, vocational and adult education, and providing leadership in civic, economic and cultural growth.

   (b) Different geographic regions of the state have differing needs for human development.

   (c) All post-high school youth and adults who have the motivation and ability to benefit from additional educational services and experiences should be provided such an opportunity.

   (d) Community colleges should provide quality instructional activities that are accessible geographically and financially to the people of the state, within the resources available for this purpose.

   (e) Instructional activities should be related to the needs of the individual, region and state, and should be available throughout one's life regardless of prior educational experiences or attainment.

   (f) An appropriate relationship between local district and state financial support of community colleges shall be established.

   (g) Coordination between public schools, community colleges and universities shall complement the educational goals and attainments of individuals and the state.
(h) The associate degree should be a definitive and accepted higher educational degree, recognized for transfer to four-year institutions and for employment and promotion in business and industry.

(i) The community colleges shall be the presumptive deliverers of public post-secondary training designed to meet the needs of individuals, business and state development objectives. This includes, but is not limited to, post-secondary training conducted under federal and state vocational and technical acts.

SECTION 15. Section 37-4-9, Mississippi Code of 1972, is amended as follows:

37-4-9. The Board of Trustees of State Institutions of Higher Learning is authorized to receive income from voluntary fees, contributions, donations, other forms of financial assistance, materials or manpower from persons, corporations, organizations and other sources, private or public, to be utilized and expended by the board in carrying out the incentive certification program mandated by the Work Force and Education Act of 1994 in Sections 37-151-63 through 37-151-75. Additionally, awards or scholarships to industry or to students or both are authorized.

SECTION 16. Section 37-4-11, Mississippi Code of 1972, is amended as follows:

37-4-11. (1) The purpose of this section is to insure the uniform management, oversight and accountability of the state-funded Industrial Training Programs, and postsecondary Adult Short-term Training Programs and Workforce Education Programs administered by the Board of Trustees of State Institutions of Higher Learning for adults provided to the citizens of Mississippi.
(2) Effective July 1, 1999, all state-funded Industrial Training Programs and postsecondary Adult Short-term Training Programs administered by and through the State Department of Education on June 30, 1999, shall be transferred to the Workforce Education Program of the Board of Trustees of State Institutions of Higher Learning. The Legislature shall appropriate annually to the Board of Trustees of State Institutions of Higher Learning funds necessary to administer these programs.

(3) Effective July 1, 1999, all funds, unexpended balances, assets, liabilities and property of the State Department of Education which are used in the delivery of postsecondary Adult Short-term Training Programs and Industrial Training Programs, excluding funds, unexpended balances, assets, liabilities and property associated with the Research and Curriculum Unit at Mississippi State University, shall be transferred to the Workforce Education Program funds of the Board of Trustees of State Institutions of Higher Learning. The State Department of Education also shall transfer to the Board of Trustees of State Institutions of Higher Learning all positions and funds employed by the State Department of Education and community colleges which render industrial training, postsecondary adult short-term training or workforce education services, including the seven (7) administrative and support positions providing support to these programs. Sufficient staff positions shall be transferred from the State Department of Education, which will have a reduction in training and educational responsibilities by virtue of this act, to the Board of Trustees of State Institutions of Higher Learning to assure that the transferred responsibilities will be properly managed and administered. Any funds available to the State Department of Education for Industrial Training Programs and state-funded postsecondary Adult Short-term Training Programs which are subject to carryover shall...
be transferred to the Work Force Carryover Fund established by Chapter 498, Laws of 1995, for use by the Board of Trustees of State Institutions of Higher Learning, on or before August 15, 1999.

(4) The Board of Trustees of State Institutions of Higher Learning shall develop an accountability system that shall report and describe all classes taught in the area of workforce education, the number of persons taught in these classes, and the location and cost of each class taught. To assess the impact of these programs, the Board of Trustees of State Institutions of Higher Learning also shall report:

(a) Whether the needs of industry have been met through training program offerings;

(b) Any changes in the income of trainees between the completion of training and the date of the report;

(c) The number of jobs created and the number of jobs retained through the programs; and

(d) Trainee success in passing proficiency tests, where applicable.

This information shall be reported on a fiscal year basis and shall be provided to the House and Senate Education Committees before December 15 of each year.

(5) This section shall be repealed on July 1, 2003.

SECTION 17. Section 37-11-17, Mississippi Code of 1972, is amended as follows:

37-11-17. to submit to a thorough physical examination, deemed advisable to
determine whether he has any infectious or communicable disease.

(2) The State Board of Education may develop a program to
accomplish the identification of public school students with
abnormal spinal curvature. No state funds shall be expended for
the purposes of implementing this subsection. Such program shall:

(a) Provide that an adequate number of school personnel
in each district be instructed by qualified medical experts in the
proper examination of students for abnormal spinal curvatures;

(b) Provide that all public school students who are at
least ten (10) years old be screened at least every two (2) years
but at least in the fourth, sixth, eighth and tenth grades or at
such other times as may be recommended by medical experts on a per
case basis;

(c) Provide that students identified as having abnormal
spinal curvatures or potential for abnormal spinal curvatures be
referred to the county health officer or to the student's personal
physician or chiropractor with notice of the evaluation; and

(d) Provide for notification of the parent or guardian
of any student identified under this program and for the supplying
to such parent or guardian information on the condition and
resources available for the correction or treatment of such
condition. However, the requirement for screening shall not apply
to a child whose parent or guardian objects thereto on grounds
that the requirement conflicts with his conscientiously held
religious beliefs.

SECTION 18. Section 37-13-92, Mississippi Code of 1972, is
amended as follows:

37-13-92. (1) Beginning with the school year 1993-1994, the
school boards of all school districts shall establish, maintain
and operate, in connection with the regular programs of the school
district, an alternative school program for, but not limited to,
the following categories of compulsory-school-age students:
(a) Any compulsory-school-age child who has been suspended for more than ten (10) days or expelled from school, except for any student expelled for possession of a weapon or other felonious conduct;

(b) Any compulsory-school-age child referred to such alternative school based upon a documented need for placement in the alternative school program by the parent, legal guardian or custodian of such child due to disciplinary problems;

(c) Any compulsory-school-age child referred to such alternative school program by the dispositive order of a chancellor or youth court judge, with the consent of the superintendent of the child's school district; and

(d) Any compulsory-school-age child whose presence in the classroom, in the determination of the school superintendent or principal, is a disruption to the educational environment of the school or a detriment to the best interest and welfare of the students and teacher of such class as whole.

(2) The principal or program administrator of any such alternative school program shall require verification from the appropriate guidance counselor of any such child referred to the alternative school program regarding the suitability of such child for attendance at the alternative school program. Before a student may be removed to an alternative school education program, the superintendent of the student's school district must determine that the written and distributed disciplinary policy of the local district is being followed. The policy shall include standards for:

(a) The removal of a student to an alternative education program that will include a process of educational review to develop the student's individual instruction plan and the evaluation at regular intervals of the student's educational progress; the process shall include classroom teachers and/or other appropriate professional personnel, as defined in the
district policy, to ensure a continuing educational program for the removed student;

(b) The duration of alternative placement; and
(c) The notification of parents or guardians, and their appropriate inclusion in the removal and evaluation process, as defined in the district policy. Nothing in this paragraph should be defined in a manner to circumvent the principal's or the superintendent's authority to remove a student to alternative education.

(3) The local school board or the superintendent shall provide for the continuing education of a student who has been removed to an alternative school program.

(4) A school district, in its discretion, may provide a program of general educational development (GED) preparatory instruction in the alternative school program. However, any GED preparation program offered in an alternative school program must be administered in compliance with the rules and regulations established for such programs under Sections 37-35-1 through 37-35-11 and by the Board of Trustees of State Institutions of Higher Learning. The school district may administer the General Educational Development (GED) Testing Program under the policies and guidelines of the GED Testing Service of the American Council on Education in the alternative school program or may authorize the test to be administered through the community college district in which the alternative school is situated.

(5) Any such alternative school program operated under the authority of this section shall meet all appropriate accreditation requirements of the State Department of Education.

(6) The alternative school program may be held within such school district or may be operated by two (2) or more adjacent school districts, pursuant to a contract approved by the State Board of Education. When two (2) or more school districts contract to operate an alternative school program, the school
board of a district designated to be the lead district shall serve as the governing board of the alternative school program. Transportation for students attending the alternative school program shall be the responsibility of the local school district. The expense of establishing, maintaining and operating such alternative school program may be paid from funds contributed or otherwise made available to the school district for such purpose or from local district maintenance funds.

(7) The State Board of Education shall promulgate minimum guidelines for alternative school programs. The guidelines shall require, at a minimum, the formulation of an individual instruction plan for each student referred to the alternative school program and, upon a determination that it is in a student's best interest for that student to receive general educational development (GED) preparatory instruction, that the local school board assign the student to a GED preparatory program established under subsection (4) of this section. The minimum guidelines for alternative school programs shall also require the following components:

(a) Clear guidelines and procedures for placement of students into alternative education programs which at a minimum shall prescribe due process procedures for disciplinary and general educational development (GED) placement;

(b) Clear and consistent goals for students and parents;

(c) Curricula addressing cultural and learning style differences;

(d) Direct supervision of all activities on a closed campus;

(e) Full-day attendance with a rigorous workload and minimal time off;

(h) A motivated and culturally diverse staff;

(i) Counseling for parents and students;

(j) Administrative and community support for the program; and

(k) Clear procedures for annual alternative school program review and evaluation.

(8) On request of a school district, the State Department of Education shall provide the district informational material on developing an alternative school program that takes into consideration size, wealth and existing facilities in determining a program best suited to a district.

(9) Any compulsory-school-age child who becomes involved in any criminal or violent behavior shall be removed from such alternative school program and, if probable cause exists, a case shall be referred to the youth court.

(10) The State Board of Education, in its discretion, may exempt not more than four (4) school district alternative school programs in the state from any compulsory standard of accreditation for a period of three (3) years. During this period, the State Department of Education shall conduct a study of all alternative school programs in the state, and on or before January 1, 2000, shall develop and promulgate accreditation standards for all alternative school programs, including any recommendations for necessary legislation relating to such alternative school programs.

SECTION 19. Section 37-27-6, Mississippi Code of 1972, is amended as follows:
37-27-6. The board of supervisors of any county wherein the control, operation and maintenance of the agricultural high school has been transferred to the county board of education under provisions of Section 37-29-272, is hereby authorized, in its discretion, upon request in writing of the president of the community college district in which such county is located, to levy on the taxable property in the county at the time the annual tax levy is made, a tax under Section 37-27-5 as is necessary for the retirement of debt service on bonds heretofore issued for the building, repair and equipment of such agricultural high school.

SECTION 20. Section 37-27-51, Mississippi Code of 1972, is amended as follows:

37-27-51. The board of trustees of any agricultural high school or the president of any community college, in connection with which an agricultural high school is operated, and the board of trustees of any school district, or a county board of education, under the conditions hereinafter provided for, are hereby authorized and empowered to enter into agreements, one with the other, providing for the attendance of any high school pupils of such school district or any grades thereof, at such agricultural high school or community college, and for the instruction of such high school pupils or grades at such agricultural high school or community college. Subject to the provisions of Sections 37-27-53 through 37-27-59, all such contracts so executed shall be upon such terms and conditions as may be agreed upon by and between the boards of trustees or the county board of education involved. All such contracts shall be subject to the approval of the State Board of Education.

Any parent or guardian of such high school pupil or pupils, as to an individual pupil or as to any grade or grades, may request in writing that such agreement be entered into with the board of trustees of said agricultural high school or president of any community college in connection with which an agricultural
high school is operated. Such request shall be filed or lodged
with the president or secretary of the board of trustees of such
school district. Said board of trustees of said school district
shall no later than the date of its next regular meeting approve
or disapprove the request therein made to provide for the
attendance of the pupil or pupils, or grade or grades, at such
agricultural high school; failure of said board of trustees of
such school district to act upon said request not later than said
date shall be and will constitute a disapproval or rejection
thereof.

In the event such board of trustees of said school district
shall either disapprove or reject said request, or fail to act
thereon on or before said date, then and in that event the county
board of education is hereby authorized to act upon such request
not later than the next regular meeting date of the said county
board of education after the filing or lodging by such parent or
guardian of a true copy of the request theretofore filed or lodged
with the said board of trustees of the said school district, with
the president or secretary of the said county board of education,
and with said copy shall be filed or lodged a written statement of
the action, if any, or nonaction, taken by the board of trustees
of the said school district upon the request made to it. If such
request be approved by the county board of education, then it may
proceed to enter into such agreement with the board of trustees of
said agricultural high school or the president of said community
college, but subject to the approval of the State Board of
Education.

SECTION 21. Section 37-29-1, Mississippi Code of 1972, is
amended as follows:

37-29-1. (1) The creation, establishment, maintenance and
operation of community * * * colleges is authorized. From and
after May 1, 1998, community * * * colleges may admit students if
they have earned one (1) unit less than the number of units
required for high school graduation established by State Board of
Education policy or have earned a General Education Diploma (GED)
in courses correlated to those of senior colleges or professional
schools. They shall offer education and training preparatory for
occupations such as agriculture, industry, business, homemaking
and for other occupations on the semi-professional and
vocational-technical level. They may offer courses and services
to students regardless of their previous educational attainment or
further academic plans.

(2) The community college districts are
authorized to establish a dual enrollment program under which high
school students meeting the requirements prescribed herein may
enroll at a community college while they are still attending
high school and enrolled in high school courses. Students may be
admitted to enroll in community college courses under the
dual enrollment program if they meet the following recommended
admission requirements:

(a) Students must have completed a minimum of fourteen
core high school units;

(b) Students must have a minimum ACT composite score of
twenty-one (21) or the equivalent SAT score;

(c) Students must have a 3.0 grade point average on a 4.0 scale, or better, on all high school courses, as documented by
an official high school transcript; a home-schooled student must
submit a transcript prepared by a parent, guardian or custodian
with a signed, sworn affidavit to meet the requirement of this
paragraph (c); and

(d) Students must have an unconditional written
recommendation from their high school principal and/or guidance
counselor. A home-schooled student must submit a parent, legal
guardian or custodian's written recommendation to meet the
requirement of this paragraph (d).
Students may be considered for the dual enrollment program who have not completed the minimum of fourteen (14) core high school units if they have a minimum ACT composite score of thirty (30) or the equivalent SAT score, and have the required grade point average and recommendations prescribed above.

Students admitted in the dual enrollment program shall be counted for minimum program funding purposes in the average daily attendance of the public school district in which they attend high school. Any additional transportation required by a student to participate in the dual enrollment program shall be the responsibility of the parents or legal guardians of the student.

Grades and college credits earned by students admitted to the dual enrollment program shall be recorded on the college transcript at the community college where the student attends classes.

The transcript of such college course work may be released to another institution or used for college graduation requirements only after the student has received his high school diploma.

(3) The community college districts are authorized to establish an early admission program under which applicants meeting all requirements prescribed in subsection (2)(a), (c) and (d) and have a minimum ACT composite score of twenty-six (26) or the equivalent SAT score may be admitted as full-time college students if the principal or guidance counsellor of the student recommends in writing that it is in the best educational interest of the student. Such recommendation shall also state that the student's age will not keep him from being a successful full-time college student. Students admitted in the early admission program shall not be counted for minimum program funding purposes in the average daily attendance of the school district in which they reside, and transportation required by a student to participate in the early admission program shall be the responsibility of the parents or legal guardians of the student.

Grades and college credits earned by students admitted to the
early admission program shall be recorded on the college
transcript at the community college where the student
attends classes, and may be released to another institution or
used for college graduation requirements only after the student

no reduction of reimbursements from state funding for distributive 
education due to the selection of either the one-hour or two-hour

(e) Set and publish licensure standards for vocational

practices and procedures;

(n) Assist in the development of high technology
programs and resource centers to support current and projected
industrial needs;

(o) Assist in the development of a technical assistance
program for business and industry which will provide for
industrial training and services, including the transfer of
information relative to new applications and advancements in
technology; and

(p) Enter into contracts and agreements with the Board
of Trustees of State Institutions of Higher Learning for
conditions under which vocational and technical education programs
in community * * * colleges shall receive state and federal funds
which flow through the State Board of Education for such purposes.
(2) It is the intent of the Legislature that no vocational and technical education course or program existing on June 30, 1982, shall be eliminated by the State Board of Education under the authority vested in paragraph (d) of subsection (1) of this section prior to June 30, 1985. It is further the intent of the Legislature that no vocational and technical education teacher or other personnel employed on June 30, 1983, shall be discharged due to licensure standards promulgated by the board under paragraph (e) of subsection (1) of this section, if any such teacher or personnel shall have complied with any newly published licensure standards by June 30, 1985. Nothing contained in this section shall be construed to abrogate or affect in any manner the authority of local public school districts or community colleges to eliminate vocational and technical education courses or programs or to discharge any vocational and technical education teacher or other personnel.

(3) The State Board of Education and the Board of Trustees of State Institutions of Higher Learning may provide that beginning with the 1995-1996 school year, every vocational and technical education course or program in Mississippi may integrate academic and vocational-technical education through coherent sequences of courses, so that students in such programs achieve both academic and occupational competencies. The boards may expend federal funds available from the 1990 Perkins Act, or other available federal funds, for the alignment of vocational-technical programs with academic programs through the accreditation process and the teacher licensure process.

SECTION 72. Section 37-35-1, Mississippi Code of 1972, is amended as follows:

37-35-1. The Board of Trustees of State Institutions of Higher Learning is authorized and directed to prescribe rules and regulations, which said rules and regulations when properly promulgated and not inconsistent with the provisions of this...
chapter shall have the force and effect of law, under which a
program may be established, maintained and supervised for the
purpose of supplying educational advantages to adults, which shall
include all persons sixteen (16) years of age and over, not
enrolled in school or required to be enrolled in school by the
compulsory school attendance law, Section 37-13-91. The aim and
purpose of such a program shall be to reduce illiteracy and to
provide a general plan of continuing education in the fundamental
principles of democratic society, citizenship, public affairs,
forums, home family life, arts and crafts, general cultural
subjects with priority to be given to academic training through
high school and training in technical skills and trades needed by
industries, and such other subjects as the *** Board of Trustees
of State Institutions of Higher Learning may prescribe for the
social and economic advancement of adults. The *** Board of
Trustees of State Institutions of Higher Learning is authorized to
employ such additional supervisory, secretarial and clerical
personnel as may be necessary to carry out the provisions of this
chapter.

SECTION 73. Section 37-35-3, Mississippi Code of 1972, is
amended as follows:

37-35-3. (1) The board of trustees of any school district
and any community *** college may establish and maintain classes
for adults, including general educational development classes,
under the regulations authorized in this chapter and pursuant to
the standards prescribed in subsection (3). The property and
facilities of the public school districts may be used for this
purpose where such use does not conflict with uses already
established.

(2) The trustees of any school district desiring to
establish such program may request the taxing authority of the
district to levy additional ad valorem taxes for the support of
this program. The board of supervisors, in the case of a county
school district or a special municipal separate school district *, and the governing authority of any municipality, in the case of a municipal separate school district, is authorized, in its discretion, to levy a tax not exceeding one (1) mill upon all the taxable property of the district for the support of this program. The tax shall be in addition to all other taxes authorized by law to be levied. In addition to the funds realized from any such levy, the board of trustees of any school district is authorized to use any surplus funds that it may have or that may be made available to it from local sources to supplement this program.

(3) (a) Any student participating in an approved General Educational Development (GED) program administered by a local school district or the appropriate community college shall not be considered a dropout. Students in such a program administered by a local school district shall be considered as enrolled within the school district of origin for the purpose of enrollment for minimum program funding only. Such students shall not be considered as enrolled in the regular school program for academic or programmatic purposes. Students in such a program administered by a community college shall be considered as enrolled in the school district of origin for funding purposes.

(b) Students participating in an approved General Educational Development (GED) program shall have an individual career plan developed at the time of placement to insure that the student’s academic and job skill needs will be met. The Individual Career Plan will address, but is not limited to, the following:

(i) Academic/instructional needs of the student;
(ii) Job readiness needs of the student; and
(iii) Work experience program options available for the student.
(c) Students participating in an approved General Educational Development (GED) program may participate in existing job and skills development programs or in similar programs developed in conjunction with the GED program and the vocational director.

(d) General Educational Development (GED) programs may be operated by local school districts or may be operated by two (2) or more adjacent school districts, pursuant to a contract approved by the State Board of Education. When two (2) or more school districts contract to operate a General Educational Development (GED) program, the school board of a district designated to be the lead district shall serve as the governing board of the General Educational Development (GED) program.

Transportation for students placed in the General Educational Development (GED) program shall be the responsibility of the school district of origin. The expense of establishing, maintaining and operating such GED programs may be paid from funds made available to the school district through contributions, minimum program funds or from local district maintenance funds.

(e) Students participating in an approved General Educational Development (GED) program within a community college shall be included in the average daily attendance of the school district of origin. The school district of origin is authorized to contract with the community college to provide GED services for the student.

(f) The State Department of Education will develop procedures and criteria for placement of a student in the General Educational Development (GED) programs. Students placed in General Educational Development (GED) programs shall have parental approval for such placement and must meet the following criteria:

(i) The student must be at least sixteen (16) years of age;
(ii) The student must be at least two (2) grade levels behind or acquired less than four (4) Carnegie units;

(iii) The student must have taken every opportunity to continue to participate in coursework leading to a diploma; and

(iv) The student must be certified to be eligible to participate in the GED course by the school district superintendent, based on the developed criteria.

(g) Students participating in an approved General Educational Development (GED) program may be excluded from the Mississippi Student Assessment Program, based on the existence of appropriate alternate accountability measures that have been approved by the State Department of Education.

SECTION 74. Section 37-35-5, Mississippi Code of 1972, is amended as follows:

37-35-5. For the purpose of supporting the adult education program authorized in this chapter, the Board of Trustees of State Institutions of Higher Learning is authorized to accept for and on behalf of the State of Mississippi, federal funds made available to the state for the purpose of adult education. Such funds shall be used by the Board of Trustees of State Institutions of Higher Learning for the administration of the program and to supplement the local funds made available by any school district, provided such program is conducted under the rules and regulations established by the Board of Trustees of State Institutions of Higher Learning. All programs of adult basic education administered by the State Department of Education on July 1, 1992, shall be continued with at least the same level of funding, until July 1, 1995, provided that such programs are financially and programmatically sound and meet the requirements of federal rules and regulations. Nothing in Sections 37-35-1 through 37-35-11 shall be interpreted in a manner to prevent or interfere with the independent operation or administration of
adult education under the Department of Human Services, including but not limited to those programs administered by the Governor's Office of Literacy and Workplace Enhancement, or of any general educational development preparatory instruction and testing administered by a school district in an alternative school program.

**SECTION 75.** Section 37-35-7, Mississippi Code of 1972, is amended as follows:

37-35-7. Any funds that may be appropriated by the State Legislature for the purpose of carrying out a program of adult education may be used to supplement local funds or to meet the minimum requirements of the federal government for a program of adult education in the state, provided such program is conducted under the rules and regulations established by the * * * Board of Trustees of State Institutions of Higher Learning.

**SECTION 76.** Section 37-35-9, Mississippi Code of 1972, is amended as follows:

37-35-9. The * * * Board of Trustees of State Institutions of Higher Learning is authorized to develop and establish general educational development preparatory classes in secondary schools and community * * * colleges and to provide financial assistance from the state for the specific purpose of preparing persons sixteen (16) years of age and older, not enrolled in school or required to be enrolled in school by the Compulsory School Attendance Law (Section 37-13-91) to successfully write the general educational development test and earn a certificate of equivalency which is equivalent to the high school diploma.

The * * * Board of Trustees of State Institutions of Higher Learning is authorized to administer the General Educational Development (GED) Testing Program under the policies and guidelines of the GED Testing Service of the American Council on Education.
This program shall be administered by the Board of Trustees of State Institutions of Higher Learning through the secondary schools and community colleges as the local needs indicate and are practical.

Full and general supervision over the program by the Board of Trustees of State Institutions of Higher Learning shall insure that duplication of effort by secondary schools and community colleges will be eliminated; however, nothing in this section shall be construed to prohibit a school district from implementing a program of general educational development (GED) preparatory instruction and testing in an alternative school program.

Adult students for general educational development preparatory classes may be accepted by schools and community colleges from any area of the state provided students are bona fide residents of Mississippi.

Instructors, counselors and supervisors utilized in the teaching of general educational development preparatory classes shall be licensed in the appropriate area as required by the Board of Trustees of State Institutions of Higher Learning.

SECTION 77. Section 37-35-11, Mississippi Code of 1972, is amended as follows:

37-35-11. The Board of Trustees of State Institutions of Higher Learning shall determine policies and procedures for administration of this program.

Funds provided under this section and Section 37-35-9 can be used for matching federal funds if such become available.

Funds provided under this section and Section 37-35-9 shall be allocated to schools and community colleges on an average of twelve (12) to fifteen (15) adult students per class in average attendance, for one hundred fifty (150) hours maximum instruction per class. Funds will be allocated on a basis of target population by county for general educational development.
preparatory classes based on adults who have from nine (9) to eleven (11) years of schooling as indicated by the 1990 census.

Schools and community colleges will receive one hundred percent (100%) of the cost of general educational development preparatory classes. All classes funded under this section and Section 37-35-9 shall be considered temporary and shall be renewed only as long as participation is adequate for continued funding.

An annual report on program activities, adult participation and results shall be prepared by the Board of Trustees of State Institutions of Higher Learning and submitted to the Mississippi Legislature within the first month of regular legislative session each year.

SECTION 78. Section 37-47-17, Mississippi Code of 1972, is amended as follows:

37-47-17. Applications for the expenditure of funds to the credit of any school district in the State Public School Building Fund shall originate with the school board of the school district entitled to such funds. Before any funds to the credit of a school district shall be expended for capital improvements or the retirement of outstanding bonded indebtedness, the school board of such school district shall prepare and submit an application in such form as may be prescribed by the board. There shall be included with such application a statement in which there is set forth the enrollment and average daily attendance in the schools of the district divided as to schools and grades, the number of teachers employed, the facilities in use, the facilities to be provided with the funds to be expended, the outstanding school indebtedness, and such other information as the board may require. Such application and statement shall be submitted directly to the board and approved or disapproved by it. The decision of the board shall be final, unless an appeal to the chancery court shall be taken in the manner provided by law. In the event any application shall be disapproved by the board, the school board
submitting same shall be notified of such disapproval, which notice of disapproval shall be accompanied by a statement of the reason or reasons for such disapproval.

The board shall approve only those applications which are found to be proper under the provisions of this chapter and the applicable rules and regulations of the board. When an application is approved for the expenditure of funds for capital improvements, the contract for the construction of such capital improvements shall be entered into and awarded by the school board of the school district in the manner provided in this chapter; however, the contract for construction of a secondary vocational and technical training center for exclusive use and operation by a school district may be entered into and awarded by the president of a community college district where a grant of federal funds by the Appalachian Commission has been made to such community college district to assist in financing construction of such secondary vocational and technical training facility for such school district.

SECTION 79. Section 37-47-19, Mississippi Code of 1972, is amended as follows:

37-47-19. Where the expenditure of any funds to which any school district may be entitled has been authorized, as provided in Section 37-47-17, such funds shall be withdrawn from the public school building fund by the board and deposited in the school depository to the credit of the school district entitled thereto as a special fund to be known as the "Public School Building Fund" of the school district entitled thereto. Such money so deposited shall be paid out and expended in the same manner as may be now or hereafter provided by law for the expenditure of other school funds belonging to such district; however, where the contract for construction of a secondary vocational and technical training center shall have been entered into and awarded by a community college district as authorized by Section 37-47-29, the
money so deposited in the public school building fund of the
school district for which said facility is being constructed may
be paid out and expended to pay a part of the cost of construction
of such facility.

SECTION 80. Section 37-47-29, Mississippi Code of 1972, is
amended as follows:

37-47-29. All contracts for capital improvements by any
school district which are financed in whole or in part with funds
received from the State Public School Building Fund pursuant to an
application approved by the board shall be awarded and entered
into upon receipt of sealed bids or proposals after the time and
place of letting such contracts and the manner of bidding has been
duly advertised. The contract shall be let and awarded to the
lowest and best bidder but the board of trustees or other
governing body of the school district shall have the power to
reject any and all bids. No such contract shall be finally
awarded or entered into without the prior written approval of the
board. It is hereby expressly provided that in order to bid upon
and be awarded contracts for the construction of school facilities
under the provisions of this chapter, if such contract,
subcontract or undertaking is less than Fifty Thousand Dollars
($50,000.00), it shall not be necessary that the bidder obtain a
certificate of responsibility from the Board of Public Contractors
under the provisions of Chapter 3, Title 31, of the Mississippi
Code of 1972, or otherwise be qualified under said chapter, and
none of the provisions of said chapter shall be applicable to such
contracts for the construction of school facilities under the
provisions hereof. Notwithstanding the foregoing provisions of
this section or any other provisions of law, the contract for
construction of a secondary vocational and technical training
center for exclusive use and operation by a county school district
may be entered into and awarded by * * * a community college
district where a grant of federal funds by the Appalachian
Commission has been made to such community college district

to assist in financing construction of such secondary vocational
and technical training facility for such county school district.

SECTION 81. Section 37-57-107, Mississippi Code of 1972, is
amended as follows:

37-57-107. Beginning with the tax levy for the 1997 fiscal
year and for each fiscal year thereafter, the aggregate receipts
from taxes levied for school district purposes pursuant to
Sections 37-57-105 and 37-57-1 shall not exceed the aggregate
receipts from those sources during any one (1) of the immediately
preceding three (3) fiscal years, as determined by the school
board, plus an increase not to exceed seven percent (7%). For the
purpose of this limitation, the term "aggregate receipts" when
used in connection with the amount of funds generated in a
preceeding fiscal year shall not include excess receipts required
by law to be deposited into a special account, and shall not
include any amounts received by school districts from the School
Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35. The
additional revenue from the ad valorem tax on any newly
constructed properties or any existing properties added to the tax
rolls or any properties previously exempt which were not assessed
in the next preceding year may be excluded from the seven percent
(7%) increase limitation set forth herein. Taxes levied for
payment of principal of and interest on general obligation school
bonds issued heretofore or hereafter shall be excluded from the
seven percent (7%) increase limitation set forth herein. Any
additional millage levied to fund any new program mandated by the
Legislature shall be excluded from the limitation for the first
year of the levy and included within such limitation in any year
thereafter. For the purposes of this section, the term "new
program" shall include, but shall not be limited to, (a) the Early
Childhood Education Program required to commence with the
1986-1987 school year as provided by Section 37-21-7 and any
additional millage levied and the revenue generated therefrom, which is excluded from the limitation for the first year of the levy, to support the mandated Early Childhood Education Program shall be specified on the minutes of the school board and of the governing body making such tax levy, (b) any additional millage levied and the revenue generated therefrom which shall be excluded from the limitation for the first year of the levy, for the purpose of generating additional local contribution funds required for the adequate education program for the 2003 fiscal year and for each fiscal year thereafter under Section 37-151-7(2); and (c) any additional millage levied and the revenue generated therefrom which shall be excluded from the limitation for the first year of the levy, for the purpose of support and maintenance of any agricultural high school which has been transferred to the control, operation and maintenance of the school board by a community college district under provisions of Section 37-29-272.

The seven percent (7%) increase limitation prescribed in this section may be increased an additional amount only when the school board has determined the need for additional revenues and has held an election on the question of raising the limitation prescribed in this section. The limitation may be increased only if three-fifths (3/5) of those voting in the election shall vote for the proposed increase. The resolution, notice and manner of holding the election shall be as prescribed by law for the holding of elections for the issuance of bonds by the respective school boards. Revenues collected for the fiscal year in excess of the seven percent (7%) increase limitation pursuant to an election shall be included in the tax base for the purpose of determining aggregate receipts for which the seven percent (7%) increase limitation applies for subsequent fiscal years.

Except as otherwise provided for excess revenues generated pursuant to an election, if revenues collected as the result of the taxes levied for the fiscal year pursuant to this section and
Section 37-57-1 exceed the increase limitation, then it shall be
the mandatory duty of the school board of the school district to
deposit such excess receipts over and above the increase
limitation into a special account and credit it to the fund for
which the levy was made. It will be the further duty of such
board to hold said funds and invest the same as authorized by law.

Such excess funds shall be calculated in the budgets for the
school districts for the purpose for which such levies were made,
for the succeeding fiscal year. Taxes imposed for the succeeding
year shall be reduced by the amount of excess funds available.
Under no circumstances shall such excess funds be expended during
the fiscal year in which such excess funds are collected.

For the purposes of determining ad valorem tax receipts for a
preceding fiscal year under this section, the term "fiscal year"
means the fiscal year beginning October 1 and ending September 30.

SECTION 82. Section 37-61-33, Mississippi Code of 1972, is
amended as follows:

37-61-33. (1) There is created within the State Treasury a
special fund to be designated the "Education Enhancement Fund"
into which shall be deposited all the revenues collected pursuant
to Sections 27-65-75(7) and (8) and 27-67-31(a) and (b).

(2) Of the amount deposited into the Education Enhancement
Fund, Sixteen Million Dollars ($16,000,000.00) shall be
appropriated each fiscal year to the State Department of Education
to be distributed to all school districts. Such money shall be
distributed to all school districts in the proportion that the
average daily attendance of each school district bears to the
average daily attendance of all school districts within the state
for the following purposes:

(a) Purchasing, erecting, repairing, equipping,
remodeling and enlarging school buildings and related facilities,
including gymnasiums, auditoriums, lunchrooms, vocational training
buildings, libraries, teachers' homes, school barns,
transportation vehicles (which shall include new and used
transportation vehicles) and garages for transportation vehicles,
and purchasing land therefor.

(b) Establishing and equipping school athletic fields
and necessary facilities connected therewith, and purchasing land
therefor.

(c) Providing necessary water, light, heating, air
conditioning and sewerage facilities for school buildings, and
purchasing land therefor.

(d) As a pledge to pay all or a portion of the debt
service on debt issued by the school district under Sections
through 37-7-359, 37-41-89 through 37-41-99, 37-7-301, 37-7-302
and 37-41-81, or debt issued by boards of supervisors for
agricultural high schools pursuant to Section 37-27-65, if such
pledge is accomplished pursuant to a written contract or
resolution approved and spread upon the minutes of an official
meeting of the district's school board or board of supervisors.
The annual grant to such district in any subsequent year during
the term of the resolution or contract shall not be reduced below
an amount equal to the district's grant amount for the year in
which the contract or resolution was adopted. The intent of this
 provision is to allow school districts to irrevocably pledge a
certain, constant stream of revenue as security for long-term
obligations issued under the code sections enumerated in this
paragraph or as otherwise allowed by law. It is the intent of the
Legislature that the provisions of this paragraph shall be
cumulative and supplemental to any existing funding programs or
other authority conferred upon school districts or school boards.
Debt of a district secured by a pledge of sales tax revenue
pursuant to this paragraph shall not be subject to any debt
limitation contained in the foregoing enumerated code sections.
(3) The remainder of the money deposited into the Education Enhancement Fund shall be appropriated as follows:

(a) To the State Department of Education as follows:

(i) Sixteen and sixty-one one-hundredths percent (16.61%) to the cost of the adequate education program determined under Section 37-151-7;

(ii) Seven and ninety-seven one-hundredths percent (7.97%) to assist the funding of transportation operations and maintenance pursuant to Section 37-19-23; and

(iii) Nine and sixty-one one-hundredths percent (9.61%) for classroom supplies, instructional materials and equipment, including computers and computer software, to be distributed to all school districts in the proportion that the average daily attendance of each school district bears to the average daily attendance of all school districts within the state. (c) The commission may initiate an investigation without a complaint.

3 Hearing procedures. (a) Upon a finding that there is good cause to believe that a school, or an officer, agent, employee, partner or teacher, has committed a violation of subsection (1) of this section, the commission shall initiate proceedings by serving a notice of hearing upon each and every such party subject to the administrative action. The school or such party shall be given reasonable notice of hearing, including the time, place and nature of the hearing and a statement sufficiently particular to give notice of the transactions or occurrences intended to be proved, the material elements of each cause of action and the civil penalties and/or administrative sanctions sought.

(b) Opportunity shall be afforded to the party to respond and present evidence and argument on the issues involved in the hearing including the right of cross-examination. In a hearing, the school or such party shall be accorded the right to have its representative appear in person or by or with counsel or other representative. Disposition may be made in any hearing by stipulation, agreed settlement, consent order, default or other informal method.

(c) The commission shall designate an impartial hearing officer to conduct the hearing, who shall be empowered to:

(i) Administer oaths and affirmations; and

(ii) Regulate the course of the hearings, set the time and place for continued hearings, and fix the time for filing of briefs and other documents; and
(iii) Direct the school or such party to appear and confer to consider the simplification of the issues by consent; and

(iv) Grant a request for an adjournment of the hearing only upon good cause shown.

The strict legal rules of evidence shall not apply, but the decision shall be supported by substantial evidence in the record.

(4) The commission, acting by and through its hearing officer, is hereby authorized and empowered to issue subpoenas for the attendance of witnesses and the production of books and papers at such hearing. Process issued by the commission shall extend to all parts of the state and shall be served by any person designated by the commission for such service. Where, in any proceeding before the hearing officer, any witness fails or refuses to attend upon a subpoena issued by the commission, refuses to testify, or refuses to produce any books and papers the production of which is called for by a subpoena, the attendance of such witness, the giving of his testimony or the production of the books and papers shall be enforced by any court of competent jurisdiction of this state in the manner provided for the enforcement of attendance and testimony of witnesses in civil cases in the courts of this state.

(5) **Decision after hearing.** The hearing officer shall make written findings of fact and conclusions of law, and shall also recommend in writing to the commission a final decision, including penalties. The hearing officer shall mail a copy of his findings of fact, conclusions of law and recommended penalty to the party and his attorney, or representative. The commission shall make the final decision, which shall be based exclusively on evidence and other materials introduced at the hearing. If it is determined that a party has committed a violation, the commission shall issue a final order and shall impose penalties in accordance with this section. The commission shall send by certified mail,
return receipt requested, a copy of the final order to the party and his attorney, or representative. The commission shall, at the request of the school or such party, furnish a copy of the transcript or any part thereof upon payment of the cost thereof.

(6) Civil penalties and administrative sanctions. (a) A hearing officer may recommend, and the commission may impose, a civil penalty not to exceed Two Thousand Five Hundred Dollars ($2,500.00) for any violation of this section. In the case of a second or further violation committed within the previous five (5) years, the liability shall be a civil penalty not to exceed Five Thousand Dollars ($5,000.00) for each such violation.

(b) Notwithstanding the provisions of paragraph (a) of this subsection, a hearing officer may recommend and the commission may impose a civil penalty not to exceed Twenty-five Thousand Dollars ($25,000.00) for any of the following violations: operation of a school without a registration in violation of this chapter; (ii) operation of a school knowing that the school's registration has been suspended or revoked; (iii) use of false, misleading, deceptive or fraudulent advertising; (iv) employment of recruiters on the basis of a commission, bonus or quota, except as authorized by the commission; (v) directing or authorizing recruiters to offer guarantees of jobs upon completion of a course; (vi) failure to make a tuition refund when such failure is part of a pattern of misconduct; or (vii) violation of any other provision of this chapter, or any rule or regulation promulgated pursuant thereto, when such violation constitutes part of a pattern of misconduct which significantly impairs the educational quality of the program or programs being offered by the school.

For each enumerated offense, a second or further violation committed within the previous five (5) years shall be subject to a civil penalty not to exceed Fifty Thousand Dollars ($50,000.00) for each such violation.
(c) In addition to the penalties authorized in paragraphs (a) and (b) of this subsection, a hearing officer may recommend and the commission may impose any of the following administrative sanctions: (i) a cease and desist order; (ii) a mandatory direction; (iii) a suspension or revocation of a certificate of registration; (iv) a probation order; or (v) an order of restitution.

(d) The commission may suspend a registration upon the failure of a school to pay any fee, fine or penalty as required by this chapter unless such failure is determined by the commission to be for good cause.

(e) All civil penalties, fines and settlements received shall accrue to the credit of the State General Fund.

(7) Any penalty or administrative sanction imposed by the commission under this section may be appealed by the school, college or other person affected to the Board of Trustees of State Institutions of Higher Learning as provided in Section 75-60-4(3), which appeal shall be on the record previously made before the commission's hearing officer.
