- 12 teams in order to implement a coordinated multidisciplinary team
- 13 approach to intervention in reports involving alleged severe or
- 14 potential felony child physical or sexual abuse, exploitation, or
- 15 maltreatment. The multidisciplinary team also may be known as a
- 16 child abuse task force. The purpose of the team or task force
- 17 shall be to assist in the evaluation and investigation of reports
- 18 and to provide consultation and coordination for agencies involved
- 19 in child protection cases. The agencies to be included as members
- 20 of the multidisciplinary team are: the district attorney's
- 21 office, city and county law enforcement agencies, county
- 22 attorneys, youth court prosecutors, and other agencies as

- 24 (2) To implement the multidisciplinary child abuse team, the
- 25 team or task force must be authorized by court order from the
- 26 appropriate Youth Court. The court order will designate which
- 27 agencies will participate in the cooperative multidisciplinary
- 28 team.

Teams created under this section may invite other (3) (a) persons to serve on the team who have knowledge of and experience in child abuse and neglect matters. These persons may include licensed mental and physical health practitioners and physicians, dentists, representatives of the district attorney's office and the Attorney General's office, experts in the assessment and treatment of substance abuse or sexual abuse, the victim assistance coordinator of the district attorney's office and staff members of a child advocacy center.

(b) (i) A child advocacy center means an agency that advocates on behalf of children alleged to have been abused and assists in the coordination of the investigation of child abuse by providing a location for forensic interviews and promoting the coordination of services for children alleged to have been abused. A child advocacy center provides services that include, but are not limited to, forensic medical examinations, mental health and related support services, court advocacy, consultation, training for social workers, law enforcement training, and child abuse multidisciplinary teams; and staffing of multidisciplinary teams.

(ii) Child advocacy centers may provide a video-taped forensic interview of the child in a child friendly environment or separate building. The purpose of the video-taped forensic interview is to prevent further trauma to a child in the investigation and prosecution of child physical and sexual abuse cases. Child advocacy centers can also assist child victims by providing therapeutic counseling subsequent to the interview by a qualified therapist. Child advocacy centers can also assist law enforcement and prosecutors by acquainting child victim witnesses and their parents or guardians to the courtroom through child court school programs.
