77 purposes for which originally collected.

102 participating in the CEAP Fund program at any time.

103 (b) When a utility terminates its participation in
104 CEAP, after notifying the department, the termination will be
105 effective after the end of the billing month that the utility
106 designates as the final month of the utility's participation,
107 which end of the month must be prospective from the date on which
108 the utility makes its decision to terminate its participation.

109 (4) The department shall distribute funds from the CEAP Fund

110 pursuant to the rules adopted by the department, which rules must
111 include the purposes for which funds will be distributed,
112 including, but not necessarily limited to:

117 (c) Incidental housing repairs determined by the
118 department to be necessary to ensure the viability of energy

122 technical assistance to local agencies delivering CEAP services;

123 (e) Electric and natural gas bill affordability
124 assistance; and

126 ten percent (10%) of the total CEAP Fund may be expended on
127 program administrative costs in any given year, with no more than
128 twenty percent (20%) of this ten percent (10%) being retained for
129 use by the department and the balance being made available to the
130 local administering agencies for the purposes of Sections
131 43-33-151 through 43-33-157. The department's rules must provide
132 that the distribution of funds from the CEAP Fund must be for the
133 purpose of making natural gas and electric utility bills more
134 affordable to income eligible customers.

135 (5) The department may reserve from the funds collected in
136 any fiscal year an amount not to exceed ten percent (10%) to
137 provide, directly or indirectly, training and technical assistance
138 to local agencies delivering CEAP services. This training and
139 technical assistance may include providing information concerning
140 conservation practices to income eligible customers. The
141 department shall administer the CEAP Fund energy efficiency
142 programs by contracting with the local grantees of the Department
143 of Energy Weatherization Assistance Program or its successor and

158 households participating in means-tested state or federal programs
159 with similar eligibility guidelines, including, but not limited
160 to, Food Stamps, Temporary Assistance to Needy Families and
161 Supplemental Security Income, as eligible for assistance through
162 the CEAP Fund. The department may define other low-income
163 populations with particular physical or economic vulnerability to
164 weather conditions or energy supply interruptions as eligible for
165 assistance from the CEAP Fund.

166 (7) An eligible residential customer may receive one or more
167 of the forms of assistance available from the CEAP Fund and may
168 not be required to participate in the state or federal energy
169 assistance or weatherization assistance programs as a condition of
170 participating in the CEAP Fund programs.

171 (8) The residential customers of each participating
172 distribution electric utility and participating distribution
173 natural gas utility are eligible for assistance from the CEAP Fund
174 in an aggregate amount that equals each specific utility's pro
175 rata share of the total contributions to the CEAP Fund. Services
176 funded through the CEAP Fund will be provided without
177 consideration of whether or not the residential customer is or has
178 been a contributor under the CEAP program, if the customer
179 receiving assistance is a customer of a participating distribution

180 electric utility or participating distribution natural gas utility
181 collecting the CEAP charge from its residential customers.
