127 19-5-307. (1) When any district is created, the board of
128 supervisors of the county creating such district may appoint a
129 board of commissioners composed of seven (7) members to govern its
130 affairs, and shall fix the domicile of the board at any point
131 within the district. The members of the board shall be qualified
132 electors of the district, two (2) of whom shall be appointed for
133 terms of two (2) years, three (3) for terms of three (3) years,
134 and two (2) for terms of four (4) years, dating from the date of
135 the adoption of the ordinance creating the district. Thereafter,
136 all appointments of the members shall be for terms of four (4)
137 years.

138 (2) The board of commissioners shall have complete and sole
139 authority to appoint a chairman and any other officers it may deem
140 necessary from among the membership of the board of commissioners.

141 (3) A majority of the board of commissioners membership
142 shall constitute a quorum and all official action of the board of
143 commissioners shall require a quorum.

144 (4) The board of commissioners shall have authority to
145 employ such employees, experts and consultants as it may deem
146 necessary to assist the board of commissioners in the discharge of
147 its responsibilities to the extent that funds are made available.

148 (5) In lieu of appointing a board of commissioners, the
149 board of supervisors of the county may serve as the board of
150 commissioners of the district, in which case it shall assume all

151 the powers and duties of the board of commissioners as provided in
152 Section 19-5-301 et seq.

153 (6) All emergency communications districts shall purchase,
154 lease or lease-purchase equipment used to comply with the FCC
155 Order as defined in Section 19-5-333 from a products and equipment
156 list to be maintained by the Mississippi Department of Information

158 from the list, or items which may be purchased at a lower price,
159 shall be purchased in accordance with the Public Purchasing Law,
160 Section 31-7-13.

161 **SECTION 3.** Section 19-5-313, Mississippi Code of 1972, is
162 reenacted as follows:

163 19-5-313. (1) The board of supervisors may levy an
164 emergency telephone service charge in an amount not to exceed One
165 Dollar (\$1.00) per residential telephone subscriber line per month
166 and Two Dollars (\$2.00) per commercial telephone subscriber line
167 per month for exchange telephone service. Any emergency telephone
168 service charge shall have uniform application and shall be imposed
169 throughout the entirety of the district to the greatest extent
170 possible in conformity with availability of such service in any
171 area of the district. Those districts which exist on the date of
172 enactment of Chapter 539, Laws of 1993, shall convert to the
173 following structure for service charge levy: If the current
174 charge is five percent (5%) of the basic tariff service rate, the
175 new collection shall be Eighty Cents (\$.80) per month per
176 residential subscriber line and One Dollar and Sixty Cents (\$1.60)
177 per month per commercial subscriber line. The collections may be
178 adjusted as outlined in Chapter 539, Laws of 1993, and within the
179 limits set forth herein.

180 (2) If the proceeds generated by the emergency telephone
181 service charge exceed the amount of monies necessary to fund the
182 service, the board of supervisors may authorize such excess funds
183 to be expended by the county and the municipalities in the
184 counties to perform the duties and pay the costs relating to
185 identifying roads, highways and streets, as provided by Section

186 65-7-143. The board of supervisors shall determine how the funds
187 are to be distributed in the county and among municipalities in
188 the county for paying the costs relating to identifying roads,
189 highways and streets. The board of supervisors may temporarily
190 reduce the service charge rate or temporarily suspend the service
191 charge if the proceeds generated exceed the amount that is
192 necessary to fund the service and/or to pay costs relating to
193 identifying roads, highways and streets. Such excess funds may
194 also be used in the development of county or district
195 communications and paging systems when used primarily for the
196 alerting and dispatching of public safety entities and for other
197 administrative costs such as management personnel, maintenance
198 personnel and related building and operational requirements. Such
199 excess funds may be placed in a depreciation fund for emergency
200 and obsolescence replacement of equipment necessary for the
201 operation of the overall 911 emergency telephone and alerting
202 systems.

203 (3) No such service charge shall be imposed upon more than
204 twenty-five (25) exchange access facilities per person per
205 location. Trunks or service lines used to supply service to CMRS
206 providers shall not have a service charge levied against them.
207 Every billed service user shall be liable for any service charge
208 imposed under this section until it has been paid to the service
209 supplier. The duty of the service supplier to collect any such
210 service charge shall commence upon the date of its implementation,
211 which shall be specified in the resolution for the installation of
212 such service. Any such emergency telephone service charge shall
213 be added to and may be stated separately in the billing by the
214 service supplier to the service user.

215 (4) The service supplier shall have no obligation to take
216 any legal action to enforce the collection of any emergency
217 telephone service charge. However, the service supplier shall
218 annually provide the board of supervisors and board of
219 commissioners with a list of the amount uncollected, together with
220 the names and addresses of those service users who carry a balance

221 that can be determined by the service supplier to be nonpayment of
222 such service charge. The service charge shall be collected at the
223 same time as the tariff rate in accordance with the regular
224 billing practice of the service supplier. Good faith compliance
225 by the service supplier with this provision shall constitute a
226 complete defense to any legal action or claim which may result
227 from the service supplier's determination of nonpayment and/or the
228 identification of service users in connection therewith.

229 (5) The amounts collected by the service supplier
230 attributable to any emergency telephone service charge shall be
231 due the county treasury monthly. The amount of service charge
232 collected each month by the service supplier shall be remitted to
233 the county no later than sixty (60) days after the close of the
234 month. A return, in such form as the board of supervisors and the
235 service supplier agree upon, shall be filed with the county,
236 together with a remittance of the amount of service charge
237 collected payable to the county. The service supplier shall
238 maintain records of the amount of service charge collected for a
239 period of at least two (2) years from date of collection. The
240 board of supervisors and board of commissioners shall receive an
241 annual audit of the service supplier's books and records with
242 respect to the collection and remittance of the service charge.
243 From the gross receipts to be remitted to the county, the service
244 supplier shall be entitled to retain as an administrative fee, an
245 amount equal to one percent (1%) thereof. From and after March
246 10, 1987, the service charge is a county fee and is not subject to
247 any sales, use, franchise, income, excise or any other tax, fee or
248 assessment and shall not be considered revenue of the service
249 supplier for any purpose.

250 (6) In order to provide additional funding for the district,
251 the board of commissioners may receive federal, state, county or
252 municipal funds, as well as funds from private sources, and may
253 expend such funds for the purposes of Section 19-5-301 et seq.
