The set of the Mississippi Code of 1972 to be provided to each member of the Legislature shall be provided unless specifically waived by such legislator in writing.

An elected or appointed officeholder in the State of Mississippi, except for a member of the Legislature, shall deliver to his successor in office, or to the joint committee if there is no successor, the set of the Mississippi Code of 1972 provided the officeholder under this section.

Before the joint committee delivers or provides for delivery of a copy of the Mississippi Code of 1972 to an individual officeholder, the joint committee shall prepare and submit a written agreement to the officeholder. The agreement shall, among other provisions, state that the code is the property of the State of Mississippi, that it shall be transferred to the officeholder's successor in office, that the officeholder has an obligation to make such transfer and that the officeholder shall be responsible for the failure to deliver the code and for any damage or destruction to the code, normal wear and tear excepted. The joint committee shall execute the agreement and forward it to the officeholder for execution. The joint committee shall not deliver or provide for delivery of the code to the officeholder until the executed agreement is received by the committee. The joint committee may include in the agreement such other provisions as it may deem reasonable and necessary. In addition to damages or any other remedy for not transferring a set of the code to his successor, an officeholder who does not transfer his set of the code shall be guilty of a misdemeanor and shall, upon conviction, pay a fine of One Thousand Dollars ($1,000.00). Upon request of the joint committee, the Attorney General shall assist the joint committee in taking such actions as necessary to require an officeholder to transfer the set of code provided under this section to his successor, or to the joint committee if there is no successor, and to recover reimbursement or damages from any
officeholder for the loss of or damage or destruction to any
volumes of the set of the code provided under this section, other
than normal wear and tear.

Replacement of missing, damaged or destroyed sets or volumes
of the code provided by this chapter may be obtained from the code
publisher through the joint committee at the established state
cost, the cost to be borne by the recipient.

No more than one (1) set of the Mississippi Code of 1972
shall be furnished to any one (1) individual, regardless of the
office or offices he may hold.

(2) The joint committee, in its discretion, may determine
whether electronic access to the Mississippi Code of 1972 is
available and a sufficient substitute for actual bound volumes of
the code and, if so, may omit furnishing any one or more sets
otherwise required by this section.

SECTION 18. Section 11-46-17, Mississippi Code of 1972, is
amended as follows:

11-46-17. (1) There is hereby created in the State Treasury
a special fund to be known as the "Tort Claims Fund."

All such monies as the Department of Finance and
Administration shall receive and collect under the provisions of
subsection (2) of this section and all such funds as the
Legislature may appropriate for use by the board in administering
the provisions of this chapter shall be deposited in such fund.

All monies in the fund may be expended by the board for any and
all purposes for which the board is authorized to expend funds
under the provisions of this chapter. All interest earned from
the investment of monies in the fund shall be credited to the
fund. Monies remaining in such fund at the end of a fiscal year
shall not lapse into the State General Fund.

(2) From and after July 1, 1993, each governmental entity
other than political subdivisions shall participate in a
comprehensive plan of self-insurance and/or one or more policies
of liability insurance administered by the Department of Finance and Administration. Such plan shall provide coverage to each of such governmental entities for every risk for which the board determines the respective governmental entities to be liable in the event of a claim or suit for injuries under the provisions of this chapter, including claims or suits for injuries from the use or operation of motor vehicles; provided, however, that the board may allow such plan to contain any reasonable limitations or exclusions not contrary to Mississippi state statutes or case law as are normally included in commercial liability insurance policies generally available to governmental entities. In addition to the coverage authorized in the preceding sentence, the plan may provide coverage for liabilities outside the provisions of this chapter, including, but not limited to, liabilities arising from Sections 1983 through 1987 of Title 42 of the United States Code and liabilities from actions brought in foreign jurisdictions, and the board shall establish limits of coverage for such liabilities. Each governmental entity participating in the plan shall make payments to the board in such amounts, times and manner determined by the board as the board deems necessary to provide sufficient funds to be available for payment by the board of such costs as it incurs in providing coverage for the governmental entity. Each governmental entity of the state other than the political subdivisions thereof participating in the plan procured by the board shall be issued by the board a certificate of coverage whose form and content shall be determined by the board but which shall have the effect of certifying that in the opinion of the board each of such governmental entities is adequately insured.

Prior to July 1, 1993, the Board of Trustees of State Institutions of Higher Learning may provide such liability coverage for each university, department, trustee, employee, volunteer, facility and activity as the board of trustees, in its
discretion, shall determine advisable. If liability coverage, either through insurance policies or self-insurance retention is in effect, immunity from suit shall be waived only to the limit of liability established by such insurance or self-insurance program. From and after July 1, 1993, such liability coverage established by the Board of Trustees of State Institutions of Higher Learning and, after the effective date of House Bill No. 17, 2002 Regular Session, the board of trustees of each state institution of higher learning, must conform to the provisions of this section and must receive approval from the board. Should the board reject such plan, the boards of trustees shall participate in the liability program for state agencies established by the board.

(3) All political subdivisions shall, from and after October 1, 1993, obtain such policy or policies of insurance, establish such self-insurance reserves, or provide a combination of such insurance and reserves as necessary to cover all risks of claims and suits for which political subdivisions may be liable under this chapter; except any political subdivision shall not be required to obtain pollution liability insurance. However, this shall not limit any cause of action against such political subdivision relative to limits of liability under the Tort Claims Act. Such policy or policies of insurance or such self-insurance may contain any reasonable limitations or exclusions not contrary to Mississippi state statutes or case law as are normally included in commercial liability insurance policies generally available to political subdivisions. All such plans of insurance and/or reserves shall be submitted for approval to the board. The board shall issue a certificate of coverage to each political subdivision whose plan of insurance and/or reserves it approves in the same manner as provided in subsection (2) of this section. Whenever any political subdivision fails to obtain the board's approval of any plan of insurance and/or reserves, the political subdivision shall act in accordance with the rules and regulations.
of the board and obtain a satisfactory plan of insurance and/or
reserves to be approved by the board.

(4) Any governmental entity of the state may purchase
liability insurance to cover claims in excess of the amounts
provided for in Section 11-46-15 and may be sued by anyone in
excess of the amounts provided for in Section 11-46-15 to the
extent of such excess insurance carried; provided, however, that
the immunity from suit above the amounts provided for in Section
11-46-15 shall be waived only to the extent of such excess
liability insurance carried.

(5) Any two (2) or more political subdivisions are hereby
authorized to enter into agreement and to contract between and
among themselves for the purpose of pooling their liabilities as a
group under this chapter. Such pooling agreements and contracts
may provide for the purchase of one or more policies of liability
insurance and/or the establishment of self-insurance reserves and
shall be subject to approval by the board in the manner provided
in subsections (2) and (3) of this section.

(6) The board shall have subrogation rights against a third
party for amounts paid out of any plan of self-insurance
administered by such board pursuant to this section in behalf of a
governmental entity as a result of damages caused under
circumstances creating a cause of action in favor of such
governmental entity against a third party. The board shall
deposit in the Tort Claims Fund all monies received in connection
with the settlement or payment of any claim, including proceeds
from the sale of salvage.

SECTION 19. Section 17-13-5, Mississippi Code of 1972, is

However, there shall not be both an attorney and a firm of attorneys employed at the same time as the regular attorney for the board.

(3) In any county having a 1980 federal census population in excess of one hundred eighteen thousand (118,000), and in which is located a major refinery for the production of petroleum products and a facility for the construction of ships for the United States Navy; in any county which is traversed by an

(b) The attorney shall be employed by the board of supervisors in the matter of the issuance of all bonds of the county and the drafting of resolutions in connection therewith, and shall represent the board in all state and federal courts. However, no such governing authority shall have the power either to promulgate or enforce any charge, rule or regulation upon said district without first having received the ratification and consent of the Board of Trustees of State Institutions of Higher Learning as reflected by the minutes of said trustees.

25-3-41. (1) When any officer or employee of the State of Mississippi, or any department, agency or institution thereof, after first being duly authorized, is required to travel in the performance of his official duties, the officer or employee shall
receive as expenses for each mile actually and necessarily traveled, when the travel is done by a privately owned automobile or other privately owned motor vehicle, the mileage reimbursement rate allowable to federal employees for the use of a privately owned vehicle while on official travel.

(2) When any officer or employee of any county or municipality, or of any agency, board or commission thereof, after first being duly authorized, is required to travel in the performance of his official duties, the officer or employee shall receive as expenses Twenty Cents (20¢) for each mile actually and necessarily traveled, when the travel is done by a privately owned motor vehicle; provided, however, that the governing authorities of a county or municipality may, in their discretion, authorize an increase in the mileage reimbursement of officers and employees of the county or municipality, or of any agency, board or commission thereof, in an amount not to exceed the mileage reimbursement rate authorized for officers and employees of the State of Mississippi in subsection (1) of this section.

(3) Where two (2) or more officers or employees travel in one (1) privately owned motor vehicle, only one (1) travel expense allowance at the authorized rate per mile shall be allowed for any one (1) trip. When the travel is done by means of a public carrier or other means not involving a privately owned motor vehicle, then the officer or employee shall receive as travel expense the actual fare or other expenses incurred in such travel.

(4) In addition to the foregoing, a public officer or employee shall be reimbursed for other actual expenses such as meals, lodging and other necessary expenses incurred in the course of the travel, subject to limitations placed on meals for intrastate and interstate official travel by the Department of Finance and Administration, provided, that the Legislative Budget Office shall place any limitations for expenditures made on matters under the jurisdiction of the Legislature. The Department
of Finance and Administration shall set a maximum daily expenditure annually for such meals and shall notify officers and employees of changes to these allowances immediately upon approval of the changes. Travel by airline shall be at the tourist rate unless that space was unavailable. The officer or employee shall certify that tourist accommodations were not available if travel is performed in first class airline accommodations. Itemized expense accounts shall be submitted by those officers or employees in such number as the department, agency or institution may require; but in any case one (1) copy shall be furnished by state departments, agencies or institutions to the Department of Finance and Administration for preaudit or postaudit. The Department of Finance and Administration shall promulgate and adopt reasonable rules and regulations which it deems necessary and requisite to effectuate economies for all expenses authorized and paid pursuant to this section. Requisitions shall be made on the State Fiscal Officer who shall issue his warrant on the State Treasurer.

Provided, however, that the provisions of this section shall not include agencies financed entirely by federal funds and audited by federal auditors.

(5) Any officer or employee of a county or municipality, or any department, board or commission thereof, who is required to travel in the performance of his official duties, may receive funds before the travel, in the discretion of the administrative head of the county or municipal department, board or commission involved, for the purpose of paying necessary expenses incurred during the travel. Upon return from the travel, the officer or employee shall provide receipts of transportation, lodging, meals, fees and any other expenses incurred during the travel. Any portion of the funds advanced which is not expended during the travel shall be returned by the officer or employee. The Department of Audit shall adopt rules and regulations regarding advance payment of travel expenses and submission of receipts to
ensure proper control and strict accountability for those payments and expenses.

(6) No state or federal funds received from any source by any arm or agency of the state shall be expended in traveling outside of the continental limits of the United States until the governing body or head of the agency makes a finding and determination that the travel would be extremely beneficial to the state agency and obtains a written concurrence thereof from the Governor or his designee and the Department of Finance and Administration.

(7) Where any officer or employee of the State of Mississippi, or any department, agency or institution thereof, or of any county or municipality, or of any agency, board or commission thereof, is authorized to receive travel reimbursement under any other provision of law, the reimbursement may be paid under the provisions of this section or the other section, but not under both.

(8) When the Governor or Lieutenant Governor appoints a person to a board, commission or other position that requires confirmation by the Senate, the person may receive reimbursement for mileage and other actual expenses incurred in the performance of official duties before the appointment is confirmed by the Senate, as reimbursement for those expenses is authorized under this section.

(9) (a) The Department of Finance and Administration may contract with one or more commercial travel agencies, after receiving competitive bids or proposals therefor, for that travel agency or agencies to provide necessary travel services for state officers and employees. Municipal and county officers and municipal and county employees may also participate in the state travel agency contract and utilize these travel services for official municipal or county travel. However, the administrative head of each state institution of higher learning may, in his
discretion, contract with a commercial travel agency to provide necessary travel services for all academic officials and staff of the university in lieu of participation in the state travel agency contract. Any such decision by a university to contract with a separate travel agency shall be approved by the Commissioner of Higher Education and the Executive Director of the Department of Finance and Administration.

(b) Before executing a contract with one or more travel agencies, the Department of Finance and Administration shall advertise for competitive bids or proposals once a week for two (2) consecutive weeks in a regular newspaper having a general circulation throughout the State of Mississippi. If the department determines that it should not contract with any of the bidders initially submitting proposals, the department may reject all those bids, advertise as provided in this paragraph and receive new proposals before executing the contract or contracts. The contract or contracts may be for a period not greater than three (3) years, with an option for the travel agency or agencies to renew the contract or contracts on a one-year basis on the same terms as the original contract or contracts, for a maximum of two (2) renewals. After the travel agency or agencies have renewed the contract twice or have declined to renew the contract for the maximum number of times, the Department of Finance and Administration shall advertise for bids in the manner required by this paragraph and execute a new contract or contracts.

(c) Whenever any state officer or employee travels in the performance of his official duties by airline or other public carrier, he may have his travel arrangements handled by that travel agency or agencies. The amount paid for airline transportation for any state officer or employee, whether the travel was arranged by that travel agency or agencies or was arranged otherwise, shall not exceed the amount specified in the state contract established by the Department of Finance and
Administration, Office of Purchasing and Travel, unless prior approval is obtained from the office.

SECTION 25. Section 27-7-701, Mississippi Code of 1972, is amended as follows:

(c) "Debt" means any liquidated sum due and owing any claimant agency which has accrued through contract, subrogation, tort or operation of law, regardless of whether there is an outstanding judgment for that sum.

(d) "Commission" means the State Tax Commission of the State of Mississippi.

(e) "Refund" means the Mississippi income tax refund which the commission determines to be due any individual taxpayer.

SECTION 26. Section 27-103-127, Mississippi Code of 1972, is amended as follows:

27-103-127. To the end that the overall budget shall present in comparable terms a complete summary of all financial operations of all state agencies, Part 2 of the overall budget shall include therein the requested budget and the recommended budget for each special fund agency. The overall budget shall show for each special fund agency, in addition to such other information as may be prescribed by the Legislative Budget Office, the following:
(a) The amount by source of all special fund receipts collected or otherwise available in the current fiscal year, and an estimate by source of all special funds which will be collected or become available by the end of the then current fiscal year;

(b) The estimated amount of all expenditures to be made or obligations to be incurred payable from such special funds during the then current fiscal year;

(c) The estimated aggregate amount of special funds which will be needed by the agency for the succeeding fiscal year, beginning with the 1995 fiscal year and in the event that any services proposed to be provided by the agency in the succeeding fiscal year are Medicaid reimbursable, any state general matching funds necessary for such reimbursement shall be included in the agency's proposed budget, and the appropriation to the Division of Medicaid in the 1995 fiscal year shall be adjusted accordingly;

(d) The estimated amount by source of special funds which will be available under existing laws during the succeeding fiscal year, including any balances which will be on hand at the close of the then current fiscal year;

(e) The estimated amount which will be needed and which will require change in existing law or laws;

(f) If any new item of expense is included in the proposed budget of any special fund agency, the reason therefor shall be given; and in any case where the Legislative Budget Office shall eliminate or reduce any item or items in the proposed budget of any special fund agency, it shall note briefly the reasons therefor, together with the reasons advanced by the agency in support of the item or items eliminated or reduced;

(g) The proposed budget of each special fund agency shall show the amounts required for operating expenses separately from the amounts required for permanent improvements.

Proposed expenditures for any agency in Part 2 of the overall budget shall not exceed the amount of estimated revenues which
will be available to it. Provided, that the Legislative Budget Office may recommend changes in existing law so as to decrease or increase the revenues available to any agency if in its judgment such changes are necessary or desirable.

Provided further, that expenditures approved or authorized by the Legislature for any special fund agency or special funds approved for general fund agency shall constitute a maximum to be expended or encumbered by such agency, and shall not constitute authority to expend or encumber more than the amount of revenue actually collected or otherwise received.

No special fund agency or general fund agency shall make expenditures from special funds available to such agency unless such expenditures are set forth in a budget approved by the Legislature. Such legislative approval shall be set forth in an appropriation act. Provided, however, that special funds derived from the collection of taxes for any political subdivision of the state shall be excepted from the foregoing provisions. The executive head of the state agency shall be liable on his official bond for expenditures or encumbrances which exceed the total amount of the budget or the amount received if receipts are less than the approved budget.

*** Each university and college shall submit through the board of trustees of the state institution of higher learning an annual budget to the Legislative Budget Office prior to the beginning of each fiscal year with such information and in such form, and in such detail, as may be required by the Legislative Budget Office. If the Legislative Budget Office determines that sufficient funds will be available during the fiscal year to fund the proposed budget as submitted, then and in that event the proposed budget shall be approved. notoriety and respect for its achievement and promotion of
educational, civic, social and cultural excellence. The

All state agencies shall purchase all commodities required
for their operation or for the proper fulfillment of their duties
and functions in accordance with Chapter 7 of this title in order
to coordinate and promote efficiency and economy in the purchase
of such commodities for the state.

**SECTION 30.** Section 31-7-10, Mississippi Code of 1972, is
amended as follows:

31-7-10. (1) For the purposes of this section, the term
"equipment" shall mean equipment, furniture, and if applicable,
associated software and other applicable direct costs associated
with the acquisition. In addition to its other powers and duties,
the Department of Finance and Administration shall have the
authority to develop a master lease-purchase program and, pursuant
to that program, shall have the authority to execute on behalf of
the state master lease-purchase agreements for equipment to be
used by an agency, as provided in this section. Each agency
electing to acquire equipment by a lease-purchase agreement shall
participate in the Department of Finance and Administration's
master lease-purchase program, unless the Department of Finance
and Administration makes a determination that such equipment cannot be obtained under the program or unless the equipment can be obtained elsewhere at an overall cost lower than that for which the equipment can be obtained under the program. Such lease-purchase agreements may include the refinancing or consolidation, or both, of any state agency lease-purchase agreements entered into after June 30, 1990.

(2) All funds designated by agencies for procurement of equipment and financing thereof under the master lease-purchase program shall be paid into a special fund created in the State Treasury known as the "Master Lease-Purchase Program Fund," which shall be used by the Department of Finance and Administration for payment to the lessors for equipment acquired under master lease-purchase agreements.

(3) Upon final approval of an appropriation bill, each agency shall submit to the Public Procurement Review Board a schedule of proposed equipment acquisitions for the master lease-purchase program. Upon approval of an equipment schedule by the Public Procurement Review Board with the advice of the Department of Information Technology Services, the Office of Purchasing and Travel, and the Division of Energy and Transportation of the Mississippi Development Authority as it pertains to energy efficient climate control systems, the Public Procurement Review Board shall forward a copy of the equipment schedule to the Department of Finance and Administration.

(4) The level of lease-purchase debt recommended by the Department of Finance and Administration shall be subject to approval by the State Bond Commission. After such approval, the Department of Finance and Administration shall be authorized to advertise and solicit written competitive proposals for a lessor, who will purchase the equipment pursuant to bid awards made by the using agency under a given category and then transfer the
equipment to the Department of Finance and Administration as lessee, pursuant to a master lease-purchase agreement.

The Department of Finance and Administration shall select the successful proposer for the financing of equipment under the master lease-purchase program with the approval of the State Bond Commission.

(5) Each master lease-purchase agreement, and any subsequent amendments, shall include such terms and conditions as the State Bond Commission shall determine to be appropriate and in the public interest, and may include any covenants deemed necessary or desirable to protect the interests of the lessor, including, but not limited to, provisions setting forth the interest rate (or method for computing interest rates) for financing pursuant to such agreement, covenants concerning application of payments and funds held in the Master Lease-Purchase Program Fund, covenants to maintain casualty insurance with respect to equipment subject to the master lease-purchase agreement (and all state agencies are specifically authorized to purchase any insurance required by a master lease-purchase agreement) and covenants precluding or limiting the right of the lessee or user to acquire equipment within a specified time (not to exceed five (5) years) after cancellation on the basis of a failure to appropriate funds for payment of amounts due under a lease-purchase agreement covering comparable equipment. The State Bond Commission shall transmit copies of each such master lease-purchase agreement and each such amendment to the Joint Legislative Budget Committee. To the extent provided in any master lease-purchase agreement, title to equipment leased pursuant thereto shall be deemed to be vested in the state or the user of the equipment (as specified in such master lease-purchase agreement), subject to default under or termination of such master lease-purchase agreement.

A master lease-purchase agreement may provide for payment by the lessor to the lessee of the purchase price of the equipment to
be acquired pursuant thereto prior to the date on which payment is due to the vendor for such equipment and that the lease payments by the lessee shall commence as though the equipment had been provided on the date of payment. If the lessee, or lessee's escrow agent, has sufficient funds for payment of equipment purchases prior to payment due date to vendor of equipment, such funds shall be held or utilized on an as-needed basis for payment of equipment purchases either by the State Treasurer (in which event the master lease-purchase agreement may include provisions concerning the holding of such funds, the creation of a security interest for the benefit of the lessor in such funds until disbursed and other appropriate provisions approved by the Bond Commission) or by a corporate trustee selected by the Department of Finance and Administration (in which event the Department of Finance and Administration shall have the authority to enter into an agreement with such a corporate trustee containing terms and conditions approved by the Bond Commission). Earnings on any amount paid by the lessor prior to the acquisition of the equipment may be used to make lease payments under the master lease-purchase agreement or applied to pay costs and expenses incurred in connection with such lease-purchase agreement. In such event, the equipment use agreements with the user agency may provide for lease payments to commence upon the date of payment by the lessor and may also provide for a credit against such payments to the extent that investment receipts from investment of the purchase price are to be used to make lease-purchase payments.

(6) The annual rate of interest paid under any lease-purchase agreement authorized under this section shall not exceed the maximum interest rate to maturity on general obligation indebtedness permitted under Section 75-17-101.

(7) The Department of Finance and Administration shall furnish the equipment to the various agencies, also known as the user, pursuant to an equipment-use agreement developed by the
Department of Finance and Administration. Such agreements shall require that all monthly payments due from such agency be paid, transferred or allocated into the Master Lease-Purchase Program Fund pursuant to a schedule established by the Department of Finance and Administration. In the event such sums are not paid by the defined payment period, the Executive Director of the Department of Finance and Administration shall issue a requisition for a warrant to draw such amount as may be due from any funds appropriated for the use of the agency which has failed to make the payment as agreed.

(8) All master lease-purchase agreements executed under the authority of this section shall contain the following annual allocation dependency clause or an annual allocation dependency clause which is substantially equivalent thereto: "The continuation of each equipment schedule to this agreement is contingent in whole or in part upon the appropriation of funds by the Legislature to make the lease-purchase payments required under such equipment schedule. If the Legislature fails to appropriate sufficient funds to provide for the continuation of the lease-purchase payments under any such equipment schedule, then the obligations of the lessee and of the agency to make such lease-purchase payments and the corresponding provisions of any such equipment schedule to this agreement shall terminate on the last day of the fiscal year for which appropriations were made."

(9) The maximum lease term for any equipment acquired under the master lease-purchase program shall not exceed the useful life of such equipment as determined according to the upper limit of the asset depreciation range (ADR) guidelines for the Class Life Asset Depreciation Range System established by the Internal Revenue Service pursuant to the United States Internal Revenue Code and Regulations thereunder as in effect on December 31, 1980, or comparable depreciation guidelines with respect to any equipment not covered by ADR guidelines. The Department of
Finance and Administration shall be deemed to have met the requirements of this subsection if the term of a master lease-purchase agreement does not exceed the weighted average useful life of all equipment covered by such agreement and the schedules thereto as determined by the Department of Finance and Administration. For purposes of this subsection, the "term of a master lease-purchase agreement" shall be the weighted average maturity of all principal payments to be made under such master lease-purchase agreement and all schedules thereto.

(10) Interest paid on any master lease-purchase agreement under this section shall be exempt from State of Mississippi income taxation. All equipment, and the purchase thereof by any lessor, acquired under the master lease-purchase program and all lease-purchase payments with respect thereto shall be exempt from all Mississippi sales, use and ad valorem taxes.

(11) The Governor, in his annual executive budget to the Legislature, shall recommend appropriations sufficient to provide funds to pay all amounts due and payable during the applicable fiscal year under master lease-purchase agreements entered into pursuant to this section.

(12) Any master lease-purchase agreement reciting in substance that such agreement has been entered into pursuant to this section shall be conclusively deemed to have been entered into in accordance with all of the provisions and conditions set forth in this section. Any defect or irregularity arising with respect to procedures applicable to the acquisition of any equipment shall not invalidate or otherwise limit the obligation of the Department of Finance and Administration, or the state or any agency of the state, under any master lease-purchase agreement or any equipment-use agreement.

(13) There shall be maintained by the Department of Finance and Administration, with respect to each master lease-purchase agreement, an itemized statement of the cash price, interest
rates, interest costs, commissions, debt service schedules and all other costs and expenses paid by the state incident to the lease-purchase of equipment under such agreement.

(14) Lease-purchase agreements entered into by the board of trustees of any state institutions of higher learning pursuant to the authority of Section 37-101-413 or by any other agency which has specific statutory authority other than pursuant to Section 31-7-13(e) to acquire equipment by lease-purchase shall not be made pursuant to the master lease-purchase program under this section, unless the board of trustees or such other agency elects to participate as to part or all of its lease-purchase acquisitions in the master lease-purchase program pursuant to this section.

(15) The Department of Finance and Administration may develop a master lease-purchase program for school districts and, pursuant to that program, may execute on behalf of the school districts master lease-purchase agreements for equipment to be used by the school districts. The form and structure of this program shall be substantially the same as set forth in this section for the master lease-purchase program for state agencies. If sums due from a school district under the master lease-purchase program are not paid by the expiration of the defined payment period, the Executive Director of the Department of Finance and Administration may withhold such amount that is due from the school district's minimum education or adequate education program fund allotments.

(16) The Department of Finance and Administration may develop a master lease-purchase program for community and junior college districts and, pursuant to that program, may execute on behalf of the community and junior college districts master lease-purchase agreements for equipment to be used by the community and junior college districts. The form and structure of this program must be substantially the same as set forth in this section.
section for the master lease-purchase program for state agencies. If sums due from a community or junior college district under the master lease-purchase program are not paid by the expiration of the defined payment period, the Executive Director of the Department of Finance and Administration may withhold an amount equal to the amount due under the program from any funds allocated for that community or junior college district in the state appropriations for the use and support of the community and junior colleges.

The State Board of Education shall adopt rules requiring that teacher preparation institutions which provide the Teach Mississippi Institute (TMI) program for the preparation of nontraditional teachers shall meet the standards and comply with the provisions of this paragraph.

(i) The Teach Mississippi Institute (TMI) shall include an intensive eight-week, nine-semester-hour summer program, which shall include, but not be limited to, instruction in education, effective teaching strategies, classroom management, state curriculum requirements, planning and instruction, instructional methods and pedagogy, using test results to improve instruction, and a one (1) semester three-hour supervised internship to be completed while the teacher is employed as a full-time teacher intern in a local school district. The TMI shall be implemented on a pilot program basis, with courses to be offered at up to four (4) locations in the state, with one (1) TMI site to be located in each of the three (3) Mississippi Supreme Court districts.
(ii) The school sponsoring the teacher intern shall enter into a written agreement with the institution providing the Teach Mississippi Institute (TMI) program, under terms and conditions as agreed upon by the contracting parties, providing that the school district shall provide teacher interns seeking a nontraditional provisional teaching license with a one-year classroom teaching experience. The teacher intern shall successfully complete the one (1) semester three-hour intensive internship in the school district during the semester immediately following successful completion of the TMI and prior to the end of the one-year classroom teaching experience.

(iii) Upon completion of the nine-semester-hour TMI, the individual shall submit his transcript to the commission for provisional licensure of the intern teacher, and the intern teacher shall be issued a provisional teaching license by the commission, which will allow the individual to legally serve as a teacher while the person completes a nontraditional teacher preparation internship program.

(iv) During the semester of internship in the school district, the teacher preparation institution shall monitor the performance of the intern teacher. The school district that employs the provisional teacher shall supervise the provisional teacher during the teacher's intern year of employment under a nontraditional provisional license, and shall, in consultation with the teacher intern's mentor at the school district of employment, submit to the commission a comprehensive evaluation of the teacher's performance sixty (60) days prior to the expiration of the nontraditional provisional license. If the comprehensive evaluation establishes that the provisional teacher intern's performance fails to meet the standards of the approved nontraditional teacher preparation internship program, the individual shall not be approved for a standard license.
(v) An individual issued a provisional teaching license under this nontraditional route shall successfully complete, at a minimum, a one-year beginning teacher mentoring and induction program administered by the employing school district with the assistance of the State Department of Education.

(vi) Upon successful completion of the TMI and the internship provisional license period, applicants for a Standard License-Nontraditional Route shall submit to the commission a transcript of successful completion of the twelve (12) semester hours required in the internship program, and the employing school district shall submit to the commission a recommendation for standard licensure of the intern. If the school district recommends licensure, the applicant shall be issued a Standard License-Nontraditional Route which shall be valid for a five-year period and be renewable.

(vii) At the discretion of the teacher-preparation institution, the individual shall be allowed to credit the twelve (12) semester hours earned in the nontraditional teacher internship program toward the graduate hours required for a Master of Arts in Teacher (MAT) Degree.

(viii) The local school district in which the nontraditional teacher intern or provisional licensee is employed shall compensate such teacher interns at Step 1 of the required salary level during the period of time such individual is completing teacher internship requirements and shall compensate such Standard License-Nontraditional Route teachers at Step 3 of the required salary level when they complete license requirements.

Implementation of the TMI program provided for under this paragraph (b) shall be contingent upon the availability of funds appropriated specifically for such purpose by the Legislature. Such implementation of the TMI program may not be deemed to prohibit the State Board of Education from developing and implementing additional alternative route teacher licensure.
programs, as deemed appropriate by the board. The emergency
certification program in effect prior to July 1, 2002, shall
remain in effect.

The State Department of Education shall compile and report,
in consultation with the commission, information relating to
nontraditional teacher preparation internship programs, including

they are available, the number of individuals who apply for and
possess a nontraditional conditional license, the subject areas in
which individuals who possess nontraditional conditional licenses
are teaching and where they are teaching, and shall submit its
findings and recommendations to the legislative committees on
education by December 1, 2004.

A Standard License - Approved Program Route shall be issued
for a five-year period, and may be renewed. Recognizing teaching

holding a Standard License - Approved Program Route or Standard
License - Nontraditional Teaching Route over persons holding any
other license.

allow a school district to offer specialized or technical courses,
the State Department of Education, in accordance with rules and
regulations established by the State Board of Education, may grant
a one-year expert citizen-teacher license to local business or
other professional personnel to teach in a public school or
nonpublic school accredited or approved by the state. Such person
may begin teaching upon his employment by the local school board
and licensure by the Mississippi Department of Education. The
board shall adopt rules and regulations to administer the expert
citizen-teacher license. A special license - expert citizen may
be renewed in accordance with the established rules and
regulations of the State Department of Education.
(d) **Special License - Nonrenewable.** The State Board of Education is authorized to establish rules and regulations to allow those educators not meeting requirements in subsection (6)(a), (b) or (c) to be licensed for a period of not more than three (3) years, except by special approval of the State Board of Education.

(e) **Nonlicensed Teaching Personnel.** A nonlicensed person may teach for a maximum of three (3) periods per teaching day in a public school or a nonpublic school accredited/approved by the state. Such person shall submit to the department a transcript or record of his education and experience which substantiates his preparation for the subject to be taught and shall meet other qualifications specified by the commission and approved by the State Board of Education. In no case shall any local school board hire nonlicensed personnel as authorized under this paragraph in excess of five percent (5%) of the total number of licensed personnel in any single school.

(f) **Special License - Transitional Bilingual Education.** Beginning July 1, 2003, the commission shall grant special licenses to teachers of transitional bilingual education who possess such qualifications as are prescribed in this section. Teachers of transitional bilingual education shall be compensated by local school boards at not less than one (1) step on the regular salary schedule applicable to permanent teachers licensed under this section. The commission shall grant special licenses to teachers of transitional bilingual education who present the commission with satisfactory evidence that they (i) possess a speaking and reading ability in a language, other than English, in which bilingual education is offered and communicative skills in English; (ii) are in good health and sound moral character; (iii) possess a bachelor's degree or an associate's degree in teacher education from an accredited institution of higher education; (iv) meet such requirements as to courses of study, semester hours...
therein, experience and training as may be required by the commission; and (v) are legally present in the United States and possess legal authorization for employment. A teacher of transitional bilingual education serving under a special license shall be under an exemption from standard licensure if he achieves the requisite qualifications therefor. Two (2) years of service by a teacher of transitional bilingual education under such an exemption shall be credited to the teacher in acquiring a Standard Educator License. Nothing in this paragraph shall be deemed to prohibit a local school board from employing a teacher licensed in an appropriate field as approved by the State Department of Education to teach in a program in transitional bilingual education.

(g) In the event any school district meets Level 4 or 5 accreditation standards, the State Board of Education, in its discretion, may exempt such school district from any restrictions in paragraph (e) relating to the employment of nonlicensed teaching personnel.

(7) Administrator License. The State Board of Education is authorized to establish rules and regulations and to administer the licensure process of the school administrators in the State of Mississippi. There will be four (4) categories of administrator licensure with exceptions only through special approval of the State Board of Education.

(a) Administrator License - Nonpracticing. Those educators holding administrative endorsement but have no administrative experience or not serving in an administrative position on January 15, 1997.

(b) Administrator License - Entry Level. Those educators holding administrative endorsement and having met the department's qualifications to be eligible for employment in a Mississippi school district. Administrator license - entry level shall be issued for a five-year period and shall be nonrenewable.
(c) **Standard Administrator License - Career Level.** An administrator who has met all the requirements of the department for standard administrator licensure.

(d) **Administrator License - Nontraditional Route.** The board may establish a nontraditional route for licensing administrative personnel. Such nontraditional route for administrative licensure shall be available for persons holding, but not limited to, a master of business administration degree, a master of public administration degree, a master of public planning and policy degree or a doctor of jurisprudence degree from an accredited college or university, with five (5) years of administrative or supervisory experience. Successful completion of the requirements of alternate route licensure for administrators shall qualify the person for a standard administrator license.

The State Department of Education shall compile and report, in consultation with the commission, information relating to nontraditional administrator preparation internship programs, including the number of programs available and geographic areas in which they are available, the number of individuals who apply for and possess a nontraditional conditional license and where they are employed, and shall submit its findings and recommendations to the legislative committees on education by December 1, 2004.

Beginning with the 1997-1998 school year, individuals seeking school administrator licensure under paragraph (b), (c) or (d) shall successfully complete a training program and an assessment process prescribed by the State Board of Education. Applicants seeking school administrator licensure prior to June 30, 1997, and completing all requirements for provisional or standard administrator certification and who have never practiced, shall be exempt from taking the Mississippi Assessment Battery Phase I. Applicants seeking school administrator licensure during the period beginning July 1, 1997, through June 30, 1998, shall
participate in the Mississippi Assessment Battery, and upon request of the applicant, the department shall reimburse the applicant for the cost of the assessment process required. After June 30, 1998, all applicants for school administrator licensure shall meet all requirements prescribed by the department under paragraph (b), (c) or (d), and the cost of the assessment process required shall be paid by the applicant.

(8) Reciprocity. (a) The department shall grant a standard license to any individual who possesses a valid standard license from another state and has a minimum of two (2) years of full-time teaching or administrator experience.

(b) The department shall grant a nonrenewable special license to any individual who possesses a credential which is less than a standard license or certification from another state, or who possesses a standard license from another state but has less than two (2) years of full-time teaching or administration experience. Such special license shall be valid for the current school year plus one (1) additional school year to expire on June 30 of the second year, not to exceed a total period of twenty-four (24) months, during which time the applicant shall be required to complete the requirements for a standard license in Mississippi.

(9) Renewal and Reinstatement of Licenses. The State Board of Education is authorized to establish rules and regulations for the renewal and reinstatement of educator and administrator licenses. Effective May 15, 1997, the valid standard license held by an educator shall be extended five (5) years beyond the expiration date of the license in order to afford the educator adequate time to fulfill new renewal requirements established pursuant to this subsection. An educator completing a master of education, educational specialist or doctor of education degree in May 1997 for the purpose of upgrading the educator's license to a higher class shall be given this extension of five (5) years plus five (5) additional years for completion of a higher degree.
(10) All controversies involving the issuance, revocation, suspension or any change whatsoever in the licensure of an educator required to hold a license shall be initially heard in a hearing de novo, by the commission or by a subcommittee established by the commission and composed of commission members for the purpose of holding hearings. Any complaint seeking the denial of issuance, revocation or suspension of a license shall be by sworn affidavit filed with the Commission of Teacher and Administrator Education, Certification and Licensure and Development. The decision thereon by the commission or its subcommittee shall be final, unless the aggrieved party shall appeal to the State Board of Education, within ten (10) days, of the decision of the committee or its subcommittee. An appeal to the State Board of Education shall be on the record previously made before the commission or its subcommittee unless otherwise provided by rules and regulations adopted by the board. The State Board of Education in its authority may reverse, or remand with instructions, the decision of the committee or its subcommittee. The decision of the State Board of Education shall be final.

(11) The State Board of Education, acting through the commission, may deny an application for any teacher or administrator license for one or more of the following:

(a) Lack of qualifications which are prescribed by law or regulations adopted by the State Board of Education;

(b) The applicant has a physical, emotional or mental disability that renders the applicant unfit to perform the duties authorized by the license, as certified by a licensed psychologist or psychiatrist;

(c) The applicant is actively addicted to or actively dependent on alcohol or other habit-forming drugs or is a habitual user of narcotics, barbiturates, amphetamines, hallucinogens, or other drugs having similar effect, at the time of application for a license;
(d) Revocation of an applicant's certificate or license by another state;

(e) Fraud or deceit committed by the applicant in securing or attempting to secure such certification and license;

(f) Failing or refusing to furnish reasonable evidence of identification;

(g) The applicant has been convicted, has pled guilty or entered a plea of nolo contendere to a felony, as defined by federal or state law; or

(h) The applicant has been convicted, has pled guilty or entered a plea of nolo contendere to a sex offense as defined by federal or state law.

(12) The State Board of Education, acting on the recommendation of the commission, may revoke or suspend any teacher or administrator license for specified periods of time for one or more of the following:

(a) Breach of contract or abandonment of employment may result in the suspension of the license for one (1) school year as provided in Section 37-9-57;

(b) Obtaining a license by fraudulent means shall result in immediate suspension and continued suspension for one (1) year after correction is made;

(c) Suspension or revocation of a certificate or license by another state shall result in immediate suspension or revocation and shall continue until records in the prior state have been cleared;

(d) The license holder has been convicted, has pled guilty or entered a plea of nolo contendere to a felony, as defined by federal or state law;

(e) The license holder has been convicted, has pled guilty or entered a plea of nolo contendere to a sex offense, as defined by federal or state law; or
(f) The license holder knowingly and willfully committing any of the acts affecting validity of mandatory uniform test results as provided in Section 37-16-4(1).

(13) (a) Dismissal or suspension of a licensed employee by a local school board pursuant to Section 37-9-59 may result in the suspension or revocation of a license for a length of time which shall be determined by the commission and based upon the severity of the offense.

(b) Any offense committed or attempted in any other state shall result in the same penalty as if committed or attempted in this state.

(c) A person may voluntarily surrender a license. The surrender of such license may result in the commission recommending any of the above penalties without the necessity of a hearing. However, any such license which has voluntarily been surrendered by a licensed employee may be reinstated by a unanimous vote of all members of the commission.

(14) A person whose license has been suspended on any grounds except criminal grounds may petition for reinstatement of the license after one (1) year from the date of suspension, or after one-half (1/2) of the suspended time has lapsed, whichever is greater. A license suspended on the criminal grounds may be reinstated upon petition to the commission filed after expiration of the sentence and parole or probationary period imposed upon conviction. A revoked license may be reinstated upon satisfactory showing of evidence of rehabilitation. The commission shall require all who petition for reinstatement to furnish evidence satisfactory to the commission of good character, good mental, emotional and physical health and such other evidence as the commission may deem necessary to establish the petitioner's rehabilitation and fitness to perform the duties authorized by the license.
(15) Reporting procedures and hearing procedures for dealing with infractions under this section shall be promulgated by the commission, subject to the approval of the State Board of Education. The revocation or suspension of a license shall be effected at the time indicated on the notice of suspension or revocation. The commission shall immediately notify the superintendent of the school district or school board where the teacher or administrator is employed of any disciplinary action and also notify the teacher or administrator of such revocation or suspension and shall maintain records of action taken. The State Board of Education may reverse or remand with instructions any decision of the commission regarding a petition for reinstatement of a license, and any such decision of the State Board of Education shall be final.

(16) An appeal from the action of the State Board of Education in denying an application, revoking or suspending a license or otherwise disciplining any person under the provisions of this section, shall be filed in the Chancery Court of the First Judicial District of Hinds County on the record made, including a verbatim transcript of the testimony at the hearing. The appeal shall be filed within thirty (30) days after notification of the action of the board is mailed or served and the proceedings in chancery court shall be conducted as other matters coming before the court. The appeal shall be perfected upon filing notice of the appeal and by the prepayment of all costs, including the cost of preparation of the record of the proceedings by the State Board of Education, and the filing of a bond in the sum of Two Hundred Dollars ($200.00) conditioned that if the action of the board be affirmed by the chancery court, the applicant or license holder shall pay the costs of the appeal and the action of the chancery court.

(17) All such programs, rules, regulations, standards and criteria recommended or authorized by the commission shall become...
effective upon approval by the State Board of Education as
designated by appropriate orders entered upon the minutes thereof.

(18) The granting of a license shall not be deemed a
property right nor a guarantee of employment in any public school
district. A license is a privilege indicating minimal eligibility
for teaching in the public schools of Mississippi. This section
shall in no way alter or abridge the authority of local school
districts to require greater qualifications or standards of
performance as a prerequisite of initial or continued employment
in such districts.

(19) In addition to the reasons specified in subsections
(12) and (13) of this section, the board shall be authorized to
suspend the license of any licensee for being out of compliance
with an order for support, as defined in Section 93-11-153. The
procedure for suspension of a license for being out of compliance
with an order for support, and the procedure for the reissuance or
reinstatement of a license suspended for that purpose, and the
payment of any fees for the reissuance or reinstatement of a
license suspended for that purpose, shall be governed by Section
93-11-157 or 93-11-163, as the case may be. Actions taken by the
board in suspending a license when required by Section 93-11-157
or 93-11-163 are not actions from which an appeal may be taken
under this section. Any appeal of a license suspension that is
required by Section 93-11-157 or 93-11-163 shall be taken in
accordance with the appeal procedure specified in Section
93-11-157 or 93-11-163, as the case may be, rather than the
procedure specified in this section. If there is any conflict
between any provision of Section 93-11-157 or 93-11-163 and any
provision of this chapter, the provisions of Section 93-11-157 or
93-11-163, as the case may be, shall control.

SECTION 32. Section 37-4-4, Mississippi Code of 1972, is
amended as follows:
37-4-4. The Commissioner of Higher Education, or his designee, shall attend all regular meetings of the State Board for Community and Junior Colleges. The commissioner shall have no jurisdiction or vote on any matter within the jurisdiction of the board. The Commissioner of Higher Education and any designee who is a state employee shall receive no per diem for attending meetings of the board, but shall be entitled to actual and necessary expense reimbursement and mileage for attending meetings at locations other than Jackson, Mississippi.

SECTION 33. Section 37-9-77, Mississippi Code of 1972, is amended as follows:

37-9-77. (1) There is established the Mississippi School Administrator Sabbatical Program which shall be available to licensed teachers employed in Mississippi school districts for not less than three (3) years, for the purpose of allowing such teachers to become local school district administrators under the conditions set forth in this section. The State Board of Education, in coordination with the board of trustees of each state institution of higher learning offering administrator course work and training, shall develop guidelines for the program. Application shall be made to the State Department of Education for the Mississippi School Administrator Sabbatical Program by qualified teachers meeting the criteria for a department-approved administration program and who have been recommended by the local school board. Administration programs that are eligible for the administrator sabbatical program shall be limited to those that have been approved by the department by the January 1 preceding the date of admission to the program. Admission into the program shall authorize the applicant to take university course work and training leading to an administrator's license.

(2) The salaries of the teachers approved for participation in the administrator sabbatical program shall be paid by the employing school district from nonminimum education program funds.
However, the State Department of Education shall reimburse the employing school districts for the cost of the salaries and paid fringe benefits of teachers participating in the administrator sabbatical program for one (1) contract year. Reimbursement shall be made in accordance with the then current minimum education program salary schedule under Section 37-19-7, except that the maximum amount of the reimbursement from state funds shall not exceed the minimum education program salary for a teacher holding a Class A license and having five (5) years' experience. The local school district shall be responsible for that portion of a participating teacher's salary attributable to the local supplement and for any portion of the teacher's salary that exceeds the maximum amount allowed for reimbursement from state funds as provided in this subsection, and the school board may not reduce the local supplement payable to that teacher. Any reimbursements made by the State Department of Education to local school districts under this section shall be subject to available appropriations and may be made only to school districts determined by the State Board of Education as being in need of administrators.

(3) Such teachers participating in the program on a full-time basis shall continue to receive teaching experience and shall receive the salary prescribed in Section 37-19-7, including the annual experience increments. Such participants shall be fully eligible to continue participation in the Public Employees Retirement System and the Public School Employees Health Insurance Plan during the time they are in the program on a full-time basis.

(4) As a condition for participation in the School Administrator Sabbatical Program, such teachers shall agree to employment as administrators in the sponsoring school district for not less than five (5) years following completion of administrator licensure requirements. Any person failing to comply with this employment commitment in any required school year, unless the
commitment is deferred as provided in subsection (5) of this section, shall immediately be in breach of contract and become liable to the State Department of Education for that amount of his salary and paid fringe benefits paid by the state while the teacher was on sabbatical, less twenty percent (20%) of the amount of his salary and paid fringe benefits paid by the state for each year that the person was employed as an administrator following completion of the administrator licensure requirements. In addition, the person shall become liable to the local school district for any portion of his salary and paid fringe benefits paid by the local school district while the teacher was on sabbatical that is attributable to the local salary supplement or is attributable to the amount that exceeds the maximum amount allowed for reimbursement from state funds as provided in subsection (2) of this section, less twenty percent (20%) of the amount of his salary and paid fringe benefits paid by the school district for each year that the person was employed as an administrator following completion of the administrator licensure requirements. Interest on the amount due shall accrue at the current Stafford Loan rate at the time the breach occurs. If the claim for repayment of such salary and fringe benefits is placed in the hands of an attorney for collection after default, then the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(5) If there is not an administrator position immediately available in the sponsoring school district after a person has completed the administrator licensure requirements, or if the administrator position in the sponsoring school district in which the person is employed is no longer needed before the completion of the five-year employment commitment, the local school board shall defer any part of the employment commitment that has not been met until such time as an administrator position becomes available in the sponsoring school district. If such a deferral
is made, the sponsoring school district shall employ the person as
a teacher in the school district during the period of deferral,
unless the person desires to be released from employment by the
sponsoring school district and the district agrees to release the
person from employment. If the sponsoring school district
releases a person from employment, that person may be employed as
an administrator in another school district in the state that is
in need of administrators as determined by the State Board of
Education, and that employment for the other school district shall
be applied to any remaining portion of the five-year employment
commitment required under this section. Nothing in this
subsection shall prevent a school district from not renewing the
person's contract before the end of the five-year employment
commitment in accordance with the School Employment Procedures Law
(Section 37-9-101 et seq.). However, if the person is not
employed as an administrator by another school district after
being released by the sponsoring school district, or after his
contract was not renewed by the sponsoring school district, he
shall be liable for repayment of the amount of his salary and
fringe benefits as provided in subsection (4) of this section.

(6) All funds received by the State Department of Education
from the repayment of salary and fringe benefits paid by the state
from program participants shall be deposited in the Mississippi
Critical Teacher Shortage Fund.

(7) This section shall stand repealed from and after July 1,
2003.

SECTION 34. Section 37-9-213, Mississippi Code of 1972, is
amended as follows:

37-9-213. The Mississippi Teacher Center shall be
responsible for the regular and ongoing evaluation of the
beginning teacher support program and may contract for such
evaluation. The evaluation shall include, but not be limited to,
(a) A survey and follow-up of all eligible mentor teachers and beginning teachers and appropriate district officials, to assess satisfaction with and the effectiveness of the beginning teacher support program;

(b) The amount and quality of the contact time between mentor teachers and beginning teachers;

(c) The effectiveness of workshops and other training required under Sections 37-9-201 through 37-9-211;

(d) The effectiveness of the mentor program in enhancing the professional development and retention of new teachers in the district;

(e) The desirability of extending this assistance program to students participating in graduate level teacher preparation programs similar to those which have been proposed by the boards of trustees of state institutions of higher learning offering such programs; and

(f) The desirability of extending this assistance program to all probationary teachers.

SECTION 35. Section 37-11-17, Mississippi Code of 1972, is amended as follows:

37-11-17. (1) The State Board of Education, the board of trustees of each state institution of higher learning, the State Board for Community and Junior Colleges, the boards of trustees of the several junior colleges, the county boards of education, the governing authorities of any county, municipal or other public school districts, such other boards set up by law for any educational institution, school, college or university, or their authorized representative, or the State Health Officer or his authorized representative, may require any teacher, supervisor, janitor or other employee of the school to submit to a thorough physical examination, deemed advisable to determine whether he has any infectious or communicable disease.
(2) The State Board of Education may develop a program to accomplish the identification of public school students with abnormal spinal curvature. No state funds shall be expended for the purposes of implementing this subsection. Such program shall:

(a) Provide that an adequate number of school personnel in each district be instructed by qualified medical experts in the proper examination of students for abnormal spinal curvatures;

(b) Provide that all public school students who are at least ten (10) years old be screened at least every two (2) years but at least in the fourth, sixth, eighth and tenth grades or at such other times as may be recommended by medical experts on a per case basis;

(c) Provide that students identified as having abnormal spinal curvatures or potential for abnormal spinal curvatures be referred to the county health officer or to the student's personal physician or chiropractor with notice of the evaluation; and

(d) Provide for notification of the parent or guardian of any student identified under this program and for the supplying to such parent or guardian information on the condition and resources available for the correction or treatment of such condition. However, the requirement for screening shall not apply to a child whose parent or guardian objects thereto on grounds that the requirement conflicts with his conscientiously held religious beliefs.

SECTION 36. Section 37-11-29, Mississippi Code of 1972, is amended as follows:

37-11-29. (1) Any principal, teacher or other school employee who has knowledge of any unlawful activity which occurred on educational property or during a school related activity or which may have occurred shall report such activity to the superintendent of the school district or his designee who shall notify the appropriate law enforcement officials as required by this section. In the event of an emergency or if the
superintendent or his designee is unavailable, any principal may
make a report required under this subsection.

(2) Whenever any person who shall be an enrolled student in
any school or educational institution in this state supported in
whole or in part by public funds, or who shall be an enrolled
student in any private school or educational institution, is
arrested for, and lawfully charged with, the commission of any
crime and convicted upon the charge for which he was arrested, or
convicted of any crime charged against him after his arrest and
before trial, the office or law enforcement department of which
the arresting officer is a member, and the justice court judge and
any circuit judge or court before whom such student is tried upon
said charge or charges, shall make or cause to be made a report
thereof to the superintendent or the president or chancellor, as
the case may be, of the school district or other educational
institution in which such student is enrolled.

If the charge upon which such student was arrested, or any
other charges preferred against him are dismissed or nol prossed,
or if upon trial he is either convicted or acquitted of such
charge or charges, same shall be reported to said respective
superintendent or president, or chancellor, as the case may
be. ***

Said report shall be made within one (1) week after the
arrest of such student and within one (1) week after any charge
placed against him is dismissed or nol prossed, and within one (1)
week after he shall have pled guilty, been convicted, or have been
acquitted by trial upon any charge placed against him. This
section shall not apply to ordinary traffic violations involving a
penalty of less than Fifty Dollars ($50.00) and costs.

(3) When the superintendent or his designee has a reasonable
belief that an act has occurred on educational property or during
a school related activity involving any of the offenses set forth
in subsection (6) of this section, the superintendent or his
designee shall immediately report the act to the appropriate local
law enforcement agency. For purposes of this subsection, "school
property" shall include any public school building, bus, public
school campus, grounds, recreational area or athletic field in the
charge of the superintendent. The State Board of Education shall
prescribe a form for making reports required under this
subsection. Any superintendent or his designee who fails to make
a report required by this section shall be subject to the
penalties provided in Section 37-11-15.

(4) The law enforcement authority shall immediately dispatch
an officer to the educational institution and with probable cause
the officer is authorized to make an arrest if necessary as
provided in Section 99-3-7.

(5) Any superintendent, principal, teacher or other school
personnel participating in the making of a required report
pursuant to this section or participating in any judicial
proceeding resulting therefrom shall be presumed to be acting in
good faith. Any person reporting in good faith shall be immune
from any civil liability that might otherwise be incurred or
imposed.

(6) For purposes of this section, "unlawful activity" means
any of the following:

(a) Possession or use of a deadly weapon, as defined in
Section 97-37-1;

(b) Possession, sale or use of any controlled
substance;

(c) Aggravated assault, as defined in Section 97-3-7;

(d) Simple assault, as defined in Section 97-3-7, upon
any school employee;

(f) Sexual battery, as defined under Mississippi law;

(g) Murder, as defined under Mississippi law;

SECTION 37. Section 37-26-9, Mississippi Code of 1972, is amended as follows:

37-26-9. (1) It shall be the duty of the clerk of any court to promptly collect the costs imposed pursuant to the provisions of Section 37-26-3. In all cases the clerk shall monthly deposit all such costs so collected with the State Treasurer either directly or by other appropriate procedures. All such deposits shall be clearly marked for the State Court Education Fund and the State Prosecutor Education Fund. Upon receipt of such deposits, the State Treasurer shall credit seventy-five percent (75%) of any amounts so deposited to the State Court Education Fund created pursuant to subsection (2) of this section, and shall credit the remaining twenty-five percent (25%) of any amounts so deposited to the State Prosecutor Education Fund created pursuant to subsection (3) of this section.

(2) Such assessments as are collected under Section 99-19-73 shall be deposited in a special fund hereby created in the State Treasury and designated the "State Court Education Fund." Monies deposited in such fund shall be expended by the board of trustees of each state institution of higher learning as authorized and appropriated by the Legislature to defray the cost of providing: (i) education and training for the courts of Mississippi and related personnel; (ii) technical assistance for the courts of Mississippi and related personnel; and (iii) current and accurate information for the Mississippi Legislature pertaining to the needs of the courts of Mississippi and related personnel.

(3) Such assessments as are collected under Section 99-19-73 shall be deposited in a special fund hereby created in the State Treasury and designated the "State Prosecutor Education Fund." Monies deposited in such fund shall be expended by the Attorney General of the State of Mississippi as authorized and appropriated
by the Legislature to defray the cost of providing: (i) education

and municipal prosecuting attorneys; (ii) technical assistance for
district attorneys, county prosecuting attorneys and municipal

for the Mississippi Legislature pertaining to the needs of
district attorneys, county prosecuting attorneys and municipal

(4) A supplemental fund is hereby created in the State
Treasury and designated the State Court Constituents Fund. Monies
deposited in such fund shall be for the education and training of
judges and related court personnel other than those specified in
Section 37-26-1(b). In addition to any other fees or costs now or
as may hereafter be provided by law, there is hereby charged in
all civil cases in the chancery, circuit, county, justice and
municipal courts of this state a supplemental court education and
training cost in the amount of Fifty Cents (50¢), except in
justice court cases where the amount sued for is less than Fifteen
Dollars ($15.00); and in all criminal cases in the circuit,
county, justice and municipal courts of this state, except in
cases where the fine is less than Ten Dollars ($10.00). Such
costs shall be charged and collected as provided by Sections
37-26-3 and 37-26-5.

After the transfer to the State Prosecutor Education Fund of
twenty-five percent (25%) of the money provided for in subsection
(1) of this section, there shall then be transferred into the
State Court Education Fund the money on deposit in the State Court
Constituents Fund.

(5) A special fund is created in the State Treasury and
designated the "State Court Security Systems Fund." Monies
deposited in such fund shall be expended for general courtroom

The Administrative Office of Courts shall conduct a study to assess and determine the security needs of the courts and is authorized to expend monies in the fund for the purposes of the fund as authorized and appropriated by the Legislature.

**SECTION 38.** Section 37-61-33, Mississippi Code of 1972, is amended as follows:

37-61-33. (1) There is created within the State Treasury a special fund to be designated the "Education Enhancement Fund" into which shall be deposited all the revenues collected pursuant to Sections 27-65-75(7) and (8) and 27-67-31(a) and (b).

(2) Of the amount deposited into the Education Enhancement Fund, Sixteen Million Dollars ($16,000,000.00) shall be appropriated each fiscal year to the State Department of Education to be distributed to all school districts. Such money shall be distributed to all school districts in the proportion that the average daily attendance of each school district bears to the average daily attendance of all school districts within the state for the following purposes:

(a) Purchasing, erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities, including gymnasiums, auditoriums, lunchrooms, vocational training buildings, libraries, teachers' homes, school barns, transportation vehicles (which shall include new and used transportation vehicles) and garages for transportation vehicles, and purchasing land therefor.

If, at the conclusion of the project, any sum should remain in said special account it shall be repaid to the institution entitled thereto to be handled in accordance with the terms of the agreement with the holder or holders of the bonds.

(3) Expenditures by and for the center and its branches shall be paid by the State Treasurer out of the funds appropriated to carry out the provisions of this chapter, upon warrant issued by the State Fiscal Management Board; and such board shall issue
its warrant upon requisition signed by the director of the center, in the manner provided by law. Full and complete accounting shall be kept and made by the center for all funds received and expended by it. Representatives of the office of the State Auditor annually shall audit the expenditures of funds received by the center from all sources, and the auditor shall make a complete and detailed report of such audit to the Legislature.

SECTION 158. Section 37-143-3, Mississippi Code of 1972, is amended as follows:

37-143-3. The Legislature makes the following findings of fact and declarations of purpose: By legislative enactment, five (5) loan or scholarship programs have been created wherein Mississippi residents are granted scholarships in certain professional fields in return for their contractual obligation to perform services in such professions under a variety of requirements of location, duration, manner and mode of service, and institution in which performed. Such loan or scholarship programs provide variously for different degrees of recourse in the event that the recipient's contract is not fulfilled, but shall provide in every case that the scholarship convert to a loan which must be repaid at interest and, in some of the programs, require the payment of penalties also. In addition to the foregoing described loan or scholarship programs, a State of Mississippi fund-financed loan program was created in the Postsecondary Education Financial Assistance Law of 1975. The purposes and needs, for which the Postsecondary Education Financial Assistance Law was enacted, have now been almost entirely supplanted by the provisions of the federal laws providing for guaranteed student loans. The Legislature further finds, that as a result of the restrictive and punitive provisions contained in the loan or scholarship programs in existence prior to this chapter, there are low levels of utilization of such programs. The Legislature further finds that such programs being
enacted at various times and for various specialized purposes have inconsistencies in the provisions for their administration, which should be made consistent, uniform and regular. The Legislature further finds that because of the low use of the Postsecondary Education Financial Assistance Law, there are sums of monies dedicated for use in student loans or scholarships which could be utilized in the improved scholarship or loan programs created by this chapter. The Legislature finds and declares that such older existing revolving funds should be collapsed and consolidated into a single revolving fund in support of the loan or scholarship programs authorized herein. The Legislature further finds and declares that there is a need for the creation of additional scholarship programs for the purpose of encouraging eligible Mississippi residents to enter into professional schools, and that, in particular, there should be programs to encourage the participation of minorities in graduate professional programs in the institutions of this state, and that the Commissioner of Higher Education should be granted the power and authority to create and implement such new loan or scholarship programs as the need may arise. And the Legislature further finds and declares that there is a need to create an ability within the office of the commissioner to fashion new and innovative systems for the financing of loan or scholarship programs by combining the use of private sector loans for education and guaranteed student loans with scholarship repayment programs promulgated by the board, and that the board should be granted authority to devise and develop such innovative systems to obtain the most efficient use of state funds to encourage entry and service in certain professional fields.

SECTION 159. Section 37-143-5, Mississippi Code of 1972, is amended as follows:

37-143-5. (1) There is hereby created the medical loan or scholarship program. The purpose of such program shall be to
enable eligible applicants who desire to become physicians to
obtain a medical education in the University of Mississippi School
of Medicine, which will qualify them to become licensed,
practicing physicians and surgeons.

(2) The Board of Trustees of the University of Mississippi
shall establish, by rule and regulation, the maximum annual award
which may be made under this program at an amount not to exceed
the cost of tuition and other expenses, and shall establish the
maximum number of awards which may be made not to exceed the
length of time required to complete the degree requirements and
internship or residency.

(3) Loans made to applicants under this program may be made
under similar terms and conditions as then current provisions of
the Federal Guaranteed Student Loan Program, or its successor, as
to the repayment of principal and interest. Such loans shall be
eligible for deferment during attendance as a full-time student in
an approved course of training. No interest shall accrue on such
loan during the time the recipient is in such attendance. Such
loans may be eligible for other deferments for such other causes
as may be established by the board by rule and regulations not
inconsistent with the foregoing.

(4) Loans made to applicants shall be made and based upon
the following options for repayment or conversion to interest-free
scholarships:

(a) Payment in full of principal and interest must be
made in sixty (60) or less equal monthly installments, commencing
one (1) month after graduation and internship or residency,

(b) In lieu of payment in full of both principal and
interest, a loan recipient may elect to repay by entry into public
health work at a state health institution as defined in Section
37-143-13(2), or community health centers that are grantees under
Section 330 of the United States Public Health Service Act.
Repayment under this option shall convert loan to scholarship, and discharge the same, on the basis of one (1) year's service for one year's loan amount, or the appropriate proportion of the total outstanding balance of principal and interest, all as shall be established by rule and regulation of the board of trustees. If at any time prior to the repayment in full of the total obligation the recipient abandons or abrogates repayment by this option, the provisions of Section 37-143-5(d) shall apply;

(c) In lieu of payment in full of both principal and interest, a loan recipient may elect to repay by entry into the practice of medicine in a primary health care field in an area outside of a metropolitan statistical area, as defined and established by the United States Census Bureau, and within a region ranking between 1 and 54, inclusively, on the Relative Needs Index of Five Factors for Primary Care Physicians, as annually determined by the State Board of Health, for a period of five (5) years. Repayment under this option shall convert loan to scholarship, and discharge the same on the basis of one (1) year's service for one (1) year's loan amount, or the appropriate proportion of the total outstanding balance of principal and interest, all as shall be established by rule and regulation of the board of trustees. If at any time prior to the repayment in full of the total obligation the recipient abandons or abrogates repayment by this option, the provisions of Section 37-143-5(4)(d) shall apply;

(d) In the event of abandonment or abrogation of the options for repayment as provided for in Section 37-143-5(4)(b) and (c), the remaining balance of unpaid or undischarged principal and interest shall become due and payable over the remaining period of time as if the option provided for in Section 37-143-5(4)(a) had been elected upon graduation and internship or residency.
(5) The boardshall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.

SECTION 160. Section 37-143-6, Mississippi Code of 1972, is amended as follows:

37-143-6. (1) There is established a medical education scholarship and loan repayment program, which shall be administered by the Board of Trustees of the University of Mississippi. Each year, the program shall provide a certain number of eligible applicants, if the applicant meets the conditions upon which the scholarship or loan repayment is granted, with: (a) a full scholarship to obtain a medical education at the University of Mississippi School of Medicine at no cost to the recipient; or (b) funds for repaying state and federal medical education loans.

(2) The program shall provide scholarships or loan repayments to up to twenty (20) new recipients each year, of which no more than ten (10) may be recipients of loan repayments. The program shall be funded from monies appropriated from the Health Care Expendable Fund established under Section 43-13-407. The amounts that may be expended annually for scholarships and loan repayments under the program shall not exceed the following: Five Hundred Thousand Dollars ($500,000.00) in fiscal year 2001; One Million Dollars ($1,000,000.00) in fiscal year 2002; One Million Five Hundred Thousand Dollars ($1,500,000.00) in fiscal year 2003; and Two Million Dollars ($2,000,000.00) in fiscal year 2004 and in any later fiscal year.

(3) A scholarship awarded under this program shall be in an amount that will pay the full cost of attendance, as defined by federal law and regulation, at the University of Mississippi School of Medicine for the entire time necessary for the recipient to complete the requirements for a medical degree. The actual amount of the scholarship shall be determined by the Office of
Financial Aid of the University of Mississippi Medical Center but shall not exceed Twenty-five Thousand Dollars ($25,000.00) per year for any recipient.

(4) Before being granted a scholarship, each applicant shall enter into a contract with the board of trustees, which shall be deemed a contract with the State of Mississippi, agreeing to the terms and conditions upon which the scholarship will be granted. In order to receive a scholarship under the program, the recipient must agree in the contract to practice family medicine for a period of not less than ten (10) years after completion of his or her residency in an area of the state that is a critical needs area for primary medical care at the time of the recipient’s entry into medical practice. The determination and designation of the areas of the state that are critical needs areas for primary medical care in which scholarship recipients may practice shall be made by a committee to be known as the Medical Care Critical Needs Committee, which shall be composed of the following persons: the Vice Chancellor for Health Affairs of the University of Mississippi Medical Center, who shall be chairman of the committee; the Executive Director of the State Department of Health; the Executive Director of the Division of Medicaid; the President of the Mississippi State Medical Association or his designee; the President of the Mississippi State Hospital Association or his designee; the President of the Mississippi Academy of Family Physicians; and the Executive Director of the Mississippi Primary Health Care Association. The committee shall meet at least once annually to determine and designate the areas of the state that are critical needs areas for primary medical care in which scholarship recipients may practice family medicine in order to fulfill their contractual obligation.

(5) (a) Beginning on July 1, 2001, the Board of Trustees of the University of Mississippi may use any funds available under the medical education scholarship and loan repayment program for
repaying state and federal medical education loans made to licensed family medicine physicians who agree to practice family medicine for a period of not less than eight (8) years in an area of the state that is a critical needs area for primary medical care, as designated by the Medical Care Critical Needs Committee. The board of trustees shall use such funds to apply for and receive federal matching funds from the National Health Service Corps to assist in the repayment of qualified educational loans for primary health care clinicians who agree to practice in a critical needs area for primary medical care. In order to receive a state loan repayment under this section, an applicant must enter into a contract with the board of trustees, which shall be deemed a contract with the State of Mississippi, agreeing to the terms and conditions upon which the loan repayment will be granted. The contract must include all conditions specified under subsection (4) for scholarship recipients; however, for a loan repayment, the minimum period of service required in an area of the state that is a critical needs area for primary medical care at the time the contract is executed is eight (8) years. The contract also must specify the total amount of the loan repayment and a schedule for making payments to the recipient, based upon the recommendation of the Medical Care Critical Needs Committee.

(b) The board of trustees shall give priority in awarding loan repayments to family medicine physicians according to the following:

(i) University of Mississippi School of Medicine graduates or persons who have completed successfully a full three-year family medicine residency training program in the State of Mississippi;

(ii) Persons who were born in Mississippi who have completed training in a certified family medicine residency program outside the State of Mississippi; and
(iii) Physicians who are practicing outside the State of Mississippi who received training at a medical school outside the state and who are board certified in family practice.

(c) The Medical Care Critical Needs Committee shall meet at least once annually to determine and designate the areas of the state that are critical needs areas for primary medical care in which loan repayment recipients may practice family medicine and other primary care health professional disciplines in order to fulfill their contractual obligation. The committee also shall determine the priority of additional primary health care clinicians who are eligible to participate in the state loan repayment program using any National Health Service Corps matching funds or other funds excluding funds appropriated by the Legislature.

(6) If a scholarship recipient leaves the University of Mississippi School of Medicine before graduation, or leaves his or her residency before completion, or fails to practice family medicine for a period of ten (10) years in a critical needs area for primary medical care as designated by the Medical Care Critical Needs Committee under subsection (4) of this section, the full amount that the recipient received under the scholarship shall be due and payable within ninety (90) days, together with interest. If a loan repayment recipient fails to practice family medicine for a period of eight (8) years in a critical needs area for primary medical care as designated by the Medical Care Critical Needs Committee under subsection (5)(c) of this section, the full amount that the recipient received for loan repayments shall be due and payable within ninety (90) days, together with interest. The amount of interest due shall be equal to the annual rate of return on the Health Care Trust Fund established under Section 43-13-405 for each year from the time the recipient received the scholarship or loan repayment money until the time the scholarship or loan repayment money is repaid. The board of
trustees may bring suit against any scholarship or loan repayment recipient to recover the amount due to the state under this section for the recipient's failure to comply with the conditions upon which the scholarship or loan repayment was granted, as provided in this section and in the contract between the recipient and the board of trustees. The board of trustees is authorized to postpone or forgive the repayment of all or part of the amount that a recipient received under the scholarship or for loan repayments and the interest that would otherwise be due under this subsection if the recipient's failure to comply with the conditions upon which the scholarship or loan repayment was granted was due to circumstances beyond the recipient's control that caused the recipient to be physically unable to comply with those conditions, such as suffering a severe illness, injury or other disabling condition.

(7) The board of trustees shall establish such rules and regulations, based upon recommendations submitted by the Medical Care Critical Needs Committee, which it deems necessary and proper to carry out the purposes and intent of this section.

SECTION 161. Section 37-143-7, Mississippi Code of 1972, is amended as follows:

37-143-7. (1) There is hereby created the dental loan or scholarship program. The purpose of such program shall be to enable eligible applicants who desire to become dentists to obtain a standard four-year education in the study of dentistry in the University of Mississippi School of Dentistry, which will qualify them to become licensed, practicing dentists.

(2) The Board of Trustees of the University of Mississippi shall establish, by rule and regulation, the maximum annual award which may be made under this program at an amount not to exceed the cost of tuition and other expenses, and shall establish the maximum number of awards, which may be made not to exceed the length of time required to complete the degree requirements.
(3) Loans made to applicants under this program may be made under similar terms and conditions as then current provisions of the Federal Guaranteed Student Loan Program, or its successor, as to the repayment of principal and interest. Such loans shall be eligible for deferment during attendance as a full-time student in an approved course of training. No interest shall accrue on such loan during the time the recipient is in such attendance. Such loans may be eligible for other deferments for such other causes as may be established by the board by rule and regulations not inconsistent with the foregoing.

(4) Loans made to applicants shall be made and based upon the following options for repayment or conversion to interest-free scholarships:

(a) Payment in full of principal and interest must be made in sixty (60) or less equal monthly installments, commencing one (1) month after graduation or termination of attendance as a full-time student;

(b) In lieu of payment in full of both principal and interest, a loan recipient may elect to repay by entry into public health work at a state health institution as defined in Section 37-143-13(2), or community health centers that are grantees under Section 330 of the United States Public Health Service Act. Repayment under this option shall convert loan to scholarship, and discharge the same, on the basis of one (1) year's service for one (1) year's loan amount, or the appropriate proportion of the total outstanding balance of principal and interest, all as shall be established by rule and regulation of the board of trustees. If at any time prior to the discharge in full of the total obligation the recipient abandons or abrogates repayment by this option, the provisions of Section 37-143-7(4)(d) shall apply;

(c) In lieu of payment in full of both principal and interest, a loan recipient may elect to repay by entry into the practice of dentistry in an area outside of a metropolitan
statistical area, as defined and established by the United States Census Bureau, and within a region ranking between 1 and 54, inclusively, on the Relative Needs Index of Four Factors for Dentists, as annually determined by the State Board of Health, for a period of five (5) years. Repayment under this option shall convert loan to scholarship and discharge the same on the basis of one (1) year's service for one (1) year's loan amount, or the appropriate proportion of the total outstanding balance of principal and interest, all as shall be established by rule and regulation of the board of trustees. If at any time prior to the repayment in full of the total obligation the recipient abandons or abrogates repayment by this option, the provisions of Section 37-143-7(4)(d) shall apply;

(d) In the event of abandonment or abrogation of the options for repayment as provided for in Section 37-143-7(4)(b) and (c), the remaining balance of unpaid or undischarged principal and interest shall become due and payable over the remaining period of time as if the option provided for in Section 37-143-7(4)(a) had been elected upon graduation.

(5) The board shall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.

SECTION 162. Section 37-143-9, Mississippi Code of 1972, is amended as follows:

37-143-9. There is created a program for advanced study in nursing. Scholarships are established and shall be allocated to students who: (a) have graduated from an accredited high school and from a school of nursing and are licensed registered nurses in Mississippi; and (b) are approved by the Commissioner of Higher Education; and (c) enter into contract with the commissioner, obligating themselves to pursue to completion the course of study agreed upon, and immediately following the completion of such work, to spend a period of time, equal to the period of study
provided under the scholarship, in teaching nursing at any accredited school of nursing in Mississippi, approved by the commissioner, or in performing other work in the interest of public health in the state, to be approved by the commissioner. Such period of service, after completion of study under a scholarship, shall in no event be less than one (1) year.

In addition to a scholarship, any such student may be allocated a loan not to exceed One Thousand Dollars ($1,000.00) per month for each month of full-time study in a graduate nursing program. The repayment of the principal and interest of such loans shall be eligible for deferment during attendance as a full-time student in an approved program for advanced study in an accredited school of nursing. For any student who receives this loan, the student's contract with the commissioner shall obligate the student, immediately following completion of the course of study, to repay the loan by teaching nursing for not less than two (2) years at any accredited school of nursing in Mississippi approved by the commissioner. Such teaching service shall convert the loan to an interest-free scholarship, and discharge the same, on the basis of two (2) years of service for one-year's loan amount, or the appropriate proportion of the total outstanding balance of principal and interest, all as established by rule and regulation of the commissioner. Any such student who fails to complete all of the teaching service obligation shall be liable to the commissioner for the remaining balance of the principal and interest that remains undischarged.

The commissioner shall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.

SECTION 163. Section 37-143-11, Mississippi Code of 1972, is amended as follows:

37-143-11. (1) It is the intention of the Legislature to attract and retain qualified teachers by awarding incentive loans
to persons declaring an intention to serve in the teaching field
and who actually render service to the state while possessing an
appropriate teaching license.

(2) There is established the "William F. Winter Teacher
Scholar Loan Program."

(3) To the extent of appropriations available, students who
are enrolled in any baccalaureate degree-granting institution of
higher learning in the State of Mississippi accredited by the
Southern Association of Colleges and Schools and approved by the
Mississippi Commission on College Accreditation, or any accredited
nonprofit community or junior college, and who have expressed in
writing a present intention to teach in Mississippi, shall be
eligible for student loans to be applied to the costs of their
college education. Persons who have been admitted to a teacher
education program or a nontraditional teacher internship licensure
program authorized under Section 37-3-2(6)(b), as approved by the
State Board of Education, shall also qualify for loans at approved
institutions.

(4) A freshman establishing initial eligibility shall be
eligible for a maximum of four (4) annual loans and a senior shall
be eligible for one (1) annual loan.

(5) The maximum annual loan shall be set by the Commissioner
of Higher Education at an amount not to exceed the cost of
attendance at any baccalaureate degree-granting institution of
higher learning in the State of Mississippi. However, it is the
intent of the Legislature that the maximum annual loan amounts
under the William F. Winter Teacher Scholar Loan Program shall not
be of such amounts that would compete with the Critical Needs
Teacher Scholarship Program.

(6) The loans of persons who actually render service as
licensed teachers or nontraditional teacher interns authorized
under Section 37-3-2 (6)(b) in a public school in Mississippi for
a major portion of the school day for at least seventy-eight (78)

school days during each of eight (8) school semesters of the ten
(10) immediately after obtaining a baccalaureate degree, shall be
converted to interest-free scholarships. Conversion shall be
based on two (2) semesters of service for each year a loan was
received, and the Commissioner of Higher Education shall not
authorize the conversion of loans into interest-free scholarships
at any other ratio, except as follows: Participants in the
William F. Winter Teacher Scholar Loan Program may have their
loans converted into interest-free scholarships at the same ratio
as under the Critical Needs Teacher Scholarship Program if they
render service as a licensed teacher or nontraditional teacher
intern authorized under Section 37-3-2 (6)(b) in a public school
district in a geographical area of the state where there is a
critical shortage of teachers, as designated by the State Board of
Education.

(7) Persons failing to complete an appropriate program of
study shall immediately become liable to the Commissioner of
Higher Education for the sum of all outstanding loans, except in
the case of a deferral of debt for cause by the commissioner,
after which period of deferral, study may be resumed. Persons
failing to meet teaching requirements in any required semester
shall immediately be in breach of contract and become liable to
the board for the amount of the corresponding loan received, with
interest accruing at the current Stafford Loan rate at the time
the breach occurs, except in the case of a deferral of debt for
cause by the board, after which period of deferral, teaching
duties required hereunder will be resumed. If the claim for
payment of such loan is placed in the hands of an attorney for
collection after default, then the obligor shall be liable for an
additional amount equal to a reasonable attorney's fee.

(8) A loan made pursuant to this section shall not be
voidable by reason of the age of the borrower at the time of
receiving the loan.
(9) Failure to repay any loan and interest that becomes due shall be cause for the revocation of a person's teaching license by the State Department of Education.

(10) All monies repaid to the Commissioner of Higher Education hereunder shall be added to the appropriations made for purposes of this section, and those appropriations shall not lapse.

(11) The Commissioner of Higher Education with the concurrence of the State Board of Education shall jointly promulgate regulations necessary for the proper administration of this section.

(12) If insufficient funds are available for requested loans to a qualified student during any fiscal year, the commissioner shall make pro rata reductions in the loans made to qualifying applicants. Priority consideration shall be given to persons receiving previous loans and participating in the program.

(13) The commissioner shall make an annual report to the Legislature. Each report shall contain a complete enumeration of the loans or scholarships granted, names of persons to whom granted and the institutions attended by those receiving the same, the teaching location of applicants who have received their education and become licensed teachers within this state as a result of the loans and/or scholarships. The commissioner shall make a full report and account of receipts and expenditures for salaries and expenses incurred under the provisions of this section. The commissioner shall, upon his records and any published reports, distinguish between those recipients who have breached their contracts but with the commissioner's permission who have paid their financial obligations in full, and those recipients who have breached their contracts and remain financially indebted to the state.

SECTION 164. Section 37-143-15, Mississippi Code of 1972, is amended as follows:
37-143-15. The Commissioner of Higher Education is authorized and empowered to establish loan or scholarship programs of like character, operation and purpose to the foregoing enumerated programs to encourage the participation of eligible worthy persons in courses of instruction in the public institutions of higher learning, and in furtherance of such power and authority is authorized: to adopt and implement rules and regulations declaring and describing the goals and objectives of such loan or scholarship programs; to establish the eligibility requirements for entry into such program and required for continuing participation for succeeding years; to determine the maximum amount to be made available to recipients; to delineate the terms and conditions of contracts with recipients and establish the service requirements for such contracts, if any; to enter into contracts pertaining to such programs with recipients; to enter into loan agreements and other contracts with financial institutions or other providers of loan monies for scholarship or loan participants; and to allocate and utilize such funds as may be necessary for the operation of such loan or scholarship programs from the annual appropriation for student financial aid. provisions of Chapter 106 of Title 37, Mississippi Code of 1972, and for the purpose of providing monies for the operation of such other loan programs as may be deemed appropriate and authorized by the commissioner from time to time for the furtherance of education of eligible applicants. The commissioner shall be charged with the duty of directing the dispensing of such funds in a manner so as to best effectuate the purpose of this chapter. Any monies collected in the form of repayment of loans, both principal and interest, shall be deposited in this fund. The commissioner is authorized to maintain such revolving fund in an official state depository and, in accordance with Section 27-105-21, Mississippi Code of 1972, shall invest such funds, less the amount required for current operation, at interest as required by said section. All interest earned on such investments shall likewise be deposited in said fund. From such revolving fund, the commissioner shall provide the Postsecondary Education Financial Assistance Board such sums as shall be required to fulfill its role as lender of last resort to the Guarantee Student Loan program. The assets of the Postsecondary Education Financial Assistance Board, including cash and loans on hand, shall not exceed Five Hundred Thousand Dollars ($500,000.00), and repayments of principal and interest and all other revenue * * * shall be deposited in the fund created hereby.

From and after * * * July 1, 1991, the sums maintained in the respective revolving funds being repealed by Chapter 547, Laws, 1991, or other revolving funds being maintained by the commissioner shall become and constitute the monies of the consolidated revolving fund created by this section, wherever such funds may be physically located. The commissioner is hereby authorized to transfer said funds to an official state depository, as aforesaid.

Each said report shall contain a complete summary of the board's activities, loans or scholarships granted, names of persons to whom granted, institutions attended by those receiving same, and the location of loan recipients who have contracted to repay loan or scholarship through approved service in their profession. The board shall make a full report and account of the receipts and expenditures for salaries and expenses incurred under the provisions of this chapter. The board shall, upon its records and any published reports, distinguish between those recipients who have breached their contracts, but with the board's permission who have paid their financial obligations in full, and those recipients who have breached their contracts and remain financially indebted to the state.

Any person failing to complete his teaching obligation, as required under subsection (4) of this section, shall become liable immediately to the commissioner for the sum of all scholarship awards made to that person less the corresponding amount of any awards for which service has been rendered, plus interest accruing at the current Stafford Loan rate at the time the person discontinues his service, except in the case of a deferral of debt for cause by the State Board of Education when there is no employment position immediately available upon a teacher's completion of licensure requirements. After the period of such deferral, such person shall begin or resume teaching duties as required under subsection (4) or shall become liable to the commissioner under this subsection. If a claim for payment under this subsection is placed in the hands of an attorney for collection, the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(6) The obligations made by the recipient of a Critical Needs Teacher Scholarship award shall not be voidable by reason of the age of the student at the time of receiving the scholarship.

(7) The Commissioner of Higher Education and the State Board of Education shall jointly promulgate rules and regulations
necessary for the proper administration of the Critical Needs Teacher Scholarship Program. The Commissioner of Higher Education shall be the administrator of the program.

(8) If insufficient funds are available to fully fund scholarship awards to all eligible students, the Commissioner of Higher Education shall make the awards to first-time students on a first-come, first-served basis; however, priority consideration shall be given to persons previously receiving awards under the Critical Needs Teacher Scholarship Program.

(9) All funds received by the Commissioner of Higher Education from the repayment of scholarship awards by program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

(10) The State Department of Education shall compile and report, in consultation with the Commissioner of Higher Education, an annual report with findings and recommendations to the legislative committees on education by December 1, 2003, and annually thereafter, on the following:

(2) Where joint ownership of a community hospital is involved, the owners are hereby authorized to contract with each other for determining the pro rata ownership of such community hospital, the proportionate cost of maintenance and operation, and the proportionate financing that each will contribute to the community hospital.
(3) The owners may likewise contract with each other, or on behalf of any subordinate political or judicial subdivision, or with the board of trustees of a community hospital, and/or any agency of the State of Mississippi or the United States government, for necessary purposes related to the establishment, operation or maintenance of community hospitals and related programs wherever located, and may either accept from, sell or contribute to the other entities, monies, personal property or existing health facilities. (5) If any political or judicial subdivision of a county is obligated hereunder, the boundaries of such district shall not be altered in such a manner as to relieve any portion thereof of its obligation hereunder.

(6) Owners may convey to any other owner any or all property, real or personal, comprising any existing community hospital, including related facilities, wherever located, owned by such conveying owner. Such conveyance shall be upon such terms and conditions as may be agreed upon and may make such provisions for transfers of operating funds and/or for the assumption of liabilities of the community hospital as may be deemed appropriate by the respective owners.

The term of such lease shall not exceed fifty (50) years. Such lease shall be conditioned upon (i) the leased facility continuing to operate in a manner safeguarding community health interests; (ii) the proceeds from the lease being first applied against such bonds, notes or other evidence of indebtedness as are issued pursuant to Section 41-13-19 as and when they are due, provided that the terms of the lease shall cover any indebtedness pursuant to Section 41-13-19; and (iii) any surplus proceeds from the lease being deposited in the general fund of the owner, which proceeds may be used for any lawful purpose. Such lease shall be subject to the express approval of the board of trustees of the community hospital, except in the case where the board of trustees of the community hospital will be the lessee. However, owners may not lease any community hospital to the University of Mississippi Medical Center unless first the University of Mississippi Medical Center has obtained authority to lease such hospital under specific terms and conditions from the Board of Trustees of the University of Mississippi.

If the owner wishes to lease a community hospital without an option to sell it and the approval of the board of trustees of the community hospital is required but is not given within thirty (30) days of the request for its approval by the owner, then the owner may enter such lease as described herein on the following conditions: A resolution by the owner describing its intention to
enter such lease shall be published once a week for at least three
(3) consecutive weeks in at least one (1) newspaper published in
the county or city, as the case may be, or if none be so
published, in a newspaper having a general circulation therein.
The first publication of such notice shall be made not less than
twenty-one (21) days prior to the date fixed in such resolution
for the lease of the community hospital and the last publication
shall be made not more than seven (7) days prior to such date.
If, on or prior to the date fixed in such resolution for the lease
of the community hospital, there shall be filed with the clerk of
the owner a petition signed by twenty percent (20%) or fifteen
hundred (1500), whichever is less, of the qualified voters of such
owner, requesting that an election be called and held on the
question of the lease of the community hospital, then it shall be
the duty of the owner to call and provide for the holding of an
election as petitioned for. In such case, no such lease shall be
entered into unless authorized by the affirmative vote of the
majority of the qualified voters of such owner who vote on the
proposition at such election. Notice of such election shall be
given by publication in like manner as hereinabove provided for
the publication of the initial resolution. Such election shall be
conducted and the return thereof made, canvassed and declared as
nearly as may be in like manner as is now or may hereafter be
provided by law in the case of general elections in such owner.
If, on or prior to the date fixed in the owner's resolution for
the lease of the community hospital, no such petition as described
above is filed with the clerk of the owner, then the owner may
proceed with the lease subject to the other requirements of this
section. Subject to the above conditions, the lease agreement
shall be upon such terms and conditions as may be agreed upon and
may make such provision for transfers of tangible and intangible
personal property and operating funds and/or for the assumption of
liabilities of the community hospital and for such lease payments,
all as may be deemed appropriate by the owners.

(b) Owners may sell and convey all or part of the
property, real or personal, comprising a community hospital,
including any related facilities, wherever located, and/or assets
of such community hospital, to any individual, partnership or
corporation, whether operating on a nonprofit basis or on a profit
basis, or to the board of trustees of such community hospital or
any other owner or board of trustees, subject to the applicable
provisions of subsections (8) and (10) of this section. Such sale
and conveyance shall be upon such terms and conditions as may be
agreed upon by the owner and the purchaser that are consistent
with the requirements of this section, and the parties may make
such provisions for the transfer of operating funds or for the
assumption of liabilities of the facility, or both, as they deem
appropriate. However, such sale and conveyance shall be
conditioned upon (i) the facility continuing to operate in a
manner safeguarding community health interests; (ii) the proceeds
from such sale being first applied against such bonds, notes or
other evidence of indebtedness as are issued pursuant to Section
41-13-19 as and when they are due, provided that the terms of the
sale shall cover any indebtedness pursuant to Section 41-13-19;
and (iii) any surplus proceeds from the sale being deposited in
the general fund of the owner, which proceeds may be used for any
lawful purpose. However, owners may not sell or convey any
community hospital to the University of Mississippi Medical Center
unless first the University of Mississippi Medical Center has
obtained authority to purchase such hospital under specific terms
and conditions from the Board of Trustees of the University of
Mississippi.

(8) Whenever any owner decides that it may be in its best
interests to sell or lease a community hospital as provided for
under subsection (7) of this section, the owner shall first
contract with a certified public accounting firm, a law firm or
competent professional health care or management consultants to
review the current operating condition of the community hospital.
The review shall consist of, at minimum, the following:

(a) A review of the community's inpatient facility
needs based on current workload, historical trends and
projections, based on demographic data, of future needs.

(b) A review of the competitive market for services,
including other hospitals which serve the same area, the services
provided and the market perception of the competitive hospitals.

(c) A review of the hospital's strengths relative to
the competition and its capacity to compete in light of projected
trends and competition.

(d) An analysis of the hospital's options, including
service mix and pricing strategies. If the study concludes that a
sale or lease should occur, the study shall include an analysis of
which option would be best for the community and how much revenues
should be derived from the lease or sale.

(9) After the review and analysis under subsection (8) of
this section, an owner may choose to sell or lease the community
hospital. If an owner chooses to sell such hospital or lease the
hospital with an option to sell it, the owner shall follow the
procedure specified in subsection (10) of this section. If an
owner chooses to lease the hospital without an option to sell it,
it shall first spread upon its minutes why such a lease is in the
best interests of the persons living in the area served by the
facility to be leased, and it shall make public any and all
findings and recommendations made in the review required under
proposals for the lease, which shall state clearly the minimum
required terms of all respondents and the evaluation process that
will be used when the owner reviews the proposals. The owner
shall lease to the respondent submitting the highest and best
proposal. In no case may the owner deviate from the process provided for in the request for proposals.

(10) If an owner wishes to sell such community hospital or lease the hospital with an option to sell it, the owner first shall conduct a public hearing on the issue of the proposed sale or lease with an option to sell the hospital. Notice of the date, time, location and purpose of the public hearing shall be published once a week for at least three (3) consecutive weeks in at least one (1) newspaper published in the county or city, as the case may be, or if none be so published, in a newspaper having a general circulation therein. The first publication of the notice shall be made not less than twenty-one (21) days before the date of the public hearing and the last publication shall be made not more than seven (7) days before that date. If, after the public hearing, the owner chooses to sell or lease with an option to sell the hospital, the owner shall adopt a resolution describing its intention to sell or lease with an option to sell the hospital, which shall include the owner's reasons why such a sale or lease is in the best interests of the persons living in the area served by the facility to be sold or leased. The owner then shall publish a copy of the resolution; the requirements for proposals for the sale or lease with an option to sell the hospital, which shall state clearly the minimum required terms of all respondents and the evaluation process that will be used when the owner reviews the proposals; and the date proposed by the owner for the sale or lease with an option to sell the hospital. Such publication shall be made once a week for at least three (3) consecutive weeks in at least one (1) newspaper published in the county or city, as the case may be, or if none be so published, in a newspaper having a general circulation therein. The first publication of the notice shall be made not less than twenty-one (21) days before the date proposed for the sale or lease with an option to sell the hospital and the last publication shall be made
not more than seven (7) days before that date. If, on or before the date proposed for the sale or lease of the hospital, there is filed with the clerk of the owner a petition signed by twenty percent (20%) or fifteen hundred (1500), whichever is less, of the qualified voters of the owner, requesting that an election be called and held on the question of the sale or lease with an option to sell the hospital, then it shall be the duty of the owner to call and provide for the holding of an election as petitioned for. In that case, no such sale or lease shall be entered into unless authorized by the affirmative vote of the majority of the qualified voters of the owner who vote on the proposition at such election. Notice of the election shall be given by publication in the same manner as provided for the publication of the initial resolution. The election shall be conducted and the return thereof made, canvassed and declared in the same manner as provided by law in the case of general elections in the owner. If, on or before the date proposed for the sale or lease of the hospital, no such petition is filed with the clerk of the owner, then the owner may sell or lease with an option to sell the hospital. Such sale or lease shall be made to the respondent submitting the highest and best proposal. In no case may the owner deviate from the process provided for in the request for proposals.

(11) A lessee of a community hospital, under a lease entered into under the authority of Section 41-13-15, in effect prior to July 15, 1993, or an affiliate thereof, may extend or renew such lease whether or not an option to renew or extend the lease is contained in the lease, for a term not to exceed fifteen (15) years, conditioned upon (a) the leased facility continuing to operate in a manner safeguarding community health interest; (b) proceeds from the lease being first applied against such bonds, notes or other evidence of indebtedness as are issued pursuant to Section 41-13-19; (c) surplus proceeds from the lease being used
for health related purposes; (d) subject to the express approval of the board of trustees of the community hospital; and (e) subject to the express approval of the owner. If no board of trustees is then existing, the owner shall have the right to enter into a lease upon such terms and conditions as agreed upon by the parties. Any lease entered into under this subsection (11) may contain an option to purchase the hospital, on such terms as the parties shall agree.
