SENATE BILL NO. 2312

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 25-11-143, Mississippi Code of 1972, is amended as follows:

25-11-143. ***(1)** As used in this section, the term "retiree" means any person receiving a service or disability retirement benefit from any system administered by the board; however, in the case of persons participating in the optional retirement plan established in Section 25-11-401 et seq., the term "retiree" includes only those persons who would be entitled to receive a retirement allowance under the provisions of Section 25-11-111 if they were not members of the optional retirement plan.

**(2)** The board shall design a plan of health insurance for all current and future retirees that will take effect from and after January 1, 2004 ***(2)**. The plan may include coverage for the spouse, surviving beneficiary and dependent children of retirees and other such sponsored dependents as the board considers appropriate; however, the subsidy provided for in this section shall apply only to the cost of providing coverage to retirees. Initially, the plan shall have benefits equivalent to those in the State and School Employees Health Insurance Plan established in Section 25-15-9; however, the board may modify the
plan as necessary to meet the needs of the members of the plan and to maintain the fiscal soundness of the plan. The board may offer an optional plan to retirees who are eligible for Medicare, and any additional cost of that plan shall be paid by the retiree electing that optional coverage.

(3) (a) Retirees may decline coverage in the plan established by this section, but they may be included in the plan later if they apply for coverage during any open enrollment periods that may be established by the board and can show, by evidence considered sufficient to the board, that they were covered by health insurance during the period of time that they were not covered by the plan established by this section. The board may adjust the amount of the subsidy for those persons and may limit the number of times retirees who decline coverage who may be later included in the plan.

(b) The board shall determine the manner in which persons who elect continuation coverage under the federal Consolidated Omnibus Budget Reconciliation Act of 1987 (COBRA) will be treated regarding their eligibility for coverage under the plan established under this section and the amount of the subsidy for those persons.

(4) From and after January 1, 2004, the board shall subsidize a portion of the cost of providing the plan of health insurance to retirees. The amount of the subsidy provided for each retiree shall be equal to a percentage of the annual cost of providing coverage under the plan to the retiree as determined by the board. Except as otherwise provided in this section, the percentage amount of the subsidy shall be two percent (2%) for each year of creditable service, less any fronted service for age-limited disability benefits of the retiree up to a maximum of sixty percent (60%). Once the percentage amount of the subsidy has been determined under this subsection, it may not be changed unless the retiree returns to membership service and earns
additional years of creditable service or elects not to be enrolled in the plan for a period of time.

[5] The amount of the subsidy for each disability retiree shall be calculated in the same manner as other retirees. For purposes of determining the amount that a disability retiree must pay above the subsidy for coverage under the plan, the cost of coverage for disability retirees shall be deemed to be the average cost of providing coverage for other retirees as determined by the board.

[6] Each retiree participating in the plan, by written authorization, shall instruct the board to deduct from the retirement allowance the portion of the premium that is not subsidized. The amounts so deducted shall be handled by the board in the manner provided for in subsection (8) of this section.

[7] From and after July 1, 2003, each employer shall pay monthly to the board an amount equal to two and one-half percent (2.5%) of the total payroll of the employer on which retirement contributions are made under retirement plans administered by the Public Employees' Retirement System.

[8] The board may establish and enforce late charges and interest penalties or other penalties for the purpose of requiring the prompt payment of all contributions required under this section. After appropriation for administration expenses of the program, all funds received by the board under this section shall be held in a fund in the custody of the board. All those funds held by the board shall be utilized for the purpose of subsidizing the health insurance plan required to be established by this section, and shall be invested as provided in Section 25-11-145.

[9] The board:

(a) Shall administer the plan;

(b) Shall have the sole authority to promulgate rules and regulations governing the plan, and shall be vested with all legal authority necessary and proper to perform this function.
including, but not limited to, defining the benefits provided by
the plan, requesting and accepting bids for services, establishing
premium rates and receiving premium payments;

(c) May enter into contracts with accountants,
actuaries and other persons whose skills are necessary to carry
out the provisions of this section; and

(d) Is authorized to procure legal services if it deems
these services necessary to carry out its responsibilities under
this section.

SECTION 2. Section 25-11-141, Mississippi Code of 1972, is
amended as follows:

***

25-11-141. The board of trustees may enter into an agreement
with insurance companies or government agencies authorized to do
business in the state for issuance of a policy or contract of
life, dental, vision or other similar benefits, or any combination
thereof, for those persons receiving a service, disability or
survivor retirement allowance from any system administered by the
board. Notwithstanding any other provision of this chapter, the
policy or contract also may include coverage for the spouse and
dependent children of the eligible person and for such sponsored
dependents as the board considers appropriate. If all or any
portion of the policy or contract premium is to be paid by any
person receiving a service, disability or survivor retirement
allowance, the person shall, by written authorization, instruct
the board to deduct from the retirement allowance the premium cost
and to make payments to those companies, associations,
corporations or agencies.

best and most cost-effective bid. The board may reject all such
bids; however, the board shall notify all bidders of the rejection
and shall actively solicit new bids if all bids are rejected. The
board may employ or contract for such consulting or actuarial
services as may be necessary to formulate the plan, and to assist
the board in the preparation of specifications and in the process

For attending meetings of the council, those legislators shall receive per diem and expenses, which shall be paid from the contingent expense funds of their respective houses in the same amounts as provided for committee meetings when the Legislature is not in session; however, no per diem and expenses for attending meetings of the council will be paid while the Legislature is in session. No per diem and expenses will be paid except for attending meetings of the council without prior approval of the proper committee in their respective houses.

(c) No change in the terms of the State and School Employees Health Insurance Plan may be made effective unless the board, or its designee, has provided notice to the State and School Employees Health Insurance Advisory Council and has called a meeting of the council at least fifteen (15) days before the effective date of the change. If the State and School Employees Health Insurance Advisory Council does not meet to advise the
board on the proposed changes, the changes to the plan will become effective at such time as the board has informed the council that the changes will become effective.

(2) Nonduplication of benefits—reduction of benefits by Title XIX benefits: When benefits would be payable under more than one (1) group plan, benefits under those plans will be coordinated to the extent that the total benefits under all plans will not exceed the total expenses incurred.

For purposes of this subsection (7), "life insurance company group plan" means a plan administered or sold by a private insurance company. After October 1, 1999, the board may assess charges in addition to the existing State and School Life Insurance Plan rates to those employees as a condition of enrollment in the State and School Life Insurance Plan. (e) The insurance company and its group life insurance plan shall comply with any administrative requirements of the State and School Employees Health Insurance Management Board. If any insurance company providing group life insurance benefits to
employees under this subsection (7) fails to comply with any requirements specified in this subsection or any administrative requirements of the board, the state shall discontinue providing funding for the cost of that insurance.

school district employees who work no less than twenty (20) hours
during each week and regular nonstudent school bus drivers. Where
federal funding is allowable to defray, in full or in part, the
cost of participation in the program by district employees who
work no less than twenty (20) hours during the week and regular
nonstudent bus drivers, whose salaries are paid, in full or in part, by federal funds, the allowance under this section shall be reduced to the extent of that federal funding. Where the use of federal funds is allowable but not available, it is the intent of the Legislature that school districts contribute the cost of participation for the employees from local funds, except that parent fees for child nutrition programs shall not be increased to cover that cost.

(4) The state shall provide annually, by line item in the community/junior college appropriation bill, the funds to pay one hundred percent (100%) of the cost of the health insurance plan for all community/junior college district employees who work no less than twenty (20) hours during each week.

(5) When the use of federal funding is allowable to defray, in full or in part, the cost of participation in the insurance plan by community/junior college district employees who work no less than twenty (20) hours during each week, whose salaries are paid, in full or in part, by federal funds, the allowance under this section shall be reduced to the extent of the federal funding. Where the use of federal funds is allowable but not available, it is the intent of the Legislature that community/junior college districts contribute the cost of participation for the employees from local funds.

(6) Any community/junior college district may contribute to the cost of coverage for any district employee from local community/junior college district funds, and any public school district may contribute to the cost of coverage for any district employee from nonminimum program funds. Any part of the cost of the coverage for participating employees of public school districts and public community/junior college districts that is not paid by the state shall be paid by the participating employees, which shall be deducted from the salaries of the employees in a manner determined by the board.
(7) Any funds appropriated for the cost of insurance by line item in the community/junior colleges appropriation bill that are not expended during the fiscal year for which the funds were appropriated shall be carried forward for the same purposes during the next succeeding fiscal year.

(8) The board may establish and enforce late charges and interest penalties or other penalties for the purpose of requiring the prompt payment of all premiums for life and health insurance permitted under Chapter 15 of Title 25. All funds in excess of the amount needed for disbursement of claims shall be deposited in a special fund in the State Treasury to be known as the State and School Employees Insurance Fund. The State Treasurer shall invest all funds in the State and School Employees Insurance Fund and all interest earned shall be credited to the State and School Employees Insurance Fund. Those funds shall be placed with one or more depositories of the state and invested on the first day that the funds are available for investment in certificates of deposit, repurchase agreements or in United States Treasury bills or as otherwise authorized by law for the investment of Public Employees' Retirement System funds, as long as the investment is made from competitive offering and at the highest and best market rate obtainable consistent with any available investment alternatives. However, those investments shall not be made in shares of stock, common or preferred, or in any other investments that would mature more than one (1) year from the date of investment. The board shall have the authority to draw from this fund periodically such funds as are necessary to operate the self-insurance plan or to pay to the insurance carrier the cost of operation of this plan, it being the purpose to limit the amount of participation by the state to fifty percent (50%) of the cost of the life insurance program and not to limit the contracting for additional benefits where the cost will be paid in full by the employee.
(9) The board shall also provide for the creation of an Insurance Reserve Fund, and funds in the reserve fund shall be invested by the State Treasurer with all interest earned credited to the State and School Employees Insurance Fund.

SECTION 9. Section 25-15-103, Mississippi Code of 1972, is amended as follows:

* * *

25-15-103. The maximum amount of group insurance or other coverage used in determining the employer's limitation of one hundred percent (100%) of the costs shall be determined by regulations promulgated by the governing board or head of any political subdivision, school district, junior college district, institution, department or agency named in Sections 25-15-101 and 25-15-103, but the life insurance for each employee shall not exceed Fifty Thousand Dollars ($50,000.00), or the amount of deduction allowed by the United States Internal Revenue Service in filing a federal tax return, whichever is greater. A like amount may be for accidental death, accident, health and salary protection insurance, providing benefits not exceeding sixty percent (60%) of the employee's income, or the amount allowed by the United States Internal Revenue Service in filing a federal tax return, whichever is greater. Hospitalization benefits for room and board may not exceed the average semiprivate cost per day; and the other coverages authorized hereinabove. The limitations in this paragraph on the amount of group insurance and other coverage that employers may obtain for their employees shall not be applicable to municipalities.

When any of the political subdivisions, school districts, junior college districts, institutions, departments or agencies named in Sections 25-15-101 and 25-15-103 have adopted the group coverage plan authorized by those sections, any of the employees thereof participating in the plan who desire to secure additional benefits for their dependents with the company or companies
providing the group coverage may do so by authorizing in writing
the deduction from his or her salary or wages of the necessary
amounts for the full payment of the additional coverage, and the
same may be deducted and paid for those purposes, but the entire
cost of the additional coverage for dependents shall be paid by
the employee.

A municipality may provide group life insurance coverage for
all or specified groups of its public employees and group
hospitalization benefits for the public employees and their
dependents, and the municipality may pay the total of the cost of
all benefits under this section.

SECTION 10. This act shall take effect and be in force from
and after July 1, 2003.
