SECTION 3. Section 43-13-117, Mississippi Code of 1972, is amended as follows:

43-13-117. Medicaid as authorized by this article shall include payment of part or all of the costs, at the discretion of the division or its successor, with approval of the Governor, of the following types of care and services rendered to eligible applicants who have been determined to be eligible for that care and services, within the limits of state appropriations and federal matching funds:

(1) Inpatient hospital services.

(a) The division shall allow thirty (30) days of inpatient hospital care annually for all Medicaid recipients.

Precertification of inpatient days must be obtained as required by the division. The division may allow unlimited days in disproportionate hospitals as defined by the division for eligible
infants under the age of six (6) years if certified as medically necessary as required by the division.

(b) From and after July 1, 1994, the Executive Director of the Division of Medicaid shall amend the Mississippi Title XIX Inpatient Hospital Reimbursement Plan to remove the occupancy rate penalty from the calculation of the Medicaid Capital Cost Component utilized to determine total hospital costs allocated to the Medicaid program.

(c) Hospitals will receive an additional payment for the implantable programmable baclofen drug pump used to treat spasticity which is implanted on an inpatient basis. The payment pursuant to written invoice will be in addition to the facility's per diem reimbursement and will represent a reduction of costs on the facility's annual cost report, and shall not exceed Ten Thousand Dollars ($10,000.00) per year per recipient. This subparagraph (c) shall stand repealed on July 1, 2005.

(2) Outpatient hospital services. Where the same services are reimbursed as clinic services, the division may revise the rate or methodology of outpatient reimbursement to maintain consistency, efficiency, economy and quality of care.

(3) Laboratory and x-ray services.

(4) Nursing facility services.

(a) The division shall make full payment to nursing facilities for each day, not exceeding thirty (30) days per year, that a patient is absent from the facility on home leave. Payment may be made for the following home leave days in addition to the thirty-day limitation: Christmas, the day before Christmas, the day after Christmas, Thanksgiving, the day before Thanksgiving and the day after Thanksgiving.

(b) From and after July 1, 1997, the division shall implement the integrated case-mix payment and quality monitoring system, which includes the fair rental system for property costs and in which recapture of depreciation is
eliminated. The division may reduce the payment for hospital
leave and therapeutic home leave days to the lower of the case-mix
category as computed for the resident on leave using the
assessment being utilized for payment at that point in time, or a
case-mix score of 1.000 for nursing facilities, and shall compute
case-mix scores of residents so that only services provided at the
nursing facility are considered in calculating a facility's per
diem.

During the period between May 1, 2002, and December 1, 2002,
the Chairmen of the Public Health and Welfare Committees of the
Senate and the House of Representatives may appoint a joint study
committee to consider the issue of setting uniform reimbursement
rates for nursing facilities. The study committee will consist of
the Chairmen of the Public Health and Welfare Committees, three
(3) members of the Senate and three (3) members of the House. The
study committee shall complete its work in not more than three (3)
meetings.

(c) From and after July 1, 1997, all state-owned
nursing facilities shall be reimbursed on a full reasonable cost
basis.

(d) When a facility of a category that does not
require a certificate of need for construction and that could not
be eligible for Medicaid reimbursement is constructed to nursing
facility specifications for licensure and certification, and the
facility is subsequently converted to a nursing facility under a
certificate of need that authorizes conversion only and the
applicant for the certificate of need was assessed an application
review fee based on capital expenditures incurred in constructing
the facility, the division shall allow reimbursement for capital
expenditures necessary for construction of the facility that were
incurred within the twenty-four (24) consecutive calendar months
immediately preceding the date that the certificate of need
authorizing the conversion was issued, to the same extent that
reimbursement would be allowed for construction of a new nursing facility under a certificate of need that authorizes that construction. The reimbursement authorized in this subparagraph (d) may be made only to facilities the construction of which was completed after June 30, 1989. Before the division shall be authorized to make the reimbursement authorized in this subparagraph (d), the division first must have received approval from the Health Care Financing Administration of the United States Department of Health and Human Services of the change in the state Medicaid plan providing for the reimbursement.

(e) The division shall develop and implement, not later than January 1, 2001, a case-mix payment add-on determined by time studies and other valid statistical data that will reimburse a nursing facility for the additional cost of caring for a resident who has a diagnosis of Alzheimer's or other related dementia and exhibits symptoms that require special care. Any such case-mix add-on payment shall be supported by a determination of additional cost. The division shall also develop and implement as part of the fair rental reimbursement system for nursing facility beds, an Alzheimer's resident bed depreciation enhanced reimbursement system that will provide an incentive to encourage nursing facilities to convert or construct beds for residents with Alzheimer's or other related dementia.

(f) The division shall develop and implement an assessment process for long-term care services.

* * *

The division shall apply for necessary federal waivers to assure that additional services providing alternatives to nursing facility care are made available to applicants for nursing facility care.

(5) Periodic screening and diagnostic services for individuals under age twenty-one (21) years as are needed to identify physical and mental defects and to provide health care
treatment and other measures designed to correct or ameliorate
defects and physical and mental illness and conditions discovered
by the screening services regardless of whether these services are
included in the state plan. The division may include in its
periodic screening and diagnostic program those discretionary
services authorized under the federal regulations adopted to
implement Title XIX of the federal Social Security Act, as
amended. The division, in obtaining physical therapy services,
occupational therapy services, and services for individuals with
speech, hearing and language disorders, may enter into a
cooperative agreement with the State Department of Education for
the provision of those services to handicapped students by public
school districts using state funds that are provided from the
appropriation to the Department of Education to obtain federal
matching funds through the division. The division, in obtaining
medical and psychological evaluations for children in the custody
of the State Department of Human Services may enter into a
cooperative agreement with the State Department of Human Services
for the provision of those services using state funds that are
provided from the appropriation to the Department of Human
Services to obtain federal matching funds through the division.

(6) Physician's services. The division shall allow
twelve (12) physician visits annually. All fees for physicians' services that are covered only by Medicaid shall be reimbursed at ninety percent (90%) of the rate established on January 1, 1999, and as adjusted each January thereafter, under Medicare (Title XVIII of the Social Security Act, as amended), and which shall in no event be less than seventy percent (70%) of the rate established on January 1, 1994. All fees for physicians' services that are covered by both Medicare and Medicaid shall be reimbursed at ten percent (10%) of the adjusted Medicare payment established on January 1, 1999, and as adjusted each January thereafter, under Medicare (Title XVIII of the Social Security Act, as amended), and
which shall in no event be less than seventy percent (70%) of the
adjusted Medicare payment established on January 1, 1994.

(7) (a) Home health services for eligible
persons, * * * not to exceed sixty (60) visits per year. All home
health visits must be precertified as required by the division.

(b) Repealed.

(8) Emergency medical transportation services. On
January 1, 1994, emergency medical transportation services shall
be reimbursed at seventy percent (70%) of the rate established
under Medicare (Title XVIII of the Social Security Act, as
amended). "Emergency medical transportation services" shall mean,
but shall not be limited to, the following services by a properly
permitted ambulance operated by a properly licensed provider in
accordance with the Emergency Medical Services Act of 1974
(Section 41-59-1 et seq.): (i) basic life support, (ii) advanced
life support, (iii) mileage, (iv) oxygen, (v) intravenous fluids,
(vi) disposable supplies, (vii) similar services.

(9) (a) Legend and other drugs as may be determined by
the division. The division shall contract for full scope pharmacy
benefit management services and shall implement a preferred drug
list (PDL). The division may implement a program of prior
approval for drugs to the extent permitted by law. The division
shall allow seven (7) prescriptions per month for each
noninstitutionalized Medicaid recipient. * * * The division shall
not reimburse for any portion of a prescription that exceeds a
thirty-four-day supply of the drug based on the daily dosage.

* * *

Provided, however, that any A-typical antipsychotic drug
shall be included in any preferred drug list developed by the
Division of Medicaid and shall not require prior authorization,
and any licensed physician may prescribe any A-typical
antipsychotic drug deemed appropriate for Medicaid recipients
which shall be fully eligible for Medicaid reimbursement.
The division shall develop and implement a program of payment for additional pharmacist services, with payment to be based on demonstrated savings, but in no case shall the total payment exceed twice the amount of the dispensing fee.

All claims for drugs for dually eligible Medicare/Medicaid beneficiaries that are paid for by Medicare must be submitted to Medicare for payment before they may be processed by the division's on-line payment system.

The division shall develop a pharmacy policy in which drugs in tamper-resistant packaging that are prescribed for a resident of a nursing facility but are not dispensed to the resident shall be returned to the pharmacy and not billed to Medicaid, in accordance with guidelines of the State Board of Pharmacy.

(b) ** Payment by the division for covered multiple source drugs shall be limited to the lower of the upper limits established and published by the Centers for Medicare and Medicaid Services (CMS) plus a dispensing fee, or the estimated acquisition cost (EAC) plus a dispensing fee, or the providers' usual and customary charge to the general public.  

Payment for other covered drugs, other than multiple source drugs with CMS upper limits, shall not exceed the lower of the estimated acquisition cost plus a dispensing fee or the providers' usual and customary charge to the general public.

Payment for nonlegend or over-the-counter drugs covered by the division shall be reimbursed at the lower of the division's estimated shelf price or the providers' usual and customary charge to the general public.

The dispensing fee for each new or refill prescription, including nonlegend or over-the-counter drugs covered by the division, shall be Three Dollars and Ninety-one Cents ($3.91).

The Medicaid provider shall not prescribe, the Medicaid pharmacy shall not bill, and the division shall not reimburse for name brand drugs if there are equally effective generic
equivalents available and if the generic equivalents are the least
expensive.

* * *

As used in this paragraph (9), "estimated acquisition cost"
means twelve percent (12%) less than the average wholesale price
for a drug.

The division shall develop a state Maximum Allowable Cost
(MAC) pricing schedule for selected drugs in order to reduce the
cost of the pharmacy program as soon as practicable.

* * *

(10) Dental care that is an adjunct to treatment of an
acute medical or surgical condition; services of oral surgeons and
dentists in connection with surgery related to the jaw or any

and treatment related thereto. On July 1, 1999, all fees for
dental care and surgery under authority of this paragraph (10)
shall be increased to one hundred sixty percent (160%) of the
amount of the reimbursement rate that was in effect on June 30,
1999. It is the intent of the Legislature to encourage more
dentists to participate in the Medicaid program.

(ii) The University of Mississippi Medical Center; or
(iii) A state agency or a state facility that
either provides its own state match through intergovernmental
transfer or certification of funds to the division.

(4) Each health care facility that is subject to the
provisions of this section shall keep and preserve such suitable
books and records as may be necessary to determine the amount of
assessment for which it is liable under this section. The books
and records shall be kept and preserved for a period of not less
than five (5) years, and those books and records shall be open for
examination during business hours by the division, the State Tax
Commission, the Office of the Attorney General and the State
Department of Health.

(5) The assessment levied under this section shall be
collected by the division each month beginning on April 12, 2002.

(6) All assessments collected under this section shall be
deposited in the Medical Care Fund created by Section 43-13-143.

(7) The assessment levied under this section shall be in
addition to any other assessments, taxes or fees levied by law,
and the assessment shall constitute a debt due the State of
Mississippi from the time the assessment is due until it is paid.

(8) (a) If a health care facility that is liable for
payment of the assessment levied under this section does not pay
the assessment when it is due, the division shall give written
notice to the health care facility by certified or registered mail
demanding payment of the assessment within ten (10) days from the
date of delivery of the notice. If the health care facility
fails or refuses to pay the assessment after receiving the notice
and demand from the division, the division shall withhold from any
Medicaid reimbursement payments that are due to the health care
facility the amount of the unpaid assessment and a penalty of ten
percent (10%) of the amount of the assessment, plus the legal rate
of interest until the assessment is paid in full. If the health
care facility does not participate in the Medicaid program, the
division shall turn over to the Office of the Attorney General the collection of the unpaid assessment by civil action. In any such civil action, the Office of the Attorney General shall collect the amount of the unpaid assessment and a penalty of ten percent (10%) of the amount of the assessment, plus the legal rate of interest until the assessment is paid in full.

(b) As an additional or alternative method for collecting unpaid assessments under this section, if a health care facility fails or refuses to pay the assessment after receiving notice and demand from the division, the division may file a notice of a tax lien with the circuit clerk of the county in which the health care facility is located, for the amount of the unpaid assessment and a penalty of ten percent (10%) of the amount of the assessment, plus the legal rate of interest until the assessment is paid in full. Immediately upon receipt of notice of the tax lien for the assessment, the circuit clerk shall enter the notice of the tax lien as a judgment upon the judgment roll and show in the appropriate columns the name of the health care facility as judgment debtor, the name of the division as judgment creditor, the amount of the unpaid assessment, and the date and time of enrollment. The judgment shall be valid as against mortgagees, pledgees, entrusters, purchasers, judgment creditors and other persons from the time of filing with the clerk. The amount of the judgment shall be a debt due the State of Mississippi and remain a lien upon the tangible property of the health care facility until the judgment is satisfied. The judgment shall be the equivalent of any enrolled judgment of a court of record and shall serve as authority for the issuance of writs of execution, writs of attachment or other remedial writs.

The total number of beds that may be authorized under the authority of this paragraph (c) shall not exceed sixty (60) beds.

any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need.

Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (i), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. (j) The department may issue certificates of need to allow any existing freestanding long-term care facility in Tishomingo County and Hancock County that on July 1, 1995, is licensed with fewer than sixty (60) beds. For the purposes of this paragraph (j), the provision of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan is waived. (k) The department may issue a certificate of need for the construction of a nursing facility at a continuing care retirement community in Lowndes County. The total number of beds that may be authorized under the authority of this paragraph (k) shall not exceed sixty (60) beds. From and after July 1, 2001, the prohibition on the facility participating in the Medicaid program (Section 43-13-101 et seq.) that was a condition of issuance of the certificate of need under this paragraph (k) shall be revised as follows: The nursing facility may participate in the Medicaid program from and after July 1, 2001, if the owner of the facility on July 1, 2001, agrees in writing that no more than thirty (30) of the beds at the facility will be certified for participation in the Medicaid program, and that no claim will be submitted for Medicaid reimbursement for more than thirty (30) patients in the facility in any month or for any patient in the facility who is in a bed that is not Medicaid-certified. This written agreement by the owner of the facility shall be a condition of licensure of the facility, and the agreement shall be fully binding on any subsequent owner of the facility if the ownership of the facility is transferred at any time after July 1,

After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the facility for participation in the Medicaid program. If the facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the written agreement.

This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of
the nursing facility if the ownership of the nursing facility is
transferred at any time after the issuance of the certificate of
need. After this written agreement is executed, the Division of
Medicaid and the State Department of Health shall not certify any
of the beds in the nursing facility for participation in the
Medicaid program. If the nursing facility violates the terms of
the written agreement by admitting or keeping in the nursing
facility on a regular or continuing basis any patients who are
participating in the Medicaid program, the State Department of
Health shall revoke the license of the nursing facility, at the
time that the department determines, after a hearing complying
with due process, that the nursing facility has violated the
condition upon which the certificate of need was issued, as
provided in this paragraph and in the written agreement. If the
certificate of need authorized under this paragraph is not issued
within twelve (12) months after July 1, 2001, the department shall
deny the application for the certificate of need and shall not
issue the certificate of need at any time after the twelve-month
period, unless the issuance is contested. If the certificate of
need is issued and substantial construction of the nursing
facility beds has not commenced within eighteen (18) months after
July 1, 2001, the State Department of Health, after a hearing
complying with due process, shall revoke the certificate of need
if it is still outstanding, and the department shall not issue a
license for the nursing facility at any time after the
eighteen-month period. Provided, however, that if the issuance of
the certificate of need is contested, the department shall require
substantial construction of the nursing facility beds within six
(6) months after final adjudication on the issuance of the
certificate of need.

(n) The department may issue a certificate of need for
the new construction, addition or conversion of skilled nursing
facility beds in Madison County, provided that the recipient of
the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (n), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (n) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 1998, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after the effective date of July 1, 1998, the State
Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. Provided, however, that if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(o) The department may issue a certificate of need for the new construction, addition or conversion of skilled nursing facility beds in Leake County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (o), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.
by the recipient of the certificate of need. The total number of
nursing facility beds that may be authorized by any certificate of
need issued under this paragraph (o) shall not exceed sixty (60)
beds. If the certificate of need authorized under this paragraph
is not issued within twelve (12) months after July 1, 2001, the
department shall deny the application for the certificate of need
and shall not issue the certificate of need at any time after the
twelve-month period, unless the issuance is contested. If the
certificate of need is issued and substantial construction of the
nursing facility beds has not commenced within eighteen (18)
months after the effective date of July 1, 2001, the State
Department of Health, after a hearing complying with due process,
shall revoke the certificate of need if it is still outstanding,
and the department shall not issue a license for the nursing
facility at any time after the eighteen-month period. Provided,
however, that if the issuance of the certificate of need is
contested, the department shall require substantial construction
of the nursing facility beds within six (6) months after final
adjudication on the issuance of the certificate of need.

(p) The department may issue a certificate of need for
the construction of a municipally-owned nursing facility within
the Town of Belmont in Tishomingo County, not to exceed sixty (60)
beds, provided that the recipient of the certificate of need
agrees in writing that the skilled nursing facility will not at
any time participate in the Medicaid program (Section 43-13-101 et
seq.) or admit or keep any patients in the skilled nursing
facility who are participating in the Medicaid program. This
written agreement by the recipient of the certificate of need
shall be fully binding on any subsequent owner of the skilled
nursing facility, if the ownership of the facility is transferred
at any time after the issuance of the certificate of need.
Agreement that the skilled nursing facility will not participate
in the Medicaid program shall be a condition of the issuance of a
certificate of need to any person under this paragraph (p), and if
such skilled nursing facility at any time after the issuance of
the certificate of need, regardless of the ownership of the
facility, participates in the Medicaid program or admits or keeps
any patients in the facility who are participating in the Medicaid
program, the State Department of Health shall revoke the
certificate of need, if it is still outstanding, and shall deny or
revoke the license of the skilled nursing facility, at the time
that the department determines, after a hearing complying with due
process, that the facility has failed to comply with any of the
conditions upon which the certificate of need was issued, as
provided in this paragraph and in the written agreement by the
recipient of the certificate of need. The provision of Section
43-7-193(1) regarding substantial compliance of the projection of
need as reported in the current State Health Plan is waived for
the purposes of this paragraph. If the certificate of need
authorized under this paragraph is not issued within twelve (12)
months after July 1, 1998, the department shall deny the
application for the certificate of need and shall not issue the
certificate of need at any time after the twelve-month period,
unless the issuance is contested. If the certificate of need is
issued and substantial construction of the nursing facility beds
has not commenced within eighteen (18) months after July 1, 1998,
the State Department of Health, after a hearing complying with due
process, shall revoke the certificate of need if it is still
outstanding, and the department shall not issue a license for the
nursing facility at any time after the eighteen-month period.
Provided, however, that if the issuance of the certificate of need
is contested, the department shall require substantial
construction of the nursing facility beds within six (6) months
after final adjudication on the issuance of the certificate of
need.
(q) (i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next four (4) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each county in the state having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, in the manner provided in this paragraph (q). The total number of nursing facility beds that may be authorized by any certificate of need authorized under this paragraph (q) shall not exceed sixty (60) beds.

(ii) Subject to the provisions of subparagraph (v), during each of the next four (4) fiscal years, the department shall issue six (6) certificates of need for new nursing facility beds, as follows: During fiscal years 2000, 2001 and 2002, one (1) certificate of need shall be issued for new nursing facility beds in the county in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan that has the highest need in the district for those beds; and two (2) certificates of need shall be issued for new nursing facility beds in the two (2) counties from the state at large that have the highest need in the state for those beds, when considering the need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. During fiscal year 2003, one (1) certificate of need shall be issued for new nursing facility beds in any county having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, that has not received a certificate of need under this paragraph (q) during the three (3) previous fiscal years. During fiscal year 2000, in addition to the six (6) certificates of need authorized in this subparagraph, the department also shall issue a certificate of need for new nursing facility beds in Amite County and a certificate of need for new nursing facility beds in Carroll County.
(iii) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in each Long-Term Care Planning District during each fiscal year shall first be available for nursing facility beds in the county in the district having the highest need for those beds, as shown in the fiscal year 1999 State Health Plan. If there are no applications for a certificate of need for those beds in the county having the highest need for those beds by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties in the district in descending order of the need for those beds, from the county with the second highest need to the county with the lowest need, until an application is received for nursing facility beds in an eligible county in the district.

(iv) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in the two (2) counties from the state at large during each fiscal year shall first be available for nursing facility beds in the two (2) counties that have the highest need in the state for those beds, as shown in the fiscal year 1999 State Health Plan, when considering the need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. If there are no applications for a certificate of need for nursing facility beds in either of the two (2) counties having the highest need for those beds on a statewide basis by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties from the state at large in descending order of the need for those beds on a statewide basis, from the county with the second highest need to the county with the lowest need, until an application is received for nursing facility beds in an eligible county from the state at large.
(v) If a certificate of need is authorized to be issued under this paragraph (q) for nursing facility beds in a county on the basis of the need in the Long-Term Care Planning District during any fiscal year of the four-year period, a certificate of need shall not also be available under this paragraph (q) for additional nursing facility beds in that county on the basis of the need in the state at large, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in the state at large for that fiscal year. After a certificate of need has been issued under this paragraph (q) for nursing facility beds in a county during any fiscal year of the four-year period, a certificate of need shall not be available again under this paragraph (q) for additional nursing facility beds in that county during the four-year period, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in succeeding fiscal years.

(vi) If more than one (1) application is made for a certificate of need for nursing home facility beds available under this paragraph (q), in Yalobusha, Newton or Tallahatchie County, and one (1) of the applicants is a county-owned hospital located in the county where the nursing facility beds are available, the department shall give priority to the county-owned hospital in granting the certificate of need if the following conditions are met:

1. The county-owned hospital fully meets all applicable criteria and standards required to obtain a certificate of need for the nursing facility beds; and

2. The county-owned hospital's qualifications for the certificate of need, as shown in its application and as determined by the department, are at least equal to the qualifications of the other applicants for the certificate of need.
(r) (i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next two (2) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan, to provide care exclusively to patients with Alzheimer's disease.

(ii) Not more than twenty (20) beds may be authorized by any certificate of need issued under this paragraph (r), and not more than a total of sixty (60) beds may be authorized in any Long-Term Care Planning District by all certificates of need issued under this paragraph (r). However, the total number of beds that may be authorized by all certificates of need issued under this paragraph (r) during any fiscal year shall not exceed forty (40) beds. Of the certificates of need that are issued for each Long-Term Care Planning District during the next two (2) fiscal years, at least one (1) shall be issued for beds in the northern part of the district, at least one (1) shall be issued for beds in the central part of the district, and at least one (1) shall be issued for beds in the southern part of the district.

(iii) The State Department of Health, in consultation with the Department of Mental Health and the Division of Medicaid, shall develop and prescribe the staffing levels, space requirements and other standards and requirements that must be met with regard to the nursing facility beds authorized under this paragraph (r) to provide care exclusively to patients with Alzheimer's disease.

(3) The State Department of Health may grant approval for and issue certificates of need to any person proposing the new
construction of, addition to, conversion of beds of or expansion of any health care facility defined in subparagraph (x) (psychiatric residential treatment facility) of Section 41-7-173(h). The total number of beds which may be authorized by such certificates of need shall not exceed three hundred thirty-four (334) beds for the entire state.

(a) Of the total number of beds authorized under this subsection, the department shall issue a certificate of need to a privately-owned psychiatric residential treatment facility in Simpson County for the conversion of sixteen (16) intermediate care facility for the mentally retarded (ICF-MR) beds to psychiatric residential treatment facility beds, provided that facility agrees in writing that the facility shall give priority for the use of those sixteen (16) beds to Mississippi residents who are presently being treated in out-of-state facilities.

(b) Of the total number of beds authorized under this subsection, the department may issue a certificate or certificates of need for the construction or expansion of psychiatric residential treatment facility beds or the conversion of other beds to psychiatric residential treatment facility beds in Warren County, not to exceed sixty (60) psychiatric residential treatment facility beds, provided that the facility agrees in writing that no more than thirty (30) of the beds at the psychiatric residential treatment facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.) for the use of any patients other than those who are participating only in the Medicaid program of another state, and that no claim will be submitted to the Division of Medicaid for Medicaid reimbursement for more than thirty (30) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of
the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program for the use of any patients other than those who are participating only in the Medicaid program of another state. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Mississippi Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

The State Department of Health, on or before July 1, 2002, shall transfer the certificate of need authorized under the authority of this paragraph (b), or reissue the certificate of need if it has expired, to River Region Health System. (c) Of the total number of beds authorized under this subsection, the department shall issue a certificate of need to a hospital currently operating Medicaid-certified acute psychiatric beds for adolescents in DeSoto County, for the establishment of a forty-bed psychiatric residential treatment facility in DeSoto County, provided that the hospital agrees in writing (i) that the hospital shall give priority for the use of those forty (40) beds to Mississippi residents who are presently being treated in out-of-state facilities, and (ii) that no more than fifteen (15) of the beds at the psychiatric residential treatment facility will
be certified for participation in the Medicaid program (Section 43-13-101 et seq.), and that no claim will be submitted for Medicaid reimbursement for more than fifteen (15) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than fifteen (15) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than fifteen (15) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

(d) Of the total number of beds authorized under this subsection, the department may issue a certificate or certificates of need for the construction or expansion of psychiatric residential treatment facility beds or the conversion of other beds to psychiatric treatment facility beds, not to exceed thirty (30) psychiatric residential treatment facility beds, in either Alcorn, Tishomingo, Prentiss, Lee, Itawamba, Monroe, Chickasaw, Pontotoc, Calhoun, Lafayette, Union, Benton or Tippah County.
(e) Of the total number of beds authorized under this subsection (3) the department shall issue a certificate of need to a privately-owned, nonprofit psychiatric residential treatment facility in Hinds County for an eight-bed expansion of the facility, provided that the facility agrees in writing that the facility shall give priority for the use of those eight (8) beds to Mississippi residents who are presently being treated in out-of-state facilities.

(f) The department shall issue a certificate of need to a one-hundred-thirty-four-bed specialty hospital located on twenty-nine and forty-four one-hundredths (29.44) commercial acres at 5900 Highway 39 North in Meridian (Lauderdale County), Mississippi, for the addition, construction or expansion of child/adolescent psychiatric residential treatment facility beds in Lauderdale County. As a condition of issuance of the certificate of need under this paragraph, the facility shall give priority in admissions to the child/adolescent psychiatric residential treatment facility beds authorized under this paragraph to patients who otherwise would require out-of-state placement. The Division of Medicaid, in conjunction with the Department of Human Services, shall furnish the facility a list of all out-of-state patients on a quarterly basis. Furthermore, notice shall also be provided to the parent, custodial parent or guardian of each out-of-state patient notifying them of the priority status granted by this paragraph. For purposes of this paragraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of child/adolescent psychiatric residential treatment facility beds that may be authorized under the authority of this paragraph shall be sixty (60) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized.
under this paragraph or for the beds converted pursuant to the
authority of that certificate of need.

(4) (a) From and after July 1, 1993, the department shall
not issue a certificate of need to any person for the new
construction of any hospital, psychiatric hospital or chemical
dependency hospital that will contain any child/adolescent
psychiatric or child/adolescent chemical dependency beds, or for
the conversion of any other health care facility to a hospital,
psychiatric hospital or chemical dependency hospital that will
contain any child/adolescent psychiatric or child/adolescent
chemical dependency beds, or for the addition of any
child/adolescent psychiatric or child/adolescent chemical
dependency beds in any hospital, psychiatric hospital or chemical
dependency hospital, or for the conversion of any beds of another
category in any hospital, psychiatric hospital or chemical
dependency hospital to child/adolescent psychiatric or
child/adolescent chemical dependency beds, except as hereinafter
authorized:

(i) The department may issue certificates of need
to any person for any purpose described in this subsection,
provided that the hospital, psychiatric hospital or chemical
dependency hospital does not participate in the Medicaid program
(Section 43-13-101 et seq.) at the time of the application for the
certificate of need and the owner of the hospital, psychiatric
hospital or chemical dependency hospital agrees in writing that
the hospital, psychiatric hospital or chemical dependency hospital
will not at any time participate in the Medicaid program or admit
or keep any patients who are participating in the Medicaid program
in the hospital, psychiatric hospital or chemical dependency
hospital. This written agreement by the recipient of the
certificate of need shall be fully binding on any subsequent owner
of the hospital, psychiatric hospital or chemical dependency
hospital, if the ownership of the facility is transferred at any
time after the issuance of the certificate of need. Agreement that the hospital, psychiatric hospital or chemical dependency hospital will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subparagraph (a)(i), and if such hospital, psychiatric hospital or chemical dependency hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the hospital, psychiatric hospital or chemical dependency hospital who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital, psychiatric hospital or chemical dependency hospital, at the time that the department determines, after a hearing complying with due process, that the hospital, psychiatric hospital or chemical dependency hospital has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subparagraph and in the written agreement by the recipient of the certificate of need.

(ii) The department may issue a certificate of need for the conversion of existing beds in a county hospital in Choctaw County from acute care beds to child/adolescent chemical dependency beds. For purposes of this subparagraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan is waived. The total number of beds that may be authorized under authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph (a)(ii) or for the beds converted pursuant to the authority of that certificate of need.
(iii) The department may issue a certificate or certificates of need for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in Warren County. For purposes of this subparagraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph (a)(iii) or for the beds converted pursuant to the authority of that certificate of need.

If by January 1, 2002, there has been no significant commencement of construction of the beds authorized under this subparagraph (a)(iii), or no significant action taken to convert existing beds to the beds authorized under this subparagraph, then the certificate of need that was previously issued under this subparagraph shall expire. If the previously issued certificate of need expires, the department may accept applications for issuance of another certificate of need for the beds authorized under this subparagraph, and may issue a certificate of need to authorize the construction, expansion or conversion of the beds authorized under this subparagraph.

(iv) The department shall issue a certificate of need to the Region 7 Mental Health/Retardation Commission for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in any of the counties served by the commission. For purposes of this subparagraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan is waived. The total number of beds
that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph (a)(iv) or for the beds converted pursuant to the authority of that certificate of need. (v) The department may issue a certificate of need to any county hospital located in Leflore County for the construction or expansion of adult psychiatric beds or the conversion of other beds to adult psychiatric beds, not to exceed twenty (20) beds, provided that the recipient of the certificate of need agrees in writing that the adult psychiatric beds will not at any time be certified for participation in the Medicaid program and that the hospital will not admit or keep any patients who are participating in the Medicaid program in any of such adult psychiatric beds. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the hospital if the ownership of the hospital is transferred at any time after the issuance of the certificate of need. Agreement that the adult psychiatric beds will not be certified for participation in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subparagraph (a)(v), and if such hospital at any time after the issuance of the certificate of need, regardless of the ownership of the hospital, has any of such adult psychiatric beds certified for participation in the Medicaid program or admits or keeps any Medicaid patients in such adult psychiatric beds, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital at the time that the department determines, after a hearing complying with due process, that the hospital has failed to comply with any of the conditions upon which the certificate of
need was issued, as provided in this subparagraph and in the written agreement by the recipient of the certificate of need. (vi) The department may issue a certificate or certificates of need for the expansion of child psychiatric beds or the conversion of other beds to child psychiatric beds at the University of Mississippi Medical Center. For purposes of this subparagraph (a)(vi), the provision of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan is waived. The total number of beds that may be authorized under the authority of this subparagraph (a)(vi) shall not exceed fifteen (15) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph (a)(vi) or for the beds converted pursuant to the authority of that certificate of need.

(b) From and after July 1, 1990, no hospital, psychiatric hospital or chemical dependency hospital shall be authorized to add any child/adolescent psychiatric or child/adolescent chemical dependency beds or convert any beds of another category to child/adolescent psychiatric or child/adolescent chemical dependency beds without a certificate of need under the authority of subsection (1)(c) of this section.

(5) The department may issue a certificate of need to a county hospital in Winston County for the conversion of fifteen (15) acute care beds to geriatric psychiatric care beds.

(6) The State Department of Health shall issue a certificate of need to a Mississippi corporation qualified to manage a long-term care hospital as defined in Section 41-7-173(h)(xii) in Harrison County, not to exceed eighty (80) beds, including any necessary renovation or construction required for licensure and certification, provided that the recipient of the certificate of need agrees in writing that the long-term care hospital will not
at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the long-term care hospital who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the long-term care hospital, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the long-term care hospital will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this subsection (6), and if such long-term care hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the long-term care hospital, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subsection and in the written agreement by the recipient of the certificate of need. For purposes of this subsection, the provision of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan is hereby waived.

(7) The State Department of Health may issue a certificate of need to any hospital in the state to utilize a portion of its beds for the "swing-bed" concept. Any such hospital must be in conformance with the federal regulations regarding such swing-bed concept at the time it submits its application for a certificate of need to the State Department of Health, except that such hospital may have more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal
regulations for participation in the swing-bed program. Any hospital meeting all federal requirements for participation in the swing-bed program which receives such certificate of need shall render services provided under the swing-bed concept to any patient eligible for Medicare (Title XVIII of the Social Security Act) who is certified by a physician to be in need of such services, and no such hospital shall permit any patient who is eligible for both Medicaid and Medicare or eligible only for Medicaid to stay in the swing beds of the hospital for more than thirty (30) days per admission unless the hospital receives prior approval for such patient from the Division of Medicaid, Office of the Governor. Any hospital having more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program which receives such certificate of need shall develop a procedure to insure that before a patient is allowed to stay in the swing beds of the hospital, there are no vacant nursing home beds available for that patient located within a fifty-mile radius of the hospital. When any such hospital has a patient staying in the swing beds of the hospital and the hospital receives notice from a nursing home located within such radius that there is a vacant bed available for that patient, the hospital shall transfer the patient to the nursing home within a reasonable time after receipt of the notice. Any hospital which is subject to the requirements of the two (2) preceding sentences of this subsection may be suspended from participation in the swing-bed program for a reasonable period of time by the State Department of Health if the department, after a hearing complying with due process, determines that the hospital has failed to comply with any of those requirements.

(8) The Department of Health shall not grant approval for or issue a certificate of need to any person proposing the new construction of, addition to or expansion of a health care
(9) The Department of Health shall not grant approval for or issue a certificate of need to any person proposing the establishment of, or expansion of the currently approved territory of, or the contracting to establish a home office, subunit or branch office within the space operated as a health care facility as defined in Section 41-7-173(h) through (viii) by a health care facility as defined in subparagraph (ix) of Section 41-7-173(h).

(10) Health care facilities owned and/or operated by the state or its agencies are exempt from the restraints in this section against issuance of a certificate of need if such addition or expansion consists of repairing or renovation necessary to comply with the state licensure law. This exception shall not apply to the new construction of any building by such state facility. This exception shall not apply to any health care facilities owned and/or operated by counties, municipalities, districts, unincorporated areas, other defined persons, or any combination thereof.

(11) The new construction, renovation or expansion of or addition to any health care facility defined in subparagraph (ii) (psychiatric hospital), subparagraph (iv) (skilled nursing facility), subparagraph (vi) (intermediate care facility), subparagraph (viii) (intermediate care facility for the mentally retarded) and subparagraph (x) (psychiatric residential treatment facility) of Section 41-7-173(h) which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, and the addition of new beds or the conversion of beds from one category to another in any such defined health care facility which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, shall not require the issuance of a certificate of need under Section 41-7-171 et seq.,
notwithstanding any provision in Section 41-7-171 et seq. to the
contrary.

(12) The new construction, renovation or expansion of or
addition to any veterans homes or domiciliaries for eligible
veterans of the State of Mississippi as authorized under Section
35-1-19 shall not require the issuance of a certificate of need,
notwithstanding any provision in Section 41-7-171 et seq. to the
contrary.

(13) The new construction of a nursing facility or nursing
facility beds or the conversion of other beds to nursing facility
beds shall not require the issuance of a certificate of need,
notwithstanding any provision in Section 41-7-171 et seq. to the
contrary, if the conditions of this subsection are met.

(a) Before any construction or conversion may be
undertaken without a certificate of need, the owner of the nursing
facility, in the case of an existing facility, or the applicant to
construct a nursing facility, in the case of new construction,
first must file a written notice of intent and sign a written
agreement with the State Department of Health that the entire
nursing facility will not at any time participate in or have any
beds certified for participation in the Medicaid program (Section
43-13-101 et seq.), will not admit or keep any patients in the
nursing facility who are participating in the Medicaid program,
and will not submit any claim for Medicaid reimbursement for any
patient in the facility. This written agreement by the owner or
applicant shall be a condition of exercising the authority under
this subsection without a certificate of need, and the agreement
shall be fully binding on any subsequent owner of the nursing
facility if the ownership of the facility is transferred at any
time after the agreement is signed. After the written agreement
is signed, the Division of Medicaid and the State Department of
Health shall not certify any beds in the nursing facility for
participation in the Medicaid program. If the nursing facility
violates the terms of the written agreement by participating in
the Medicaid program, having any beds certified for participation
in the Medicaid program, admitting or keeping any patient in the
facility who is participating in the Medicaid program, or
submitting any claim for Medicaid reimbursement for any patient in
the facility, the State Department of Health shall revoke the
license of the nursing facility at the time that the department
determines, after a hearing complying with due process, that the
facility has violated the terms of the written agreement.

(b) For the purposes of this subsection, participation
in the Medicaid program by a nursing facility includes Medicaid
reimbursement of coinsurance and deductibles for recipients who
are qualified Medicare beneficiaries and/or those who are dually
eligible. Any nursing facility exercising the authority under
this subsection may not bill or submit a claim to the Division of
Medicaid for services to qualified Medicare beneficiaries and/or
those who are dually eligible.

(c) The new construction of a nursing facility or
nursing facility beds or the conversion of other beds to nursing
facility beds described in this section must be either a part of a
completely new continuing care retirement community, as described
in the latest edition of the Mississippi State Health Plan, or an
addition to existing personal care and independent living
components, and so that the completed project will be a continuing
care retirement community, containing (i) independent living
accommodations, (ii) personal care beds, and (iii) the nursing
home facility beds. The three (3) components must be located on a
single site and be operated as one (1) inseparable facility. The
nursing facility component must contain a minimum of thirty (30)
beds. Any nursing facility beds authorized by this section will
not be counted against the bed need set forth in the State Health
Plan, as identified in Section 41-7-171 et seq.
This subsection (13) shall stand repealed from and after July 1, 2005.

(14) The State Department of Health shall issue a certificate of need to any hospital which is currently licensed for two hundred fifty (250) or more acute care beds and is located in any general hospital service area not having a comprehensive cancer center, for the establishment and equipping of such a center which provides facilities and services for outpatient radiation oncology therapy, outpatient medical oncology therapy, and appropriate support services including the provision of radiation therapy services. The provision of Section 41-7-193(1) regarding substantial compliance with the projection of need as reported in the current State Health Plan is waived for the purpose of this subsection.

(15) The State Department of Health may authorize the transfer of hospital beds, not to exceed sixty (60) beds, from the North Panola Community Hospital to the South Panola Community Hospital. The authorization for the transfer of those beds shall be exempt from the certificate of need review process.

(16) Nothing in this section or in any other provision of Section 41-7-171 et seq. shall prevent any nursing facility from designating an appropriate number of existing beds in the facility as beds for providing care exclusively to patients with Alzheimer's disease.

(17) Beginning July 1, 2003, and annually thereafter, the State Department of Health shall revise the State Health Plan to include home- and community-based services located in the health service districts as authorized alternatives to institutional nursing facility services in determining the need for such additional nursing facility beds.

SECTION 8. This act shall take effect and be in force from and after its passage.
