BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. (1) There is hereby created the "Recidivism Reduction Program" for the purpose of reducing recidivism and equipping inmates with the necessary skills for reintegration into the community. The program shall be administered by the Partnership on Prevention and Recidivism Reduction created in Section 3 of this act. Existing resources should be used to provide program and services whenever possible. Any state agency involved in the Recidivism Reduction Program shall be designated as the sole source for the purpose of soliciting and use of federal and/or foundation dollars for support of the program's services and activities, and any federal funds received for such purpose shall be exempt from the Department of Finance and Administration's federal clearinghouse review. Each participating agency, within the constraints of its program and funding regulations, shall support efforts of the program through the use...
of existing resources, the reallocation of existing funds and/or
funds appropriated specifically for the purpose of the program.

(2) The persons eligible for placement into the Recidivism
Reduction Program shall be low-risk nonviolent offenders, ages
sixteen (16) or older, who are sentenced to the custody of the
Department of Corrections. The Department of Corrections shall
select the participants and shall strongly consider a
recommendation by the sentencing court in determining eligibility
for the program. The sentencing court is authorized to modify the
sentence of any defendant that was recommended by the court for
the Recidivism Reduction Program but not selected by the
department to participate. The department, in its sole
discretion, shall ensure that the sentencing courts adhere to the
intent of this act and may reject from participation in the
program any offender it determines does not meet the intent. Only
offenders sentenced on or after July 1, 2003, who have not
previously served time in the custody of the Department of
Corrections and who are sentenced to a term of incarceration not
less than three (3) years shall be eligible for placement in the
program. All participants shall retain inmate status throughout
all three (3) phases of the Recidivism Reduction Program. The
Department of Corrections shall require every participant to sign
an agreement before his acceptance and classification into the
program wherein the participant explicitly agrees to put forth his
best efforts in the program and to any other demands the
department deems necessary. If the participant fails to abide by
the rules or guidelines of all three phases of the program, he may
be removed from the program and required to serve his original
sentence imposed by the court.

(3) Phase One of the Recidivism Reduction Program shall be
placement in a Regimented Inmate Discipline Program similar to the
one operated pursuant to Section 47-7-47, Mississippi Code of
1972.
(4) Subsequent to successful completion of Phase One, the participant may be placed in an adult educational or vocational program operated in conjunction with the Board for Community and Junior Colleges and the Department of Education. Other services which may be offered during Phase Two are classes for drug and/or alcohol rehabilitation, self-discipline, parenting, character development, family responsibilities and values, counseling and life coping skills.

(5) The participant in Phase Three shall be matched with a private sector or government job prior to conditional discharge; the job shall be one that will enable the participant to earn a living wage. The Department of Human Services shall make available child care and transportation services to participants during this phase, provided any funds are available for such purposes. Consideration should be given to identifying employers who would assume certain responsibilities related to the aftercare process which might include assigning a mentor to the inmate employee. The Partnership on Prevention and Recidivism Reduction shall encourage the use of the Work-force Investment Act and any other financial incentives available on behalf of employers who choose to participate in Phase Three of the program.

(6) (a) Upon one (1) year of successful participation in Phase Three of the Recidivism Reduction Program, the field officer assigned to the participant shall petition the committing court for expunction of the participant's criminal record of the crime for which convicted and placed in the program. For purposes of this subsection, the term "field officer" means a person as defined by the Partnership on Prevention and Recidivism Reduction who possesses social work skills and may be familiar with the assigned participant's performance throughout all phases of the program.

(b) The court shall enter an order to expunge the conviction from all public records, except that the Department of
Corrections shall maintain a nonpublic record solely for the purpose of determining whether such person has previously participated in the program. The effect of the expunction shall be to restore the participant, in the contemplation of the law, to the status he occupied before arrest. No person as to whom an order of expunction has been entered shall be held thereafter under any provision of law to be guilty of perjury or to have otherwise given a false statement by reason of his failure to recite or acknowledge such arrest or conviction in response to any inquiry made of him for any purpose, except for the purpose of determining in any subsequent proceeding the person's status as a first offender.

SECTION 2. (1) The Partnership on Prevention and Recidivism Reduction shall develop a comprehensive well-coordinated program designed to prevent Mississippi youth from engaging in behavior that involves illegal activities and lead to incarceration. The Juvenile Crime Prevention Program shall be delivered primarily through the public schools, but may also consider opportunities provided through other community-based organizations. The program shall be administered by the Partnership on Prevention and Recidivism Reduction created in Section 3 of this act. The program shall be operated in whatever school district or districts as the partnership determines to be advisable and most conducive to accomplishing the goals of the program within the parameters established for the program. Existing resources should be used to provide program and services whenever possible. Any state agency involved in the Juvenile Crime Prevention Program shall be designated as the sole source for the purpose of soliciting and use of federal and/or foundation dollars for support of the program's services and activities, and any federal funds received for such purpose shall be exempt from the Department of Finance and Administration's federal clearinghouse review. Each participating agency, within the constraints of its program and
funding regulations, shall support efforts of the program through the use of existing resources, the reallocation of existing funds and/or funds appropriated specifically for the purpose of the program. Intervention shall be accomplished through a variety of available programs and services at the earliest possible state of a child's life. A menu of services shall be created with assignments being made to children based on determined needs. Such menu of services shall include, but not be limited to:

components related to education (academic and/or vocational/technical skills training), counseling services, drug and/or alcohol prevention and rehabilitation, self-discipline skills, parenting skills (if applicable), character development, family responsibilities and values, life coping skills, job placement services and work employability. An aftercare component for the delinquent child may also be offered as part of the program.

(2) In designing the Juvenile Crime Prevention Program, the partnership shall give consideration to the following areas: intervention activities for high-risk children, targeting parenting skills for high-risk children, providing counseling and socialization development for high-risk children/students, crafting programs to build self-esteem, creating specific educational opportunities and options which will increase the likelihood of academic success, development of training programs for educators designed to deal with at-risk students, assurance of meaningful coordination of existing services, and development of community intervention teams consisting of representatives from the Department of Human Services, the Department of Mental Health, local school districts (including attendance officers), the Department of Rehabilitation Services, the Department of Health, the Office of Attorney General and others as needed.

(3) The persons eligible for placement into the Juvenile Crime Prevention Program shall be any Mississippi child, from
birth to eighteen (18) years of age. Prevention measures may be
provided for children through hospitals and doctors' offices from
birth throughout their lives. A number of services will be
available specifically for children and youth that are considered
to be at high-risk. The term "high-risk" may include, but not be
limited to, the following circumstances: the child is not living
in a two-parent family; the household head is a high school
dropout; the family income is below the poverty level; the child
is living with parents who do not have steady full-time

system in the past, is at least one (1) year behind the expected
grade level for his age, has limited-English proficiency, is a
gang member, has dropped out of school in the past and/or has high
absenteeism rate at school.

(4) The agency administering the Juvenile Crime Prevention
Program at the local level shall have the discretion to seek
parent or guardian involvement in the participants' completion of
the program. Such agency shall have the option to require parent
or guardian participation, and, if the parent or guardian fails to
adequately participate, then the agency may seek youth court
intervention to require participation.

SECTION 3. (1) There is hereby created a Partnership on
Prevention and Recidivism Reduction, hereinafter referred to as
the "partnership," charged with the responsibility of designing a
multi-agency prevention, rehabilitative, educational and
