30 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

31 **SECTION 1.** This act may be cited as the "Mississippi  
32 Broadband Technology Development Act".

33 **SECTION 2.** (1) The Legislature finds that the long-standing  
34 telecommunications policy of this state has been to ensure that  
35 all citizens have access to telephone service. The increasing  
36 reliance upon access to computer information services for jobs,  
37 housing and other necessities requires that this concept be  
38 broadened to include high-speed access to the Internet as well.

39 (2) The Legislature further finds that the ability of the  
40 citizens in all parts of this state to access the Internet, also

41 known as the information superhighway, is an important component  
42 in the ability of the state to remain competitive in the fields of  
43 business and education, as well as the ability of government to  
44 provide services to these people both now and in the future. The  
45 ability of the citizens of Mississippi to access the full  
46 potential of the Internet is predicated on having the most  
47 advanced telecommunications infrastructure - the backbone to the  
48 information superhighway.

49 (3) The Legislature further finds and declares that it is  
50 the policy of the state to provide incentives for  
51 "telecommunication enterprises" (as defined in Section  
52 57-73-21(13)) to invest in the infrastructure needed to provide  
53 broadband technology throughout the state to keep this state  
54 competitive and to promote economic development within the state.

55 (4) The Legislature further finds that despite the  
56 significant growth of computer ownership and usage, the growth has  
57 occurred to a greater extent within developed areas within this  
58 state, thereby leading to what has been termed a "digital divide"  
59 between Tier One areas within the state and areas within this  
60 state that are Tier Two and Tier Three areas (as such areas are  
61 designated in accordance with Section 57-73-21(1)).

62 (5) The Legislature further finds that it is in the public  
63 interest for people living in Tier Two areas and people living in  
64 Tier Three areas of the state to have high-speed access to the  
65 Internet and to adequate technology, infrastructure and advanced  
66 telecommunications service.

67 (6) The Legislature further finds and declares that  
68 additional incentives are warranted to encourage telecommunication  
69 enterprises to invest in the infrastructure needed to provide  
70 broadband technology in Tier Two and Tier Three areas of the  
71 state.

72 **SECTION 3.** (1) For purposes of this section:

73 (a) "Telecommunication enterprises" shall have the  
74 meaning ascribed to such term in Section 57-73-21(13);

75 (b) "Tier One areas" mean counties designated as Tier  
76 One areas pursuant to Section 57-73-21(1);

77 (c) "Tier Two areas" mean counties designated as Tier  
78 Two areas pursuant to Section 57-73-21(1);

79 (d) "Tier Three areas" mean counties designated as Tier  
80 Three areas pursuant to Section 57-73-21(1); and

81 (e) "Equipment used in the deployment of broadband  
82 technologies" means any equipment capable of being used for or in  
83 connection with the transmission of information at a rate, prior  
84 to taking into account the effects of any signal degradation, that  
85 is not less than three hundred eighty (384) kilobits per second in  
86 at least one direction, including, but not limited to,  
87 asynchronous transfer mode switches, digital subscriber line  
88 access multiplexers, routers, servers, multiplexers, fiber optics  
89 and related equipment.

90 (2) With respect to the investment in each year by a  
91 telecommunication enterprise, there shall be allowed annually as a  
92 credit against the tax imposed by Chapters 7 and 13 of Title 27,  
93 Mississippi Code of 1972, an amount equal to:

94 (a) Five percent (5%) of the cost of equipment used in  
95 the deployment of broadband technologies in Tier One areas;

96 (b) Ten percent (10%) of the cost of equipment used in  
97 the deployment of broadband technologies in Tier Two areas; and

98 (c) Fifteen percent (15%) of the cost of equipment used  
99 in the deployment of broadband technologies in Tier Three areas.

100 (3) Such annual credits shall be allowed commencing with the  
101 taxable year in which such property is placed in service and  
102 continue for nine (9) consecutive years thereafter. The aggregate  
103 credit established by this section taken in any one tax year shall  
104 be limited to an amount not greater than fifty percent (50%) of  
105 the taxpayer's tax liabilities under Chapters 7 and 13 of Title

106 27, Mississippi Code of 1972; however, any tax credit claimed  
107 under this section, but not used in any taxable year, may be  
108 carried forward for ten (10) consecutive years from the close of  
109 the tax year in which the credits were earned.

110 SECTION 4. Equipment used in the deployment of broadband  
111 technologies that is placed in service after July 1, 2003, shall  
112 be exempt from ad valorem taxation for a period of ten (10) years  
113 after the date such equipment is placed in service. For purposes  
114 of this section, "equipment used in the deployment of broadband  
115 technologies" means any equipment capable of being used for or in  
116 connection with the transmission of information at a rate, prior  
117 to taking into account the effects of any signal degradation, that  
118 is not less than three hundred eighty-four (384) kilobits per  
119 second in at least one direction, including, but not limited to,  
120 asynchronous transfer mode switches, digital subscriber line  
121 access multiplexers, routers, servers, multiplexers, fiber optics  
122 and related equipment.

123 **SECTION 5.** Section 27-65-101, Mississippi Code of 1972, is  
124 amended as follows:

125 27-65-101. (1) The exemptions from the provisions of this  
126 chapter which are of an industrial nature or which are more  
127 properly classified as industrial exemptions than any other  
128 exemption classification of this chapter shall be confined to  
129 those persons or property exempted by this section or by the  
130 provisions of the Constitution of the United States or the State  
131 of Mississippi. No industrial exemption as now provided by any  
132 other section except Section 57-3-33 shall be valid as against the  
133 tax herein levied. Any subsequent industrial exemption from the
