22 detection equipment by the sheriff's department of the county. If
23 the board establishes such program, the board may expend out of
24 any available funds of the county, an amount that the board
25 determines is sufficient for the purchase or acquisition of not

28 and used by the Sheriff of Jackson County and any duly sworn
29 deputy sheriff of the county to enforce the motor vehicle speed
30 limits on any public road, street or highway within the county
31 outside the corporate limits of any incorporated municipality.

32 (2) The pilot program shall be divided into two (2)
33 twelve-month periods. The initial twelve-month period shall begin
34 on July 1, 2006, and end on June 30, 2007. The second

35 twelve-month period shall begin on July 1, 2007, and end on June
36 30, 2008.

37 (3) At the end of the initial twelve-month period, the
38 Sheriff of Jackson County shall present to the Board of
39 Supervisors of Jackson County the following information:

40 (a) The number of speeding citations issued during the
41 period from July 1, 2005, through June 30, 2006, without the use
42 of radar, compared to the number of speeding citations issued
43 during the period from July 1, 2006, through June 30, 2007, with
44 the use of radar;

45 (b) The number of serious injuries and fatal crashes in
46 automobile accidents in the county for the two (2) comparative
47 years described in paragraph (a) above; and

49 traffic stops made by the sheriff's office in the county using
50 radar for the period from July 1, 2006, through June 30, 2007.

51 (4) A committee to be appointed by the board of supervisors
52 and the sheriff shall review the statistics provided by the
53 sheriff under subsection (3) of this section and make such
54 suggestions as the committee deems appropriate for addressing any
55 concerns or problems with regard to the use or operation of radar
56 speed detection equipment by the sheriff's office during the
57 initial twelve-month period of the pilot program.

58 (5) Upon completion of review of the statistics by the
59 committee under subsection (4) of this section, and the making of
60 any suggestions for improvement, the sheriff and his deputies
61 shall be authorized to use radar speed detection equipment for an
62 additional twelve-month period beginning July 1, 2007, to enforce
63 the motor vehicle speed limits on any public road, street or
64 highway within the county outside the corporate limits of any
65 incorporated municipality.

66 (6) This section shall stand repealed from and after July 1,
67 2008, and the authority of the Sheriff of Jackson County and any

69 vehicle speed limits on any public road, street or highway within
70 the county shall terminate unless authorized by subsequent
71 legislation enacted by the Legislature.
