27 to repair, renovate, construct, remodel, add to or improve a
28 state-owned public building shall be funded by the Legislature in
29 two (2) phases. The two-phase funding requirement shall not apply
30 to capital improvements projects for a state-owned port or where
31 the Legislature finds that an emergency or critical need must be
32 met or a court order complied with. The two (2) phases shall not

53 budget projection to the Bureau of Building, Grounds and Real
54 Property Management for evaluation. The bureau shall assess the
55 need for all preplanned projects submitted and shall compile a
56 report on its findings. Any capital improvements project costing
57 less than Five Million Dollars (\$5,000,000.00) shall not be
58 required to be preplanned.

59 (4) Upon the completion of any preplanning for a capital
60 improvements project, if such preplanning is funded with
61 self-generated funds by a state agency, the plan shall be
62 submitted to the bureau for evaluation.

63 (5) This section shall not apply to capital improvements
64 projects authorized by the Legislature before the 2001 Regular
65 Session of the Legislature.

66 (6) The provisions of this section also shall apply to any

198 (7) The department shall review and preapprove all

200 state agency, institution, commission, board or authority
201 regardless of the source of funding used to defray the costs of

218 (9) (a) As an alternative to other methods of awarding
219 contracts as prescribed by law, the department may use the
220 design-build method or the design-build bridging method of

221 contracting for new capital construction projects to be used as a
222 pilot program for the following projects:

223 (i) Projects for the Mississippi Development
224 Authority pursuant to agreements between both governmental
225 entities;

226 (ii) Any project with an estimated cost of not

230 more than Fifty Million Dollars (\$50,000,000.00), not to exceed
231 one (1) project per fiscal year.

232 (b) As used in this subsection:

233 (i) "Design-build method of contracting" means a
234 contract that combines the design and construction phases of a
235 project into a single contract and the contractor is required to
236 satisfactorily perform, at a minimum, both the design and
237 construction of the project.

238 (ii) "Design-build bridging method of contracting"
239 means a contract that requires design through the design
240 development phase by a professional designer, after which a
241 request for qualifications for design completion and construction
242 is required for the completion of the project from a single
243 contractor that combines the balance of design and construction
244 phases of a project into a single contract. The contractor is
245 required to satisfactorily perform, at a minimum, both the balance
246 of design and construction of the project.

247 (c) The department shall establish detailed criteria
248 for the selection of the successful design-build/design-build
249 bridging contractor in each request for design-build/design-build
250 bridging proposals. The request for qualifications evaluation of
251 the selection committee is a public record and shall be maintained
252 for a minimum of three (3) years after project completion.

253 (d) The department shall maintain detailed records on
254 projects separate and apart from its regular record keeping. The
255 department shall file a report to the Legislature evaluating the

256 design-build/design-build bridging method of contracting by
257 comparing it to the low-bid method of contracting. At a minimum,
258 the report must include:

259 (i) The management goals and objectives for the
260 design-build/design-build bridging system of management;

261 (ii) A complete description of the components of
262 the design-build/design-build bridging management system,
263 including a description of the system the department put into
264 place on all projects managed under the system to insure that it
265 has the complete information on building segment costs and to
266 insure proper analysis of any proposal the department receives
267 from a contractor;

268 (iii) The accountability systems the department
269 established to monitor any design-build/design-build bridging
270 project's compliance with specific goals and objectives for the
271 project;

272 (iv) The outcome of any project or any interim
273 report on an ongoing project let under a design-build/design-build
274 bridging management system showing compliance with the goals,
275 objectives, policies and procedures the department set for the
276 project; and

277 (v) The method used by the department to select
278 projects to be let under the design-build/design-build bridging
279 system of management and all other systems, policies and
280 procedures that the department considered as necessary components
281 to a design-build/design-build bridging management system.

282 (e) All contracts let under the provisions of this
283 subsection shall be subject to oversight and review by the State
284 Auditor.

285 (10) The department may authorize the state institutions of
286 higher learning and other state agencies to manage any
287 construction or renovation project with a value not exceeding Two
288 Hundred Fifty Thousand Dollars (\$250,000.00). The department
289 shall develop criteria for management of projects that each agency
290 must follow in order to manage projects. Only agencies that the

291 department deems capable of managing by the criteria may manage
292 their own projects. Additionally, the department shall require
293 agencies managing their own projects to do the following:

294 (a) Use standard departmentally approved contracts and
295 project management procedures; and

296 (b) Conduct projects on a reimbursable basis and
297 require documentation that the department deems appropriate for
298 payment of claims. Reimbursement shall be on a one-time basis at
299 completion and approval of project documentation submittals.

300 The department shall revoke the authority of any agency to
301 perform management functions if, in its opinion, an agency has not
302 followed the department's requirements for managing projects.
