108 reenacted as follows:

109       19-5-313. (1) The board of supervisors may levy an  
110 emergency telephone service charge in an amount not to exceed One  
111 Dollar (\$1.00) per residential telephone subscriber line per month  
112 and Two Dollars (\$2.00) per commercial telephone subscriber line  
113 per month for exchange telephone service. Any emergency telephone  
114 service charge shall have uniform application and shall be imposed  
115 throughout the entirety of the district to the greatest extent  
116 possible in conformity with availability of such service in any  
117 area of the district. Those districts which exist on the date of  
118 enactment of Chapter 539, Laws of 1993, shall convert to the  
119 following structure for service charge levy: If the current  
120 charge is five percent (5%) of the basic tariff service rate, the

121 new collection shall be Eighty Cents (\$.80) per month per  
122 residential subscriber line and One Dollar and Sixty Cents (\$1.60)  
123 per month per commercial subscriber line. The collections may be  
124 adjusted as outlined in Chapter 539, Laws of 1993, and within the  
125 limits set forth herein.

126 (2) If the proceeds generated by the emergency telephone  
127 service charge exceed the amount of monies necessary to fund the  
128 service, the board of supervisors may authorize such excess funds  
129 to be expended by the county and the municipalities in the  
130 counties to perform the duties and pay the costs relating to  
131 identifying roads, highways and streets, as provided by Section  
132 65-7-143. The board of supervisors shall determine how the funds  
133 are to be distributed in the county and among municipalities in  
134 the county for paying the costs relating to identifying roads,  
135 highways and streets. The board of supervisors may temporarily  
136 reduce the service charge rate or temporarily suspend the service  
137 charge if the proceeds generated exceed the amount that is  
138 necessary to fund the service and/or to pay costs relating to  
139 identifying roads, highways and streets. Such excess funds may  
140 also be used in the development of county or district  
141 communications and paging systems when used primarily for the  
142 alerting and dispatching of public safety entities and for other  
143 administrative costs such as management personnel, maintenance  
144 personnel and related building and operational requirements. Such  
145 excess funds may be placed in a depreciation fund for emergency  
146 and obsolescence replacement of equipment necessary for the  
147 operation of the overall 911 emergency telephone and alerting  
148 systems.

149 (3) No such service charge shall be imposed upon more than  
150 twenty-five (25) exchange access facilities per person per  
151 location. Trunks or service lines used to supply service to CMRS  
152 providers shall not have a service charge levied against them.

153 Every billed service user shall be liable for any service charge  
154 imposed under this section until it has been paid to the service  
155 supplier. The duty of the service supplier to collect any such  
156 service charge shall commence upon the date of its implementation,  
157 which shall be specified in the resolution for the installation of  
158 such service. Any such emergency telephone service charge shall  
159 be added to and may be stated separately in the billing by the  
160 service supplier to the service user.

161 (4) The service supplier shall have no obligation to take  
162 any legal action to enforce the collection of any emergency  
163 telephone service charge. However, the service supplier shall  
164 annually provide the board of supervisors and board of  
165 commissioners with a list of the amount uncollected, together with  
166 the names and addresses of those service users who carry a balance  
167 that can be determined by the service supplier to be nonpayment of  
168 such service charge. The service charge shall be collected at the  
169 same time as the tariff rate in accordance with the regular  
170 billing practice of the service supplier. Good faith compliance  
171 by the service supplier with this provision shall constitute a  
172 complete defense to any legal action or claim which may result  
173 from the service supplier's determination of nonpayment and/or the  
174 identification of service users in connection therewith.

175 (5) The amounts collected by the service supplier  
176 attributable to any emergency telephone service charge shall be  
177 due the county treasury monthly. The amount of service charge  
178 collected each month by the service supplier shall be remitted to  
179 the county no later than sixty (60) days after the close of the  
180 month. A return, in such form as the board of supervisors and the  
181 service supplier agree upon, shall be filed with the county,  
182 together with a remittance of the amount of service charge  
183 collected payable to the county. The service supplier shall  
184 maintain records of the amount of service charge collected for a

185 period of at least two (2) years from date of collection. The  
186 board of supervisors and board of commissioners shall receive an  
187 annual audit of the service supplier's books and records with  
188 respect to the collection and remittance of the service charge.  
189 From the gross receipts to be remitted to the county, the service  
190 supplier shall be entitled to retain as an administrative fee, an  
191 amount equal to one percent (1%) thereof. From and after March  
192 10, 1987, the service charge is a county fee and is not subject to  
193 any sales, use, franchise, income, excise or any other tax, fee or  
194 assessment and shall not be considered revenue of the service  
195 supplier for any purpose.

196 (6) In order to provide additional funding for the district,  
197 the board of commissioners may receive federal, state, county or  
198 municipal funds, as well as funds from private sources, and may  
199 expend such funds for the purposes of Section 19-5-301 et seq.

218 all recordings of the emergency telephone calls, shall remain  
219 confidential and shall be used only for the purposes as may be  
220 needed for law enforcement, fire, medical rescue or other  
221 emergency services. These recordings shall not be released to any  
222 other parties without court order or subpoena from a court of  
223 competent jurisdiction.

230 entity and the time the emergency response entity arrived on the  
231 scene. Requests for release of records must be made in writing  
232 and must specify the information desired. Requestors shall pay  
233 the cost of providing the information requested in accordance with  
234 the Mississippi Public Records Act of 1983, Section 25-61-1 et  
235 seq. The identity of any caller or person or persons who are the  
236 subject of any call, or the address, phone number or other  
237 identifying information about any such person, shall not be  
238 released except as provided in subsection (2) of this section.
