(4) Except as may otherwise be provided by the district, all obligations issued by the district shall be negotiable instruments and payable solely from the levy of any special assessment by the district or from any other sources whatsoever that may be available to the district but shall not be secured by the full faith and credit of the state or the county or municipality that created the district.

(5) Obligations shall be authorized, issued and sold by a resolution or resolutions of the district adopted as provided in this chapter. Such bonds or obligations may be of such series, bear such date or dates, mature at such time or times, bear interest at such rate or rates, including variable, adjustable, or zero interest rates, be payable at such time or times, be in such denominations, be sold at such price or prices, at public or private negotiated sale, after advertisement as is provided for in Section 17-21-53(2) for and in connection with any public sale, be in such form, carry such registration and exchangeability privileges, be payable at such place or places, be subject to such terms of redemption and be entitled to such priorities on the income, revenue and receipts of, or available to, the district as may be provided by the district in the resolution or resolutions providing for the issuance and sale of the bonds or obligations of the district.

(6) The obligations of the district shall be signed by such directors or officers of the district by either manual or
facsimile signatures as shall be determined by resolution or
resolutions of the district, and shall have impressed or imprinted
thereon the seal of the district or a facsimile thereof.

(7) Any obligations of the district may be validly issued,
sold and delivered notwithstanding that one or more of the
directors or officers of the district signing such obligations or
whose facsimile signature or signatures may be on the obligations
shall have ceased to be such director or officer of the district
at the time such obligations shall actually have been delivered.

(8) Obligations of the district may be sold in such manner
and from time to time as may be determined by the district to be
most beneficial, and the district may pay all expenses, premiums,
fees or commissions that it deems necessary or advantageous in
connection with the issuance and sale thereof, subject to the
provisions of this chapter.

(9) The district may authorize the establishment of a fund
or funds for the creation of a debt service reserve, a renewal and
replacement reserve or such other funds or reserves as the
district may approve with respect to the financing and operation
of any project and as may be authorized by any bond resolution,
trust agreement, indenture of trust or similar instrument or
agreement pursuant to the provisions of which the issuance of
bonds or other obligations of the district may be authorized.

(10) Notwithstanding any other law to the contrary, but
subject to any agreement with bondholders or noteholders, monies
of the district not required for immediate use, including proceeds
from the sale of any bonds, notes or other obligations, may be
invested in the following:

(a) Obligations of any municipality, the State of
Mississippi or the United States of America;

(b) Obligations of which the principal and interest are
guaranteed by the State of Mississippi or the United States of
America;
(c) Obligations of any corporation wholly owned by the United States of America;

(d) Obligations of any corporation sponsored by the United States of America which are, or may become, eligible as collateral for advances to member banks as determined by the Board of Governors of the Federal Reserve System;

(e) Obligations of insurance firms or other corporations whose investments are rated "A" or better by recognized rating companies;

(f) Certificates of deposit or time deposits of qualified depositories of the State of Mississippi as approved by the State Depository Commission, secured in such manner, if any, as the commission determines appropriate;

(g) Contracts for the purchase and sale of obligations of the type described in paragraphs (a) through (e) of this subsection;

(h) Repurchase agreements secured by obligations described in paragraphs (a) through (e) of this subsection; and

(i) Money market funds, the assets of which are required to be invested in obligations described in paragraphs (a) through (f) of this subsection.

(11) Any cost, obligation or expense incurred for any of the purposes specified in this chapter shall be a part of the project costs and may be paid or reimbursed as such out of the proceeds of bonds or other obligations issued by the district.

(12) Neither the directors of the board nor any person executing the bonds shall be personally liable for the bonds or be subject to any personal liability by reason of the issuance thereof. No earnings or assets of the district shall accrue to the benefit of any private persons. However, the limitation of liability provided for in this subsection shall not apply to any gross negligence or criminal negligence on the part of any director or person executing the bonds.
The district may avail itself of the provisions of Sections 31-13-1 through 31-13-11.

This chapter constitutes full and complete authority for the issuance of bonds and the exercise of the powers of the district provided herein. No procedures or proceedings, publications, notices, consents, approvals, orders, acts or things by the board or any board, officers, commission, department, agency or instrumentality of the district, other than those required by this chapter, shall be required to perform anything under this chapter, except that the issuance or sale of bonds pursuant to the provisions of this chapter shall comply with the general law requirements applicable to the issuance or sale of bonds by the district. Nothing in this chapter shall be construed to authorize the district to utilize bond proceeds to fund the ongoing operations of the district.

Before incurring any debt as provided in subsection (1) of this section, the district may, but shall not be required to, secure an agreement from one or more developers obligating such developer or developers:

(a) To effect the completion of all or any portion of a project at no cost to the district;

(b) To pay all or any portion of the real property taxes due on the project in a timely manner; and

(c) To maintain and operate all or any portion of the buildings or other facilities or improvements of the project in such a manner as to preserve property values.

No breach of any such agreement shall impose any pecuniary liability upon a district or any charge upon its general credit or against its taxing powers.

Additionally, the district may enter into an agreement with the developer under which the developer may construct all or any part of the project with private funds in advance of issuance of bonds and may be reimbursed by the district for actual costs.
incurred by the developer upon issuance and delivery of bonds and receipt of the proceeds, conditioned upon dedication of the project by the developer to the district, a governmental agency, a county or a municipality to assure public use and access. This condition shall not apply to the privately owned portion of a project for which the Mississippi Development Authority has issued a certificate of convenience and necessity pursuant to the Regional Economic Development Act.

As used in this section, the term "developer" means any entity or natural person which enters into an agreement with a district whereby the developer agrees to construct, operate and maintain or procure the construction, operation and maintenance of a project or projects, or portions thereof, upon land within the district.

SECTION 7. Section 19-31-29, Mississippi Code of 1972, is amended as follows:

19-31-29. Bonds issued under the provisions of this chapter shall be limited obligations of the district payable solely from the sources pledged for the payment thereof. All such bonds shall contain a statement on their face substantially to the effect that neither the full faith and credit of the state nor the full faith and credit of any governmental unit of the state are pledged to the payment of the principal of or the interest on such bonds. Except as provided in a contribution agreement, the issuance of bonds under the provisions of this chapter shall not directly, indirectly or contingently obligate the state or any governmental unit of the state to levy any taxes or to make any appropriation for their payment arising out of contracts authorized under this chapter.

SECTION 8. Section 19-31-33, Mississippi Code of 1972, is amended as follows:

19-31-33. (1) The board shall annually determine, order and levy the annual installment of the total benefit special
assessments for bonds issued and related expenses to finance
district facilities and projects that are levied under this
chapter. These assessments may be due and collected during each
year that county taxes are due and collected, in which case such
annual installment and levy shall be evidenced to and certified to
the assessor by the board not later than August 31 of each year.
Such assessments shall be entered by the assessor on the county
tax rolls and shall be collected and enforced by the tax collector
in the same manner and at the same time as county taxes, and the
proceeds thereof shall be paid to the district. These benefit
special assessments shall be a lien on the property against which
assessed until paid and shall be collectible and enforceable in
like manner as county property taxes. All statutes regulating the
collection and enforcement of county property taxes shall apply to
the enforcement and collection of the benefit special assessments
levied under this section. The amount of the assessment for the
exercise of the district's powers under this chapter shall be
determined by the board based upon a report of the district's
engineer and assessed by the board upon such lands, which may be
part or all of the lands within the district benefited by the
improvement, apportioned between benefited lands in proportion to
the benefits received by each tract of land.

(2) To maintain and preserve the facilities and projects of
the district, the board shall levy a maintenance special
assessment. This assessment may be evidenced by and certified to
the assessor by the board of directors not later than August 31 of
each year and shall be entered by the assessor on the county tax
rolls and shall be collected and enforced by the tax collector in
the same manner and at the same time as county taxes, and the
proceeds therefrom shall be paid to the district. These
maintenance special assessments shall be a lien on the property
against which assessed until paid and shall be collectible and
enforceable in like manner as county property taxes and all
statutes regulating the collection and enforcement of county
property taxes shall apply to the enforcement and collection of
the benefit special assessments levied under this section. The
amount of the maintenance special assessment for the exercise of
the district's powers under this chapter shall be determined by
the board based upon a report of the district's engineer and
assessed by the board upon such lands, which may be all of the
lands within the district benefited by the maintenance thereof,
apportioned between the benefited lands in proportion to the
benefits received by each tract of land.

(3) Benefit special assessments and maintenance special
assessments authorized by this section shall be levied and payable
in annual installments for each year for which bonds secured by
the assessment are outstanding. The tax collector shall collect
and enforce benefit special assessments and maintenance special
assessments in the same manner and at the same time as ad valorem
taxes. Benefit special assessments and maintenance special
assessments shall constitute a lien on the property against which
assessed until paid and shall be on a parity with the lien of
state, county, municipal and school board property taxes.

(4) The tax assessor and tax collector are entitled to
reasonable compensation for preparing the rolls and collecting the
assessments.

(5) District assessments may be made payable in no more than
forty (40) yearly installments. Benefit special assessments are
prepayable. Any prepayment of benefit special assessments must be
credited against the payor's pro rata share of principal and
interest of the indebtedness.

SECTION 9. Section 19-31-35, Mississippi Code of 1972, is
amended as follows:

19-31-35. Any lien in favor of the district arising under
this chapter may be enforced by the district in a court of
competent jurisdiction as provided by law. ** ** **
SECTION 10. Section 19-31-39, Mississippi Code of 1972, is amended as follows:

19-31-39. (1) The district may prescribe, fix, establish and collect rates, fees, rentals or other charges for the facilities and services furnished by the district, within the limits of the district, including but not limited to recreational facilities, water management and control facilities and water and sewer systems. The district may also recover the costs of making connection with any district facility or system and provide for reasonable penalties against any user or property for any such rates, fees, rentals or other charges that are delinquent.

(2) No such rates, fees, rentals or other charges for any of the facilities or services of the district may be fixed until after a public hearing at which all the users of the proposed facility or services shall have an opportunity to be heard concerning the proposed rates, fees, rentals or other charges. Notice of such public hearing setting forth the proposed schedule of rates, fees, rentals and other charges shall be published in a newspaper having general circulation in each county where the district is located once at least ten (10) days before such public hearing.

SECTION 11. Section 19-31-43, Mississippi Code of 1972, is amended as follows:

19-31-43. (1) The boundaries of the district may be contracted or expanded in the same manner in which the district was created pursuant to this chapter; however, the petition must be filed by the board and must contain the written consent of all landowners within only the proposed area of expansion or contraction.

(2) (a) Subject to the limitations of paragraph (b) of this subsection, the district may be terminated or dissolved in one (1) of the following ways:
(i) The district may be terminated or dissolved upon the transfer of all the public improvement services of the district to a unit of local government. The district shall be terminated in accordance with a plan of termination which shall be adopted by the board of directors and filed with the clerk of the court.

(ii) If, within five (5) years after the effective date of the ordinance creating the district, a landowner has not received a development permit on some part or all of the area covered by the district, then the district will be automatically dissolved and a court of competent jurisdiction shall cause a statement to that effect to be filed in the public records.

(iii) If the district has become inactive, the county or municipality that created the district shall be informed and shall take appropriate action.

(b) Following the establishment of the district with no timely appeal challenging the district, a district may not be dissolved or terminated if any bonds issued by the district, or bonds for which the district is obligated, are outstanding or are secured by special assessments or other security instruments to which the district is a party in connection with the bonds.

SECTION 12. Section 19-31-45, Mississippi Code of 1972, is amended as follows:

19-31-45. After the establishment of a district under this chapter, each contract and instrument of conveyance of a parcel of real property within the district shall include, immediately before the space reserved in the contract and instrument of conveyance for the signature of the purchaser, the following disclosure statement in boldfaced and conspicuous type which is larger than the type in the remaining text of the contract and the instrument of conveyance: "THE (Name of District) PUBLIC IMPROVEMENT DISTRICT MAY IMPOSE AND LEVY ASSESSMENTS ON THIS PROPERTY. THESE ASSESSMENTS PAY THE CONSTRUCTION, OPERATION AND
MAINTENANCE COSTS OF CERTAIN PUBLIC FACILITIES AND SERVICES OF THE DISTRICT AND ARE SET ANNUALLY BY THE GOVERNING BOARD OF THE DISTRICT. THESE ASSESSMENTS ARE IN ADDITION TO COUNTY AND OTHER LOCAL GOVERNMENTAL TAXES AND ASSESSMENTS AND ALL OTHER TAXES AND ASSESSMENTS PROVIDED FOR BY LAW."

However, the failure to include the above language does not and may not be deemed to invalidate any assessment levied by the district or the contract or instrument of conveyance of the real property.

SECTION 13. Section 19-31-47, Mississippi Code of 1972, is amended as follows:

19-31-47. Within thirty (30) days after the effective date of the ordinance establishing a public improvement district under this chapter, the district shall cause to be recorded in the sectional index and the subdivisional index, if applicable, in the land records in each county in which it is located a "Notice of Establishment of the ________________________ Public Improvement District." The notice shall include the legal description of the district and a copy of the disclosure statement specified in this chapter.

SECTION 14. This act shall take effect and be in force from and after its passage.
