(bb) Start-up and five-year budgets with clearly stated assumptions;
(cc) Start-up and first-year cash flow projections with clearly stated assumptions;
(dd) A disclosure of all sources of private funding and all funds from foreign sources, including gifts from foreign governments, foreign legal entities and domestic entities affiliated with either foreign governments or foreign legal entities. For the purposes of this paragraph, the term "foreign" means a country or jurisdiction outside of any state or territory of the United States;
(ee) Evidence of anticipated fundraising contributions, if claimed in the application; and
(ff) A sound facilities plan, including backup or contingency plans if appropriate.

(5) In the case of an application to establish a charter school by converting an existing noncharter public school to charter school status, the request for proposals additionally shall require the applicant to demonstrate support for the
proposed charter school conversion by a petition signed by a majority of teachers or a majority of parents of students in the existing noncharter public school, or by a majority vote of the local school board or, in the case of schools in districts under state conservatorship, by the State Board of Education.

(6) In the case of a proposed charter school that intends to contract with an education service provider for substantial educational services, management services or both types of services, the request for proposals additionally shall require the applicant to:

(a) Provide evidence of the education service provider's success in serving student populations similar to the targeted population, including demonstrated academic achievement as well as successful management of nonacademic school functions, if applicable;

(b) Provide a term sheet setting forth: the proposed duration of the service contract; roles and responsibilities of the governing board, the school staff and the education service provider; the scope of services and resources to be provided by the education service provider; performance evaluation measures and timelines; the compensation structure, including clear identification of all fees to be paid to the education service provider; methods of contract oversight and enforcement; investment disclosure; and conditions for renewal and termination of the contract;
(c) Disclose and explain any existing or potential conflicts of interest between the school governing board and proposed service provider or any affiliated business entities; and
(d) Background information, including proof of United States citizenship, on the principal individuals affiliated with the education service provider.

(7) In the case of a charter school proposal from an applicant that currently operates one or more schools in any state or nation, the request for proposals additionally shall require the applicant to provide evidence of past performance and current capacity for growth. The applicant shall be required to submit clear evidence that it has produced statistically significant gains in student achievement or consistently produced proficiency levels as measured on state achievement tests.

SECTION 9. (1) The following are the purposes of a charter application:

(a) To present the proposed charter school's academic and operational vision and plans;
(b) To demonstrate the applicant's capacities to execute the proposed vision and plans; and
(c) To provide the authorizer a clear basis for assessing the applicant's plans and capacities.

(2) An approved charter application may not serve as the school's charter contract.
SECTION 10.  (1) In reviewing and evaluating charter applications, the authorizer shall employ procedures, practices and criteria consistent with nationally recognized principles and standards for quality charter authorizing. The application review process must include thorough evaluation of each written charter application and in-person interview with the applicant group.

(2) In deciding whether to approve charter applications, the authorizer must:

(a) Grant charters only to applicants that have provided evidence of competence in each element of the authorizer's published approval criteria, and in the case of an applicant that currently operates one or more schools in any state or nation, clear evidence that the management or leadership team of the charter school or schools currently operated by the applicant has produced statistically significant gains in student achievement or consistently produced proficiency levels as measured on state achievement test;

(b) Base decisions on documented evidence collected through the application review process; and

(c) Follow charter-granting policies and practices that are transparent, based on merit and avoid conflicts of interest or any appearance thereof.

(3) Before the expiration of one hundred eighty (180) days after the filing of a charter application, the authorizer must approve or deny the charter application; however, an application
submitted by a public historically black college or university (HBCU), in partnership with a national nonprofit public HBCU support organization, for a charter school to be operated on or near the campus of the HBCU must be considered for expedited approval by the authorizer. The authorizer shall adopt by resolution all charter approval or denial decisions in an open meeting of the authorizer board.

(4) An approval decision may include, if appropriate, reasonable conditions that the charter applicant must meet before a charter contract may be executed pursuant to Section 11 of this act.

(5) For a charter denial, the authorizer shall state clearly, for public record, its reasons for denial. A denied applicant may reapply subsequently with the authorizer.

(6) Before the expiration of ten (10) days after taking action to approve or deny a charter application, the authorizer shall provide a report to the applicant. The report must include a copy of the authorizer's resolution setting forth the action taken and reasons for the decision and assurances as to compliance with all of the procedural requirements and application elements set forth in this act.

SECTION 11. (1) The authorizer shall grant an initial charter to each qualified applicant for a term of five (5) operating years. The term of the charter shall commence on the charter school's first day of operation. An approved charter
school may delay its opening for one (1) school year in order to plan and prepare for the school's opening. If the school requires an opening delay of more than one (1) school year, the school must request an extension from the authorizer. The authorizer may grant or deny the extension depending on the particular school's circumstances.

(2) (a) The authorizer and the governing board of the approved charter school shall execute a charter contract that clearly sets forth the academic and operational performance expectations and measures by which the charter school will be judged and the administrative relationship between the authorizer and charter school, including each party's rights and duties. The performance expectations and measures set forth in the charter contract must include, but need not be limited to, applicable federal and state accountability requirements. The performance provisions may be refined or amended by mutual agreement after the charter school is operating and has collected baseline achievement data for its enrolled students.

(b) The charter contract must be signed by the chairman of the authorizer board and the president of the charter school's governing board.

(c) A charter school may not commence operations without a charter contract executed in accordance with this section and approved in an open meeting of the authorizer board.
(3) The authorizer may establish reasonable preopening requirements or conditions to monitor the start-up progress of a newly approved charter school and to ensure that the school is prepared to open smoothly on the date agreed and that the school meets all building, health, safety, insurance and other legal requirements before the school's opening.

SECTION 12.  (1) A charter school must be open to any student residing in the geographical boundaries of the school district in which the charter school is located.

(2) A school district may not require any student enrolled in the school district to attend a charter school.

(3) Except as otherwise provided under subsection (8)(d) of this section, a charter school may not limit admission based on ethnicity, national origin, religion, gender, income level, disabling condition, proficiency in the English language, or academic or athletic ability.

(4) A charter school may limit admission to students within a given age group or grade level, including prekindergarten students, and may be organized around a special emphasis, theme or concept as stated in the school's application.

(5) The underserved student composition of a charter school's enrollment collectively must reflect that of students of all ages attending the school district in which the charter school is located, to be defined for the purposes of this act as being at least eighty percent (80%) of that population. If the underserved
student composition of an applicant's or charter school's enrollment is less than eighty percent (80%) of the enrollment of students of all ages in the school district in which the charter school is located, despite the school's best efforts, the authorizer must consider the applicant's or charter school's recruitment efforts and the underserved student composition of the applicant pool in determining whether the applicant or charter school is operating in a nondiscriminatory manner. A finding by the authorizer that a charter school is operating in a discriminatory manner justifies the revocation of a charter.

(6) A charter school must enroll all students who wish to attend the school unless the number of students exceeds the capacity of a program, class, grade level or building.

(7) If capacity is insufficient to enroll all students who wish to attend the school based on initial application, the charter school must select students through a lottery.

(8) (a) Any noncharter public school or part of a noncharter public school converting to a charter school shall adopt and maintain a policy giving an enrollment preference to students who reside within the former attendance area of that public school. If the charter school has excess capacity after enrolling students residing within the former attendance area of the school, students outside of the former attendance area of the school, but within the geographical boundaries of the school district in which the charter school is located, are eligible for
enrollment. If the number of students applying for admission exceeds the capacity of a program, class, grade level or building of the charter school, the charter school must admit students on the basis of a lottery.

(b) A charter school must give an enrollment preference to students enrolled in the charter school during the preceding school year and to siblings of students already enrolled in the charter school. An enrollment preference for returning students excludes those students from entering into a lottery.

(c) A charter school may give an enrollment preference to children of the charter school's applicant, governing board members and full-time employees, so long as those children constitute no more than ten percent (10%) of the charter school's total student population.

(d) This section does not preclude the formation of a charter school whose mission is focused on serving students with disabilities, students of the same gender, students who pose such severe disciplinary problems that they warrant a specific educational program, or students who are at risk of academic failure. If capacity is insufficient to enroll all students who wish to attend the school, the charter school must select students through a lottery.

SECTION 13. If a student previously enrolled in a charter school enrolls in another public school in this state, the student's new school must accept credits earned by the student in
courses or instructional programs at the charter school in a
uniform and consistent manner and according to the same criteria
that are used to accept academic credits from other public
schools.

**SECTION 14.** A school district must provide or publicize to
parents and the general public information about charter schools
as an enrollment option within the district to the same extent and
through the same means that the district provides and publicizes
information about noncharter public schools in the district.

**SECTION 15.** (1) The performance provisions within a charter
contract must be based on a performance framework that clearly
sets forth the academic and operational performance indicators,
measures and metrics that will guide the authorizer's evaluations
of the charter school. The performance framework must include
indicators, measures and metrics, at a minimum, for the following:

(a) Student academic proficiency;

(b) Student academic growth;

(c) Achievement gaps in both proficiency and growth
between major student subgroups;

(d) Attendance;

(e) Recurrent enrollment from year to year;

(f) In-school and out-of-school suspension rates and
expulsion rates;

(g) For charter high schools, postsecondary readiness,
including the percentage of graduates submitting applications to
postsecondary institutions, high school completion, postsecondary
admission and postsecondary enrollment or employment;

(h) Financial performance and sustainability; and

(i) Board performance and stewardship, including
compliance with all applicable laws, regulations and terms of the
charter contract.

(2) Annual performance targets must be set by each charter
school in conjunction with the authorizer and must be designed to
help each school meet applicable federal, state and authorizer
expectations.

(3) The performance framework must allow the inclusion of
additional rigorous, valid and reliable indicators proposed by a
charter school to augment external evaluations of its performance;
however, the authorizer must approve the quality and rigor of any
indicators proposed by a charter school, which indicators must be
consistent with the purposes of this act.

(4) The performance framework must require the
disaggregation of all student performance data by major student
subgroups (gender, race, poverty status, special education status,
English learner status and gifted status).

(5) The authorizer shall collect, analyze and report all
data from state assessments in accordance with the performance
framework for each charter school. Multiple schools overseen by a
single governing board must report their performance as separate,
individual schools, and each school must be held independently accountable for its performance.

(6) Information needed by the authorizer from the charter school governing board for the authorizer's reports must be required and included as a material part of the charter contract.

SECTION 16. (1) The authorizer shall monitor annually the performance and legal compliance of each charter school it oversees, including collecting and analyzing data to support the school's evaluation according to the charter contract. The authorizer may conduct or require oversight activities that enable the authorizer to fulfill its responsibilities under this act, including conducting appropriate inquiries and investigations, so long as those activities are consistent with the intent of this act, adhere to the terms of the charter contract and do not unduly inhibit the autonomy granted to charter schools.

(2) As part of its annual report to the Legislature, the authorizer shall publish and provide a performance report for each charter school it oversees in accordance with the performance framework set forth in the charter contract. The report must be made available to the public at the same time as it is submitted to the Legislature. The authorizer may require each charter school it oversees to submit an annual report to assist the authorizer in gathering complete information about each school, consistent with the performance framework.
(3) If a charter school's performance or legal compliance is unsatisfactory, the authorizer shall notify promptly the charter school of the problem and provide reasonable opportunity for the school to remedy the problem unless the problem warrants revocation, in which case the revocation timeframes will apply.

(4) The authorizer may take appropriate corrective actions or exercise sanctions in response to apparent deficiencies in a charter school's performance or legal compliance. If warranted, the actions or sanctions may include requiring a charter school to develop and execute a corrective action plan within a specified timeframe.

SECTION 17. (1) A charter may be renewed for successive five-year terms of duration. The authorizer may grant renewal with specific conditions for necessary improvements to a charter school and may lessen the renewal term based on the performance, demonstrated capacities and particular circumstances of each charter school.

(2) Before September 30, the authorizer shall issue a charter school performance report and charter renewal application guidance to any charter school whose charter will expire the following year. The performance report must summarize the charter school's performance record to date, based on the data required by this act and the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer which may jeopardize the charter school's position in seeking renewal if not
timely rectified. The charter school must respond and submit any corrections or clarifications for the performance report within ninety (90) days after receiving the report.

(3) The charter renewal application guidance must provide, at a minimum, an opportunity for the charter school to:

(a) Present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal;

(b) Describe improvements undertaken or planned for the school; and

(c) Detail the school's plans for the next charter term.

(4) The charter renewal application guidance must include or refer explicitly to the criteria that will guide the authorizer's renewal decision, which must be based on the performance framework set forth in the charter contract and consistent with this act.

(5) Before February 1, the governing board of a charter school seeking renewal shall submit a renewal application to the authorizer pursuant to the charter renewal application guidance issued by the authorizer. The authorizer shall adopt a resolution ruling on the renewal application no later than ninety (90) days after the filing of the renewal application.

(6) In making each charter renewal decision, the authorizer must:
(a) Ground its decision in evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(b) Ensure that data used in making the renewal decision is available to the school and the public; and

(c) Provide a public report summarizing the evidence that is the basis for the renewal decision.

(7) A charter contract must be revoked at any time or not renewed if the authorizer determines that the charter school has done any of the following or otherwise failed to comply with the provisions of this act:

(a) Committed a material and substantial violation of any of the terms, conditions, standards or procedures required under this act or the charter contract;

(b) Failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) Failed to meet generally accepted standards of fiscal management; or

(d) Substantially violated any material provision of law which is applicable to the charter school.

(8) The authorizer shall develop revocation and nonrenewal processes that:

(a) Provide the governing board of a charter school with a timely notification of the prospect of revocation or nonrenewal and of the reasons for such possible closure;
(b) Allow the governing board a reasonable amount of time in which to prepare a response;

(c) Provide the governing board with an opportunity to submit documents and give testimony challenging the rationale for closure and in support of the continuation of the school at an orderly proceeding held for that purpose;

(d) Allow the governing board access to representation by counsel and to call witnesses on the school's behalf;

(e) Permit the recording of such proceedings; and

(f) After a reasonable period for deliberation, require a final determination to be made and conveyed in writing to the governing board.

(9) Notwithstanding any provision to the contrary, the authorizer may not renew the charter of any charter school that, during the school's final operating year under the term of the charter contract, is designated an "F" school under the school accreditation rating system.

(10) If the authorizer revokes or does not renew a charter, the authorizer must state clearly, in a resolution of adopted by the authorizer board, the reasons for the revocation or nonrenewal.

(11) Within ten (10) days after taking action to renew, not renew or revoke a charter, the authorizer shall provide a report to the charter school. The report must include a copy of the authorizer board's resolution setting forth the action taken,
reasons for the board's decision and assurances as to compliance with all of the requirements set forth in this act.

SECTION 18. (1) Before implementing a charter school closure decision, the authorizer must develop a charter school closure protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, and proper disposition of school funds, property and assets in accordance with the requirements of this act. The protocol must specify tasks, timelines and responsible parties, including delineating the respective duties of the school and the authorizer. If a charter school is to be closed for any reason, the authorizer shall oversee and work with the closing school to ensure a smooth and orderly closure and transition for students and parents, as guided by the closure protocol.

(2) If a charter school closes, all unspent government funds, unspent earnings from those funds and assets purchased with government funds must revert to the local school district in which the charter school is located. Unless otherwise provided for in the charter or a debt instrument, unspent funds from nongovernmental sources, unspent earnings from those funds, assets purchased with those funds and debts of the school must revert to the nonprofit entity created to operate the school and may be disposed of according to applicable laws for nonprofit corporations.
SECTION 19. (1) Before October 1 of each year, beginning in the year that the state has had at least one (1) charter school operating for a full school year, the Mississippi Charter School Authorizer Board shall issue to the Governor, Legislature, State Board of Education and the public an annual report on the state's charter schools for the preceding school year. The report must include a comparison of the performance of charter school students with the performance of academically, ethnically and economically comparable groups of students in the school district in which a charter school is located. In addition, the report must include the authorizer's assessment of the successes, challenges and areas for improvement in meeting the purposes of this act. The report also must include an assessment on whether the number and size of operating charter schools are sufficient to meet demand, as calculated according to admissions data and the number of students denied enrollment based on lottery results. The report due from the authorizer under this section must be coordinated with reports due from charter school governing boards, as near as possible, to decrease or eliminate duplication.

(2) The Joint Legislative Committee on Performance Evaluation and Expenditure Review (PEER) shall prepare an annual report assessing the sufficiency of funding for charter schools, the efficacy of the state formula for authorizer funding, and any suggested changes in state law or policy necessary to strengthen the state's charter schools.
SECTION 20. (1) Notwithstanding any provision of law to the contrary, to the extent that any provision of this act is inconsistent with any other state or local law, rule or regulation, the provisions of this act govern and are controlling.

(2) A charter school must be a nonprofit education organization.

(3) A charter school is subject to all federal laws and authorities specified in this act or agreed upon with the authorizer in the charter contract, where such contracting is consistent with applicable laws, rules and regulations.

(4) To the extent approved by the authorizer, a charter contract may consist of one or more schools. Each charter school that is part of a charter contract must be separate and distinct from any other charter school.

(5) A single governing board may hold one or more charter contracts.

(6) A charter school must function as a local educational agency, and as such, a charter school is responsible for meeting the requirements of local educational agencies under applicable federal laws, including those relating to special education, receipt of funds and compliance with funding requirements. Status as a local educational agency, however, does not preclude a charter school from developing, by mutual agreement or formal contract, links with the local school district for services, resources and programs.
SECTION 21. A charter school may exercise those powers necessary for carrying out the terms of its charter contract, including the following powers:

(a) To receive and disburse funds authorized by law for school purposes;
(b) To secure appropriate insurance and to enter into contracts and leases;
(c) To contract with an education service provider for the management and operation of the charter school so long as the school's governing board retains oversight authority over the school;
(d) To solicit and accept any gifts or grants for school purposes subject to applicable laws and the terms of its charter contract;
(e) To acquire real property for use as its facility or facilities, from public or private sources; and
(f) To sue and be sued in its own name.

SECTION 22. (1) A charter school may not discriminate against any person on the basis of race, creed, color, sex, disability, national origin or any other category that would be unlawful if done by a noncharter public school.

(2) A charter school may not engage in any sectarian practices in its educational program, admissions or employment policies or operations.
A charter school may not discriminate against any student on the basis of national origin, minority status or limited proficiency in English. Consistent with federal civil rights laws, charter schools must provide limited English proficient students with appropriate services designed to teach them English and the general curriculum.

(4) A charter school may not charge tuition.

(5) The terms of each charter school must include a transportation plan for students attending the charter school.

(6) Subject to the approval of the authorizer, a charter school may contract with an accredited online course provider for the delivery of virtual courses to students enrolled in the charter school.

(7) Except to the extent authorized under paragraph (c) of Section 21, the powers, obligations and responsibilities set forth in the charter contract may not be delegated or assigned by either party.

SECTION 23. (1) Charter schools are subject to the same civil rights, health and safety requirements applicable to noncharter public schools in the state, except as otherwise specifically provided in this act.

(2) Charter schools are subject to the student assessment and accountability requirements applicable to noncharter public schools in the state; however, this requirement does not preclude a charter school from establishing additional student assessment
measures that go beyond state requirements if the authorizer approves those measures.

(3) Although a charter school is geographically located within the boundaries of a particular school district and enrolls students who reside within the school district, the charter school may not be considered a school within that district under the purview of the school district's school board. The rules, regulations, policies and procedures established by the school board for the noncharter public schools that are in the school district in which the charter school is geographically located do not apply to the charter school unless otherwise required under the charter contract or any contract entered into between the charter school governing board and the local school board.

(4) Whenever the provisions of Title 37, Mississippi Code of 1972, relating to the elementary and secondary education of public school students establish a requirement for or grant authority to local school districts, their school boards and the schools within the respective school districts, the language "school districts," "school boards," "boards of trustees," "the schools within a school district," or any other similar phraseology does not include a charter school and the governing board of a charter school unless the statute specifically is made applicable to charter schools as well as noncharter public schools.

(5) A charter school is not subject to any rule, regulation, policy or procedure adopted by the State Board of Education or the
Charter schools are not exempt from the following statutes:

(a) Chapter 41, Title 25, Mississippi Code of 1972, which relate to open meetings of public bodies.

(b) Chapter 61, Title 25, Mississippi Code of 1972, which relate to public access to public records.

(c) Section 37-3-51, which requires notice by the district attorney of licensed school employees who are convicted of certain sex offenses.

(d) Section 37-3-53, which requires publication of the Mississippi Report Card by the State Board of Education.

(e) Section 37-11-18, which requires the automatic expulsion of a student possessing a weapon or controlled substance on educational property.

(f) Section 37-11-18.1, which requires expulsion of certain habitually disruptive students.

(g) Section 37-11-19, which requires suspension or expulsion of a student who damages school property.

(h) Section 37-11-20, which prohibits acts of intimidation intended to keep a student from attending school.

(i) Section 37-11-21, which prohibits parental abuse of school staff.
(j) Section 37-11-23, which prohibits the willful disruption of school and school meetings.

(k) Sections 37-11-29 and 37-11-31, which relate to reporting requirements regarding unlawful or violent acts on school property.

(l) Section 37-11-67, which prohibits bullying or harassing behavior in public schools.

(m) Section 37-13-3, which prohibits doctrinal, sectarian or denominational teaching in public schools.

(n) Sections 37-13-5 and 37-13-6, which require the flags of the United States and the State of Mississippi to be displayed near the school building.

(o) Section 37-13-63(1), which prescribes the minimum number of days which public schools must be kept in session during a scholastic year.

(p) Section 37-13-91, which is the Mississippi Compulsory School Attendance Law.

(q) Section 37-13-171(2) and (4), which requires any course containing sex-related education to include instruction in abstinence-only or abstinence-plus education.

(r) Section 37-13-173, which requires notice to parents before instruction on human sexuality is provided in public classrooms.

(s) Section 37-13-193, which relates to civil rights and human rights education in the public schools.
(t) Sections 37-15-1 and 37-15-3, which relate to the maintenance and transfer of permanent student records in public schools.

(u) Section 37-15-6, which requires the State Department of Education to maintain a record of expulsions from the public schools.

(v) Section 37-15-9, which establishes minimum age requirements for kindergarten and first grade enrollment in public schools.

(w) Section 37-15-11, which requires a parent, legal guardian or custodian to accompany a child seeking enrollment in a public school.

(x) Sections 37-16-1, 37-16-3, 37-16-4 and 37-16-9, which relate to the statewide assessment testing program.

(y) Section 37-18-1, which establishes the Superior-Performing Schools Program and Exemplary Schools Program to recognize public schools that improve.

SECTION 24. (1) (a) Charter schools must comply with applicable federal laws, rules and regulations regarding the qualification of teachers and other instructional staff. No more than twenty-five percent (25%) of teachers in a charter school may be exempt from state teacher licensure requirements at the time the initial charter application is approved by the authorizer. Administrators of charter schools are exempt from state administrator licensure requirements. However, teachers and...
administrators must have a bachelor's degree as a minimum requirement, and teachers must have demonstrated subject-matter competency. Within three (3) years of the date of initial application approval by the authorizer, all teachers must have, at a minimum, alternative licensure approved by the Commission on Teacher and Administrator Education, Certification and Licensure and Development.

(b) A charter school may not staff positions for teachers, administrators, ancillary support personnel or other employees by utilizing or otherwise relying on nonimmigrant foreign worker visa programs. However, a charter school may submit a request to the authorizer for an exception allowing the employment of a nonimmigrant foreign worker before the worker is employed. The authorizer may grant permission for the employment of the nonimmigrant foreign worker only if the charter school makes a satisfactory showing of efforts to recruit lawful permanent residents of the United States to fill the position and a lack of qualified applicants to fill the position.

(2) Employees in charter schools must have the same general rights and privileges as other public school employees, except such employees are not:

(a) Covered under the Education Employment Procedures Law (Section 37-9-103);

(b) Subject to the state salary requirements prescribed in Section 37-19-7; and
(c) Members of the Public Employees' Retirement System.

(3) Employees in charter schools are eligible for participation in retirement and other benefits programs in which the charter school chooses to make available to its employees.

SECTION 25. (1) Charter school teachers and other school personnel, as well as members of the governing board and any education service provider with whom a charter school contracts, are subject to criminal history record checks and fingerprinting requirements applicable to employees of other public schools. The authorizer shall require that current criminal records background checks and current child abuse registry checks are obtained, and that the criminal record information and registry checks are on file at the charter school for any new hires applying for employment. In order to determine an applicant's suitability for employment, the applicant must be fingerprinted. If no disqualifying record is identified at the state level, the fingerprints must be forwarded by the Department of Public Safety to the Federal Bureau of Investigation for a national criminal history record check. Under no circumstances may a member of the Mississippi Charter School Authorizer Board, member of the charter school governing board or any individual other than the subject of the criminal history record checks disseminate information received through the checks except as may be required to fulfill the purposes of this section. The determination whether the applicant has a disqualifying crime, as set forth in subsection
(2) of this section, must be made by the appropriate state or federal governmental authority, which must notify the charter school whether a disqualifying crime exists.

(2) If the fingerprinting or criminal record checks disclose a felony conviction, guilty plea or plea of nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, sex offense listed in Section 45-33-23(g), child abuse, arson, grand larceny, burglary, gratification of lust or aggravated assault which has not been reversed on appeal or for which a pardon has not been granted, the new hire is not eligible to be employed at the charter school. However, the charter school, in its discretion, may allow any applicant aggrieved by the employment decision under this section to show mitigating circumstances that exist and may allow, subject to the approval of the Mississippi Charter School Authorizer Board, the new hire to be employed at the school. The authorizer may approve the employment depending on the mitigating circumstances, which may include, but need not be limited to: (a) age at which the crime was committed; (b) circumstances surrounding the crime; (c) length of time since the conviction and criminal history since the conviction; (d) work history; (e) current employment and character references; and (f) other evidence demonstrating the ability of the person to perform the employment responsibilities competently and that the person does not pose a threat to the health or safety of children.
(3) No charter school, charter school employee, member of the charter school governing board, the Mississippi Charter School Authorizer Board or member or employee of the Mississippi Charter School Authorizer Board employee may be held liable in any employment discrimination suit in which an allegation of discrimination is made regarding an employment decision authorized under this section.

(4) A charter school shall terminate any teacher or administrator for committing one or more of the following acts:

   (a) Engaging in unethical conduct relating to an educator-student relationship as identified by the Mississippi Charter School Authorizer Board;

   (b) Fondling a student as described in Section 97-5-23 or engaging in any type of sexual involvement with a student as described in Section 97-3-95; or

   (c) Failure to report sexual involvement of a charter school employee with a student as required by Section 97-5-24.

SECTION 26. A charter school is eligible to participate in state-sponsored or district-sponsored athletic and academic interscholastic leagues, competitions, awards, scholarships and recognition programs for students, educators, administrators and schools to the same extent as noncharter public schools.

SECTION 27. (1) Each charter school shall certify annually to the State Department of Education its student enrollment, average daily attendance and student participation in the national
school lunch program, special education, vocational education, gifted education, alternative school program and federal programs in the same manner as school districts.

(2) Each charter school shall certify annually to the school board of the school district in which the charter school is located the number of enrolled charter school students residing in the school district.

SECTION 28. (1) (a) The State Department of Education shall make payments to charter schools for each student in average daily attendance at the charter school equal to the state share of the adequate education program payments for each student in average daily attendance at the school district in which the charter school is located. In calculating the local contribution for purposes of determining the state share of the adequate education program payments, the department shall deduct the prorata local contribution of the school district in which the student resides, to be determined as provided in Section 37-151-7(2)(a).

(b) Payments made pursuant to this subsection by the State Department of Education must be made at the same time and in the same manner as adequate education program payments are made to school districts under Sections 37-151-101 and 37-151-103. Amounts payable to a charter school must be determined by the State Department of Education. Amounts payable to a charter school in its first year of operation must be based on the
projections of initial-year enrollment and federal school level funding set forth in the charter contract. Such projections must be reconciled with the average daily attendance at the end of the school's first year of operation, and any necessary adjustments must be made to payments during the school's second year of operation.

(2) The school district in which a charter school is located shall pay to the charter school an amount for each student enrolled in the charter school equal to the ad valorem taxes levied and collected and in lieu payments received per pupil for the support of the school district in which the student resides. The pro rata ad valorem taxes and in lieu payments to be transferred to the charter school must include all levies for the support of the school district under Sections 37-57-1 (local contribution to the adequate education program) and 37-57-105 (school district operational levy) and may not include any taxes levied for the retirement of school district bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs. In no event may the payment exceed the pro rata amount of the local ad valorem payment for the local contribution to the adequate education program under Section 37-57-1 for the school district in which the student resides. Payments made under this section by a school district to a charter school must be made before the expiration of three (3)
business days after the funds are distributed to the school
district by the tax collector.

(3) (a) The State Department of Education shall direct the
proportionate share of monies generated under federal and state
categorical aid programs, including special education, vocational,
gifted and alternative school programs, to charter schools serving
students eligible for such aid. The department shall ensure that
charter schools with rapidly expanding enrollments are treated
equitably in the calculation and disbursement of all federal and
state categorical aid program dollars. Each charter school that
serves students who may be eligible to receive services provided
through such programs shall comply with all reporting requirements
to receive the aid.

district any federal or state aid attributable to a student with a
disability attending the charter school in proportion to the level
of services for that student which the local school district
provides directly or indirectly.

(c) Subject to the approval of the authorizer, a
charter school and a local school district may negotiate and enter
into a contract for the provision of and payment for special
education services, including, but not necessarily limited to, a
reasonable reserve not to exceed five percent (5%) of the local
school district's total budget for providing special education
services. The reserve may be used by the local school district.
only to offset excess costs of providing services to students with
disabilities enrolled in the charter school.

(4) (a) The State Department of Education shall disburse
state transportation funding to a charter school on the same basis
and in the same manner as it is paid to school districts under the
adequate education program.

school district or private provider to provide transportation to
the school's students.

audited annually, at the end of each fiscal year, either by the
State Auditor or by a certified public accountant approved by the
State Auditor. However, a certified public accountant may not be
selected to perform the annual audit of a charter school if that
accountant previously has audited the charter school for more than
three (3) consecutive years. Certified public accountants must be
selected in a manner determined by the State Auditor. The charter
school shall file a copy of each audit report and accompanying
management letter with the authorizer before August 1.

from any source remaining in the charter school's accounts at the
end of a budget year must remain in the charter school's accounts
for use by the charter school during subsequent budget years.

The governing board of a charter school may accept gifts, donations and grants of any kind made to the charter school and may expend or use such gifts, donations and grants in accordance with the conditions prescribed by the donor; however, a gift, donation or grant may not be accepted if it is subject to a condition that is contrary to any provision of law or term of the charter contract.

include an intensive eight-week, nine-semester-hour summer program
or a curriculum of study in which the student matriculates in the
fall or spring semester, which shall include, but not be limited
to, instruction in education, effective teaching strategies,
classroom management, state curriculum requirements, planning and
instruction, instructional methods and pedagogy, using test
results to improve instruction, and a one (1) semester three-hour
supervised internship to be completed while the teacher is
employed as a full-time teacher intern in a local school district.
The TMI shall be implemented on a pilot program basis, with courses to be offered at up to four (4) locations in the state, with one (1) TMI site to be located in each of the three (3) Mississippi Supreme Court districts.

employs the provisional teacher shall supervise the provisional teacher during the teacher's intern year of employment under a nontraditional provisional license, and shall, in consultation with the teacher intern's mentor at the school district of employment, submit to the commission a comprehensive evaluation of the teacher's performance sixty (60) days prior to the expiration of the nontraditional provisional license. If the comprehensive evaluation establishes that the provisional teacher intern's performance fails to meet the standards of the approved nontraditional teacher preparation internship program, the individual shall not be approved for a standard license.

(v) An individual issued a provisional teaching license under this nontraditional route shall successfully complete, at a minimum, a one-year beginning teacher mentoring and induction program administered by the employing school district with the assistance of the State Department of Education.

(vi) Upon successful completion of the TMI and the internship provisional license period, applicants for a Standard License - Nontraditional Route shall submit to the commission a transcript of successful completion of the twelve (12) semester hours required in the internship program, and the employing school district shall submit to the commission a recommendation for standard licensure of the intern. If the school district recommends licensure, the applicant shall be issued a Standard...
License - Nontraditional Route which shall be valid for a five-year period and be renewable.

(vii) At the discretion of the teacher preparation institution, the individual shall be allowed to credit the twelve (12) semester hours earned in the nontraditional teacher internship program toward the graduate hours required for a Master of Arts in Teacher (MAT) Degree.

(viii) The local school district in which the nontraditional teacher intern or provisional licensee is employed shall compensate such teacher interns at Step 1 of the required salary level during the period of time such individual is completing teacher internship requirements and shall compensate such Standard License - Nontraditional Route teachers at Step 3 of the required salary level when they complete license requirements.

Implementation of the TMI program provided for under this paragraph (b) shall be contingent upon the availability of funds appropriated specifically for such purpose by the Legislature. Such implementation of the TMI program may not be deemed to prohibit the State Board of Education from developing and implementing additional alternative route teacher licensure programs, as deemed appropriate by the board. The emergency certification program in effect prior to July 1, 2002, shall remain in effect.

A Standard License - Approved Program Route shall be issued for a five-year period, and may be renewed. Recognizing teaching
as a profession, a hiring preference shall be granted to persons holding a Standard License - Approved Program Route or Standard License - Nontraditional Teaching Route over persons holding any other license.

(c) **Special License - Expert Citizen.** In order to allow a school district to offer specialized or technical courses, the State Department of Education, in accordance with rules and regulations established by the State Board of Education, may grant a one-year expert citizen-teacher license to local business or other professional personnel to teach in a public school or nonpublic school accredited or approved by the state. Such person may begin teaching upon his employment by the local school board and licensure by the Mississippi Department of Education. The board shall adopt rules and regulations to administer the expert citizen-teacher license. A Special License - Expert Citizen may be renewed in accordance with the established rules and regulations of the State Department of Education.

(d) **Special License - Nonrenewable.** The State Board of Education is authorized to establish rules and regulations to allow those educators not meeting requirements in subsection (6)(a), (b) or (c) to be licensed for a period of not more than three (3) years, except by special approval of the State Board of Education.

(e) **Nonlicensed Teaching Personnel.** A nonlicensed person may teach for a maximum of three (3) periods per teaching

Such person shall submit to the department a transcript or record of his education and experience which substantiates his preparation for the subject to be taught and shall meet other qualifications specified by the commission and approved by the State Board of Education. In no case shall any local school board hire nonlicensed personnel as authorized under this paragraph in excess of five percent (5%) of the total number of licensed personnel in any single school.

(f) **Special License - Transitional Bilingual Education.**

Beginning July 1, 2003, the commission shall grant special licenses to teachers of transitional bilingual education who possess such qualifications as are prescribed in this section. Teachers of transitional bilingual education shall be compensated by local school boards at not less than one (1) step on the regular salary schedule applicable to permanent teachers licensed under this section. therein, experience and training as may be required by the commission; and (v) are legally present in the United States and possess legal authorization for employment. A teacher of transitional bilingual education serving under a special license shall be under an exemption from standard licensure if he achieves the requisite qualifications therefor. Two (2) years of service by a teacher of transitional bilingual education under such an exemption shall be credited to the teacher in acquiring a Standard Educator License. Nothing in this paragraph shall be deemed to prohibit a local school board from employing a teacher licensed in an appropriate field as approved by the State Department of Education to teach in a program in transitional bilingual education.

(g) In the event any school district meets the highest accreditation standards as defined by the State Board of Education in the accountability system, the State Board of Education, in its discretion, may exempt such school district from any restrictions in paragraph (e) relating to the employment of nonlicensed teaching personnel.

(h) **Highly Qualified Teachers.** Beginning July 1, 2006, any teacher from any state meeting the federal definition of highly qualified, as described in the No Child Left Behind Act, must be granted a standard five-year license by the State Department of Education.
Administrator License. The State Board of Education is authorized to establish rules and regulations and to administer the licensure process of the school administrators in the State of Mississippi. There will be four (4) categories of administrator licensure with exceptions only through special approval of the State Board of Education.

Individuals seeking school administrator licensure under paragraph (b), (c) or (d) shall successfully complete a training program and an assessment process prescribed by the State Board of Education. All applicants for school administrator licensure shall meet all requirements prescribed by the department under paragraph (b), (c) or (d), and the cost of the assessment process required shall be paid by the applicant.

(8) **Reciprocity.** (a) The department shall grant a standard license to any individual who possesses a valid standard license from another state and meets minimum Mississippi license requirements or equivalent requirements as determined by the State Board of Education.

(b) The department shall grant a nonrenewable special license to any individual who possesses a credential which is less than a standard license or certification from another state. Such special license shall be valid for the current school year plus one (1) additional school year to expire on June 30 of the second year, not to exceed a total period of twenty-four (24) months, during which time the applicant shall be required to complete the requirements for a standard license in Mississippi.
(9) **Renewal and Reinstatement of Licenses.** The State Board of Education is authorized to establish rules and regulations for the renewal and reinstatement of educator and administrator licenses. Effective May 15, 1997, the valid standard license held by an educator shall be extended five (5) years beyond the expiration date of the license in order to afford the educator adequate time to fulfill new renewal requirements established pursuant to this subsection. An educator completing a master of education, educational specialist or doctor of education degree in May 1997 for the purpose of upgrading the educator's license to a higher class shall be given this extension of five (5) years plus five (5) additional years for completion of a higher degree.

(10) All controversies involving the issuance, revocation, suspension or any change whatsoever in the licensure of an educator required to hold a license shall be initially heard in a hearing de novo, by the commission or by a subcommittee established by the commission and composed of commission members for the purpose of holding hearings. Any complaint seeking the denial of issuance, revocation or suspension of a license shall be by sworn affidavit filed with the Commission of Teacher and Administrator Education, Certification and Licensure and Development. The decision thereon by the commission or its subcommittee shall be final, unless the aggrieved party shall appeal to the State Board of Education, within ten (10) days, of the decision of the committee or its subcommittee. An appeal to
the State Board of Education shall be on the record previously made before the commission or its subcommittee unless otherwise provided by rules and regulations adopted by the board. The State Board of Education in its authority may reverse, or remand with instructions, the decision of the committee or its subcommittee. The decision of the State Board of Education shall be final.

(a) Lack of qualifications which are prescribed by law or regulations adopted by the State Board of Education;

(b) The applicant has a physical, emotional or mental disability that renders the applicant unfit to perform the duties authorized by the license, as certified by a licensed psychologist or psychiatrist;

(h) The applicant has been convicted, has pled guilty or entered a plea of nolo contendere to a sex offense as defined by federal or state law.

(12) The State Board of Education, acting on the recommendation of the commission, may revoke or suspend any teacher or administrator license for specified periods of time for one or more of the following:

(a) Breach of contract or abandonment of employment may result in the suspension of the license for one (1) school year as provided in Section 37-9-57;

(b) Obtaining a license by fraudulent means shall result in immediate suspension and continued suspension for one (1) year after correction is made;

(c) Suspension or revocation of a certificate or license by another state shall result in immediate suspension or revocation and shall continue until records in the prior state have been cleared;

(g) The license holder has engaged in unethical conduct relating to an educator/student relationship as identified by the State Board of Education in its rules;

(h) The license holder has fondled a student as described in Section 97-5-23, or had any type of sexual involvement with a student as described in Section 97-3-95; or

(i) The license holder has failed to report sexual involvement of a school employee with a student as required by Section 97-5-24.

(13) (a) Dismissal or suspension of a licensed employee by a local school board pursuant to Section 37-9-59 may result in the suspension or revocation of a license for a length of time which shall be determined by the commission and based upon the severity of the offense.

(b) Any offense committed or attempted in any other state shall result in the same penalty as if committed or attempted in this state.

(c) A person may voluntarily surrender a license. The surrender of such license may result in the commission
recommending any of the above penalties without the necessity of a
hearing. However, any such license which has voluntarily been
surrendered by a licensed employee may only be reinstated by a
majority vote of all members of the commission present at the
meeting called for such purpose.

(14) A person whose license has been suspended on any
grounds except criminal grounds may petition for reinstatement of
the license after one (1) year from the date of suspension, or
after one-half (1/2) of the suspended time has lapsed, whichever
is greater. A license suspended or revoked on the criminal
grounds may be reinstated upon petition to the commission filed
after expiration of the sentence and parole or probationary period
imposed upon conviction. A revoked, suspended or surrendered
license may be reinstated upon satisfactory showing of evidence of
rehabilitation. The commission shall require all who petition for
reinstatement to furnish evidence satisfactory to the commission
of good character, good mental, emotional and physical health and
such other evidence as the commission may deem necessary to
establish the petitioner's rehabilitation and fitness to perform
the duties authorized by the license.

(15) Reporting procedures and hearing procedures for dealing
with infractions under this section shall be promulgated by the
commission, subject to the approval of the State Board of
Education. The revocation or suspension of a license shall be
effected at the time indicated on the notice of suspension or
revocation. The commission shall immediately notify the 
superintendent of the school district or school board where the 
teacher or administrator is employed of any disciplinary action 
and also notify the teacher or administrator of such revocation or 
suspension and shall maintain records of action taken. The State 
Board of Education may reverse or remand with instructions any 
decision of the commission regarding a petition for reinstatement 
of a license, and any such decision of the State Board of 
Education shall be final.

(16) An appeal from the action of the State Board of 
Education in denying an application, revoking or suspending a 
license or otherwise disciplining any person under the provisions 
of this section shall be filed in the Chancery Court of the First 
Judicial District of Hinds County, Mississippi, on the record 
made, including a verbatim transcript of the testimony at the 
hearing. The appeal shall be filed within thirty (30) days after 
notification of the action of the board is mailed or served and 
the proceedings in chancery court shall be conducted as other 
matters coming before the court. The appeal shall be perfected 
upon filing notice of the appeal and by the prepayment of all 
costs, including the cost of preparation of the record of the 
proceedings by the State Board of Education, and the filing of a 
bond in the sum of Two Hundred Dollars ($200.00) conditioned that 
if the action of the board be affirmed by the chancery court, the
applicant or license holder shall pay the costs of the appeal and the action of the chancery court.

(17) All such programs, rules, regulations, standards and criteria recommended or authorized by the commission shall become effective upon approval by the State Board of Education as designated by appropriate orders entered upon the minutes thereof.

(18) The granting of a license shall not be deemed a property right nor a guarantee of employment in any public school district. A license is a privilege indicating minimal eligibility for teaching in the public school districts of Mississippi. This section shall in no way alter or abridge the authority of local school districts to require greater qualifications or standards of performance as a prerequisite of initial or continued employment in such districts.

(19) In addition to the reasons specified in subsections (12) and (13) of this section, the board shall be authorized to suspend the license of any licensee for being out of compliance with an order for support, as defined in Section 93-11-153. The procedure for suspension of a license for being out of compliance with an order for support, and the procedure for the reissuance or reinstatement of a license suspended for that purpose, and the payment of any fees for the reissuance or reinstatement of a license suspended for that purpose, shall be governed by Section 93-11-157 or 93-11-163, as the case may be. Actions taken by the board in suspending a license when required by Section 93-11-157
or 93-11-163 are not actions from which an appeal may be taken under this section. Any appeal of a license suspension that is required by Section 93-11-157 or 93-11-163 shall be taken in accordance with the appeal procedure specified in Section 93-11-157 or 93-11-163, as the case may be, rather than the procedure specified in this section. If there is any conflict between any provision of Section 93-11-157 or 93-11-163 and any provision of this chapter, the provisions of Section 93-11-157 or 93-11-163, as the case may be, shall control.

The content of the continuing education courses and the time and place such courses are to be conducted shall be determined by the School Executive Management Institute or the Mississippi School Boards Association; however, to the extent practicable, such training sessions shall be held within geographical proximity of local districts in order that travel times and costs shall not be prohibitive.

The institute shall issue certificates of completion to those principals who complete such courses. All costs and expenses for

(2) Schools or school districts receiving assistance from the State Department of Education as outlined in subsection (1) of this section shall be required to implement any training, programs, and any other requirements as specified by the State Superintendent of Public Education.

SECTION 44. Section 37-3-49, Mississippi Code of 1972, is amended as follows:

37-3-49. (1) The State Department of Education shall provide an instructional program and establish guidelines and procedures for managing such program in the public schools within the school districts throughout the state as part of the State Program of Educational Accountability and Assessment of Performance as prescribed in Section 37-3-46. Public school districts may (a) elect to adopt the instructional program and management system provided by the State Department of Education,
or (b) elect to adopt an instructional program and management system which meets or exceeds criteria established by the State Department of Education for such. This provision shall begin with the courses taught in Grades K-8 which contain skills tested through the Mississippi Basic Skills Assessment Program and shall proceed through all secondary school courses mandated for graduation and all secondary school courses in the Mississippi end-of-course testing program. Other state core objectives must be included in the district's instructional program as they are provided by the State Department of Education along with instructional practices, resources, evaluation items and management procedures. Districts are encouraged to adapt this program and accompanying procedures to all other instructional areas. The department shall provide that such program and guidelines, or a program and guidelines developed by a local school district which incorporates the core objectives from the curriculum structure are enforced through the performance-based accreditation system. It is the intent of the Legislature that every effort be made to protect the instructional time in the classroom and reduce the amount of paperwork which must be completed by teachers. The State Department of Education shall take steps to insure that school districts properly use staff development time to work on the districts' instructional management plans.
(2) The State Department of Education shall provide such instructional program and management guidelines which shall require for every public school district that:

(a) All courses taught in Grades K-8 which contain skills which are tested through the Mississippi Basic Skills Assessment Program, all secondary school courses mandated for graduation, and all courses in the end-of-course testing program shall include the State Department of Education's written list of learning objectives.

(b) The local school board must adopt the objectives that will form the core curriculum which will be systematically delivered throughout the district.

(c) The set of objectives provided by the State Department of Education must be accompanied by suggested instructional practices and resources that would help teachers organize instruction so as to promote student learning of the objectives. Objectives added by the school district must also be accompanied by suggested instructional practices and resources that would help teachers organize instruction. The instructional practices and resources that are identified are to be used as suggestions and not as requirements that teachers must follow.

(d) Standards for student performance must be established for each core objective in the local program and those
standards establish the district's definition of mastery for each objective.

(e) There shall be an annual review of student performance in the instructional program against locally established standards. When weaknesses exist in the local instructional program, the district shall take action to improve student performance.

(3) The State Board of Education and the board of trustees of each school district shall adopt policies to limit and reduce the number and length of written reports that classroom teachers are required to prepare.

(4) This section shall not be construed to limit teachers from using their own professional skills to help students master instructional objectives, nor shall it be construed as a call for more detailed or complex lesson plans or any increase in testing at the local school district level.

(5) Districts meeting the highest levels of accreditation standards, as defined by the State Board of Education, shall be exempted from the provisions of subsection (2) of this section.

SECTION 45. Section 37-3-51, Mississippi Code of 1972, is amended as follows:

Each school year, the State Board of Education, acting through the Office of Educational Accountability, shall develop a public school reporting system, or "Mississippi Report Card," on the performance of students and public schools, including charter schools, at the local, district and state level. In developing the report card, the Office of Educational Accountability shall collect school, district and state level student achievement data in the appropriate grades as designated by the State Board of Education in all core subjects, and compare the data with national standards to identify students' strengths and weaknesses. The Mississippi Report Card shall provide more than reports to parents on the level at which their children are
performing; the report shall provide clear and comparable public
information on the level at which schools, school districts and
the state public education system are performing. The Office of
Educational Accountability shall encourage local school districts
and the general public to use Mississippi Report Card information
along with local individual student data to assess the quality of
instructional programs and the performance of schools and to plan
and implement programs of instructional improvement.

Beginning with the 1998-1999 school year, the Mississippi
Report Card shall include information, as compiled by the Office
of Compulsory School Attendance Enforcement, which demonstrates
clearly the absenteeism and dropout rates in each school district,
charter school and the state as a whole and whether those rates
reflect a positive or negative change from the same information as
reported in the previous year's Mississippi Report Card.

Each local school district shall be required to develop and
publish an annual report as prescribed by the State Board of
Education. By November 1 of each year, as prescribed by the State
Board of Education, the report shall be published in a newspaper
having general circulation in the county and posted on the school
district's website in a printable format. The public notice shall
include information on the report's availability on the district's
website, with the website address, and the location(s) in the
school district where a copy of the report can be obtained.

The education may be accomplished through self-review of suitable intensive, comprehensive and researched-based reading materials.

SECTION 49. Section 37-5-61, Mississippi Code of 1972, is amended as follows:

37-5-61. (1) There shall be a county superintendent of education in each county.

(2) Said superintendent shall serve as the executive secretary of the county board of education, but shall have no vote in the proceedings before the board and no voice in fixing the policies thereof.

(3) In addition, said superintendent shall be the director of all schools in the county school district which are outside the municipal separate school districts.
(4) Said superintendent shall be elected at the same time and in the same manner as other county officers are elected and shall hold office for a term of four (4) years.

SECTION 50. Section 37-7-455, Mississippi Code of 1972, is amended as follows:

37-7-455. (1) Any land, buildings or other property that is not used for school purposes and which is not needed in the operation of the schools of the district may be sold in the manner established in this section but only after each charter school located in the school district has notified the school board that it is not exercising its right of first refusal on the property, as provided under Section 31 of this act. Except as otherwise provided in subsections (2) and (3) of this section, all such land, buildings or other property shall be sold only after the receipt of sealed bids therefor after the time and place of making such sale has been duly advertised in some newspaper having a general circulation in the county in which the property is located once each week for three (3) consecutive weeks with the first publication to be made not less than fifteen (15) days prior to the date upon which such bids are to be received and opened. The property shall be sold to the highest and best bidder for cash, but the school board shall have the right to reject any and all bids. If the property is not sold pursuant to such advertisement, the school board, by resolution, may set a date for an open meeting of the school board to be held within sixty (60) days
after the date upon which the bids were opened. At the meeting
held pursuant to such resolution, the school board may sell by
auction the property for a consideration not less than the highest
sealed bid previously received pursuant to the advertisement. At
the meeting, any interested party may bid for cash, and the
property shall be sold to the highest and best bidder for cash,
but the school board shall have the right to reject any and all
bids. The school board may require a written confirmation of bids
received at such called meeting before selling the property at
auction, but it shall not be necessary that sealed bids be
received before conducting the auction.

(2) As an alternative to the procedures established under
subsection (1) of this section, the school board of a school
district may elect, in its discretion, to sell by public auction
any property, other than real property or buildings of the school
district, which is not used for school or related school purposes
and not needed in the operation of the schools, according to the
procedure in Section 17-25-25.

(3) As an alternative to the procedures established under
subsection (1) or (2) of this section, the county board of
education of a county having a population in excess of ten
thousand (10,000) according to the 2000 decennial census and in
which U.S. Highway 45 intersects with Mississippi Highway 16, may
elect, in its discretion, to transfer and sell the buildings of
the school district and the real property upon which the buildings
are located which are not used as school facilities or for
school-related purposes and not needed in the operation of the
schools, after advertising for and receiving competitive bids for
the sale of such property. If any bid is offered by a nonprofit
501(c)(3) entity which has made substantial improvements to the
buildings, the fair market value of the improvements shall be
deemed to be consideration for, a part of, the bid offered by the
entity. In this case, the school board shall enter a finding on
its minutes that the nonprofit entity has made substantial
improvements to the property and the property is no longer needed
for school district purposes.

(4) When the sale of such property is authorized and
approved by the school board, the president of the school board
shall be authorized and empowered to execute a conveyance of the
property upon the terms and for the consideration fixed by the
board. The school board shall reserve unto the district all oil,
gas and minerals in, on or under the land, and all proceeds
derived from royalties upon the reserved mineral interests shall
be used as provided by Section 37-7-457.

amended as follows:

facilities may be sold, conveyed, leased or otherwise disposed of
under Sections 37-7-471 through 37-7-483, to any charter school,

or to any county, municipality or other political subdivision, to be used as a charter school facility, to be used as a civic, community, recreational or youth center, or to be used by any county or district fair association in connection with its activities, or to be used for church purposes, or to be used as a library or other public building, or to be used as a factory or otherwise in connection with an industrial enterprise, or to be used as part of a development activity to stimulate economic development activities within the district, or to enhance property values within the district, or to be used for any similar or related purpose or activity.

SECTION 52. Section 37-9-1, Mississippi Code of 1972, is amended as follows:

37-9-1. (1) For the purposes of this chapter, the terms "superintendent" and "principal" shall have such meaning as are ascribed to them under the provisions of Section 37-19-1. The term "licensed employee" shall mean any other employee of a public school district required to hold a valid license by the Commission on Teacher and Administrator Education, Certification and Licensure and Development. The term "non-instructional employee" shall include all employees of school districts other than superintendents, principals and licensed employees.

(2) Unless a statute in this chapter specifically is made applicable to charter schools, the provisions of this chapter only apply to public school districts, the employees of public school...
districts and the public schools that are within those school districts.

(2) (a) The Education Employment Procedures Law shall not apply to any category of employee as defined in this section employed in any school district after the Governor declares a state of emergency under the provisions of Section 37-17-6(11). The Education Employment Procedures Law shall not be applicable in any school district for the full period of time that those conditions, as defined in Section 37-17-6(11), exist.
(b) The Education Employment Procedures Law shall not apply to any category of teacher, administrator or other employee employed to work in any charter school.

(3) For purposes of Sections 37-9-101 through 37-9-113, the term "days" means calendar days.

SECTION 54. Section 37-11-1, Mississippi Code of 1972, is amended as follows:

37-11-1. (1) Subject to the provisions of subsection (2) of this section, after a pupil has been assigned to a particular public school in a school district, the principal, or anyone else vested with the authority of assigning pupils to classes, knowingly shall not place such pupil in a class where the pupil's presence would serve to adversely affect, hinder, or retard the academic development of the other pupils in the class.

(2) (a) A parent or guardian of twins or higher order multiples, as defined in paragraph (d) of this subsection, may request that the children be placed in the same classroom or in separate classrooms if the children are in the same grade level at the same school in the school district. The school may recommend classroom placement and provide professional education advice to the parent or guardian to assist the parent or guardian in making the best decision for the children's education. A school must provide the placement requested by the children's parent or guardian unless: (i) the parent or guardian has requested that the children, who are different sexes, be placed in the same
classroom and the students in the school have been assigned to different classrooms according to sex, as authorized under Section 37-11-3; or (ii) the school board of the school district makes a classroom placement determination following the school principal's request according to this subsection.

(b) A parent or guardian making a request under this subsection must submit a written request for the classroom placement to the school principal no later than fourteen (14) calendar days after the first day of each school year or, if the children are enrolled in the school after the school year commences, no later than fourteen (14) calendar days after the children's first day of attendance in the school.

(c) At the end of the initial grading period during which children have been in the same classroom or separate classrooms pursuant to their parent or guardian's request under this subsection, if the principal, in consultation with the children's classroom teacher or teachers, determines that the requested classroom placement is disruptive to the school, the principal may request that the school board determine the children's classroom placement.

(d) For purposes of this section, the term "higher order multiples" means triplets, quadruplets, quintuplets or more.

SECTION 55. Section 37-11-17, Mississippi Code of 1972, is amended as follows:

(2) The State Board of Education may develop a program to accomplish the identification of public school district students with abnormal spinal curvature. No state funds shall be expended for the purposes of implementing this subsection. Such program shall:

(a) Provide that an adequate number of school personnel in each district be instructed by qualified medical experts in the proper examination of students for abnormal spinal curvatures;

(b) Provide that all public school district students who are at least ten (10) years old be screened at least every two (2) years but at least in the fourth, sixth, eighth and tenth grades or at such other times as may be recommended by medical experts on a per case basis;
(c) Provide that students identified as having abnormal spinal curvatures or potential for abnormal spinal curvatures be referred to the county health officer or to the student's personal physician or chiropractor with notice of the evaluation; and

(d) Provide for notification of the parent or guardian of any student identified under this program and for the supplying to such parent or guardian information on the condition and resources available for the correction or treatment of such condition. However, the requirement for screening shall not apply to a child whose parent or guardian objects thereto on grounds that the requirement conflicts with his conscientiously held religious beliefs.

SECTION 56. Section 37-11-25, Mississippi Code of 1972, is brought forward as follows:

37-11-25. If any public school official of this state or of any county or municipality or school district thereof, or any superintendent, principal, or teacher in the public schools, or any trustee of a school district shall be interested, either directly or indirectly, in the proceeds or profits of the sale or rental of any book, furniture, equipment or other property to be used in any public schools of this state such person shall be guilty of a misdemeanor and, upon conviction, he shall be fined not less than Two Hundred Dollars ($200.00) nor more than Five Hundred Dollars ($500.00). However, nothing in this section shall
be construed to apply to the receipt of royalties on books or
other publications used in the public schools.

SECTION 57. Section 37-11-57, Mississippi Code of 1972, is
amended as follows:

37-11-57. (1) Except in the case of excessive force or
cruel and unusual punishment, a public school teacher, assistant
teacher, principal, or an assistant principal acting within the
course and scope of his employment shall not be liable for any
action carried out in conformity with state or federal law or
rules or regulations of the State Board of Education or the local
school board or governing board of a charter school regarding the
control, discipline, suspension and expulsion of students. The
local school board shall provide any necessary legal defense to a
teacher, assistant teacher, principal, or assistant principal in
the school district who was acting within the course and scope of
his employment in any action which may be filed against such
school personnel. A school district or charter school, as the
case may be, shall be entitled to reimbursement for legal fees and
expenses from its employee if a court finds that the act of the
employee was outside the course and scope of his employment, or
that the employee was acting with criminal intent. Any action by
a school district or charter school against its employee and any
action by the employee against the school district or charter
school for necessary legal fees and expenses shall be tried to the
court in the same suit brought against the school employee.
(2) Corporal punishment administered in a reasonable manner, or any reasonable action to maintain control and discipline of students taken by a public school teacher, assistant teacher, principal or assistant principal acting within the scope of his employment or function and in accordance with any state or federal laws or rules or regulations of the State Board of Education or the local school board or governing board of a charter school does not constitute negligence or child abuse. No public school teacher, assistant teacher, principal or assistant principal so acting shall be held liable in a suit for civil damages alleged to have been suffered by a student as a result of the administration of corporal punishment, or the taking of action to maintain control and discipline of a student, unless the court determines that the teacher, assistant teacher, principal or assistant principal acted in bad faith or with malicious purpose or in a manner exhibiting a wanton and willful disregard of human rights or safety. For the purposes of this subsection, "corporal punishment" means the reasonable use of physical force or physical contact by a teacher, assistant teacher, principal or assistant principal, as may be necessary to maintain discipline, to enforce a school rule, for self-protection or for the protection of other students from disruptive students.

SECTION 58. Section 37-13-21, Mississippi Code of 1972, is amended as follows:
37-13-21. The State Board of Health and the various county health departments are hereby authorized and empowered to establish and provide for health education programs in the public school districts of this state and to employ county health educators for such purpose. In order to effectuate such programs the county superintendents of education of counties in which such programs have been established, with the approval of the county board of education, and the board of trustees of the municipal separate school districts are authorized and empowered, in their discretion, to cooperate and join with the said State Board of Health and the county health departments in such program. For such purposes the said county superintendents of education, with the approval of the county board of education, are hereby authorized and empowered to expend such funds as may be necessary from the common school funds of the county, and the board of trustees of municipal separate school districts are hereby authorized and empowered to expend such funds as may be necessary from the maintenance funds of such districts for the purpose of defraying the expenses of such cooperative health education programs. Those students whose parents or guardians shall make written application to the proper authorities on the ground that such program is inconsistent with the tenets and practices of the known religious organization with which they are affiliated shall not be required to participate in the program.
The State Board of Health and various county health departments shall have the power and authority to enter into such agreements and joint programs with the said county superintendents of education and boards of trustees of municipal separate school districts as may be necessary, proper and desirable in carrying out the purposes of this section, and in establishing and carrying on health education programs in the public school districts of this state, and the said county superintendents of education, with the approval and consent of the county board of education, and the board of trustees of municipal separate school districts shall have the power and authority to enter into such agreements and joint programs with each other and with the State Board of Health and county health departments as may be necessary for such purpose.

SECTION 59. Section 37-13-41, Mississippi Code of 1972, is amended as follows:

37-13-41. All principals and/or superintendents of public schools in all school districts in Mississippi shall report to their county superintendent of education upon forms prepared and sent to the county superintendent of education by the director of the division of instruction, giving the type and amount of work done in each grade of their respective school, with other information that may be desired by the director. The county superintendents of education shall compile this information on forms sent out by the director. This shall be made in duplicate,
one (1) copy to be sent to the director, and the other filed as
other public records are filed in the county superintendents' offices. This report shall be made to the director by the county superintendents of education not later than the first of June each year.

SECTION 60. Section 37-13-91, Mississippi Code of 1972, is amended as follows:

37-13-91. (1) This section shall be referred to as the "Mississippi Compulsory School Attendance Law."

(2) The following terms as used in this section are defined as follows:

(a) "Parent" means the father or mother to whom a child has been born, or the father or mother by whom a child has been legally adopted.

(b) "Guardian" means a guardian of the person of a child, other than a parent, who is legally appointed by a court of competent jurisdiction.

(c) "Custodian" means any person having the present care or custody of a child, other than a parent or guardian of the child.

(d) "School day" means not less than five (5) and not more than eight (8) hours of actual teaching in which both teachers and pupils are in regular attendance for scheduled schoolwork.
(e) "School" means any public school, including a charter school, in this state or any nonpublic school in this state which is in session each school year for at least one hundred eighty (180) school days, except that the "nonpublic" school term shall be the number of days that each school shall require for promotion from grade to grade.

(f) "Compulsory-school-age child" means a child who has attained or will attain the age of six (6) years on or before September 1 of the calendar year and who has not attained the age of seventeen (17) years on or before September 1 of the calendar year; and shall include any child who has attained or will attain the age of five (5) years on or before September 1 and has enrolled in a full-day public school kindergarten program. Provided, however, that the parent or guardian of any child enrolled in a full-day public school kindergarten program shall be allowed to disenroll the child from the program on a one-time basis, and such child shall not be deemed a compulsory-school-age child until the child attains the age of six (6) years.

(g) "School attendance officer" means a person employed by the State Department of Education pursuant to Section 37-13-89.

(h) "Appropriate school official" means the superintendent of the school district, or his designee, or, in the case of a nonpublic school, the principal or the headmaster.

(i) "Nonpublic school" means an institution for the teaching of children, consisting of a physical plant, whether
owned or leased, including a home, instructional staff members and students, and which is in session each school year. This definition shall include, but not be limited to, private, church, parochial and home instruction programs.

(3) A parent, guardian or custodian of a compulsory-school-age child in this state shall cause the child to enroll in and attend a public school or legitimate nonpublic school for the period of time that the child is of compulsory school age, except under the following circumstances:

(a) When a compulsory-school-age child is physically, mentally or emotionally incapable of attending school as determined by the appropriate school official based upon sufficient medical documentation.

(b) When a compulsory-school-age child is enrolled in and pursuing a course of special education, remedial education or education for handicapped or physically or mentally disadvantaged children.

(c) When a compulsory-school-age child is being educated in a legitimate home instruction program.

The parent, guardian or custodian of a compulsory-school-age child described in this subsection, or the parent, guardian or custodian of a compulsory-school-age child attending any charter school or nonpublic school, or the appropriate school official for any or all children attending a charter school or nonpublic school
shall complete a "certificate of enrollment" in order to facilitate the administration of this section.

The form of the certificate of enrollment shall be prepared by the Office of Compulsory School Attendance Enforcement of the State Department of Education and shall be designed to obtain the following information only:

(i) The name, address, telephone number and date of birth of the compulsory-school-age child;

(ii) The name, address and telephone number of the parent, guardian or custodian of the compulsory-school-age child;

(iii) A simple description of the type of education the compulsory-school-age child is receiving and, if the child is enrolled in a nonpublic school, the name and address of the school; and

(iv) The signature of the parent, guardian or custodian of the compulsory-school-age child or, for any or all compulsory-school-age child or children attending a charter school or nonpublic school, the signature of the appropriate school official and the date signed.

The certificate of enrollment shall be returned to the school attendance officer where the child resides on or before September 15 of each year. Any parent, guardian or custodian found by the school attendance officer to be in noncompliance with this section shall comply, after written notice of the noncompliance by the school attendance officer, with this subsection within ten (10)
days after the notice or be in violation of this section.

However, in the event the child has been enrolled in a public
school within fifteen (15) calendar days after the first day of
the school year as required in subsection (6), the parent or
custodian may, at a later date, enroll the child in a legitimate
nonpublic school or legitimate home instruction program and send
the certificate of enrollment to the school attendance officer and
be in compliance with this subsection.

For the purposes of this subsection, a legitimate nonpublic
school or legitimate home instruction program shall be those not
operated or instituted for the purpose of avoiding or
circumventing the compulsory attendance law.

(4) An "unlawful absence" is an absence during a school day
by a compulsory-school-age child, which absence is not due to a
valid excuse for temporary nonattendance. Days missed from school
due to disciplinary suspension shall not be considered an
"excused" absence under this section. This subsection shall not
apply to children enrolled in a nonpublic school.

Each of the following shall constitute a valid excuse for
temporary nonattendance of a compulsory-school-age child enrolled
in a noncharter public school, provided satisfactory evidence of
the excuse is provided to the superintendent of the school
district, or his designee:

(a) An absence is excused when the absence results from
the compulsory-school-age child's attendance at an authorized
with the prior approval of the superintendent of the school district, or his designee. These activities may include field trips, athletic contests, student conventions, musical festivals and any similar activity.

(b) An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.

(c) An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.

(d) An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.

(e) An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child.

(f) An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.

(g) An absence may be excused if the religion to which the compulsory-school-age child or the child's parents adheres,
requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.

(h) An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.

(i) An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

(5) Any parent, guardian or custodian of a compulsory-school-age child subject to this section who refuses or willfully fails to perform any of the duties imposed upon him or her under this section or who intentionally falsifies any information required to be contained in a certificate of
enrollment, shall be guilty of contributing to the neglect of a child and, upon conviction, shall be punished in accordance with Section 97-5-39.

Upon prosecution of a parent, guardian or custodian of a compulsory-school-age child for violation of this section, the presentation of evidence by the prosecutor that shows that the child has not been enrolled in school within eighteen (18) calendar days after the first day of the school year of the public school which the child is eligible to attend, or that the child has accumulated twelve (12) unlawful absences during the school year at the public school in which the child has been enrolled, shall establish a prima facie case that the child's parent, guardian or custodian is responsible for the absences and has refused or willfully failed to perform the duties imposed upon him or her under this section. However, no proceedings under this section shall be brought against a parent, guardian or custodian of a compulsory-school-age child unless the school attendance officer has contacted promptly the home of the child and has provided written notice to the parent, guardian or custodian of the requirement for the child's enrollment or attendance.

(6) If a compulsory-school-age child has not been enrolled in a school within fifteen (15) calendar days after the first day of the school year of the school which the child is eligible to attend or the child has accumulated five (5) unlawful absences during the school year of the public school in which the child is
enrolled, the school district superintendent or his designee shall report, within two (2) school days or within five (5) calendar days, whichever is less, the absences to the school attendance officer. The State Department of Education shall prescribe a uniform method for schools to utilize in reporting the unlawful absences to the school attendance officer. The superintendent, or his designee, also shall report any student suspensions or student expulsions to the school attendance officer when they occur.

(7) When a school attendance officer has made all attempts to secure enrollment and/or attendance of a compulsory-school-age child and is unable to effect the enrollment and/or attendance, the attendance officer shall file a petition with the youth court under Section 43-21-451 or shall file a petition in a court of competent jurisdiction as it pertains to parent or child. Sheriffs, deputy sheriffs and municipal law enforcement officers shall be fully authorized to investigate all cases of nonattendance and unlawful absences by compulsory-school-age children, and shall be authorized to file a petition with the youth court under Section 43-21-451 or file a petition or information in the court of competent jurisdiction as it pertains to parent or child for violation of this section. The youth court shall expedite a hearing to make an appropriate adjudication and a disposition to ensure compliance with the Compulsory School Attendance Law, and may order the child to enroll or re-enroll in school. The superintendent of the school district to which the
child is ordered may assign, in his discretion, the child to the alternative school program of the school established pursuant to Section 37-13-92.

(8) The State Board of Education shall adopt rules and regulations for the purpose of reprimanding any school superintendents who fail to timely report unexcused absences under the provisions of this section.

(9) Notwithstanding any provision or implication herein to the contrary, it is not the intention of this section to impair the primary right and the obligation of the parent or parents, or person or persons in loco parentis to a child, to choose the proper education and training for such child, and nothing in this section shall ever be construed to grant, by implication or otherwise, to the State of Mississippi, any of its officers, agencies or subdivisions any right or authority to control, manage, supervise or make any suggestion as to the control, management or supervision of any private or parochial school or institution for the education or training of children, of any kind whatsoever that is not a public school according to the laws of this state; and this section shall never be construed so as to grant, by implication or otherwise, any right or authority to any state agency or other entity to control, manage, supervise, provide for or affect the operation, management, program, curriculum, admissions policy or discipline of any such school or home instruction program.
SECTION 61. Section 37-15-1, Mississippi Code of 1972, is amended as follows:

37-15-1. The State Board of Education shall prepare and provide necessary forms for keeping permanent records and cumulative folders for each pupil in the public schools, including charter schools, of the state. In the permanent record and cumulative folders, the teachers and principals shall keep information concerning the pupil's date of birth, as verified by the documentation authorized in this section, record of attendance, grades and withdrawal from the school, including the date of any expulsion from the school and a description of the student's act or behavior resulting in the expulsion. The records also shall contain information pertaining to immunization and such other information as the State Board of Education may prescribe. The cumulative folder, in addition to that information maintained in the permanent records, also shall contain such other information as the State Board of Education shall prescribe. It shall be the responsibility of the person in charge of each school to enforce the requirement for evidence of the age of each pupil before enrollment. If the first prescribed evidence is not available, the next evidence obtainable in the order set forth below shall be accepted:

(a) A certified birth certificate;

(b) A duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the
child, accompanied by an affidavit sworn to by a parent, 
grandparent or custodian;
(c) An insurance policy on the child's life which has 
been in force for at least two (2) years;
(d) A bona fide contemporary Bible record of the 
child's birth accompanied by an affidavit sworn to by the parent, 
grandparent or custodian;
(e) A passport or certificate of arrival in the United States showing the age of the child;
(f) A transcript of record of age shown in the child's 
school record of at least four (4) years prior to application, 
stating date of birth; or
(g) If none of these evidences can be produced, an 
affidavit of age sworn to by a parent, grandparent or custodian.

Any child enrolling in Kindergarten or Grade 1 shall present the 
required evidence of age upon enrollment. Any child in Grades 2 
through 12 not in compliance at the end of sixty (60) days from 
enrollment shall be suspended until in compliance.

SECTION 62. Section 37-15-3, Mississippi Code of 1972, is 
amended as follows:

37-15-3. Such cumulative folders as are provided for in 
Section 37-15-1 shall be kept in the school wherein the pupils are 
in attendance. Both the permanent records and the cumulative 
folders shall be available to school officials, including teachers 
within the school district who have been determined by the school
district to have legitimate educational interests. In no case, however, shall such records be available to the general public.

Transcripts of courses and grades may be furnished when requested by the parent or guardian or eligible pupil as prescribed in the Family Educational Rights and Privacy Act of 1974, as amended, 20 USC Section 1232. Such records shall be kept for each pupil throughout his entire public school enrollment period. In the event a pupil transfers to a public school, including a charter school, then the cumulative folder shall be furnished to the head of the school to which the pupil transfers; if a pupil transfers to a private school, then a copy of the cumulative folder shall be furnished to the head of the school to which the pupil transfers. The permanent record shall be kept permanently by the school district from which the pupil transferred.

At no time may a permanent record of a student be destroyed, but cumulative folders may be destroyed by order of the school board of the school district in not less than five (5) years after the permanent record of the pupil has become inactive and has been transferred to the central depository of the district. Provided, however, that where a school district makes complete copies of inactive permanent records on photographic film, microfilm, or any other acceptable form of medium for storage which may be reproduced as needed, such permanent records may be destroyed after the photographic film or microfilm copy has been stored in the central depository of the district.
SECTION 63. Section 37-15-6, Mississippi Code of 1972, is amended as follows:

37-15-6. For the purpose of providing notice to public and private school officials, both within and outside the boundaries of the state, of the expulsion of any public school student, the State Department of Education may develop a central reporting system for maintaining information concerning each expulsion from a public school. In establishing and maintaining the reporting system, the department may require each school district and charter school to report, within a certain period of time after an expulsion, as established by the department, information such as the following:

(a) The name of the student expelled;
(b) The date the student was expelled;
(c) The age of the student at the time of the expulsion;
(d) The school from which the student was expelled;
(e) The reason for the expulsion, including a detailed description of the student's act or acts;
(f) The duration of the period of expulsion, if not indefinite; and
(g) Any other information that the department deems necessary for school officials in a public or private school, where a student is seeking enrollment, to determine whether or not
a student should be denied enrollment based upon a previous expulsion.

Any information maintained by the department under the authority of this section shall be strictly confidential. The information shall be available to school officials at a public or private school only upon their request and only when a student seeks enrollment or admission to that school. In no case shall the information be available to the general public.

SECTION 64. Section 37-15-9, Mississippi Code of 1972, is amended as follows:

37-15-9. (1) Except as provided in subsection (2) and subject to the provisions of subsection (3) of this section, no child shall be enrolled or admitted to any kindergarten which is a part of a public school during any school year unless such child will reach his fifth birthday on or before September 1 of said school year, and no child shall be enrolled or admitted to the first grade in any public school during any school year unless such child will reach his sixth birthday on or before September 1 of said school year. No pupil shall be permanently enrolled in a public school in the State of Mississippi who formerly was enrolled in another public or private school within the state until the cumulative record of the pupil shall have been received from the school from which he transferred. Should such record have become lost or destroyed, then it shall be the duty of
the superintendent or principal of the school where the pupil last
attended school to initiate a new record.

(2) Subject to the provisions of subsection (3) of this
section, any child who transfers from an out-of-state public or
private school in which that state's law provides for a
first-grade or kindergarten enrollment date subsequent to
September 1, shall be allowed to enroll in the public schools of
Mississippi, at the same grade level as their prior out-of-state
enrollment, if:

(a) The parent, legal guardian or custodian of such
child was a legal resident of the state from which the child is
transferring;

(b) The out-of-state school from which the child is
transferring is duly accredited by that state's appropriate
accrediting authority;

(c) Such child was legally enrolled in a public or
private school for a minimum of four (4) weeks in the previous
state; and

(d) The superintendent of schools in the applicable
Mississippi school district or the principal of a charter school,
as the case may be, has determined that the child was making
satisfactory educational progress in the previous state.

(3) When any child applies for admission or enrollment in
any public school in the state, the parent, guardian or child, in
the absence of an accompanying parent or guardian, shall indicate
on the school registration form if the enrolling child has been expelled from any public or private school or is currently a party to an expulsion proceeding. If it is determined from the child's cumulative record or application for admission or enrollment that the child has been expelled, the school district or charter school may deny the student admission and enrollment until the superintendent of the school, or his designee, or principal of the charter school, as the case may be, has reviewed the child's cumulative record and determined that the child has participated in successful rehabilitative efforts including, but not limited to, progress in an alternative school or similar program. If the child is a party to an expulsion proceeding, the child may be admitted to a public school pending final disposition of the expulsion proceeding. If the expulsion proceeding results in the expulsion of the child, the public school may revoke such admission to school. If the child was expelled or is a party to an expulsion proceeding for an act involving violence, weapons, alcohol, illegal drugs or other activity that may result in expulsion, the school district or charter school shall not be required to grant admission or enrollment to the child before one (1) calendar year after the date of the expulsion.

SECTION 65. Section 37-16-1, Mississippi Code of 1972, is amended as follows:
37-16-1. The primary purpose of the statewide testing program is to provide information needed for state-level decisions. The program shall be designed to:

(a) Assist in the identification of educational needs at the state, district and school levels.

(b) Assess how well districts and schools are meeting state goals and minimum performance standards.

(c) Provide information to aid in the development of policy issues and concerns.

(d) Provide a basis for comparisons among districts, between charter schools throughout the state and nonpublic charter schools in those school districts in which charter schools are located, and between districts, the state and the nation, where appropriate.

(e) Produce data which can be used to aid in the identification of exceptional educational programs or processes.

SECTION 66. Section 37-16-3, Mississippi Code of 1972, is amended as follows:

37-16-3. (1) The State Department of Education is directed to implement a program of statewide assessment testing which shall provide for the improvement of the operation and management of the public schools. The statewide program shall be timed, as far as possible, so as not to conflict with ongoing district assessment programs. As part of the program, the department shall:
(a) Establish, with the approval of the State Board of Education, minimum performance standards related to the goals for education contained in the state's plan including, but not limited to, basic skills in reading, writing and mathematics. The minimum performance standards shall be approved by April 1 in each year they are established.

(b) Conduct a uniform statewide testing program in grades deemed appropriate in the public schools, including charter schools. The program may test skill areas, basic skills and high school course content.

(c) Monitor the results of the assessment program and, at any time the composite student performance of a school or basic program is found to be below the established minimum standards, notify the district superintendent or the governing board of the charter school, as the case may be, the school principal and the school advisory committee or other existing parent group of the situation within thirty (30) days of its determination. The department shall further provide technical assistance to a school district in the identification of the causes of this deficiency and shall recommend courses of action for its correction.

(d) Provide technical assistance to the school districts, when requested, in the development of student performance standards in addition to the established minimum statewide standards.
(e) Issue security procedure regulations providing for the security and integrity of the tests that are administered under the basic skills assessment program.

(2) Uniform basic skills tests shall be completed by each student in the appropriate grade. These tests shall be administered in such a manner as to preserve the integrity and validity of the assessment. In the event of excused or unexcused student absences, make-up tests shall be given. The school superintendent of every school district in the state and the principal of each charter school shall annually certify to the State Department of Education that each student enrolled in the appropriate grade has completed the required basic skills assessment test for his or her grade in a valid test administration.

SECTION 67. Section 37-17-1, Mississippi Code of 1972, is amended as follows:

37-17-1. (1) The power and authority to prescribe standards for the accreditation of noncharter public schools, to insure compliance with such standards and to establish procedures for the accreditation of noncharter public schools is hereby vested in the State Board of Education. The board shall, by orders placed upon its minutes, adopt all necessary rules and regulations to effectuate the purposes of this chapter and shall provide, through the State Department of Education, for the necessary personnel for the enforcement of standards so established.
(2) A charter school authorized by the Mississippi Charter School Authorizer Board must be granted accreditation by the State Board of Education based solely on the approval of the school by the authorizer. If the authorizer, at any time, revokes a school's charter, the State Board of Education shall withdraw the accreditation of the charter school immediately.

SECTION 68. Section 37-17-6, Mississippi Code of 1972, is amended as follows:

[Effective until the date Laws of 2012, Ch. 525, is effectuated under Section 5 of the Voting Rights Act of 1965, as amended and extended, this section will read:]

37-17-6. (1) The State Board of Education, acting through the Commission on School Accreditation, shall establish and implement a permanent performance-based accreditation system, and all noncharter public elementary and secondary schools shall be accredited under this system.

(2) No later than June 30, 1995, the State Board of Education, acting through the Commission on School Accreditation, shall require school districts to provide school classroom space that is air-conditioned as a minimum requirement for accreditation.

(3) (a) Beginning with the 1994-1995 school year, the State Board of Education, acting through the Commission on School Accreditation, shall require that school districts employ certified school librarians according to the following formula:
<table>
<thead>
<tr>
<th>Number of Students</th>
<th>Number of Certified School Librarians</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 499 Students</td>
<td>1/2 Full-time Equivalent Certified Librarian</td>
</tr>
<tr>
<td>500 or More Students</td>
<td>1 Full-time Certified Librarian</td>
</tr>
</tbody>
</table>

(b) The State Board of Education, however, may increase the number of positions beyond the above requirements.

(c) The assignment of certified school librarians to the particular schools shall be at the discretion of the local school district. No individual shall be employed as a certified school librarian without appropriate training and certification as a school librarian by the State Department of Education.

(d) School librarians in the district shall spend at least fifty percent (50%) of direct work time in a school library and shall devote no more than one-fourth (1/4) of the workday to administrative activities that are library related.

(e) Nothing in this subsection shall prohibit any school district from employing more certified school librarians than are provided for in this section.

(f) Any additional millage levied to fund school librarians required for accreditation under this subsection shall be included in the tax increase limitation set forth in Sections 37-57-105 and 37-57-107 and shall not be deemed a new program for purposes of the limitation.
On or before December 31, 2002, the State Board of Education shall implement the performance-based accreditation system for school districts and for individual noncharter public schools which shall include the following:

(a) High expectations for students and high standards for all schools, with a focus on the basic curriculum;

(b) Strong accountability for results with appropriate local flexibility for local implementation;

(c) A process to implement accountability at both the school district level and the school level;

(d) Individual schools shall be held accountable for student growth and performance;

(e) Set annual performance standards for each of the schools of the state and measure the performance of each school against itself through the standard that has been set for it;

(f) A determination of which schools exceed their standards and a plan for providing recognition and rewards to those schools;

(g) A determination of which schools are failing to meet their standards and a determination of the appropriate role of the State Board of Education and the State Department of Education in providing assistance and initiating possible intervention. A failing district is a district that fails to meet both the absolute student achievement standards and the rate of annual growth expectation standards as set by the State Board of Education.
Education for two (2) consecutive years. The State Board of Education shall establish the level of benchmarks by which absolute student achievement and growth expectations shall be assessed. In setting the benchmarks for school districts, the State Board of Education may also take into account such factors as graduation rates, dropout rates, completion rates, the extent to which the school or district employs qualified teachers in every classroom, and any other factors deemed appropriate by the State Board of Education. The State Board of Education, acting through the State Department of Education, shall apply a simple "A," "B," "C," "D," and "F" designation to the current school and school district statewide accountability performance classification labels beginning with the State Accountability Results for the 2011-2012 school year and following, and in the school, district and state report cards required under state and federal law. Under the new designations, a school or school district that has earned a "Star" rating shall be designated an "A" school or school district; a school or school district that has earned a "High-Performing" rating shall be designated a "B" school or school district; a school or school district that has earned a "Successful" rating shall be designated a "C" school or school district; a school or school district that has earned an "Academic Watch" rating shall be designated a "D" school or school district; a school or school district that has earned a "Low-Performing," "At-Risk of Failing" or "Failing" rating shall
be designated an "F" school or school district. Effective with
the implementation of any new curriculum and assessment standards,
the State Board of Education, acting through the State Department
of Education, is further authorized and directed to change the
school and school district accreditation rating system to a simple
"A," "B," "C," "D," and "F" designation based on a combination of
student achievement scores and student growth as measured by the
statewide testing programs developed by the State Board of
Education pursuant to Chapter 16, Title 37, Mississippi Code of
1972. In any statute or regulation containing the former
accreditation designations, the new designations shall be
applicable;

(h) Development of a comprehensive student assessment
system to implement these requirements; and

(i) The State Board of Education may, based on a
written request that contains specific reasons for requesting a
waiver from the school districts affected by Hurricane Katrina of
2005, hold harmless school districts from assignment of district
and school level accountability ratings for the 2005-2006 school
year. The State Board of Education upon finding an extreme
hardship in the school district may grant the request. It is the
intent of the Legislature that all school districts maintain the
highest possible academic standards and instructional programs in
all schools as required by law and the State Board of Education.
The State Board of Education may continue to assign school district performance levels by using a number classification and may assign individual school performance levels by using a number classification to be consistent with school district performance levels.

(5) Nothing in this section shall be deemed to require a nonpublic school that receives no local, state or federal funds for support to become accredited by the State Board of Education.

(6) The State Board of Education shall create an accreditation audit unit under the Commission on School Accreditation to determine whether schools are complying with accreditation standards.

(7) The State Board of Education shall be specifically authorized and empowered to withhold adequate education program fund allocations, whichever is applicable, to any public school district for failure to timely report student, school personnel and fiscal data necessary to meet state and/or federal requirements.

(8) Deleted.

(9) The State Board of Education shall establish, for those school districts failing to meet accreditation standards, a program of development to be complied with in order to receive state funds, except as otherwise provided in subsection (14) of this section when the Governor has declared a state of emergency in a school district or as otherwise provided in Section 206,
Mississippi Constitution of 1890. The state board, in establishing these standards, shall provide for notice to schools and sufficient time and aid to enable schools to attempt to meet these standards, unless procedures under subsection (14) of this section have been invoked.

(10) Beginning July 1, 1998, the State Board of Education shall be charged with the implementation of the program of development in each applicable school district as follows:

(a) Develop an impairment report for each district failing to meet accreditation standards in conjunction with school district officials;

(b) Notify any applicable school district failing to meet accreditation standards that it is on probation until corrective actions are taken or until the deficiencies have been removed. The local school district shall develop a corrective action plan to improve its deficiencies. For district academic deficiencies, the corrective action plan for each such school district shall be based upon a complete analysis of the following: student test data, student grades, student attendance reports, student dropout data, existence and other relevant data. The corrective action plan shall describe the specific measures to be taken by the particular school district and school to improve:

(i) instruction; (ii) curriculum; (iii) professional development;
(iv) personnel and classroom organization; (v) student incentives for performance; (vi) process deficiencies; and (vii) reporting to
the local school board, parents and the community. The corrective action plan shall describe the specific individuals responsible for implementing each component of the recommendation and how each will be evaluated. All corrective action plans shall be provided to the State Board of Education as may be required. The decision of the State Board of Education establishing the probationary period of time shall be final;

(c) Offer, during the probationary period, technical assistance to the school district in making corrective actions. Beginning July 1, 1998, subject to the availability of funds, the State Department of Education shall provide technical and/or financial assistance to all such school districts in order to implement each measure identified in that district's corrective action plan through professional development and on-site assistance. Each such school district shall apply for and utilize all available federal funding in order to support its corrective action plan in addition to state funds made available under this paragraph;

(d) Assign department personnel or contract, in its discretion, with the institutions of higher learning or other appropriate private entities with experience in the academic, finance and other operational functions of schools to assist school districts;

(e) Provide for publication of public notice at least one time during the probationary period, in a newspaper published
within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The publication shall include the following: declaration of school system's status as being on probation; all details relating to the impairment report; and other information as the State Board of Education deems appropriate. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

   (11) (a) If the recommendations for corrective action are not taken by the local school district or if the deficiencies are not removed by the end of the probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. After its consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of a public school district, and issue a request to the Governor that a state of emergency be declared in that district.

   (b) If the State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that emergency situation is believed
to be related to a serious violation or violations of accreditation standards or state or federal law, or when a school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years, or if more than fifty percent (50%) of the schools within the school district are designated as Schools At-Risk in any one (1) year, the State Board of Education may request the Governor to declare a state of emergency in that school district. For purposes of this paragraph, the declarations of a state of emergency shall not be limited to those instances when a school district's impairments are related to a lack of financial resources, but also shall include serious failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance.

(c) Whenever the Governor declares a state of emergency in a school district in response to a request made under paragraph (a) or (b) of this subsection, the State Board of Education may take one or more of the following actions:

(i) Declare a state of emergency, under which some or all of state funds can be escrowed except as otherwise provided in Section 206, Constitution of 1890, until the board determines corrective actions are being taken or the deficiencies have been removed, or that the needs of students warrant the release of funds. The funds may be released from escrow for any program which the board determines to have been restored to standard even
though the state of emergency may not as yet be terminated for the
district as a whole;

(ii) Override any decision of the local school
board or superintendent of education, or both, concerning the
management and operation of the school district, or initiate and
make decisions concerning the management and operation of the
school district;

(iii) Assign an interim conservator, or in its
discretion, contract with a private entity with experience in the
academic, finance and other operational functions of schools and
school districts, who will have those powers and duties prescribed
in subsection (14) of this section;

(iv) Grant transfers to students who attend this
school district so that they may attend other accredited schools
or districts in a manner that is not in violation of state or
federal law;

(v) For states of emergency declared under
paragraph (a) only, if the accreditation deficiencies are related
to the fact that the school district is too small, with too few
resources, to meet the required standards and if another school
district is willing to accept those students, abolish that
district and assign that territory to another school district or
districts. If the school district has proposed a voluntary
consolidation with another school district or districts, then if
the State Board of Education finds that it is in the best interest
of the pupils of the district for the consolidation to proceed,
the voluntary consolidation shall have priority over any such
assignment of territory by the State Board of Education;

(vi) For states of emergency declared under
paragraph (b) only, reduce local supplements paid to school
district employees, including, but not limited to, instructional
personnel, assistant teachers and extracurricular activities
personnel, if the district's impairment is related to a lack of
financial resources, but only to an extent that will result in the
salaries being comparable to districts similarly situated, as
determined by the State Board of Education;

(vii) For states of emergency declared under
paragraph (b) only, the State Board of Education may take any
action as prescribed in Section 37-17-13.

(d) At the time that satisfactory corrective action has
been taken in a school district in which a state of emergency has
been declared, the State Board of Education may request the
Governor to declare that the state of emergency no longer exists
in the district.

(e) There is established a Mississippi Recovery School
District within the State Department of Education under the
supervision of a deputy superintendent appointed by the State
Superintendent of Public Education, who is subject to the approval
by the State Board of Education. The Mississippi Recovery School
District shall provide leadership and oversight of all school
districts that are subject to state conservatorship, as defined in Chapters 17 and 18, Title 37, Mississippi Code of 1972, and shall have all the authority granted under these two (2) chapters. The Mississippi Department of Education, with the approval of the State Board of Education, shall develop policies for the operation and management of the Mississippi Recovery School District. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall be authorized to oversee the administration of the Mississippi Recovery School District, oversee conservators assigned by the State Board of Education to a local school district, hear appeals from school districts under conservatorship that would normally be filed by students, parents or employees and heard by a local school board, which hearings on appeal shall be conducted in a prompt and timely manner in the school district from which the appeal originated in order to ensure the ability of appellants, other parties and witnesses to appeal without undue burden of travel costs or loss of time from work, and perform other related duties as assigned by the State Superintendent of Public Education. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall determine, based on rigorous professional qualifications set by the State Board of Education, the appropriate individuals to be engaged to be conservators and financial advisors, if applicable, of all school districts subject to state conservatorship. After State Board of Education
approval, these individuals shall be deemed independent contractors.

(12) Upon the declaration of a state of emergency in a school district under subsection (11) of this section, the Commission on School Accreditation shall be responsible for public notice at least once a week for at least three (3) consecutive weeks in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The size of the notice shall be no smaller than one-fourth (1/4) of a standard newspaper page and shall be printed in bold print. If a conservator has been appointed for the school district, the notice shall begin as follows: "By authority of Section 37-17-6, Mississippi Code of 1972, as amended, adopted by the Mississippi Legislature during the 1991 Regular Session, this school district (name of school district) is hereby placed under the jurisdiction of the State Department of Education acting through its appointed conservator (name of conservator)."

The notice also shall include, in the discretion of the State Board of Education, any or all details relating to the school district's emergency status, including the declaration of a state of emergency in the school district and a description of the district's impairment deficiencies, conditions of any conservatorship and corrective actions recommended and being
taken. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

Upon termination of the state of emergency in a school district, the Commission on School Accreditation shall cause notice to be published in the school district in the same manner provided in this section, to include any or all details relating to the corrective action taken in the school district that resulted in the termination of the state of emergency.

(13) The State Board of Education or the Commission on School Accreditation shall have the authority to require school districts to produce the necessary reports, correspondence, financial statements, and any other documents and information necessary to fulfill the requirements of this section.

Nothing in this section shall be construed to grant any individual, corporation, board or conservator the authority to levy taxes except in accordance with presently existing statutory provisions.

(14) (a) Whenever the Governor declares a state of emergency in a school district in response to a request made under subsection (11) of this section, the State Board of Education, in its discretion, may assign an interim conservator to the school district, or in its discretion, may contract with an appropriate private entity with experience in the academic, finance and other operational functions of schools and school districts, who will be
responsible for the administration, management and operation of
the school district, including, but not limited to, the following
activities:

(i) Approving or disapproving all financial
obligations of the district, including, but not limited to, the
employment, termination, nonrenewal and reassignment of all
licensed and nonlicensed personnel, contractual agreements and
purchase orders, and approving or disapproving all claim dockets
and the issuance of checks; in approving or disapproving
employment contracts of superintendents, assistant superintendents
or principals, the interim conservator shall not be required to
comply with the time limitations prescribed in Sections 37-9-15
and 37-9-105;

(ii) Supervising the day-to-day activities of the
district's staff, including reassigning the duties and
responsibilities of personnel in a manner which, in the
determination of the conservator, will best suit the needs of the
district;

(iii) Reviewing the district's total financial
obligations and operations and making recommendations to the
district for cost savings, including, but not limited to,
reassigning the duties and responsibilities of staff;

(iv) Attending all meetings of the district's
school board and administrative staff;
(v) Approving or disapproving all athletic, band and other extracurricular activities and any matters related to those activities;

(vi) Maintaining a detailed account of recommendations made to the district and actions taken in response to those recommendations;

(vii) Reporting periodically to the State Board of Education on the progress or lack of progress being made in the district to improve the district's impairments during the state of emergency; and

(viii) Appointing a parent advisory committee, comprised of parents of students in the school district that may make recommendations to the conservator concerning the administration, management and operation of the school district.

Except when, in the determination of the State Board of Education, the school district's impairment is related to a lack of financial resources, the cost of the salary of the conservator and any other actual and necessary costs related to the conservatorship paid by the State Department of Education shall be reimbursed by the local school district from funds other than adequate education program funds. The department shall submit an itemized statement to the superintendent of the local school district for reimbursement purposes, and any unpaid balance may be withheld from the district's adequate education program funds.
At the time that the Governor, in accordance with the request
of the State Board of Education, declares that the state of
emergency no longer exists in a school district, the powers and
responsibilities of the interim conservator assigned to the
district shall cease.

(b) In order to provide loans to school districts under
a state of emergency that have impairments related to a lack of
financial resources, the School District Emergency Assistance Fund
is created as a special fund in the State Treasury into which
monies may be transferred or appropriated by the Legislature from
any available public education funds.

The State Board of Education may loan monies from the School
District Emergency Assistance Fund to a school district that is
under a state of emergency in those amounts, as determined by the
board, that are necessary to correct the district's impairments
related to a lack of financial resources. The loans shall be
evidenced by an agreement between the school district and the
State Board of Education and shall be repayable in principal,
without necessity of interest, to the State General Fund or the
Education Enhancement Fund, depending on the source of funding for
the loan, by the school district from any allowable funds that are
available. The total amount loaned to the district shall be due
and payable within five (5) years after the impairments related to
a lack of financial resources are corrected. If a school district
fails to make payments on the loan in accordance with the terms of
the agreement between the district and the State Board of Education, the State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold that district's adequate education program funds in an amount and manner that will effectuate repayment consistent with the terms of the agreement; the funds withheld by the department shall be deposited into the State General Fund or the Education Enhancement Fund, as the case may be.

The State Board of Education shall develop a protocol that will outline the performance standards and requisite time line deemed necessary for extreme emergency measures. If the State Board of Education determines that an extreme emergency exists, simultaneous with the powers exercised in this subsection, it shall take immediate action against all parties responsible for the affected school districts having been determined to be in an extreme emergency. The action shall include, but not be limited to, initiating civil actions to recover funds and criminal actions to account for criminal activity. Any funds recovered by the State Auditor or the State Board of Education from the surety bonds of school officials or from any civil action brought under this subsection shall be applied toward the repayment of any loan made to a school district hereunder.

(15) If a majority of the membership of the school board of any school district resigns from office, the State Board of Education shall be authorized to assign an interim conservator,
who shall be responsible for the administration, management and operation of the school district until the time as new board members are selected or the Governor declares a state of emergency in that school district under subsection (11), whichever occurs first. In that case, the State Board of Education, acting through the interim conservator, shall have all powers which were held by the previously existing school board, and may take any action as prescribed in Section 37-17-13 and/or one or more of the actions authorized in this section.

(16) (a) If the Governor declares a state of emergency in a school district, the State Board of Education may take all such action pertaining to that school district as is authorized under subsection (11) or (14) of Section 37-17-6, including the appointment of an interim conservator. The State Board of Education shall also have the authority to issue a written request with documentation to the Governor asking that the office of the superintendent of the school district be subject to recall. If the Governor declares that the office of the superintendent of the school district is subject to recall, the local school board or the county election commission, as the case may be, shall take the following action:

(i) If the office of superintendent is an elected office, in those years in which there is no general election, the name shall be submitted by the State Board of Education to the county election commission, and the county election commission...
shall submit the question at a special election to the voters eligible to vote for the office of superintendent within the county, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

"Shall County Superintendent of Education ________ (here the name of the superintendent shall be inserted) of the __________ (here the title of the school district shall be inserted) be retained in office? Yes _______ No _______"

If a majority of those voting on the question votes against retaining the superintendent in office, a vacancy shall exist which shall be filled in the manner provided by law; otherwise, the superintendent shall remain in office for the term of that office, and at the expiration of the term shall be eligible for qualification and election to another term or terms.

(ii) If the office of superintendent is an appointive office, the name of the superintendent shall be submitted by the president of the local school board at the next regular meeting of the school board for retention in office or dismissal from office. If a majority of the school board voting on the question vote against retaining the superintendent in office, a vacancy shall exist which shall be filled as provided by law, otherwise the superintendent shall remain in office for the duration of his employment contract.
(b) The State Board of Education may issue a written request with documentation to the Governor asking that the membership of the school board of the school district shall be subject to recall. Whenever the Governor declares that the membership of the school board is subject to recall, the county election commission or the local governing authorities, as the case may be, shall take the following action:

(i) If the members of the local school board are elected to office, in those years in which the specific member's office is not up for election, the name of the school board member shall be submitted by the State Board of Education to the county election commission, and the county election commission at a special election shall submit the question to the voters eligible to vote for the particular member's office within the county or school district, as the case may be, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

"Members of the _____________ (here the title of the school district shall be inserted) School Board who are not up for election this year are subject to recall because of the school district's failure to meet critical accountability standards as defined in the letter of notification to the Governor from the State Board of Education. Shall the member of the school board representing this area, _____________ (here the name of the school board member) be recalled?"
board member holding the office shall be inserted), be retained in
office? Yes _______ No _______

If a majority of those voting on the question vote against
retaining the member of the school board in office, a vacancy in
that board member's office shall exist, which shall be filled in
the manner provided by law; otherwise, the school board member
shall remain in office for the term of that office, and at the
expiration of the term of office, the member shall be eligible for
qualification and election to another term or terms of office.

However, if a majority of the school board members are recalled in
the special election, the Governor shall authorize the board of
supervisors of the county in which the school district is situated
to appoint members to fill the offices of the members recalled.
The board of supervisors shall make those appointments in the
manner provided by law for filling vacancies on the school board,
and the appointed members shall serve until the office is filled
at the next regular special election or general election.

(ii) If the local school board is an appointed
school board, the name of all school board members shall be
submitted as a collective board by the president of the municipal
or county governing authority, as the case may be, at the next
regular meeting of the governing authority for retention in office
or dismissal from office. If a majority of the governing
authority voting on the question vote against retaining the board
in office, a vacancy shall exist in each school board member's
office, which shall be filled as provided by law; otherwise, the members of the appointed school board shall remain in office for the duration of their term of appointment, and those members may be reappointed.

(iii) If the local school board is comprised of both elected and appointed members, the elected members shall be subject to recall in the manner provided in subparagraph (i) of this subsection, and the appointed members shall be subject to recall in the manner provided in subparagraph (ii).

(17) Beginning with the school district audits conducted for the 1997-1998 fiscal year, the State Board of Education, acting through the Commission on School Accreditation, shall require each school district to comply with standards established by the State Department of Audit for the verification of fixed assets and the auditing of fixed assets records as a minimum requirement for accreditation.

(18) Before December 1, 1999, the State Board of Education shall recommend a program to the Education Committees of the House of Representatives and the Senate for identifying and rewarding public schools that improve or are high performing. The program shall be described by the board in a written report, which shall include criteria and a process through which improving schools and high-performing schools will be identified and rewarded.

The State Superintendent of Public Education and the State Board of Education also shall develop a comprehensive
accountability plan to ensure that local school boards, superintendents, principals and teachers are held accountable for student achievement. A written report on the accountability plan shall be submitted to the Education Committees of both houses of the Legislature before December 1, 1999, with any necessary legislative recommendations.

(19) Before January 1, 2008, the State Board of Education shall evaluate and submit a recommendation to the Education Committees of the House of Representatives and the Senate on inclusion of graduation rate and dropout rate in the school level accountability system.

(20) If a local school district is determined as failing and placed into conservatorship for reasons authorized by the provisions of this section, the conservator appointed to the district shall, within forty-five (45) days after being appointed, present a detailed and structured corrective action plan to move the local school district out of conservatorship status to the local school board and local superintendent of education if they have not been removed by the conservator, or if the board and superintendent have been removed, to the local governing authority of the municipality or county in which the school district under conservatorship is located. A copy of the conservator's corrective action plan shall also be filed with the State Board of Education.
[Effective from and after the date Laws of 2012, Ch. 525, is
effectuated under Section 5 of the Voting Rights Act of 1965, as
amended and extended, this section will read:]

37-17-6. (1) The State Board of Education, acting through
the Commission on School Accreditation, shall establish and
implement a permanent performance-based accreditation system, and
all noncharter public elementary and secondary schools shall be
accredited under this system.

(2) No later than June 30, 1995, the State Board of
Education, acting through the Commission on School Accreditation,
shall require school districts to provide school classroom space
that is air-conditioned as a minimum requirement for
accreditation.

(3) (a) Beginning with the 1994-1995 school year, the State
Board of Education, acting through the Commission on School
Accreditation, shall require that school districts employ
certified school librarians according to the following formula:

<table>
<thead>
<tr>
<th>Number of Students</th>
<th>Number of Certified Per School Library School Librarians</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 499 Students</td>
<td>1/2 Full-time Equivalent Certified Librarian</td>
</tr>
<tr>
<td>500 or More Students</td>
<td>1 Full-time Certified Librarian</td>
</tr>
</tbody>
</table>

(b) The State Board of Education, however, may increase
the number of positions beyond the above requirements.
(c) The assignment of certified school librarians to the particular schools shall be at the discretion of the local school district. No individual shall be employed as a certified school librarian without appropriate training and certification as a school librarian by the State Department of Education.

(d) School librarians in the district shall spend at least fifty percent (50%) of direct work time in a school library and shall devote no more than one-fourth (1/4) of the workday to administrative activities that are library related.

(e) Nothing in this subsection shall prohibit any school district from employing more certified school librarians than are provided for in this section.

(f) Any additional millage levied to fund school librarians required for accreditation under this subsection shall be included in the tax increase limitation set forth in Sections 37-57-105 and 37-57-107 and shall not be deemed a new program for purposes of the limitation.

(4) On or before December 31, 2002, the State Board of Education shall implement the performance-based accreditation system for school districts and for individual noncharter public schools which shall include the following:

(a) High expectations for students and high standards for all schools, with a focus on the basic curriculum;

(b) Strong accountability for results with appropriate local flexibility for local implementation;
(c) A process to implement accountability at both the school district level and the school level;

(d) Individual schools shall be held accountable for student growth and performance;

(e) Set annual performance standards for each of the schools of the state and measure the performance of each school against itself through the standard that has been set for it;

(f) A determination of which schools exceed their standards and a plan for providing recognition and rewards to those schools;

(g) A determination of which schools are failing to meet their standards and a determination of the appropriate role of the State Board of Education and the State Department of Education in providing assistance and initiating possible intervention. A failing district is a district that fails to meet both the absolute student achievement standards and the rate of annual growth expectation standards as set by the State Board of Education for two (2) consecutive years. The State Board of Education shall establish the level of benchmarks by which absolute student achievement and growth expectations shall be assessed. In setting the benchmarks for school districts, the State Board of Education may also take into account such factors as graduation rates, dropout rates, completion rates, the extent to which the school or district employs qualified teachers in every classroom, and any other factors deemed appropriate by the
State Board of Education. The State Board of Education, acting through the State Department of Education, shall apply a simple "A," "B," "C," "D" and "F" designation to the current school and school district statewide accountability performance classification labels beginning with the State Accountability Results for the 2011-2012 school year and following, and in the school, district and state report cards required under state and federal law. Under the new designations, a school or school district that has earned a "Star" rating shall be designated an "A" school or school district; a school or school district that has earned a "High-Performing" rating shall be designated a "B" school or school district; a school or school district that has earned a "Successful" rating shall be designated a "C" school or school district; a school or school district that has earned an "Academic Watch" rating shall be designated a "D" school or school district; a school or school district that has earned a "Low-Performing," "At-Risk of Failing" or "Failing" rating shall be designated an "F" school or school district. Effective with the implementation of any new curriculum and assessment standards, the State Board of Education, acting through the State Department of Education, is further authorized and directed to change the school and school district accreditation rating system to a simple "A," "B," "C," "D," and "F" designation based on a combination of student achievement scores and student growth as measured by the statewide testing programs developed by the State Board of
Education pursuant to Chapter 16, Title 37, Mississippi Code of 1972. In any statute or regulation containing the former accreditation designations, the new designations shall be applicable;

(h) Development of a comprehensive student assessment system to implement these requirements; and

(i) The State Board of Education may, based on a written request that contains specific reasons for requesting a waiver from the school districts affected by Hurricane Katrina of 2005, hold harmless school districts from assignment of district and school level accountability ratings for the 2005-2006 school year. The State Board of Education upon finding an extreme hardship in the school district may grant the request. It is the intent of the Legislature that all school districts maintain the highest possible academic standards and instructional programs in all schools as required by law and the State Board of Education.

The State Board of Education may continue to assign school district performance levels by using a number classification and may assign individual school performance levels by using a number classification to be consistent with school district performance levels.

(5) Nothing in this section shall be deemed to require a nonpublic school that receives no local, state or federal funds for support to become accredited by the State Board of Education.
(6) The State Board of Education shall create an accreditation audit unit under the Commission on School Accreditation to determine whether schools are complying with accreditation standards.

(7) The State Board of Education shall be specifically authorized and empowered to withhold adequate education program fund allocations, whichever is applicable, to any public school district for failure to timely report student, school personnel and fiscal data necessary to meet state and/or federal requirements.

(8) Deleted.

(9) The State Board of Education shall establish, for those school districts failing to meet accreditation standards, a program of development to be complied with in order to receive state funds, except as otherwise provided in subsection (14) of this section when the Governor has declared a state of emergency in a school district or as otherwise provided in Section 206, Mississippi Constitution of 1890. The state board, in establishing these standards, shall provide for notice to schools and sufficient time and aid to enable schools to attempt to meet these standards, unless procedures under subsection (14) of this section have been invoked.

(10) Beginning July 1, 1998, the State Board of Education shall be charged with the implementation of the program of development in each applicable school district as follows:
(a) Develop an impairment report for each district failing to meet accreditation standards in conjunction with school district officials;

(b) Notify any applicable school district failing to meet accreditation standards that it is on probation until corrective actions are taken or until the deficiencies have been removed. The local school district shall develop a corrective action plan to improve its deficiencies. For district academic deficiencies, the corrective action plan for each such school district shall be based upon a complete analysis of the following: student test data, student grades, student attendance reports, student dropout data, existence and other relevant data. The corrective action plan shall describe the specific measures to be taken by the particular school district and school to improve:

(i) instruction; (ii) curriculum; (iii) professional development; (iv) personnel and classroom organization; (v) student incentives for performance; (vi) process deficiencies; and (vii) reporting to the local school board, parents and the community. The corrective action plan shall describe the specific individuals responsible for implementing each component of the recommendation and how each will be evaluated. All corrective action plans shall be provided to the State Board of Education as may be required. The decision of the State Board of Education establishing the probationary period of time shall be final;
(c) Offer, during the probationary period, technical assistance to the school district in making corrective actions. Beginning July 1, 1998, subject to the availability of funds, the State Department of Education shall provide technical and/or financial assistance to all such school districts in order to implement each measure identified in that district's corrective action plan through professional development and on-site assistance. Each such school district shall apply for and utilize all available federal funding in order to support its corrective action plan in addition to state funds made available under this paragraph;

(d) Assign department personnel or contract, in its discretion, with the institutions of higher learning or other appropriate private entities with experience in the academic, finance and other operational functions of schools to assist school districts;

(e) Provide for publication of public notice at least one time during the probationary period, in a newspaper published within the jurisdiction of the school district failing to meet accreditation standards, or if no newspaper is published therein, then in a newspaper having a general circulation therein. The publication shall include the following: declaration of school system's status as being on probation; all details relating to the impairment report; and other information as the State Board of Education deems appropriate. Public notices issued under this
section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

(11) (a) If the recommendations for corrective action are not taken by the local school district or if the deficiencies are not removed by the end of the probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. Additionally, if the local school district violates accreditation standards that have been determined by the policies and procedures of the State Board of Education to be a basis for withdrawal of school district's accreditation without a probationary period, the Commission on School Accreditation shall conduct a hearing to allow the affected school district to present evidence or other reasons why its accreditation should not be withdrawn. After its consideration of the results of the hearing, the Commission on School Accreditation shall be authorized, with the approval of the State Board of Education, to withdraw the accreditation of a public school district, and issue a request to the Governor that a state of emergency be declared in that district.

(b) If the State Board of Education and the Commission on School Accreditation determine that an extreme emergency situation exists in a school district that jeopardizes the safety, security or educational interests of the children enrolled in the schools in that district and that emergency situation is believed
to be related to a serious violation or violations of accreditation standards or state or federal law, or when a school district meets the State Board of Education's definition of a failing school district for two (2) consecutive full school years, or if more than fifty percent (50%) of the schools within the school district are designated as Schools At-Risk in any one (1) year, the State Board of Education may request the Governor to declare a state of emergency in that school district. For purposes of this paragraph, the declarations of a state of emergency shall not be limited to those instances when a school district's impairments are related to a lack of financial resources, but also shall include serious failure to meet minimum academic standards, as evidenced by a continued pattern of poor student performance.

(c) Whenever the Governor declares a state of emergency in a school district in response to a request made under paragraph (a) or (b) of this subsection, the State Board of Education may take one or more of the following actions:

(i) Declare a state of emergency, under which some or all of state funds can be escrowed except as otherwise provided in Section 206, Constitution of 1890, until the board determines corrective actions are being taken or the deficiencies have been removed, or that the needs of students warrant the release of funds. The funds may be released from escrow for any program which the board determines to have been restored to standard even
though the state of emergency may not as yet be terminated for the
district as a whole;

(ii) Override any decision of the local school
board or superintendent of education, or both, concerning the
management and operation of the school district, or initiate and
make decisions concerning the management and operation of the
school district;

(iii) Assign an interim conservator, or in its
discretion, contract with a private entity with experience in the
academic, finance and other operational functions of schools and
school districts, who will have those powers and duties prescribed
in subsection (14) of this section;

(iv) Grant transfers to students who attend this
school district so that they may attend other accredited schools
or districts in a manner that is not in violation of state or
federal law;

(v) For states of emergency declared under
paragraph (a) only, if the accreditation deficiencies are related
to the fact that the school district is too small, with too few
resources, to meet the required standards and if another school
district is willing to accept those students, abolish that
district and assign that territory to another school district or
districts. If the school district has proposed a voluntary
consolidation with another school district or districts, then if
the State Board of Education finds that it is in the best interest
of the pupils of the district for the consolidation to proceed, the voluntary consolidation shall have priority over any such assignment of territory by the State Board of Education;

(vi) For states of emergency declared under paragraph (b) only, reduce local supplements paid to school district employees, including, but not limited to, instructional personnel, assistant teachers and extracurricular activities personnel, if the district's impairment is related to a lack of financial resources, but only to an extent that will result in the salaries being comparable to districts similarly situated, as determined by the State Board of Education;

(vii) For states of emergency declared under paragraph (b) only, the State Board of Education may take any action as prescribed in Section 37-17-13.

(d) At the time that satisfactory corrective action has been taken in a school district in which a state of emergency has been declared, the State Board of Education may request the Governor to declare that the state of emergency no longer exists in the district.

(e) The parent or legal guardian of a school-age child who is enrolled in a school district whose accreditation has been withdrawn by the Commission on School Accreditation and without approval of that school district may file a petition in writing to a school district accredited by the Commission on School Accreditation for a legal transfer. The school district
accredited by the Commission on School Accreditation may grant the
transfer according to the procedures of Section 37-15-31(1)(b).
In the event the accreditation of the student's home district is
restored after a transfer has been approved, the student may
continue to attend the transferee school district. The per-pupil
amount of the adequate education program allotment, including the
collective "add-on program" costs for the student's home school
district shall be transferred monthly to the school district
accredited by the Commission on School Accreditation that has
granted the transfer of the school-age child.

(f) Upon the declaration of a state of emergency for
any school district in which the Governor has previously declared
a state of emergency, the State Board of Education may either (i)
establish a conservatorship or (ii) abolish the school district
and administratively consolidate the school district with one or
more existing school districts or (iii) reduce the size of the
district and administratively consolidate parts of the district,
as determined by the State Board of Education; provided, however,
that no school district which is not under conservatorship shall
be required to accept additional territory over the objection of
the district.

(g) There is established a Mississippi Recovery School
District within the State Department of Education under the
supervision of a deputy superintendent appointed by the State
Superintendent of Public Education, who is subject to the approval
by the State Board of Education. The Mississippi Recovery School District shall provide leadership and oversight of all school districts that are subject to state conservatorship, as defined in Chapters 17 and 18, Title 37, Mississippi Code of 1972, and shall have all the authority granted under these two (2) chapters. The Mississippi Department of Education, with the approval of the State Board of Education, shall develop policies for the operation and management of the Mississippi Recovery School District. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall be authorized to oversee the administration of the Mississippi Recovery School District, oversee conservators assigned by the State Board of Education to a local school district, hear appeals from school districts under conservatorship that would normally be filed by students, parents or employees and heard by a local school board, which hearings on appeal shall be conducted in a prompt and timely manner in the school district from which the appeal originated in order to ensure the ability of appellants, other parties and witnesses to appeal without undue burden of travel costs or loss of time from work, and perform other related duties as assigned by the State Superintendent of Public Education. The deputy state superintendent is responsible for the Mississippi Recovery School District and shall determine, based on rigorous professional qualifications set by the State Board of Education, the appropriate individuals to be engaged to be conservators and
financial advisors, if applicable, of all school districts subject
to state conservatorship. After State Board of Education
approval, these individuals shall be deemed independent
contractors.

(12) Upon the declaration of a state of emergency in a
school district under subsection (11) of this section, the
Commission on School Accreditation shall be responsible for public
notice at least once a week for at least three (3) consecutive
weeks in a newspaper published within the jurisdiction of the
school district failing to meet accreditation standards, or if no
newspaper is published therein, then in a newspaper having a
general circulation therein. The size of the notice shall be no
smaller than one-fourth (1/4) of a standard newspaper page and
shall be printed in bold print. If a conservator has been
appointed for the school district, the notice shall begin as
follows: "By authority of Section 37-17-6, Mississippi Code of
1972, as amended, adopted by the Mississippi Legislature during
the 1991 Regular Session, this school district (name of school
district) is hereby placed under the jurisdiction of the State
Department of Education acting through its appointed conservator
(name of conservator)."

The notice also shall include, in the discretion of the State
Board of Education, any or all details relating to the school
district's emergency status, including the declaration of a state
of emergency in the school district and a description of the
district's impairment deficiencies, conditions of any conservatorship and corrective actions recommended and being taken. Public notices issued under this section shall be subject to Section 13-3-31 and not contrary to other laws regarding newspaper publication.

Upon termination of the state of emergency in a school district, the Commission on School Accreditation shall cause notice to be published in the school district in the same manner provided in this section, to include any or all details relating to the corrective action taken in the school district that resulted in the termination of the state of emergency.

(13) The State Board of Education or the Commission on School Accreditation shall have the authority to require school districts to produce the necessary reports, correspondence, financial statements, and any other documents and information necessary to fulfill the requirements of this section.

Nothing in this section shall be construed to grant any individual, corporation, board or conservator the authority to levy taxes except in accordance with presently existing statutory provisions.

(14) (a) Whenever the Governor declares a state of emergency in a school district in response to a request made under subsection (11) of this section, the State Board of Education, in its discretion, may assign an interim conservator to the school district, or in its discretion, may contract with an appropriate
private entity with experience in the academic, finance and other operational functions of schools and school districts, who will be responsible for the administration, management and operation of the school district, including, but not limited to, the following activities:

(i) Approving or disapproving all financial obligations of the district, including, but not limited to, the employment, termination, nonrenewal and reassignment of all licensed and nonlicensed personnel, contractual agreements and purchase orders, and approving or disapproving all claim dockets and the issuance of checks; in approving or disapproving employment contracts of superintendents, assistant superintendents or principals, the interim conservator shall not be required to comply with the time limitations prescribed in Sections 37-9-15 and 37-9-105;

(ii) Supervising the day-to-day activities of the district's staff, including reassigning the duties and responsibilities of personnel in a manner which, in the determination of the conservator, will best suit the needs of the district;

(iii) Reviewing the district's total financial obligations and operations and making recommendations to the district for cost savings, including, but not limited to, reassigning the duties and responsibilities of staff;
(iv) Attending all meetings of the district's school board and administrative staff;

(v) Approving or disapproving all athletic, band and other extracurricular activities and any matters related to those activities;

(vi) Maintaining a detailed account of recommendations made to the district and actions taken in response to those recommendations;

(vii) Reporting periodically to the State Board of Education on the progress or lack of progress being made in the district to improve the district's impairments during the state of emergency; and

(viii) Appointing a parent advisory committee, comprised of parents of students in the school district that may make recommendations to the conservator concerning the administration, management and operation of the school district.

Except when, in the determination of the State Board of Education, the school district's impairment is related to a lack of financial resources, the cost of the salary of the conservator and any other actual and necessary costs related to the conservatorship paid by the State Department of Education shall be reimbursed by the local school district from funds other than adequate education program funds. The department shall submit an itemized statement to the superintendent of the local school.
district for reimbursement purposes, and any unpaid balance may be
withheld from the district's adequate education program funds.

At the time that the Governor, in accordance with the request
of the State Board of Education, declares that the state of
emergency no longer exists in a school district, the powers and
responsibilities of the interim conservator assigned to the
district shall cease.

(b) In order to provide loans to school districts under
a state of emergency or under conservatorship that have
impairments related to a lack of financial resources, the School
District Emergency Assistance Fund is created as a special fund in
the State Treasury into which monies may be transferred or
appropriated by the Legislature from any available public
education funds. Funds in the School District Emergency
Assistance Fund up to a maximum balance of Three Million Dollars
($3,000,000.00) annually shall not lapse but shall be available
for expenditure in subsequent years subject to approval of the
State Board of Education. Any amount in the fund in excess of
Three Million Dollars ($3,000,000.00) at the end of the fiscal
year shall lapse into the State General Fund or the Education
Enhancement Fund, depending on the source of the fund.

The State Board of Education may loan monies from the School
District Emergency Assistance Fund to a school district that is
under a state of emergency or under conservatorship, in those
amounts, as determined by the board, that are necessary to correct
the district's impairments related to a lack of financial resources. The loans shall be evidenced by an agreement between the school district and the State Board of Education and shall be repayable in principal, without necessity of interest, to the School District Emergency Assistance Fund by the school district from any allowable funds that are available. The total amount loaned to the district shall be due and payable within five (5) years after the impairments related to a lack of financial resources are corrected. If a school district fails to make payments on the loan in accordance with the terms of the agreement between the district and the State Board of Education, the State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold that district's adequate education program funds in an amount and manner that will effectuate repayment consistent with the terms of the agreement; the funds withheld by the department shall be deposited into the School District Emergency Assistance Fund.

The State Board of Education shall develop a protocol that will outline the performance standards and requisite time line deemed necessary for extreme emergency measures. If the State Board of Education determines that an extreme emergency exists, simultaneous with the powers exercised in this subsection, it shall take immediate action against all parties responsible for the affected school districts having been determined to be in an extreme emergency. The action shall include, but not be limited
to, initiating civil actions to recover funds and criminal actions
to account for criminal activity. Any funds recovered by the
State Auditor or the State Board of Education from the surety
bonds of school officials or from any civil action brought under
this subsection shall be applied toward the repayment of any loan
made to a school district hereunder.

(15) If a majority of the membership of the school board of
any school district resigns from office, the State Board of
Education shall be authorized to assign an interim conservator,
who shall be responsible for the administration, management and
operation of the school district until the time as new board
members are selected or the Governor declares a state of emergency
in that school district under subsection (11), whichever occurs
first. In that case, the State Board of Education, acting through
the interim conservator, shall have all powers which were held by
the previously existing school board, and may take any action as
prescribed in Section 37-17-13 and/or one or more of the actions
authorized in this section.

(16) (a) If the Governor declares a state of emergency in a
school district, the State Board of Education may take all such
action pertaining to that school district as is authorized under
subsection (11) or (14) of Section 37-17-6, including the
appointment of an interim conservator. The State Board of
Education shall also have the authority to issue a written request
with documentation to the Governor asking that the office of the
superintendent of the school district be subject to recall. If the Governor declares that the office of the superintendent of the school district is subject to recall, the local school board or the county election commission, as the case may be, shall take the following action:

(i) If the office of superintendent is an elected office, in those years in which there is no general election, the name shall be submitted by the State Board of Education to the county election commission, and the county election commission shall submit the question at a special election to the voters eligible to vote for the office of superintendent within the county, and the special election shall be held within sixty (60) days from notification by the State Board of Education. The ballot shall read substantially as follows:

"Shall County Superintendent of Education ________ (here the name of the superintendent shall be inserted) of the ____________ (here the title of the school district shall be inserted) be retained in office? Yes _______ No _______

If a majority of those voting on the question votes against retaining the superintendent in office, a vacancy shall exist which shall be filled in the manner provided by law; otherwise, the superintendent shall remain in office for the term of that office, and at the expiration of the term shall be eligible for qualification and election to another term or terms.
(ii) If the office of superintendent is an appointive office, the name of the superintendent shall be submitted by the president of the local school board at the next regular meeting of the school board for retention in office or dismissal from office. If a majority of the school board voting on the question vote against retaining the superintendent in office, a vacancy shall exist which shall be filled as provided by law, otherwise the superintendent shall remain in office for the duration of his employment contract.

(b) The State Board of Education may issue a written request with documentation to the Governor asking that the membership of the school board of the school district shall be subject to recall. Whenever the Governor declares that the membership of the school board is subject to recall, the county election commission or the local governing authorities, as the case may be, shall take the following action:

(i) If the members of the local school board are elected to office, in those years in which the specific member's office is not up for election, the name of the school board member shall be submitted by the State Board of Education to the county election commission, and the county election commission at a special election shall submit the question to the voters eligible to vote for the particular member's office within the county or school district, as the case may be, and the special election shall be held within sixty (60) days from notification by the
State Board of Education. The ballot shall read substantially as follows:

"Members of the _____________ (here the title of the school district shall be inserted) School Board who are not up for election this year are subject to recall because of the school district's failure to meet critical accountability standards as defined in the letter of notification to the Governor from the State Board of Education. Shall the member of the school board representing this area, ___________ (here the name of the school board member holding the office shall be inserted), be retained in office? Yes _____ No _____"

If a majority of those voting on the question vote against retaining the member of the school board in office, a vacancy in that board member's office shall exist, which shall be filled in the manner provided by law; otherwise, the school board member shall remain in office for the term of that office, and at the expiration of the term of office, the member shall be eligible for qualification and election to another term or terms of office.

However, if a majority of the school board members are recalled in the special election, the Governor shall authorize the board of supervisors of the county in which the school district is situated to appoint members to fill the offices of the members recalled.

The board of supervisors shall make those appointments in the manner provided by law for filling vacancies on the school board,
and the appointed members shall serve until the office is filled 
at the next regular special election or general election.

(ii) If the local school board is an appointed 
school board, the name of all school board members shall be 
submitted as a collective board by the president of the municipal 
or county governing authority, as the case may be, at the next 
regular meeting of the governing authority for retention in office 
or dismissal from office. If a majority of the governing 
authority voting on the question vote against retaining the board 
in office, a vacancy shall exist in each school board member's 
office, which shall be filled as provided by law; otherwise, the 
members of the appointed school board shall remain in office for 
the duration of their term of appointment, and those members may 
be reappointed.

(iii) If the local school board is comprised of 
both elected and appointed members, the elected members shall be 
subject to recall in the manner provided in subparagraph (i) of 
this subsection, and the appointed members shall be subject to 
recall in the manner provided in subparagraph (ii).

(17) Beginning with the school district audits conducted for 
the 1997-1998 fiscal year, the State Board of Education, acting 
through the Commission on School Accreditation, shall require each 
school district to comply with standards established by the State 
Department of Audit for the verification of fixed assets and the
auditing of fixed assets records as a minimum requirement for accreditation.

(18) Before December 1, 1999, the State Board of Education shall recommend a program to the Education Committees of the House of Representatives and the Senate for identifying and rewarding public schools that improve or are high performing. The program shall be described by the board in a written report, which shall include criteria and a process through which improving schools and high-performing schools will be identified and rewarded.

The State Superintendent of Public Education and the State Board of Education also shall develop a comprehensive accountability plan to ensure that local school boards, superintendents, principals and teachers are held accountable for student achievement. A written report on the accountability plan shall be submitted to the Education Committees of both houses of the Legislature before December 1, 1999, with any necessary legislative recommendations.

(19) Before January 1, 2008, the State Board of Education shall evaluate and submit a recommendation to the Education Committees of the House of Representatives and the Senate on inclusion of graduation rate and dropout rate in the school level accountability system.

(20) If a local school district is determined as failing and placed into conservatorship for reasons authorized by the provisions of this section, the conservator appointed to the
district shall, within forty-five (45) days after being appointed, present a detailed and structured corrective action plan to move the local school district out of conservatorship status to the local school board and local superintendent of education if they have not been removed by the conservator, or if the board and superintendent have been removed, to the local governing authority of the municipality or county in which the school district under conservatorship is located. A copy of the conservator's corrective action plan shall also be filed with the State Board of Education.

SECTION 69. Section 37-18-1, Mississippi Code of 1972, is amended as follows:

37-18-1. (1) The State Board of Education shall establish, design and implement a Superior-Performing Schools Program and an Exemplary Schools Program for identifying and rewarding public schools, including charter schools, that improve. The State Board of Education shall develop rules and regulations for the program, establish criteria and establish a process through which Superior-Performing and Exemplary Schools will be identified and rewarded. Upon full implementation of the statewide testing program, Superior-Performing, Exemplary or School At-Risk designation shall be made by the State Board of Education in accordance with the following:

(a) A growth expectation will be established by testing students annually and, using a psychometrically approved formula,
by tracking their progress. This growth expectation will result in a composite score each year for each school.

(b) A determination will be made as to the percentage of students proficient in each school. This measurement will define what a student must know in order to be deemed proficient at each grade level and will clearly show how well a student is performing. The definition of proficiency shall be developed for each grade, based on a demonstrated range of performance in relation to content as reflected in the Mississippi Curriculum Frameworks. This range of performance must be established through a formal procedure including educators, parents, community leaders and other stakeholders.

(c) A school has the following two (2) methods for designation as either a Superior-Performing or an Exemplary School, to be determined on an annual basis:

(i) A school exceeds its growth expectation by a percentage established by the State Board of Education; or

(ii) A school achieves the grade level proficiency standard established by the State Board of Education.

Any school designated as a School At-Risk which exceeds its growth expectation by a percentage established by the State Board of Education shall no longer be considered a School At-Risk and shall be eligible for monetary awards under this section.

(2) Superior-Performing and Exemplary Schools may apply to the State Board of Education for monetary incentives to be used...
for selected school needs, as identified by a vote of all licensed
and instructional personnel employed at the school. These
incentive funds may be used for specific school needs, including,
but not limited to:

(a) Funding for professional development activities.

Staff participating in such activities will report to the school
and school district or, in the case of a charter school, the
governing board of the school about the benefits and lessons
learned from such training;

(b) Technology needs;

(c) Sabbaticals for teachers or administrators, or
both, to pursue additional professional development or educational
enrichment;

(d) Paid professional leave;

(e) Training for parents, including, but not limited
to, the following:

(i) Curriculum;

(ii) Chapter 1;

(iii) Special need students;

(iv) Student rights and responsibility;

(v) School and community relations;

(vi) Effective parenting.

All funds awarded under this subsection shall be subject to
specific appropriation therefor by the Legislature.
(3) The State Board of Education shall provide special recognition to all schools receiving Superior-Performing or Exemplary designation and, in the case of noncharter public schools, their school districts. Examples of such recognition include, but are not limited to: public announcements and events; special recognition of student progress and effort; certificates of recognition and plaques for teachers, principals, superintendents, support and classified personnel and parents; and media announcements utilizing the services of Mississippi Educational Television.

SECTION 70. Section 37-21-3, Mississippi Code of 1972, is amended as follows:

37-21-3. (1) No person shall act in the capacity of teacher, assistant teacher or teacher's aide in any federal or state funded program of early childhood education or "Headstart," or perform any of the functions, duties or powers of the same, unless that person shall be qualified in the following manner:

(a) A head teacher or any other employee or consultant receiving a salary or fee equivalent to that of a head teacher, shall possess a college degree or its equivalent.

(b) A teacher shall possess a full junior college or two (2) years of college education or its equivalent.

(c) An assistant teacher shall possess a high school diploma or its equivalent.
(d) A teacher's aide shall possess an eighth-grade education or its equivalent.

(2) Persons employed as a teacher, assistant teacher or in any other capacity in a prekindergarten or early childhood education program in a charter school authorized by the Mississippi Charter School Authorizer Board are exempt from the requirements of this section.

SECTION 71. Section 37-41-1, Mississippi Code of 1972, is amended as follows:

37-41-1. The State Board of Education is authorized, empowered and directed to promulgate rules and regulations relating to the transportation of students enrolled in the public school districts, including rules and regulations for:

(a) Setting standards for public school district bus routes;

(b) Setting standards for public school district buses;

(c) Setting standards for public school district bus drivers;

(d) Formulating procedure for selecting public school district bus drivers;

(e) Formulating courses of training for public school district bus drivers and mechanics, and assist in administering and financing such courses;

(f) Providing operation procedure for public school district buses to insure safety of pupils;
(g) Formulating specifications for use in purchasing public school district buses; getting bids on public school district buses; equipment and supplies; and fixing prices based upon said bids which school districts may not exceed in purchasing said equipment;

(h) Formulating specifications for use by school districts in purchasing used school buses; and

(i) Providing a system of records and reports for the purpose of carrying out the provisions of Sections 37-41-1 through 37-41-51, and providing the superintendent of schools with a sufficient supply of report forms.

All rules and regulations adopted and promulgated by the State Board of Education relating to school district bus drivers shall also be applicable to drivers of privately owned buses transporting public school district children.

All rules and regulations adopted and promulgated by the State Board of Education pursuant to the authority conferred by this section shall be spread at large upon the minutes of the State Board of Education and copies thereof shall be furnished to all school boards not less than thirty (30) days prior to the effective date of such rules and regulations.

The provisions of this chapter are applicable to school districts and the transportation of students enrolled in public school districts. Charter schools authorized by the Mississippi
Charter School Authorizer Board are exempt from the provisions of this chapter.

SECTION 72. Section 37-41-3, Mississippi Code of 1972, is amended as follows:

37-41-3. Pupils of legal school age, which shall include kindergarten pupils, and in actual attendance in the public schools who live a distance of one (1) mile or more by the nearest traveled road from the school to which they are assigned by the school district in which they are enrolled shall be entitled to transportation within the meaning of this chapter. Nothing contained in this section shall be construed to bar any child from such transportation where he or she lives less than one (1) mile and is on the regular route of travel of a school bus and space is available in such bus for such transportation. No state funds shall be paid for the transportation of children living within one (1) mile of the school, except as otherwise provided in this chapter, and such children shall not be included in transportation reports. In the development of route plans, economy shall be a prime consideration. There shall be no duplication of routes except in circumstances where it is totally unavoidable. The State Department of Education shall have authority to investigate school bus routing when there is reason to believe the provisions of this statute are being violated. The State Board of Education shall have authority to withhold transportation funds when school districts fail to correct unnecessary route duplication. Provided
further, that all school districts are hereby authorized to lease
or contract with any public or private individual, partnership,
corporation, association, agency or other organization for the
implementation of transportation of pupils as provided for in this
section.

The school boards may provide transportation to such crippled
and physically handicapped children as may be designated by such
boards, when the failure to do so would result in undue hardship,
even though the children are not otherwise entitled to
transportation under the provisions of this chapter. The State
Department of Education shall require all school districts during
the 1993-1994 school year to equip school buses with properly
designed seat belts to protect such physically handicapped
children, and school districts are authorized to expend funds
therefor from nonminimum program or other sources.

Where space is available, students attending junior colleges
shall be allowed transportation on established routes in
district-owned buses. However, no additional funds shall be
allocated or expended for such purposes, and such persons shall
not be included in transportation reports.

Children enrolled in special or alternative programs approved
by school boards may be provided transportation even though such
children are not otherwise entitled to transportation under the
provisions of this chapter. No additional funds shall be
allocated or expended for such purpose, and such children shall
not be included in transportation reports.

SECTION 73. Section 37-41-23, Mississippi Code of 1972, is
amended as follows:

37-41-23. The State Board of Education shall prescribe
keeping and preservation of all records and the making of all
reports and the description thereof as the board may deem
necessary for the efficient operation of the school district
transportation system of this state. It shall be unlawful for any
pay certificate to be issued to any school district carrier or bus
driver until all such reports required by the regulations of the
State Board of Education shall have been filed in accordance with
said regulations. Any person making a false list, report, or
record required by the aforesaid rules and regulations of the
State Board of Education shall be subject to the penalties
provided by Section 37-41-25.

SECTION 74. Section 37-41-25, Mississippi Code of 1972, is
brought forward as follows:

37-41-25. Any superintendent of schools, member of the
school board, superintendent, principal or carrier, or bus driver,
who shall knowingly make any false report, list or record, or who
shall knowingly make use of any false report, list or record
concerning the number of school children being transported or
entitled to be transported in any county or school district shall
be guilty of a misdemeanor and upon conviction shall be punished
by imprisonment in the county jail for a period not to exceed sixty (60) days, or by a fine of not less than One Hundred Dollars ($100.00) nor more than Three Hundred Dollars ($300.00), or by both such fine and imprisonment, in the discretion of the court. In addition, any such person shall be civilly liable for all amounts of public funds which are illegally, unlawfully or wrongfully expended or paid out by virtue of or pursuant to such false report, list or record, and upon conviction or adjudication of civil liability hereunder such person shall forfeit his license to teach for a period of three (3) years, if such person is the holder of such a license. Any suit to recover such funds illegally, unlawfully, or wrongfully expended or paid out may be brought in the name of the State of Mississippi by the Attorney General or the proper district attorney or county attorney. In the event such suit be brought against a person who is under bond, the sureties upon such bond shall likewise be liable for such amount illegally, unlawfully or wrongfully expended or paid out.

SECTION 75. Section 37-41-31, Mississippi Code of 1972, is amended as follows:

37-41-31. In each case where pupils are transported to and from the public schools in the school districts of this state in privately owned vehicles, the contract for such transportation shall be let to the lowest responsible bidder who is able to furnish a solvent bond for the faithful performance of his contract. This shall be done after each route over which such
pupils are to be transported has been laid out and established as provided in this chapter. Such contracts shall be awarded upon receipt of sealed bids or proposals after the time and place of letting such contracts and the manner of bidding have been duly advertised in some newspaper published in the county in accordance with the procedures provided in Section 31-7-13(c). If no newspaper is published in the county, then the advertisement shall be made by publication for the required time in some newspaper having a general circulation therein, and, in addition, by posting a copy thereof for that time in at least three (3) public places in the county, one (1) of which shall be at the county courthouse in each judicial district of the county. The awarding of all such contracts shall, however, in all respects be subject to the provisions of Section 37-41-29.

Private contracts for the transportation of exceptional children, as defined in Section 37-23-3, may be negotiated by the local school board without the necessity of the advertising for or taking of bids. The same may apply under extraordinary circumstances where regular transportation is considered to be impractical. The local school board may negotiate and contract for the transportation described in this paragraph so long as the local school board complies with the school transportation regulations promulgated by the State Board of Education.

Contracts shall be made for four (4) years, at the discretion of the local school board. Any and all bids may be rejected. At
the expiration of any transportation contract, if the school board believes a route should remain substantially as established and finds that the carrier thereon has rendered efficient and satisfactory services it may extend the contract for not more than four (4) years, subject, however, to the provisions of Section 37-41-29.

SECTION 76. Section 37-41-43, Mississippi Code of 1972, is amended as follows:

37-41-43. All publicly owned school district buses which are hereafter acquired, and all publicly owned school district buses which shall hereafter be repainted, whether presently owned or hereafter acquired, and all publicly owned school district buses which do not have the name of the county or school district owning same painted thereon, whether such buses be owned by the county or a school district, shall have painted on both sides thereof the name of the county or school district owning same. Such words shall be painted on each such bus in letters at least five (5) inches in height and in a color which is in contrast with the color of the vehicle.

SECTION 77. Section 37-41-45, Mississippi Code of 1972, is amended as follows:

37-41-45. It shall be a misdemeanor for any person to use a publicly owned school district bus for any purpose other than one in connection with the school, and upon conviction thereof such person shall be fined not less than Fifty Dollars ($50.00).
any publicly owned school district bus is being operated on the public roads or highways at a time other than the usual and customary time for the transportation of children to and from the public schools, members of the Highway Safety Patrol, sheriffs, constables and other peace officers shall have the power and authority to stop such bus for the purpose of ascertaining whether the trip then being made is authorized by law. If it be found that such trip is unauthorized, such highway patrolman, sheriff, constable or other peace or police officer shall forthwith report the same to the school board owning such bus and to the State Department of Education.

SECTION 78. Section 37-41-49, Mississippi Code of 1972, is amended as follows:

37-41-49. In case of any violation by a school district bus driver or carrier of the safety regulations established by the State Board of Education, such violation shall be deemed a misdemeanor and such offender may be punished as provided in Section 37-41-47.

SECTION 79. Section 37-41-53, Mississippi Code of 1972, is amended as follows:

37-41-53. (1) Each school board, person, firm or corporation transporting public school district children on the public roads, streets and highways of the state with motor vehicles shall have the motor vehicles inspected according to the laws of the state. Each motor vehicle shall be inspected by a
competent mechanic to be safe for transporting pupils on the
roads, streets and highways of the state before it is released for
such purpose. If such motor vehicle is found to be unsafe for
transporting pupils, then it shall be properly repaired or
adjusted as necessary before being used to transport pupils. The
provisions of this subsection shall not apply to vehicles owned by
individuals and under private contract to the school district and
used exclusively for transporting members of their immediate
families.

(2) The State Department of Education may inspect, at its
discretion, any school bus used for transporting school district
pupils to and from the public schools or for activity purposes to
determine the safety of such motor vehicle for operation on the
roads, streets and highways of this state. In the event a vehicle
is inspected and is found to be unsafe for transporting pupils, a
report shall be filed with the appropriate school district
official indicating its deficiencies with recommendations for
correcting such deficiencies.

(3) If it is determined that any school district buses are
in such defective condition as to constitute an emergency safety
hazard, those buses may be condemned and removed from service and
shall not be returned to service until adequate repairs are
completed and such buses are reinspected by the State Department
of Education. Any school district official who approves the
operation of any school bus that has been removed from service
under the conditions listed above, prior to being reinspected by
the State Department of Education, shall be guilty of a
misdemeanor and upon conviction shall be punished by imprisonment
in the county jail for a period not to exceed sixty (60) days, or
a fine of not less than Five Hundred Dollars ($500.00) nor more
than One Thousand Dollars ($1,000.00), or by both such fine and
imprisonment, in the discretion of the court.

**SECTION 80.** Section 37-41-57, Mississippi Code of 1972, is
brought forward as follows:

37-41-57. The State Board of Education shall adopt and
enforce regulations not inconsistent with the traffic laws and
regulations of this state to govern the design and operation of
all school buses used for the transportation of school children
when owned and operated by any school board or privately owned and
operated under contract with any school board in this state. Such
regulations shall by reference be made a part of any such contract
with a school board. Every school board, its officers and
employees, and every person employed under contract by a school
board shall be subject to said regulations.

Any officer or employee of any school board who violates any
of said regulations or fails to include the obligation to comply
with said regulations in any contract executed by them on behalf
of a school board shall be guilty of misconduct and subject to
removal from office or employment. Any person operating a school
bus under a contract with a school board who fails to comply with
any of said regulations shall be guilty of breach of contract and such contract shall be cancelled after notice and hearing by the responsible officers of such school board.

SECTION 81. Section 37-43-1, Mississippi Code of 1972, is amended as follows:

37-43-1. (1) This chapter is intended to furnish a plan for the adoption, purchase, distribution, care and use of free textbooks to be loaned to the pupils in all elementary and high schools, other than charter schools, of Mississippi.

(2) The books herein provided by the State Board of Education, which shall be the State Textbook Procurement Commission, shall be distributed and loaned free of cost to the children of the free public school districts of the state and of all other schools located in the state, which maintain educational standards equivalent to the standards established by the State Department of Education for the state schools as outlined in the Approval Requirements of the State Board of Education for Nonpublic Schools.

(3) Teachers shall permit all pupils in all grades of any public school in any school district to carry to their homes for home study, the free textbooks loaned to them, and any other regular textbooks whether they be free textbooks or not.

(4) For the purposes of this chapter, the term "board" shall mean the State Board of Education.
(5) "Textbook" shall be defined as any medium or manual of instruction which contains a systematic presentation of the principles of a subject and which constitutes a major instructional vehicle for that subject.

(6) In addition to the authority granted in this chapter, local school boards shall make available to the parents or legal guardians of any children of school age who reside in the school district administered by the school board, upon request, any textbooks on the state surplus inventory list. The parent or legal guardian is responsible for the return of the textbook(s) to the local school district upon completion of the textbook(s) use. Failure to return the textbook(s) to the school district will result in the parents or legal guardians being responsible for compensating the school district for the fair market value of the textbook(s).

SECTION 82. Section 37-43-39, Mississippi Code of 1972, is brought forward as follows:

37-43-39. No teacher in any of the schools of the state, and no county or municipal superintendent of schools, and no person officially connected with the government of or direction of any school shall, during the term of his office as said superintendent or during the time of his or her employment as teacher, act as agent or attorney for any textbook publishing company selling textbooks in this state. If, after election as county or municipal superintendent or employment as teacher, any person
filling such position accepts the agency or attorneyship of any textbook publishing company, the acceptance of such agency or attorneyship shall work a forfeiture of the office or position as teacher held at the time of the acceptance of such agency or attorneyship.

**SECTION 83.** Section 37-45-23, Mississippi Code of 1972, is amended as follows:

37-45-23. Subject to the provisions of any applicable statute, the commission shall formulate policies and approve or disapprove plans for the location and construction of all necessary elementary and secondary noncharter public school buildings.

**SECTION 84.** Section 37-47-9, Mississippi Code of 1972, is amended as follows:

37-47-9. It is found and determined that the state should make an annual grant of Twenty-four Dollars ($24.00) for each child in average daily attendance in the public schools of the various school districts of this state during each school year, and that such monies should be applied for the purpose of establishing and maintaining adequate physical facilities for the public school district and/or the payment of existing debt therefor.

The grant to which each public school is entitled under the provisions of this section shall be credited to the school district of which such school is part. If any change is made in
the operation or boundaries of any such school district, equitable reallocations shall be made by the commission of all balances to the credit of such school district, and all debits charged against the districts affected by the change in the boundaries or system of operation. The obligation of the state to make remittance of the sums appropriated or otherwise provided to make the annual grants provided by this section shall be subordinate to the pledge made to secure the state school bonds authorized under this chapter and the sinking fund created for their retirement. The grants shall be computed annually as soon as practicable after the end of the school year, and shall be based on the average daily attendance for such school year in all of the public schools operated by each school district as determined by the State Department of Education.

SECTION 85. Section 37-143-11, Mississippi Code of 1972, is amended as follows:

37-143-11. (1) It is the intention of the Legislature to attract and retain qualified teachers by awarding incentive loans to persons declaring an intention to serve in the teaching field and who actually render service to the state while possessing an appropriate teaching license.

(2) There is established the "William F. Winter Teacher Scholar Loan Program."

(3) To the extent of appropriations available, students who are enrolled in any baccalaureate degree-granting institution of
higher learning in the State of Mississippi accredited by the Southern Association of Colleges and Schools and approved by the Mississippi Commission on College Accreditation, or any accredited nonprofit community or junior college, and who have expressed in writing a present intention to teach in Mississippi, shall be eligible for student loans to be applied to the costs of their college education. Persons who have been admitted to a teacher education program or a nontraditional teacher internship licensure program authorized under Section 37-3-2(6)(b), as approved by the State Board of Education, shall also qualify for loans at approved institutions. The Board of Trustees of State Institutions of Higher Learning shall provide that teacher education majors and noneducation majors shall have equal access to scholarship/loans under authority of this section.

(4) A freshman establishing initial eligibility shall be eligible for a maximum of four (4) annual loans and a senior shall be eligible for one (1) annual loan.

(5) The maximum annual loan shall be set by the Board of Trustees of State Institutions of Higher Learning at an amount not to exceed the cost of attendance at any baccalaureate degree-granting institution of higher learning in the State of Mississippi. However, it is the intent of the Legislature that the maximum annual loan amounts under the William F. Winter Teacher Scholar Loan Program shall not be of such amounts that would compete with the Critical Needs Teacher Scholarship Program.
(6) The loans of persons who actually render service as licensed teachers or nontraditional teacher interns authorized under Section 37-3-2(6)(b) in a public school, including a charter school, in Mississippi for a major portion of the school day for at least seventy-eight (78) school days during each of eight (8) school semesters of the ten (10) immediately after obtaining a baccalaureate degree, shall be converted to interest-free scholarships. Conversion shall be based on two (2) semesters of service for each year a loan was received, and the Board of Trustees of State Institutions of Higher Learning shall not authorize the conversion of loans into interest-free scholarships at any other ratio, except as follows: Participants in the William F. Winter Teacher Scholar Loan Program may have their loans converted into interest-free scholarships at the same ratio as under the Critical Needs Teacher Scholarship Program if they render service as a licensed teacher or nontraditional teacher intern authorized under Section 37-3-2(6)(b) in a public school district in a geographical area of the state where there is a critical shortage of teachers, as designated by the State Board of Education, or in a charter school located in such a school district.

(7) Persons failing to complete an appropriate program of study shall immediately become liable to the Board of Trustees of State Institutions of Higher Learning for the sum of all outstanding loans, except in the case of a deferral of debt for
cause by the board, after which period of deferral, study may be
resumed. Persons failing to meet teaching requirements in any
required semester shall immediately be in breach of contract and
become liable to the board for the amount of the corresponding
loan received, with interest accruing at the current Stafford Loan
rate at the time the breach occurs, except in the case of a
deferral of debt for cause by the board, after which period of
deferral, teaching duties required hereunder will be resumed. If
the claim for payment of such loan is placed in the hands of an
attorney for collection after default, then the obligor shall be
liable for an additional amount equal to a reasonable attorney's
fee.

(8) A loan made pursuant to this section shall not be
voidable by reason of the age of the borrower at the time of
receiving the loan.

(9) Failure to repay any loan and interest that becomes due
shall be cause for the revocation of a person's teaching license
by the State Department of Education.

(10) All monies repaid to the Board of Trustees of State
Institutions of Higher Learning hereunder shall be added to the
appropriations made for purposes of this section, and those
appropriations shall not lapse.

(11) The Board of Trustees of State Institutions of Higher
Learning with the concurrence of the State Board of Education
shall jointly promulgate regulations necessary for the proper administration of this section.

(12) If insufficient funds are available for requested loans to a qualified student during any fiscal year, the Board of Trustees of State Institutions of Higher Learning shall make pro rata reductions in the loans made to qualifying applicants. Priority consideration shall be given to persons receiving previous loans and participating in the program.

(13) The Board of Trustees of State Institutions of Higher Learning shall make an annual report to the Legislature. Each report shall contain a complete enumeration of the board's activities, loans or scholarships granted, names of persons to whom granted and the institutions attended by those receiving the same, names of persons to whom loans or scholarships were granted who were not education majors, the teaching location of applicants who have received their education and become licensed teachers within this state as a result of the loans and/or scholarships. The board shall make a full report and account of receipts and expenditures for salaries and expenses incurred under the provisions of this section. The board shall, upon its records and any published reports, distinguish between those recipients who have breached their contracts but with the board's permission who have paid their financial obligations in full, and those recipients who have breached their contracts and remain financially indebted to the state.
SECTION 86. Section 37-143-12, Mississippi Code of 1972, is amended as follows:

37-143-12. Speech-Language Pathologists Loan Forgiveness Program. (1) There is established a Speech-Language Pathologists Loan Forgiveness Program. It is the intent of the Legislature that persons declaring an intention to work in an accredited public school (K-12), including a charter school, located in the State of Mississippi as a speech-language pathologist shall be eligible for a loan for the purpose of acquiring a master's level education in such profession. The Board of Trustees of State Institutions of Higher Learning shall enter into contracts with applicants, providing that such loans may be discharged by working as a master's level speech-language pathologist in an accredited public school (K-12), including a charter school, located in the State of Mississippi, for a period of time after graduation equal to the period of study provided under the loan. Such contracts shall provide that for each year of service, the appropriate portion of the outstanding balance of principal and interest of such loan shall be converted to interest-free scholarships and discharged.

(2) The Board of Trustees of State Institutions of Higher Learning, with the concurrence of the State Board of Education, shall jointly establish rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.
The provisions of this section shall be subject to specific appropriation therefor by the Legislature.

SECTION 88. Section 37-151-7, Mississippi Code of 1972, is amended as follows:

37-151-7. The annual allocation to each school district for the operation of the adequate education program shall be determined as follows:

(1) Computation of the basic amount to be included for current operation in the adequate education program. The following procedure shall be followed in determining the annual allocation to each school district:

(a) Determination of average daily attendance.

Effective with fiscal year 2011, the State Department of Education shall determine the percentage change from the prior year of each year of each school district's average of months two (2) and three (3) average daily attendance (ADA) for the three (3) immediately preceding school years of the year for which funds are being appropriated. For any school district that experiences a positive growth in the average of months two (2) and three (3) ADA each year of the three (3) years, the average percentage growth over the three-year period shall be multiplied times the school
district's average of months two (2) and three (3) ADA for the
year immediately preceding the year for which MAEP funds are being
appropriated. The resulting amount shall be added to the school
district's average of months two (2) and three (3) ADA for the
year immediately preceding the year for which MAEP funds are being
appropriated to arrive at the ADA to be used in determining a
school district's MAEP allocation. Otherwise, months two (2) and
three (3) ADA for the year immediately preceding the year for
which MAEP funds are being appropriated will be used in
determining a school district's MAEP allocation. In any fiscal
year prior to 2010 in which the MAEP formula is not fully funded,
for those districts that do not demonstrate a three-year positive
growth in months two (2) and three (3) ADA, months one (1) through
nine (9) ADA of the second preceding year for which funds are
being appropriated or months two (2) and three (3) ADA of the
preceding year for which funds are being appropriated, whichever
is greater, shall be used to calculate the district's MAEP
allocation. The district's average daily attendance shall be
computed and currently maintained in accordance with regulations
promulgated by the State Board of Education. The district's
average daily attendance shall include any student enrolled in a
Dual Enrollment-Dual Credit Program as defined and provided in
Section 37-15-38(19). The State Department of Education shall
make payments for Dual Enrollment-Dual Credit Programs to the home
school in which the student is enrolled, in accordance with
regulations promulgated by the State Board of Education. The community college providing services to students in a Dual Enrollment-Dual Credit Program shall require payment from the home school district for services provided to such students at a rate of one hundred percent (100%) of ADA. All MAEP/state funding shall cease upon completion of high school graduation requirements.

(b) **Determination of base student cost.** Effective with fiscal year 2011 and every fourth fiscal year thereafter, the State Board of Education, on or before August 1, with adjusted estimate no later than January 2, shall submit to the Legislative Budget Office and the Governor a proposed base student cost adequate to provide the following cost components of educating a pupil in a successful school district: (i) Instructional Cost; (ii) Administrative Cost; (iii) Operation and Maintenance of Plant; and (iv) Ancillary Support Cost. For purposes of these calculations, the Department of Education shall utilize financial data from the second preceding year of the year for which funds are being appropriated.

For the instructional cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of a number of teachers per one thousand (1,000) students that is between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average of teachers per one
thousand (1,000) students. The instructional cost component shall be calculated by dividing the latest available months one (1) through nine (9) ADA into the instructional expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

- Fund 1120 Functions 1110-1199 Objects 100-999, Functions 1210, 1220, 2150-2159 Objects 210 and 215;
- Fund 1130 All Functions, Object Code 210 and 215;
- Fund 2001 Functions 1110-1199 Objects 100-999;
- Fund 2070 Functions 1110-1199 Objects 100-999;
- Fund 2420 Functions 1110-1199 Objects 100-999;
- Fund 2711 All Functions, Object Code 210 and 215.

Prior to the calculation of the instructional cost component, there shall be subtracted from the above expenditures any revenue received for Chickasaw Cession payments, Master Teacher Certification payments and the district's portion of state revenue received from the MAEP at-risk allocation.

For the administrative cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of an administrative staff to nonadministrative staff between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average administrative staff to nonadministrative staff. The administrative cost component shall
be calculated by dividing the latest available months one (1) through nine (9) ADA of the selected districts into the administrative expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

Fund 1120 Functions 2300-2599, Functions 2800-2899, Objects 100-999;
Fund 2711 Functions 2300-2599, Functions 2800-2899, Objects 100-999.

For the plant and maintenance cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of plant and maintenance expenditures per one hundred thousand (100,000) square feet of building space and a ratio of maintenance workers per one hundred thousand (100,000) square feet of building space that are both between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average. The plant and maintenance cost component shall be calculated by dividing the latest available months one (1) through nine (9) ADA of the selected districts into the plant and maintenance expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

Fund 1120 Functions 2600-2699, Objects 100-699 and Objects 800-999;
Fund 2711 Functions 2600-2699, Objects 100-699
and Objects 800-999;

Fund 2430 Functions 2600-2699, Objects 100-699
and Objects 800-999.

For the ancillary support cost component, the Department of
Education shall select districts that have been identified as
instructionally successful and have a ratio of a number of
librarians, media specialists, guidance counselors and
psychologists per one thousand (1,000) students that is between
one (1) standard deviation above the mean and two (2) standard
deviations below the mean of the statewide average of librarians,
media specialists, guidance counselors and psychologists per one
thousand (1,000) students. The ancillary cost component shall be
calculated by dividing the latest available months one (1) through
nine (9) ADA into the ancillary expenditures instructional
expenditures of these selected districts. For the purpose of this
calculation, the Department of Education shall use the following
funds, functions and objects:

Fund 1120 Functions 2110-2129, Objects 100-999;
Fund 1120 Functions 2140-2149, Objects 100-999;
Fund 1120 Functions 2220-2229, Objects 100-999;
Fund 2001 Functions 2100-2129, Objects 100-999;
Fund 2001 Functions 2140-2149, Objects 100-999;
Fund 2001 Functions 2220-2229, Objects 100-999.
The total base cost for each year shall be the sum of the instructional cost component, administrative cost component, plant and maintenance cost component and ancillary support cost component, and any estimated adjustments for additional state requirements as determined by the State Board of Education.

Provided, however, that the base student cost in fiscal year 1998 shall be Two Thousand Six Hundred Sixty-four Dollars ($2,664.00).

For each of the fiscal years between the recalculation of the base student cost under the provisions of this paragraph (b), the base student cost shall be increased by an amount equal to forty percent (40%) of the base student cost for the previous fiscal year, multiplied by the latest annual rate of inflation for the State of Mississippi as determined by the State Economist, plus any adjustments for additional state requirements such as, but not limited to, teacher pay raises and health insurance premium increases.

(c) **Determination of the basic adequate education program cost.** The basic amount for current operation to be included in the Mississippi Adequate Education Program for each school district shall be computed as follows:

Multiply the average daily attendance of the district by the base student cost as established by the Legislature, which yields the total base program cost for each school district.

(d) **Adjustment to the base student cost for at-risk pupils.** The amount to be included for at-risk pupil programs for
each school district shall be computed as follows: Multiply the base student cost for the appropriate fiscal year as determined under paragraph (b) by five percent (5%), and multiply that product by the number of pupils participating in the federal free school lunch program in such school district, which yields the total adjustment for at-risk pupil programs for such school district.

(e) **Add-on program cost.** The amount to be allocated to school districts in addition to the adequate education program cost for add-on programs for each school district shall be computed as follows:

(i) Transportation cost shall be the amount allocated to such school district for the operational support of the district transportation system from state funds.

(ii) Vocational or technical education program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(iii) Special education program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(iv) Gifted education program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.
(v) Alternative school program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(vi) Extended school year programs shall be the amount allocated to school districts for those programs authorized by law which extend beyond the normal school year.

(vii) University-based programs shall be the amount allocated to school districts for those university-based programs for handicapped children as defined and provided for in Section 37-23-131 et seq., Mississippi Code of 1972.

(viii) Bus driver training programs shall be the amount provided for those driver training programs as provided for in Section 37-41-1, Mississippi Code of 1972.

The sum of the items listed above (i) transportation, (ii) vocational or technical education, (iii) special education, (iv) gifted education, (v) alternative school, (vi) extended school year, (vii) university-based, and (viii) bus driver training shall yield the add-on cost for each school district.

(f) **Total projected adequate education program cost.**

The total Mississippi Adequate Education Program cost shall be the sum of the total basic adequate education program cost (paragraph (c)), and the adjustment to the base student cost for at-risk pupils (paragraph (d)) for each school district. In any year in which the MAEP is not fully funded, the Legislature shall direct
the Department of Education in the K-12 appropriation bill as to how to allocate MAEP funds to school districts for that year.

(g) The State Auditor shall annually verify the State Board of Education's estimated calculations for the Mississippi Adequate Education Program that are submitted each year to the Legislative Budget Office on August 1 and the final calculation that is submitted on January 2.

(2) Computation of the required local revenue in support of the adequate education program. The amount that each district shall provide toward the cost of the adequate education program shall be calculated as follows:

(a) The State Department of Education shall certify to each school district that twenty-eight (28) mills, less the estimated amount of the yield of the School Ad Valorem Tax Reduction Fund grants as determined by the State Department of Education, is the millage rate required to provide the district required local effort for that year, or twenty-seven percent (27%) of the basic adequate education program cost for such school district as determined under paragraph (c), whichever is a lesser amount. In the case of an agricultural high school, the millage requirement shall be set at a level which generates an equitable amount per pupil to be determined by the State Board of Education. The local contribution amount for school districts in which there is located one or more charter schools will be calculated using the following methodology: using the adequate education program

H. B. No. 369

PAGE 235 (RKM\DO)
twenty-eight (28) mill value, or the twenty-seven percent (27\%) cap amount (whichever is less) for each school district in which a charter school is located, an average per pupil amount will be calculated. This average per pupil amount will be multiplied times the number of students attending the charter school in that school district. The sum becomes the charter school's local contribution to the adequate education program.

(b) The State Department of Education shall determine the following from the annual assessment information submitted to the department by the tax assessors of the various counties: (i) the total assessed valuation of nonexempt property for school purposes in each school district; (ii) assessed value of exempt property owned by homeowners aged sixty-five (65) or older or disabled as defined in Section 27-33-67(2), Mississippi Code of 1972; (iii) the school district's tax loss from exemptions provided to applicants under the age of sixty-five (65) and not disabled as defined in Section 27-33-67(1), Mississippi Code of 1972; and (iv) the school district's homestead reimbursement revenues.

(c) The amount of the total adequate education program funding which shall be contributed by each school district shall be the sum of the ad valorem receipts generated by the millage required under this subsection plus the following local revenue sources for the appropriate fiscal year which are or may be available for current expenditure by the school district:
One hundred percent (100%) of Grand Gulf income as prescribed in Section 27-35-309.

One hundred percent (100%) of any fees in lieu of taxes as prescribed in Section 27-31-104.

(3) **Computation of the required state effort in support of the adequate education program.**

(a) The required state effort in support of the adequate education program shall be determined by subtracting the sum of the required local tax effort as set forth in subsection (2)(a) of this section and the other local revenue sources as set forth in subsection (2)(c) of this section in an amount not to exceed twenty-seven percent (27%) of the total projected adequate education program cost as set forth in subsection (1)(f) of this section from the total projected adequate education program cost as set forth in subsection (1)(f) of this section.

(b) Provided, however, that in fiscal year 1998 and in the fiscal year in which the adequate education program is fully funded by the Legislature, any increase in the said state contribution to any district calculated under this section shall be not less than eight percent (8%) in excess of the amount received by said district from state funds for the fiscal year immediately preceding. For purposes of this paragraph (b), state funds shall include minimum program funds less the add-on programs, State Uniform Millage Assistance Grant Funds, Education Enhancement Funds appropriated for Uniform Millage Assistance
Grants and state textbook allocations, and State General Funds allocated for textbooks.

(c) If the school board of any school district shall determine that it is not economically feasible or practicable to operate any school within the district for the full one hundred eighty (180) days required for a school term of a scholastic year as required in Section 37-13-63, Mississippi Code of 1972, due to an enemy attack, a man-made, technological or natural disaster in which the Governor has declared a disaster emergency under the laws of this state or the President of the United States has declared an emergency or major disaster to exist in this state, said school board may notify the State Department of Education of such disaster and submit a plan for altering the school term. If the State Board of Education finds such disaster to be the cause of the school not operating for the contemplated school term and that such school was in a school district covered by the Governor's or President's disaster declaration, it may permit said school board to operate the schools in its district for less than one hundred eighty (180) days and, in such case, the State Department of Education shall not reduce the state contributions to the adequate education program allotment for such district, because of the failure to operate said schools for one hundred eighty (180) days.

(4) The Interim School District Capital Expenditure Fund is hereby established in the State Treasury which shall be used to
distribute any funds specifically appropriated by the Legislature
to such fund to school districts entitled to increased allocations
of state funds under the adequate education program funding
formula prescribed in Sections 37-151-3 through 37-151-7,
Mississippi Code of 1972, until such time as the said adequate
education program is fully funded by the Legislature. The
following percentages of the total state cost of increased
allocations of funds under the adequate education program funding
formula shall be appropriated by the Legislature into the Interim
School District Capital Expenditure Fund to be distributed to all
school districts under the formula: Nine and two-tenths percent
(9.2%) shall be appropriated in fiscal year 1998, twenty percent
(20%) shall be appropriated in fiscal year 1999, forty percent
(40%) shall be appropriated in fiscal year 2000, sixty percent
(60%) shall be appropriated in fiscal year 2001, eighty percent
(80%) shall be appropriated in fiscal year 2002, and one hundred
percent (100%) shall be appropriated in fiscal year 2003 into the
State Adequate Education Program Fund. Until July 1, 2002, such
money shall be used by school districts for the following
purposes:

(a) Purchasing, erecting, repairing, equipping,
remodeling and enlarging school buildings and related facilities,
including gymnasiums, auditoriums, lunchrooms, vocational training
buildings, libraries, school barns and garages for transportation
vehicles, school athletic fields and necessary facilities
connected therewith, and purchasing land therefor. Any such capital improvement project by a school district shall be approved by the State Board of Education, and based on an approved long-range plan. The State Board of Education shall promulgate minimum requirements for the approval of school district capital expenditure plans.

(b) Providing necessary water, light, heating, air-conditioning, and sewerage facilities for school buildings, and purchasing land therefor.

(c) Paying debt service on existing capital improvement debt of the district or refinancing outstanding debt of a district if such refinancing will result in an interest cost savings to the district.

(d) From and after October 1, 1997, through June 30, 1998, pursuant to a school district capital expenditure plan approved by the State Department of Education, a school district may pledge such funds until July 1, 2002, plus funds provided for in paragraph (e) of this subsection (4) that are not otherwise permanently pledged under such paragraph (e) to pay all or a portion of the debt service on debt issued by the school district under Sections 37-59-1 through 37-59-45, 37-59-101 through 37-59-115, 37-7-351 through 37-7-359, 37-41-89 through 37-41-99, 37-7-301, 37-7-302 and 37-41-81, Mississippi Code of 1972, or debt issued by boards of supervisors for agricultural high schools pursuant to Section 37-27-65, Mississippi Code of 1972, or
lease-purchase contracts entered into pursuant to Section 31-7-13, Mississippi Code of 1972, or to retire or refinance outstanding debt of a district, if such pledge is accomplished pursuant to a written contract or resolution approved and spread upon the minutes of an official meeting of the district's school board or board of supervisors. It is the intent of this provision to allow school districts to irrevocably pledge their Interim School District Capital Expenditure Fund allotments as a constant stream of revenue to secure a debt issued under the foregoing code sections. To allow school districts to make such an irrevocable pledge, the state shall take all action necessary to ensure that the amount of a district's Interim School District Capital Expenditure Fund allotments shall not be reduced below the amount certified by the department or the district's total allotment under the Interim Capital Expenditure Fund if fully funded, so long as such debt remains outstanding.

(e) [Repealed]

(f) [Repealed]

(g) The State Board of Education may authorize the school district to expend not more than twenty percent (20%) of its annual allotment of such funds or Twenty Thousand Dollars ($20,000.00), whichever is greater, for technology needs of the school district, including computers, software, telecommunications, cable television, interactive video, film, low-power television, satellite communications, microwave
communications, technology-based equipment installation and
maintenance, and the training of staff in the use of such
technology-based instruction. Any such technology expenditure
shall be reflected in the local district technology plan approved
by the State Board of Education under Section 37-151-17,

(h) To the extent a school district has not utilized
twenty percent (20%) of its annual allotment for technology
purposes under paragraph (g), a school district may expend not
more than twenty percent (20%) of its annual allotment or Twenty
Thousand Dollars ($20,000.00), whichever is greater, for
instructional purposes. The State Board of Education may
authorize a school district to expend more than said twenty
percent (20%) of its annual allotment for instructional purposes
if it determines that such expenditures are needed for
accreditation purposes.

(i) The State Department of Education or the State
Board of Education may require that any project commenced under
this section with an estimated project cost of not less than Five
Million Dollars ($5,000,000.00) shall be done only pursuant to
program management of the process with respect to design and
construction. Any individuals, partnerships, companies or other
entities acting as a program manager on behalf of a local school
district and performing program management services for projects
covered under this subsection shall be approved by the State
Department of Education.

Any interest accruing on any unexpended balance in the
Interim School District Capital Expenditure Fund shall be invested
by the State Treasurer and placed to the credit of each school
district participating in such fund in its proportionate share.
The provisions of this subsection (4) shall be cumulative and
supplemental to any existing funding programs or other authority
conferred upon school districts or school boards.

(5) The State Department of Education shall make payments to
charter schools for each student in average daily attendance at
the charter school equal to the state share of the adequate
education program payments for each student in average daily
attendance at the school district in which the public charter
school is located. In calculating the local contribution for
purposes of determining the state share of the adequate education
program payments, the department shall deduct the pro rata local
contribution of the school district in which the student resides
as determined in subsection (2)(a) of this section.

SECTION 89. Section 37-151-101, Mississippi Code of 1972, is
amended as follows:

37-151-101. It shall be the duty of the State Department of
Education to file with the State Treasurer and the State Fiscal
Officer such data and information as may be required to enable the
said State Treasurer and State Fiscal Officer to distribute the
common school funds and adequate education program funds by

electronic funds transfer to the several school districts and
charter schools at the time required and provided under the
provisions of this chapter. Such data and information so filed
shall show in detail the amount of funds to which each school
district and charter school is entitled from such common school
fund and adequate education program fund. Such data and
information so filed may be revised from time to time as
necessitated by law. At the time provided by law, the State
Treasurer and the State Fiscal Officer shall distribute to the
several school districts and charter schools the amounts to which
they are entitled from the common school fund and the adequate
education program fund as provided by this chapter. Such
distribution shall be made by electronic funds transfer to the
depositories of the several school districts and charter schools
designated in writing to the State Treasurer based upon the data
and information supplied by the State Department of Education for
such distribution. In such instances, the State Treasurer shall
submit a request for an electronic funds transfer to the State
Fiscal Officer, which shall set forth the purpose, amount and
payees, and shall be in such form as may be approved by the State
Fiscal Officer so as to provide the necessary information as would
be required for a requisition and issuance of a warrant. A copy
of the record of said electronic funds transfers shall be
transmitted by the school district and charter school depositories
to the Treasurer, who shall file duplicates with the State Fiscal Officer. The Treasurer and State Fiscal Officer shall jointly promulgate regulations for the utilization of electronic funds transfers to school districts and charter schools.

SECTION 90. Section 37-151-103, Mississippi Code of 1972, is amended as follows:

37-151-103. (1) Funds due each school district and charter school under the terms of this chapter from the Adequate Education Program Fund shall be paid in the following manner: On the two (2) days prior to the last day of each month, or the next business date after that date, there shall be paid to each school district and charter school, by electronic funds transfer, one-twelfth (1/12) of the funds to which the district or charter school is entitled from funds appropriated for the Adequate Education Program Fund. However, in December those payments shall be made on December 15th or the next business day after that date. All school districts shall process a single monthly payroll with electronic settlement of payroll checks secured through direct deposit of net pay for all school district employees. In addition, the State Department of Education may pay school districts and charter schools from the common school fund and the Adequate Education Program Fund on a date earlier than provided for by this section if it is determined that it is in the best interest of school districts and charter schools to do so.
Provided, however, that if the cash balance in the State General Fund is not adequate on the due date to pay the amounts due to all school districts and charter schools in the state as determined by the State Superintendent of Education, the State Fiscal Officer shall not transfer said funds payable to any school district or districts or charter schools until money is available to pay the amount due to all districts and charter schools.

(2) Notwithstanding any provision of this chapter or any other law requiring the number of children in average daily attendance or the average daily attendance of transported children to be determined on the basis of the preceding year, the State Board of Education is hereby authorized and empowered to make proper adjustments in allotments in cases where major changes in the number of children in average daily attendance or the average daily attendance of transported children occurs from one year to another as a result of changes or alterations in the boundaries of school districts, the sending of children from one county or district to another upon a contract basis, the termination or discontinuance of a contract for the sending of children from one county or district to another, a change in or relocation of attendance centers, or for any other reason which would result in a major decrease or increase in the number of children in average daily attendance or the average daily attendance of transported children during the current school year as compared with the preceding year.
(3) In the event of an inordinately large number of absentees in any school district or charter school as a result of epidemic, natural disaster, or any concerted activity discouraging school attendance, then in such event school attendance for the purposes of determining average daily attendance under the adequate education program shall be based upon the average daily attendance for the preceding school year for such school district or charter school.

SECTION 91. Section 37-57-107, Mississippi Code of 1972, is amended as follows:

37-57-107. (1) Beginning with the tax levy for the 1997 fiscal year and for each fiscal year thereafter, the aggregate receipts from taxes levied for school district purposes pursuant to Sections 37-57-105 and 37-57-1 shall not exceed the aggregate receipts from those sources during any one (1) of the immediately preceding three (3) fiscal years, as determined by the school board, plus an increase not to exceed seven percent (7%). For the purpose of this limitation, the term "aggregate receipts" when used in connection with the amount of funds generated in a preceding fiscal year shall not include excess receipts required by law to be deposited into a special account. However, the term "aggregate receipts" includes any receipts required by law to be paid to a charter school. The additional revenue from the ad valorem tax on any newly constructed properties or any existing properties added to the tax rolls or any properties previously
exempt which were not assessed in the next preceding year may be
excluded from the seven percent (7%) increase limitation set forth
herein. Taxes levied for payment of principal of and interest on
general obligation school bonds issued heretofore or hereafter
shall be excluded from the seven percent (7%) increase limitation
set forth herein. Any additional millage levied to fund any new
program mandated by the Legislature shall be excluded from the
limitation for the first year of the levy and included within such
limitation in any year thereafter. For the purposes of this
section, the term "new program" shall include, but shall not be
limited to, (a) the Early Childhood Education Program required to
commence with the 1986-1987 school year as provided by Section
37-21-7 and any additional millage levied and the revenue
generated therefrom, which is excluded from the limitation for the
first year of the levy, to support the mandated Early Childhood
Education Program shall be specified on the minutes of the school
board and of the governing body making such tax levy; (b) any
additional millage levied and the revenue generated therefrom
which shall be excluded from the limitation for the first year of
the levy, for the purpose of generating additional local
contribution funds required for the adequate education program for
the 2003 fiscal year and for each fiscal year thereafter under
Section 37-151-7(2); and (c) any additional millage levied and the
revenue generated therefrom which shall be excluded from the
limitation for the first year of the levy, for the purpose of
support and maintenance of any agricultural high school which has
been transferred to the control, operation and maintenance of the
school board by the board of trustees of the community college
district under provisions of Section 37-29-272.

(2) The seven percent (7%) increase limitation prescribed in
this section may be increased an additional amount only when the
school board has determined the need for additional revenues and
has held an election on the question of raising the limitation
prescribed in this section. The limitation may be increased only
if three-fifths (3/5) of those voting in the election shall vote
for the proposed increase. The resolution, notice and manner of
holding the election shall be as prescribed by law for the holding
of elections for the issuance of bonds by the respective school
boards. Revenues collected for the fiscal year in excess of the
seven percent (7%) increase limitation pursuant to an election
shall be included in the tax base for the purpose of determining
aggregate receipts for which the seven percent (7%) increase
limitation applies for subsequent fiscal years.

(3) Except as otherwise provided for excess revenues
generated pursuant to an election, if revenues collected as the
result of the taxes levied for the fiscal year pursuant to this
section and Section 37-57-1 exceed the increase limitation, then
it shall be the mandatory duty of the school board of the school
district to deposit such excess receipts over and above the
increase limitation into a special account and credit it to the
fund for which the levy was made. It will be the further duty of such board to hold said funds and invest the same as authorized by law. Such excess funds shall be calculated in the budgets for the school districts for the purpose for which such levies were made, for the succeeding fiscal year. Taxes imposed for the succeeding year shall be reduced by the amount of excess funds available. Under no circumstances shall such excess funds be expended during the fiscal year in which such excess funds are collected.

(4) For the purposes of determining ad valorem tax receipts for a preceding fiscal year under this section, the term "fiscal year" means the fiscal year beginning October 1 and ending September 30.

(5) Beginning with the 2013-2014 school year, each school district in which a charter school is located shall pay to the charter school an amount for each student enrolled in the charter school equal to the ad valorem taxes levied per pupil for the support of the school district in which the charter school is located. The pro rata ad valorem taxes to be transferred to the charter school must include all levies for the support of the school district under Sections 37-57-1 (local contribution to the adequate education program) and 37-57-105 (school district operational levy) but may not include any taxes levied for the retirement of school district bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs. Payments made pursuant to this subsection by
a school district to a charter school must be made before the
expiration of three (3) business days after the funds are
distributed to the school district.

and after July 1, 2013.
