REGULAR SESSION 2016
By: Senator(s) Jackson (11th)
To: Finance

MISSISSIPPI LEGISLATURE

~ OFFICIAL ~
SECTION 1. Sections 1 through 13 of this act shall be known and may be cited as the "Family Savings Initiative Act."

SECTION 2. The purpose of the Family Savings Initiative Act is to provide for the establishment of individual development accounts designed to:

(a) Provide individuals and families with limited means an opportunity to accumulate assets;
(b) Facilitate and mobilize savings;
(c) Promote homeownership, microenterprise development, education, saving for retirement, and automobile purchase; and
(d) Stabilize families and build communities.

SECTION 3. The Legislature hereby finds that:

(a) Americans of most economic classes are having increasing difficulty climbing the economic ladder. Fully, one-half (1/2) of all Americans have negligible or no investable assets just as the price of entry to the economic mainstream, such as the cost of a house, starting a business, an adequate education, establishing a retirement account, or purchasing an automobile, is increasing;

(b) Economic well-being does not come solely from income, spending and consumption, but also requires savings, investment and accumulation of assets, since assets can improve economic stability, connect people with a viable and hopeful future, stimulate development of human and other capital, enable
people to focus and specialize, yield personal and social dividends, and enhance the welfare of offspring;

c) There is an urgent need for new means for Americans to navigate the labor market and to provide incentives and means for employment, upgrading, mobility, and retention;

d) The household savings rate of the United States lags far behind other industrial nations, presenting a barrier to economic growth. The State of Mississippi should develop policies, such as individual development accounts, that promote higher rates of personal savings and net private domestic investment;

e) In the current fiscal environment, the State of Mississippi should invest existing resources in high-yielding initiatives. There is reason to believe that the financial returns, including increased income, tax revenue, and decreased welfare cash assistance, of individual development accounts will far exceed the cost of investment;

f) Hundreds of thousands of Mississippians continue to live in poverty. Poverty is a loss of human resources, an assault on human dignity, and a drain on social and fiscal resources of this state. Traditional public assistance programs, concentrating on income and consumption, have rarely been successful in promoting and supporting the transition to economic self-sufficiency; and
(g) Income-based social policy should be complemented with asset-based social policy, because while income-based policies ensure that consumption needs, including food, childcare, rent, clothing and health care, are met, asset-based policies provide the means to achieve economic self-sufficiency and climb the economic ladder.

**SECTION 4.** As used in Sections 1 through 13 of this act:

organization to distribute as matching funds to other eligible

committee and a procedure to hear, review, and decide in writing
any grievance made by an IDA account holder who disputes a

SECTION 14. Section 27-7-15, Mississippi Code of 1972, is amended as follows:

27-7-15. (1) For the purposes of this article, except as otherwise provided, the term "gross income" means and includes the income of a taxpayer derived from salaries, wages, fees or compensation for service, of whatever kind and in whatever form paid, including income from governmental agencies and subdivisions thereof; or from professions, vocations, trades, businesses, commerce or sales, or renting or dealing in property, or reacquired property; also from annuities, interest, rents, dividends, securities, insurance premiums, reinsurance premiums, considerations for supplemental insurance contracts, or the transaction of any business carried on for gain or profit, or gains, or profits, and income derived from any source whatever and in whatever form paid. The amount of all such items of income shall be included in the gross income for the taxable year in which received by the taxpayer. The amount by which an eligible employee's salary is reduced pursuant to a salary reduction agreement authorized under Section 25-17-5, shall be excluded from the term "gross income" within the meaning of this article.
(2) In determining gross income for the purpose of this section, the following, under regulations prescribed by the commissioner, shall be applicable:

(a) **Dealers in property.** Federal rules, regulations and revenue procedures shall be followed with respect to installment sales unless a transaction results in the shifting of income from inside the state to outside the state.

(b) **Casual sales of property.**

   (i) Prior to January 1, 2001, federal rules, regulations and revenue procedures shall be followed with respect to installment sales except they shall be applied and administered as if H.R. 3594, the Installment Tax Correction Act of 2000 of the 106th Congress, had not been enacted. This provision will generally affect taxpayers, reporting on the accrual method of accounting, entering into installment note agreements on or after December 17, 1999. Any gain or profit resulting from the casual sale of property will be recognized in the year of sale.

   (ii) From and after January 1, 2001, federal rules, regulations and revenue procedures shall be followed with respect to installment sales except as provided in this subparagraph (ii). Gain or profit from the casual sale of property shall be recognized in the year of sale. When a taxpayer recognizes gain on the casual sale of property in which the gain is deferred for federal income tax purposes, a taxpayer may elect to defer the payment of tax resulting from the gain as allowed and
to the extent provided under regulations prescribed by the commissioner. If the payment of the tax is made on a deferred basis, the tax shall be computed based on the applicable rate for the income reported in the year the payment is made. Except as otherwise provided in subparagraph (iii) of this paragraph (b), deferring the payment of the tax shall not affect the liability for the tax. If at any time the installment note is sold, contributed, transferred or disposed of in any manner and for any purpose by the original note holder, or the original note holder is merged, liquidated, dissolved or withdrawn from this state, then all deferred tax payments under this section shall immediately become due and payable.

(iii) If the selling price of the property is reduced by any alteration in the terms of an installment note, including default by the purchaser, the gain to be recognized is recomputed based on the adjusted selling price in the same manner as for federal income tax purposes. The tax on this amount, less the previously paid tax on the recognized gain, is payable over the period of the remaining installments. If the tax on the previously recognized gain has been paid in full to this state, the return on which the payment was made may be amended for this purpose only. The statute of limitations in Section 27-7-49 shall not bar an amended return for this purpose.
(c) **Reserves of insurance companies.** In the case of insurance companies, any amounts in excess of the legally required reserves shall be included as gross income.

(d) **Affiliated companies or persons.** As regards sales, exchanges or payments for services from one to another of affiliated companies or persons or under other circumstances where the relation between the buyer and seller is such that gross proceeds from the sale or the value of the exchange or the payment for services are not indicative of the true value of the subject matter of the sale, exchange or payment for services, the commissioner shall prescribe uniform and equitable rules for determining the true value of the gross income, gross sales, exchanges or payment for services, or require consolidated returns of affiliates.

(e) **Alimony and separate maintenance payments.** The federal rules, regulations and revenue procedures in determining the deductibility and taxability of alimony payments shall be followed in this state.

(f) **Reimbursement for expenses of moving.** There shall be included in gross income (as compensation for services) any amount received or accrued, directly or indirectly, by an individual as a payment for or reimbursement of expenses of moving from one residence to another residence which is attributable to employment or self-employment.
(3) In the case of taxpayers other than residents, gross income includes gross income from sources within this state.

(4) The words "gross income" do not include the following items of income which shall be exempt from taxation under this article:

any law for the benefit or relief of injured or disabled members
of the military or naval forces of the United States.

(f) Income received by any religious denomination or by
any institution or trust for moral or mental improvements,
religious, Bible, tract, charitable, benevolent, fraternal,

for two (2) or more of such purposes, if such income be used
exclusively for carrying out one or more of such purposes.

"taxable in another state" as this term is defined in this
article, derived from business activity conducted outside this
state. Domestic corporations taxable both within and without the
state shall determine Mississippi income on the same basis as

excluded from gross income such portion of actual premiums
received from an individual policyholder as is paid back or
credited to or treated as an abatement of premiums of such
