BEAM shall publish on its website the applications, the proposed
geographic broadband service area illustrated by a shapefile, and
the proposed broadband service speeds for each application that
receives a preliminary determination.

(3) Within thirty (30) days from the date the preliminary
determinations are published on BEAM's website, BEAM shall accept
comments or objections concerning each application and investigate
each of them as appropriate. BEAM shall consider all comments and
objections received and the investigative findings in determining
whether an applicant is eligible for a final determination and
award.

(4) BEAM shall not make a final determination and award to
an applicant if verifiable information is made available that
shows the proposed project includes an area where broadband
services currently are deployed, or where construction of a
network to deploy broadband service is underway by a provider
other than the applicant, and the construction is scheduled to be
completed within one (1) year after the date of the application.

provisions of the State Personnel Board. Additional legal
assistance may be retained in accordance with this subsection (2)
only with the approval of the Attorney General.

(3) BEAM shall provide to the Legislature an annual detailed
report on the status and details of all projects considered and
approved under this act no later than December 15 of each year.
SECTION 10. This act shall take effect and be in force from and after its passage.
