BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. (1) The Mississippi Department of Health shall
establish and administer the Covid-19 Hospital Expanded Capacity
Program for the purpose of providing funds to hospitals that
increased treatment capacity related to the COVID-19 pandemic.
The program shall make grants to hospitals as a reimbursement for
expenses incurred on March 3, 2021, through the effective date of
this act in the following manner:

(a) Funds shall first be expended for the reimbursement
to hospitals for the creation of ICU beds at a maximum amount of
Two Hundred Thousand Dollars ($200,000.00) per bed. If the reimbursement for allowable expenditures submitted by all hospitals exceeds the amount of funds appropriated to this program, then the Department of Health shall allocate the reimbursement to each hospital per ICU bed created.

(b) After such reimbursement is made in paragraph (a) of this subsection, any remaining funds shall be used to reimburse hospitals for the creation of negative pressure beds at a maximum amount of Fifty Thousand dollars ($50,000.00) per bed. If the reimbursement for allowable expenditures submitted by all hospitals exceeds the amount of funds appropriated to this program, then the Department of Health shall allocate the reimbursement to each hospital per negative pressure bed created.

(2) The Department of Health shall:

(a) Promulgate rules and regulations necessary to implement the purposes of this act.

(b) Require recipients of funds under this program to certify that the reimbursement for the creation of the intensive care units or negative pressure room is for allowable expenditures under the American Rescue Plan Act (ARPA) of 2021, Public Law 117-2, which amends Title VI of the Social Security Act; and its implementing guidelines, guidance, rules, regulations and/or other criteria, as may be amended or supplemented from time to time, by the United States Department of the Treasury.
(c) Certify to the Department of Finance and Administration that each expenditure of the funds appropriated to the office under this act is in compliance with the guidelines, guidance, rules, regulations and/or other criteria, as may be amended from time to time, of the United States Department of the Treasury regarding the use of monies from the Coronavirus State Fiscal Recovery Fund in Section 9901 of ARPA.

(3) The department shall not:

(a) Reimburse hospitals for funds expended by the "Mississippi ICU Infrastructure Act," Senate Bill No. 3055, 2020 Regular Session.

(b) Reimburse hospitals for professional fees expended in the creation of the beds.

(4) The Department of Health may retain up to One Hundred Fifty Thousand Dollars ($150,000.00) of the funds appropriated to the program established in this act to pay reasonable expenses incurred in the administration of the program.

(5) There is created a special fund in the State Treasury, to be known as the "Covid-19 Hospital Expanded Capacity Program Fund," from which the awards authorized under the Covid-19 Hospital Expanded Capacity Program shall be disbursed by the Department of Health.

(6) (a) All monies disbursed from the fund created in subsection (5) of this section shall be in compliance with the guidelines, guidance, rules, regulations or other criteria, as may

the Treasury regarding the use of monies received by or on behalf
of the State of Mississippi through the Coronavirus State Fiscal
Recovery Fund established by the American Rescue Plan Act of 2021
(Public Law No. 117-2). Unexpended amounts remaining in the funds
at the end of a fiscal year shall not lapse into the Coronavirus
State Fiscal Recovery Fund or the State General Fund, and any
investment earnings or interest earned on amounts in the program
fund shall be deposited to the credit of Covid-19 Hospital
Expanded Capacity Program Fund; and

(b) If there are unobligated Coronavirus State Fiscal
Recovery Fund monies remaining in the fund created in this act, on
the later of December 17, 2024, or fourteen (14) days prior to the
fund obligation deadline provided by the federal government, the
Department of Finance and Administration shall transfer these
unobligated balances to the Coronavirus State Fiscal Recovery
Fund. The Department of Finance and Administration shall then
transfer the unobligated balance of Coronavirus State Fiscal
Recovery Funds from the Coronavirus State Fiscal Recovery Fund to
the State and School Employees' Life and Health Insurance Fund for
an amount not to exceed the lesser of Sixty Million Dollars
($60,000,000.00) or the amount of allowable ARPA expenditures, by
no later than December 31, 2024, or on the date of the fund
obligation deadline provided by the federal government. The
Department of Finance and Administration shall then transfer all
remaining unobligated balances of Coronavirus State Fiscal
Recovery Funds from the Coronavirus State Fiscal Recovery Fund to
the Unemployment Compensation Fund up to the ARPA allowable
amount, by no later than December 31, 2024, or on the date of the
fund obligation deadline provided by the federal government.

(7) The use of funds allocated under this program shall be
subject to audit by the United States Department of the Treasury's
Office of Inspector General and the Mississippi Office of the
State Auditor. Each person receiving funds under these programs
found to be fully or partially noncompliant with the requirements
in this act shall return to the state all or a portion of the

for both ICU beds and negative pressure beds, and the number of
ICU beds and negative pressure beds that were provided a

(9) This act shall stand repealed on July 1, 2026.

The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (i) shall not exceed sixty (60) beds. If the skilled nursing facility authorized by the certificate of need issued under this paragraph is not constructed and fully operational within eighteen (18) months after July 1, 1994, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need, if it is still outstanding, and shall not issue a license for the skilled nursing

This written agreement by the owner of the facility shall be a condition of licensure of the facility, and the agreement shall be fully binding on any subsequent owner of the facility if the ownership of the facility is transferred at any time after July 1, 2001. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the facility for participation in the Medicaid program. If the facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the written agreement.

This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the nursing facility if the ownership of the nursing facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify any of the beds in the nursing facility for participation in the Medicaid program. If the nursing facility violates the terms of the written agreement by admitting or keeping in the nursing facility on a regular or continuing basis any patients who are participating in the Medicaid program, the State Department of
Health shall revoke the license of the nursing facility, at the time that the department determines, after a hearing complying with due process, that the nursing facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 2001, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18) months after July 1, 2001, the State Department of Health, after a hearing complying with due process, shall revoke the certificate of need if it is still outstanding, and the department shall not issue a license for the nursing facility at any time after the eighteen-month period. However, if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(n) The department may issue a certificate of need for the new construction, addition or conversion of skilled nursing facility beds in Madison County, provided that the recipient of the certificate of need agrees in writing that the skilled nursing
facility will not at any time participate in the Medicaid program (Section 43-13-101 et seq.) or admit or keep any patients in the skilled nursing facility who are participating in the Medicaid program. This written agreement by the recipient of the certificate of need shall be fully binding on any subsequent owner of the skilled nursing facility, if the ownership of the facility is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (n), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (n) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph
is not issued within twelve (12) months after July 1, 1998, the
department shall deny the application for the certificate of need
and shall not issue the certificate of need at any time after the
twelve-month period, unless the issuance is contested. If the
certificate of need is issued and substantial construction of the
nursing facility beds has not commenced within eighteen (18)
months after July 1, 1998, the State Department of Health, after a
hearing complying with due process, shall revoke the certificate
of need if it is still outstanding, and the department shall not
issue a license for the nursing facility at any time after the
eighteen-month period. However, if the issuance of the
certificate of need is contested, the department shall require
substantial construction of the nursing facility beds within six
(6) months after final adjudication on the issuance of the
certificate of need.

(o) The department may issue a certificate of need for
the new construction, addition or conversion of skilled nursing
facility beds in Leake County, provided that the recipient of the
certificate of need agrees in writing that the skilled nursing
facility will not at any time participate in the Medicaid program
(Section 43-13-101 et seq.) or admit or keep any patients in the
skilled nursing facility who are participating in the Medicaid
program. This written agreement by the recipient of the
certificate of need shall be fully binding on any subsequent owner
of the skilled nursing facility, if the ownership of the facility
is transferred at any time after the issuance of the certificate of need. Agreement that the skilled nursing facility will not participate in the Medicaid program shall be a condition of the issuance of a certificate of need to any person under this paragraph (o), and if such skilled nursing facility at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the skilled nursing facility, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this paragraph and in the written agreement by the recipient of the certificate of need. The total number of nursing facility beds that may be authorized by any certificate of need issued under this paragraph (o) shall not exceed sixty (60) beds. If the certificate of need authorized under this paragraph is not issued within twelve (12) months after July 1, 2001, the department shall deny the application for the certificate of need and shall not issue the certificate of need at any time after the twelve-month period, unless the issuance is contested. If the certificate of need is issued and substantial construction of the nursing facility beds has not commenced within eighteen (18)
months after July 1, 2001, the State Department of Health, after a
hearing complying with due process, shall revoke the certificate
of need if it is still outstanding, and the department shall not
issue a license for the nursing facility at any time after the
eighteen-month period. However, if the issuance of the
certificate of need is contested, the department shall require
substantial construction of the nursing facility beds within six
(6) months after final adjudication on the issuance of the
certificate of need.
(p) The department may issue a certificate of need for
the construction of a municipally owned nursing facility within
the Town of Belmont in Tishomingo County, not to exceed sixty (60)
beds, provided that the recipient of the certificate of need
agrees in writing that the skilled nursing facility will not at
any time participate in the Medicaid program (Section 43-13-101 et
seq.) or admit or keep any patients in the skilled nursing
facility who are participating in the Medicaid program. This
written agreement by the recipient of the certificate of need
shall be fully binding on any subsequent owner of the skilled
nursing facility, if the ownership of the facility is transferred
at any time after the issuance of the certificate of need.
Agreement that the skilled nursing facility will not participate
in the Medicaid program shall be a condition of the issuance of a
certificate of need to any person under this paragraph (p), and if
such skilled nursing facility at any time after the issuance of
the certificate of need, regardless of the ownership of the
facility, participates in the Medicaid program or admits or keeps
any patients in the facility who are participating in the Medicaid
program, the State Department of Health shall revoke the
certificate of need, if it is still outstanding, and shall deny or
revoke the license of the skilled nursing facility, at the time
that the department determines, after a hearing complying with due
process, that the facility has failed to comply with any of the
conditions upon which the certificate of need was issued, as
provided in this paragraph and in the written agreement by the
recipient of the certificate of need. The provision of Section
41-7-193(1) regarding substantial compliance of the projection of
need as reported in the current State Health Plan is waived for
the purposes of this paragraph. If the certificate of need
authorized under this paragraph is not issued within twelve (12)
months after July 1, 1998, the department shall deny the
application for the certificate of need and shall not issue the
certificate of need at any time after the twelve-month period,
unless the issuance is contested. If the certificate of need is
issued and substantial construction of the nursing facility beds
has not commenced within eighteen (18) months after July 1, 1998,
the State Department of Health, after a hearing complying with due
process, shall revoke the certificate of need if it is still
outstanding, and the department shall not issue a license for the
nursing facility at any time after the eighteen-month period.
However, if the issuance of the certificate of need is contested, the department shall require substantial construction of the nursing facility beds within six (6) months after final adjudication on the issuance of the certificate of need.

(q) (i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next four (4) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each county in the state having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, in the manner provided in this paragraph (q). The total number of nursing facility beds that may be authorized by any certificate of need authorized under this paragraph (q) shall not exceed sixty (60) beds.

(ii) Subject to the provisions of subparagraph (v), during each of the next four (4) fiscal years, the department shall issue six (6) certificates of need for new nursing facility beds, as follows: During fiscal years 2000, 2001 and 2002, one certificate of need shall be issued for new nursing facility beds in the county in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan that has the highest need in the district for those beds; and two certificates of need shall be issued for new nursing facility beds in the two (2) counties from the state at large that have the highest need in the state for those beds, when considering the
need on a statewide basis and without regard to the Long-Term Care Planning Districts in which the counties are located. During fiscal year 2003, one (1) certificate of need shall be issued for new nursing facility beds in any county having a need for fifty (50) or more additional nursing facility beds, as shown in the fiscal year 1999 State Health Plan, that has not received a certificate of need under this paragraph (q) during the three (3) previous fiscal years. During fiscal year 2000, in addition to the six (6) certificates of need authorized in this subparagraph, the department also shall issue a certificate of need for new nursing facility beds in Amite County and a certificate of need for new nursing facility beds in Carroll County.

(iii) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for nursing facility beds in each Long-Term Care Planning District during each fiscal year shall first be available for nursing facility beds in the county in the district having the highest need for those beds, as shown in the fiscal year 1999 State Health Plan. If there are no applications for a certificate of need for nursing facility beds in the county having the highest need for those beds by the date specified by the department, then the certificate of need shall be available for nursing facility beds in other counties in the district in descending order of the need for those beds, from the county with the second highest need to
the county with the lowest need, until an application is received
for nursing facility beds in an eligible county in the district.

(iv) Subject to the provisions of subparagraph (v), the certificate of need issued under subparagraph (ii) for
nursing facility beds in the two (2) counties from the state at
large during each fiscal year shall first be available for nursing
facility beds in the two (2) counties that have the highest need
in the state for those beds, as shown in the fiscal year 1999
State Health Plan, when considering the need on a statewide basis
and without regard to the Long-Term Care Planning Districts in
which the counties are located. If there are no applications for
a certificate of need for nursing facility beds in either of the
two (2) counties having the highest need for those beds on a
statewide basis by the date specified by the department, then the
certificate of need shall be available for nursing facility beds
in other counties from the state at large in descending order of
the need for those beds on a statewide basis, from the county with
the second highest need to the county with the lowest need, until
an application is received for nursing facility beds in an
eligible county from the state at large.

(v) If a certificate of need is authorized to be
issued under this paragraph (q) for nursing facility beds in a
county on the basis of the need in the Long-Term Care Planning
District during any fiscal year of the four-year period, a
certificate of need shall not also be available under this
paragraph (q) for additional nursing facility beds in that county on the basis of the need in the state at large, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in the state at large for that fiscal year. After a certificate of need has been issued under this paragraph (q) for nursing facility beds in a county during any fiscal year of the four-year period, a certificate of need shall not be available again under this paragraph (q) for additional nursing facility beds in that county during the four-year period, and that county shall be excluded in determining which counties have the highest need for nursing facility beds in succeeding fiscal years.

(vi) If more than one (1) application is made for a certificate of need for nursing home facility beds available under this paragraph (q), in Yalobusha, Newton or Tallahatchie County, and one (1) of the applicants is a county-owned hospital located in the county where the nursing facility beds are available, the department shall give priority to the county-owned hospital in granting the certificate of need if the following conditions are met:

1. The county-owned hospital fully meets all applicable criteria and standards required to obtain a certificate of need for the nursing facility beds; and

2. The county-owned hospital's qualifications for the certificate of need, as shown in its application and as
determined by the department, are at least equal to the qualifications of the other applicants for the certificate of need.

(r) (i) Beginning on July 1, 1999, the State Department of Health shall issue certificates of need during each of the next two (2) fiscal years for the construction or expansion of nursing facility beds or the conversion of other beds to nursing facility beds in each of the four (4) Long-Term Care Planning Districts designated in the fiscal year 1999 State Health Plan, to provide care exclusively to patients with Alzheimer's disease.

(ii) Not more than twenty (20) beds may be authorized by any certificate of need issued under this paragraph (r), and not more than a total of sixty (60) beds may be authorized in any Long-Term Care Planning District by all certificates of need issued under this paragraph (r). However, the total number of beds that may be authorized by all certificates of need issued under this paragraph (r) during any fiscal year shall not exceed one hundred twenty (120) beds, and the total number of beds that may be authorized in any Long-Term Care Planning District during any fiscal year shall not exceed forty (40) beds. Of the certificates of need that are issued for each Long-Term Care Planning District during the next two (2) fiscal years, at least one (1) shall be issued for beds in the northern part of the district, at least one (1) shall be issued
for beds in the central part of the district, and at least one (1)
shall be issued for beds in the southern part of the district.

(iii) The State Department of Health, in
consultation with the Department of Mental Health and the Division
of Medicaid, shall develop and prescribe the staffing levels,
space requirements and other standards and requirements that must
be met with regard to the nursing facility beds authorized under
this paragraph (r) to provide care exclusively to patients with
Alzheimer's disease.

(s) The State Department of Health may issue a
certificate of need to a nonprofit skilled nursing facility using
the Green House model of skilled nursing care and located in Yazoo
City, Yazoo County, Mississippi, for the construction, expansion
or conversion of not more than nineteen (19) nursing facility
beds. For purposes of this paragraph (s), the provisions of
Section 41-7-193(1) requiring substantial compliance with the
projection of need as reported in the current State Health Plan
and the provisions of Section 41-7-197 requiring a formal
certificate of need hearing process are waived. There shall be no
prohibition or restrictions on participation in the Medicaid
program for the person receiving the certificate of need
authorized under this paragraph (s).

(t) The State Department of Health shall issue
certificates of need to the owner of a nursing facility in
operation at the time of Hurricane Katrina in Hancock County that
was not operational on December 31, 2005, because of damage sustained from Hurricane Katrina to authorize the following: (i) the construction of a new nursing facility in Harrison County; (ii) the relocation of forty-nine (49) nursing facility beds from the Hancock County facility to the new Harrison County facility; (iii) the establishment of not more than twenty (20) non-Medicaid nursing facility beds at the Hancock County facility; and (iv) the establishment of not more than twenty (20) non-Medicaid beds at the new Harrison County facility. The certificates of need that authorize the non-Medicaid nursing facility beds under subparagraphs (iii) and (iv) of this paragraph (t) shall be subject to the following conditions: The owner of the Hancock County facility and the new Harrison County facility must agree in writing that no more than fifty (50) of the beds at the Hancock County facility and no more than forty-nine (49) of the beds at the Harrison County facility will be certified for participation in the Medicaid program, and that no claim will be submitted for Medicaid reimbursement for more than fifty (50) patients in the Hancock County facility in any month, or for more than forty-nine (49) patients in the Harrison County facility in any month, or for any patient in either facility who is in a bed that is not Medicaid-certified. This written agreement by the owner of the nursing facilities shall be a condition of the issuance of the certificates of need under this paragraph (t), and the agreement shall be fully binding on any later owner or owners of either
facility if the ownership of either facility is transferred at any
time after the certificates of need are issued. After this
written agreement is executed, the Division of Medicaid and the
State Department of Health shall not certify more than fifty (50)
of the beds at the Hancock County facility or more than forty-nine
(49) of the beds at the Harrison County facility for participation
in the Medicaid program. If the Hancock County facility violates
the terms of the written agreement by admitting or keeping in the
facility on a regular or continuing basis more than fifty (50)
patients who are participating in the Medicaid program, or if the
Harrison County facility violates the terms of the written
agreement by admitting or keeping in the facility on a regular or
continuing basis more than forty-nine (49) patients who are
participating in the Medicaid program, the State Department of
Health shall revoke the license of the facility that is in
violation of the agreement, at the time that the department
determines, after a hearing complying with due process, that the
facility has violated the agreement.

(u) The State Department of Health shall issue a
certificate of need to a nonprofit venture for the establishment,
construction and operation of a skilled nursing facility of not
more than sixty (60) beds to provide skilled nursing care for
ventilator dependent or otherwise medically dependent pediatric
patients who require medical and nursing care or rehabilitation
services to be located in a county in which an academic medical
center and a children's hospital are located, and for any
collection and for the acquisition of equipment related to those
beds. The facility shall be authorized to keep such ventilator
dependent or otherwise medically dependent pediatric patients
beyond age twenty-one (21) in accordance with regulations of the
State Board of Health. For purposes of this paragraph (u), the
provisions of Section 41-7-193(1) requiring substantial compliance
with the projection of need as reported in the current State
Health Plan are waived, and the provisions of Section 41-7-197
requiring a formal certificate of need hearing process are waived.
The beds authorized by this paragraph shall be counted as
pediatric skilled nursing facility beds for health planning
purposes under Section 41-7-171 et seq. There shall be no
prohibition of or restrictions on participation in the Medicaid
program for the person receiving the certificate of need
authorized by this paragraph.
(3) The State Department of Health may grant approval for
and issue certificates of need to any person proposing the new
construction of, addition to, conversion of beds of or expansion
of any health care facility defined in subparagraph (x)
(psychiatric residential treatment facility) of Section
41-7-173(h). The total number of beds which may be authorized by
such certificates of need shall not exceed three hundred
thirty-four (334) beds for the entire state.
(a) Of the total number of beds authorized under this subsection, the department shall issue a certificate of need to a privately owned psychiatric residential treatment facility in Simpson County for the conversion of sixteen (16) intermediate care facility for the mentally retarded (ICF-MR) beds to psychiatric residential treatment facility beds, provided that facility agrees in writing that the facility shall give priority for the use of those sixteen (16) beds to Mississippi residents who are presently being treated in out-of-state facilities.

(b) Of the total number of beds authorized under this subsection, the department may issue a certificate or certificates of need for the construction or expansion of psychiatric residential treatment facility beds or the conversion of other beds to psychiatric residential treatment facility beds in Warren County, not to exceed sixty (60) psychiatric residential treatment facility beds, provided that the facility agrees in writing that no more than thirty (30) of the beds at the psychiatric residential treatment facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.) for the use of any patients other than those who are participating only in the Medicaid program of another state, and that no claim will be submitted to the Division of Medicaid for Medicaid reimbursement for more than thirty (30) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is
not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than thirty (30) of the beds in the psychiatric residential treatment facility for participation in the Medicaid program for the use of any patients other than those who are participating only in the Medicaid program of another state. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than thirty (30) patients who are participating in the Mississippi Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

The State Department of Health, on or before July 1, 2002, shall transfer the certificate of need authorized under the authority of this paragraph (b), or reissue the certificate of need if it has expired, to River Region Health System.
Of the total number of beds authorized under this subsection, the department shall issue a certificate of need to a hospital currently operating Medicaid-certified acute psychiatric beds for adolescents in DeSoto County, for the establishment of a forty-bed psychiatric residential treatment facility in DeSoto County, provided that the hospital agrees in writing (i) that the hospital shall give priority for the use of those forty (40) beds to Mississippi residents who are presently being treated in out-of-state facilities, and (ii) that no more than fifteen (15) of the beds at the psychiatric residential treatment facility will be certified for participation in the Medicaid program (Section 43-13-101 et seq.), and that no claim will be submitted for Medicaid reimbursement for more than fifteen (15) patients in the psychiatric residential treatment facility in any day or for any patient in the psychiatric residential treatment facility who is in a bed that is not Medicaid-certified. This written agreement by the recipient of the certificate of need shall be a condition of the issuance of the certificate of need under this paragraph, and the agreement shall be fully binding on any subsequent owner of the psychiatric residential treatment facility if the ownership of the facility is transferred at any time after the issuance of the certificate of need. After this written agreement is executed, the Division of Medicaid and the State Department of Health shall not certify more than fifteen (15) of the beds in the psychiatric residential treatment facility for participation in
the Medicaid program. If the psychiatric residential treatment facility violates the terms of the written agreement by admitting or keeping in the facility on a regular or continuing basis more than fifteen (15) patients who are participating in the Medicaid program, the State Department of Health shall revoke the license of the facility, at the time that the department determines, after a hearing complying with due process, that the facility has violated the condition upon which the certificate of need was issued, as provided in this paragraph and in the written agreement.

(d) Of the total number of beds authorized under this subsection, the department may issue a certificate or certificates of need for the construction or expansion of psychiatric residential treatment facility beds or the conversion of other beds to psychiatric treatment facility beds, not to exceed thirty (30) psychiatric residential treatment facility beds, in either Alcorn, Tishomingo, Prentiss, Lee, Itawamba, Monroe, Chickasaw, Pontotoc, Calhoun, Lafayette, Union, Benton or Tippah County.

(e) Of the total number of beds authorized under this subsection (3) the department shall issue a certificate of need to a privately owned, nonprofit psychiatric residential treatment facility in Hinds County for an eight-bed expansion of the facility, provided that the facility agrees in writing that the facility shall give priority for the use of those eight (8) beds
to Mississippi residents who are presently being treated in out-of-state facilities.

(f) The department shall issue a certificate of need to a one-hundred-thirty-four-bed specialty hospital located on twenty-nine and forty-four one-hundredths (29.44) commercial acres at 5900 Highway 39 North in Meridian (Lauderdale County), Mississippi, for the addition, construction or expansion of child/adolescent psychiatric residential treatment facility beds in Lauderdale County. As a condition of issuance of the certificate of need under this paragraph, the facility shall give priority in admissions to the child/adolescent psychiatric residential treatment facility beds authorized under this paragraph to patients who otherwise would require out-of-state placement. The Division of Medicaid, in conjunction with the Department of Human Services, shall furnish the facility a list of all out-of-state patients on a quarterly basis. Furthermore, notice shall also be provided to the parent, custodial parent or guardian of each out-of-state patient notifying them of the priority status granted by this paragraph. For purposes of this paragraph, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of child/adolescent psychiatric residential treatment facility beds that may be authorized under the authority of this paragraph shall be sixty (60) beds. There shall be no prohibition or restrictions
on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this paragraph or for the beds converted pursuant to the authority of that certificate of need.

(4) (a) From and after March 25, 2021, the department may issue a certificate of need to any person for the new construction of any hospital, psychiatric hospital or chemical dependency hospital that will contain any child/adolescent psychiatric or child/adolescent chemical dependency beds, or for the conversion of any other health care facility to a hospital, psychiatric hospital or chemical dependency hospital that will contain any child/adolescent psychiatric or child/adolescent chemical dependency beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person(s) receiving the certificate(s) of need authorized under this paragraph (a) or for the beds converted pursuant to the authority of that certificate of need. In issuing any new certificate of need for any child/adolescent psychiatric or child/adolescent chemical dependency beds, either by new construction or conversion of beds of another category, the department shall give preference to beds which will be located in an area of the state which does not have such beds located in it, and to a location more than sixty-five (65) miles from existing beds. Upon receiving 2020 census data, the department may amend the State Health Plan regarding child/adolescent psychiatric and
child/adolescent chemical dependency beds to reflect the need based on new census data.

(ii) The department may issue a certificate of need for the conversion of existing beds in a county hospital in Choctaw County from acute care beds to child/adolescent chemical dependency beds. For purposes of this subparagraph (ii), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under authority of this subparagraph shall not exceed twenty (20) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(iii) The department may issue a certificate or certificates of need for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in Warren County. For purposes of this subparagraph (iii), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed twenty (20) beds.
There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the person receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

If by January 1, 2002, there has been no significant commencement of construction of the beds authorized under this subparagraph (iii), or no significant action taken to convert existing beds to the beds authorized under this subparagraph, then the certificate of need that was previously issued under this subparagraph shall expire. If the previously issued certificate of need expires, the department may accept applications for issuance of another certificate of need for the beds authorized under this subparagraph, and may issue a certificate of need to authorize the construction, expansion or conversion of the beds authorized under this subparagraph.

(iv) The department shall issue a certificate of need to the Region 7 Mental Health/Retardation Commission for the construction or expansion of child/adolescent psychiatric beds or the conversion of other beds to child/adolescent psychiatric beds in any of the counties served by the commission. For purposes of this subparagraph (iv), the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived. The total number of beds that may be authorized under the authority of this
paragraph shall not exceed twenty (20) beds. There shall be no

prohibition or restrictions on participation in the Medicaid

program (Section 43-13-101 et seq.) for the person receiving the
certificate of need authorized under this subparagraph or for the
beds converted pursuant to the authority of that certificate of

(v) The department may issue a certificate of need
to any county hospital located in Leflore County for the
construction or expansion of adult psychiatric beds or the
conversion of other beds to adult psychiatric beds, not to exceed
twenty (20) beds, provided that the recipient of the certificate
of need agrees in writing that the adult psychiatric beds will not
at any time be certified for participation in the Medicaid program
and that the hospital will not admit or keep any patients who are
participating in the Medicaid program in any of such adult
psychiatric beds. This written agreement by the recipient of the
certificate of need shall be fully binding on any subsequent owner
of the hospital if the ownership of the hospital is transferred at
any time after the issuance of the certificate of need. Agreement
that the adult psychiatric beds will not be certified for
participation in the Medicaid program shall be a condition of the
issuance of a certificate of need to any person under this
subparagraph (v), and if such hospital at any time after the
issuance of the certificate of need, regardless of the ownership
of the hospital, has any of such adult psychiatric beds certified
for participation in the Medicaid program or admits or keeps any Medicaid patients in such adult psychiatric beds, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the hospital at the time that the department determines, after a hearing complying with due process, that the hospital has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subparagraph and in the written agreement by the recipient of the certificate of need.

(vi) The department may issue a certificate or certificates of need for the expansion of child psychiatric beds or the conversion of other beds to child psychiatric beds at the University of Mississippi Medical Center. The total number of beds that may be authorized under the authority of this subparagraph shall not exceed fifteen (15) beds. There shall be no prohibition or restrictions on participation in the Medicaid program (Section 43-13-101 et seq.) for the hospital receiving the certificate of need authorized under this subparagraph or for the beds converted pursuant to the authority of that certificate of need.

(b) From and after July 1, 1990, no hospital, psychiatric hospital or chemical dependency hospital shall be
authorized to add any child/adolescent psychiatric or
child/adolescent chemical dependency beds or convert any beds of
another category to child/adolescent psychiatric or
child/adolescent chemical dependency beds without a certificate of
need under the authority of subsection (1)(c) and subsection
(4)(a) of this section.

(5) The department may issue a certificate of need to a
county hospital in Winston County for the conversion of fifteen
(15) acute care beds to geriatric psychiatric care beds.

(6) The State Department of Health shall issue a certificate
of need to a Mississippi corporation qualified to manage a
long-term care hospital as defined in Section 41-7-173(h)(xii) in
Harrison County, not to exceed eighty (80) beds, including any
necessary renovation or construction required for licensure and
certification, provided that the recipient of the certificate of
need agrees in writing that the long-term care hospital will not
at any time participate in the Medicaid program (Section 43-13-101
et seq.) or admit or keep any patients in the long-term care
hospital who are participating in the Medicaid program. This
written agreement by the recipient of the certificate of need
shall be fully binding on any subsequent owner of the long-term
care hospital, if the ownership of the facility is transferred at
any time after the issuance of the certificate of need. Agreement
that the long-term care hospital will not participate in the
Medicaid program shall be a condition of the issuance of a
certificate of need to any person under this subsection (6), and if such long-term care hospital at any time after the issuance of the certificate of need, regardless of the ownership of the facility, participates in the Medicaid program or admits or keeps any patients in the facility who are participating in the Medicaid program, the State Department of Health shall revoke the certificate of need, if it is still outstanding, and shall deny or revoke the license of the long-term care hospital, at the time that the department determines, after a hearing complying with due process, that the facility has failed to comply with any of the conditions upon which the certificate of need was issued, as provided in this subsection and in the written agreement by the recipient of the certificate of need. For purposes of this subsection, the provisions of Section 41-7-193(1) requiring substantial compliance with the projection of need as reported in the current State Health Plan are waived.

(7) The State Department of Health may issue a certificate of need to any hospital in the state to utilize a portion of its beds for the "swing-bed" concept. Any such hospital must be in conformance with the federal regulations regarding such swing-bed concept at the time it submits its application for a certificate of need to the State Department of Health, except that such hospital may have more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program. Any
hospital meeting all federal requirements for participation in the swing-bed program which receives such certificate of need shall render services provided under the swing-bed concept to any patient eligible for Medicare (Title XVIII of the Social Security Act) who is certified by a physician to be in need of such services, and no such hospital shall permit any patient who is eligible for both Medicaid and Medicare or eligible only for Medicaid to stay in the swing beds of the hospital for more than thirty (30) days per admission unless the hospital receives prior approval for such patient from the Division of Medicaid, Office of the Governor. Any hospital having more licensed beds or a higher average daily census (ADC) than the maximum number specified in federal regulations for participation in the swing-bed program which receives such certificate of need shall develop a procedure to ensure that before a patient is allowed to stay in the swing beds of the hospital, there are no vacant nursing home beds available for that patient located within a fifty-mile radius of the hospital. When any such hospital has a patient staying in the swing beds of the hospital and the hospital receives notice from a nursing home located within such radius that there is a vacant bed available for that patient, the hospital shall transfer the patient to the nursing home within a reasonable time after receipt of the notice. Any hospital which is subject to the requirements of the two (2) preceding sentences of this subsection may be suspended from participation in the swing-bed program for a
reasonable period of time by the State Department of Health if the
department, after a hearing complying with due process, determines
that the hospital has failed to comply with any of those
requirements.

(8) The Department of Health shall not grant approval for or
issue a certificate of need to any person proposing the new
construction of, addition to or expansion of a health care
facility as defined in subparagraph (viii) of Section 41-7-173(h),
except as hereinafter provided: The department may issue a
certificate of need to a nonprofit corporation located in Madison
County, Mississippi, for the construction, expansion or conversion
of not more than twenty (20) beds in a community living program
for developmentally disabled adults in a facility as defined in
subparagraph (viii) of Section 41-7-173(h). For purposes of this
subsection (8), the provisions of Section 41-7-193(1) requiring
substantial compliance with the projection of need as reported in
the current State Health Plan and the provisions of Section
41-7-197 requiring a formal certificate of need hearing process
are waived. There shall be no prohibition or restrictions on
participation in the Medicaid program for the person receiving the
certificate of need authorized under this subsection (8).

(9) The Department of Health shall not grant approval for or
issue a certificate of need to any person proposing the
establishment of, or expansion of the currently approved territory
of, or the contracting to establish a home office, subunit or
branch office within the space operated as a health care facility as defined in Section 41-7-173(h)(i) through (viii) by a health care facility as defined in subparagraph (ix) of Section 41-7-173(h).

(10) Health care facilities owned and/or operated by the state or its agencies are exempt from the restraints in this section against issuance of a certificate of need if such addition or expansion consists of repairing or renovation necessary to comply with the state licensure law. This exception shall not apply to the new construction of any building by such state facility. This exception shall not apply to any health care facilities owned and/or operated by counties, municipalities, districts, unincorporated areas, other defined persons, or any combination thereof.

(11) The new construction, renovation or expansion of or addition to any health care facility defined in subparagraph (ii) (psychiatric hospital), subparagraph (iv) (skilled nursing facility), subparagraph (vi) (intermediate care facility), subparagraph (viii) (intermediate care facility for the mentally retarded) and subparagraph (x) (psychiatric residential treatment facility) of Section 41-7-173(h) which is owned by the State of Mississippi and under the direction and control of the State Department of Mental Health, and the addition of new beds or the conversion of beds from one category to another in any such defined health care facility which is owned by the State of Mississippi.
Mississippi and under the direction and control of the State Department of Mental Health, shall not require the issuance of a certificate of need under Section 41-7-171 et seq., notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(12) The new construction, renovation or expansion of or addition to any veterans homes or domiciliaries for eligible veterans of the State of Mississippi as authorized under Section 35-1-19 shall not require the issuance of a certificate of need, notwithstanding any provision in Section 41-7-171 et seq. to the contrary.

(13) The repair or the rebuilding of an existing, operating health care facility that sustained significant damage from a natural disaster that occurred after April 15, 2014, in an area that is proclaimed a disaster area or subject to a state of emergency by the Governor or by the President of the United States shall be exempt from all of the requirements of the Mississippi Certificate of Need Law (Section 41-7-171 et seq.) and any and all rules and regulations promulgated under that law, subject to the following conditions:

(a) The repair or the rebuilding of any such damaged health care facility must be within one (1) mile of the pre-disaster location of the campus of the damaged health care facility, except that any temporary post-disaster health care
facility operating location may be within five (5) miles of the
pre-disaster location of the damaged health care facility;

(b) The repair or the rebuilding of the damaged health
care facility (i) does not increase or change the complement of
its bed capacity that it had before the Governor's or the
President's proclamation, (ii) does not increase or change its
levels and types of health care services that it provided before
the Governor's or the President's proclamation, and (iii) does not
rebuild in a different county; however, this paragraph does not
restrict or prevent a health care facility from decreasing its bed
capacity that it had before the Governor's or the President's
proclamation, or from decreasing the levels of or decreasing or
eliminating the types of health care services that it provided
before the Governor's or the President's proclamation, when the
damaged health care facility is repaired or rebuilt;

(c) The exemption from Certificate of Need Law provided
under this subsection (13) is valid for only five (5) years from
the date of the Governor's or the President's proclamation. If
actual construction has not begun within that five-year period,
the exemption provided under this subsection is inapplicable; and

(d) The Division of Health Facilities Licensure and
Certification of the State Department of Health shall provide the
same oversight for the repair or the rebuilding of the damaged
health care facility that it provides to all health care facility
construction projects in the state.
