MISSISSIPPI LEGISLATURE

By: Senator(s) Blackwell, Boyd, Barnett, Frazier, Jackson (11th), Simmons (13th), Thomas To: Rules

SENATE CONCURRENT RESOLUTION NO. 541

1 A CONCURRENT RESOLUTION RECOGNIZING JANUARY 2022 AS "CERVICAL 2 HEALTH AWARENESS MONTH IN MISSISSIPPI," ACKNOWLEDGING THAT 3 CERVICAL CANCER IS DETECTABLE AND PREVENTABLE THROUGH REGULAR SCREENING, AND ENCOURAGING ALL WOMEN TO SCHEDULE WELL-WOMAN EXAMS 4 5 AND PAP+HPV (CO-TESTING) CERVICAL CANCER SCREENING. 6 WHEREAS, since the introduction of the life-saving Pap test 7 in the 1940s, cervical cancer rates have steadily declined in the 8 United States; and 9 WHEREAS, however, cervical cancer continues to affect women 10 at an alarming rate. Every hour in the United States, a woman is diagnosed with cervical cancer, and every two hours a woman will 11 12 die of this disease; and WHEREAS, in 2021, the American Cancer Society estimated 13 14,480 new cases in the United States and 4,280 deaths from 14 15 cervical cancer; and WHEREAS, cervical cancer is not only treatable but can be 16 17 preventable through regular screening; and WHEREAS, Pap+HPV (co-testing) is the most widely adopted and 18 19 preferred method for cervical cancer screening in the United S

States, and recent publications representative of clinical practice in the United States have shown that co-testing misses the fewest cancer/precursors and also indicate that 95 percent of cervical cancer has been detected by co-testing; and

24 WHEREAS, racial, ethnic, and socioeconomic differences are 25 factors that impact the screening, detection and treatment of cervical cancer in black and Hispanic women. Black women in the 26 27 United States are twice as likely to die of cervical cancer than 28 are white women and are more likely to be diagnosed with advanced 29 cervical cancer than any other racial group, and Hispanic women 30 are 30 percent more likely to die of cervical cancer than are white women; and 31

32 WHEREAS, COVID-19 has widened health disparities. In a 33 recent report, 46 percent of women indicated they put off 34 preventative care and 32 percent skipped recommended medical tests 35 and screenings:

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF MISSISSIPPI, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN, That we do hereby recognize January 2022 as "Cervical Health Awareness Month in Mississippi," acknowledge that cervical cancer is detectable and preventable through regular screening, and encourage all women to schedule well-woman exams and Pap+HPV (co-testing) cervical cancer screenings.

S. C. R. No. 541 **~ OFFICIAL ~** 22/SS36/R1172 PAGE 2 (rdd\kr) 43 BE IT FURTHER RESOLVED, That this resolution be presented to 44 the State Board of Health for appropriate distribution and made 45 available to the Capitol Press Corps.

S. C. R. No. 541~ OFFICIAL ~22/SS36/R1172ST: Recognize January 2022 as "Cervical Health
Awareness Month in Mississippi."
