- 31 **SECTION 1.** Section 25-53-201, Mississippi Code of 1972, is
- 32 amended as follows:
- 33 25-53-201. (1) There is hereby established the Enterprise
- 34 Security Program which shall provide for the coordinated oversight
- 35 of the cybersecurity efforts across all state agencies, including
- 36 cybersecurity systems, services and the development of policies,
- 37 standards and guidelines.
- 38 (2) The Mississippi Department of Information Technology
- 39 Services (MDITS), in conjunction with all state agencies, shall
- 40 provide centralized management and coordination of state policies
- 41 for the security of data and information technology resources,
- 42 which such information shall be compiled by MDITS and distributed
- 43 to each participating state agency. MDITS shall:
- 44 (a) Serve as sole authority, within the constraints of
- 45 this statute, for defining the specific enterprise cybersecurity
- 46 systems and services to which this statute is applicable;
- 47 (b) Acquire and operate enterprise technology solutions
- 48 to provide services to state agencies when it is determined that
- 49 such operation will improve the cybersecurity posture in the
- 50 function of any agency, institution or function of state
- 51 government as a whole;
- 52 (c) Provide oversight of enterprise security policies
- 53 for state data and information technology (IT) resources
- 54 including, the following:

55 (i)	Establishing	and maintaining	the security
--------	--------------	-----------------	--------------

- 56 standards and policies for all state data and IT resources state
- 57 agencies shall implement to the extent that they apply; and

- 59 requirements as minimum requirements in the specifications for
- 60 solicitation of state contracts for procuring data and information
- 61 technology systems and services;
- 62 (d) Adhere to all policies, standards and guidelines in
- 63 the management of technology infrastructure supporting the state
- 64 data centers, telecommunications networks and backup facilities;
- 65 (e) Coordinate and promote efficiency and security with
- 66 all applicable laws and regulations in the acquisition, operation
- 67 and maintenance of state data, cybersecurity systems and services
- 68 used by agencies of the state;
- (f) Manage, plan and coordinate all enterprise
- 70 cybersecurity systems under the jurisdiction of the state;
- 71 (q) Develop, in conjunction with agencies of the state,
- 72 coordinated enterprise cybersecurity systems and services for all
- 73 state agencies;
- 74 (h) Provide ongoing analysis of enterprise
- 75 cybersecurity systems and services costs, facilities and systems
- 76 within state government;
- 77 (i) Develop policies, procedures and long-range plans
- 78 for the use of enterprise cybersecurity systems and services;

81	cybersecurity initiatives;
82	(k) Coordinate the activities of the advisory council
83	to provide education and awareness, identify cybersecurity-related
84	issues, set future direction for cybersecurity plans and policy,
85	and provide a forum for interagency communications regarding
86	cybersecurity;
87	(1) Charge respective user agencies on a reimbursement
88	basis for their proportionate cost of the installation,
89	maintenance and operation of the cybersecurity systems and
90	services; and
91	(m) Require cooperative utilization of cybersecurity
92	systems and services by aggregating users.
93	(3) Each state agency's executive director or agency head
94	shall:
95	(a) Be solely responsible for the security of all data
96	and IT resources under its purview, irrespective of the location
97	of the data or resources. Locations include data residing:

 137 program and future plans for ensuring security of data in the
 138 agency long-range information technology plan;
- (1) Participate in annual information security training
 designed specifically for the executive director or agency head to
 ensure that such individual has an understanding of:
- 142 (i) The information and information systems that 143 support the operations and assets of the agency;
- (ii) The potential impact of common types of

 cyber-attacks and data breaches on the agency's operations and

 assets;
- 147 (iii) How cyber-attacks and data breaches on the 148 agency's operations and assets could impact the operations and 149 assets of other state agencies on the Enterprise State Network;
- 150 (iv) How cyber-attacks and data breaches occur;
- 151 (v) Steps to be undertaken by the executive 152 director or agency head and agency employees to protect their
- 153 information and information systems; and

154	(vi) The annual reporting requirements required of
155	the executive director or agency head.
156	(4) The Mississippi Department of Information Technology
157	Services shall evaluate the Enterprise Security Program. Such
158	evaluation shall include the following factors:
159	(a) Whether the Enterprise Security Program
160	incorporates nationwide best practices;
161	(b) Whether opportunities exist to centralize and
162	coordinate oversight of cybersecurity efforts across all state
163	agencies;
164	(c) A review of the minimum enterprise security
165	requirements that must be incorporated in solicitations for state
166	contracts for procuring data and information technology systems
167	and services; and
168	(d) Whether opportunities exist to expand the
169	Enterprise Security Program, including providing oversight of
170	cybersecurity efforts of those governing authorities as defined in
171	Section 25-53-3(f).
172	In performing such evaluation, the Mississippi Department of
173	Information Technology Services may retain experts. This
174	evaluation shall be completed by November 1, 2023. All records in
175	connection with this evaluation shall be exempt from the
176	Mississippi Public Records Act of 1983, pursuant to Section
177	25-61-11.2(f) and (k).

178	(5) For the purpose of this subsection, the following words
179	shall have the meanings ascribed herein, unless the context
180	<pre>clearly indicates otherwise:</pre>
181	(a) "Cyberattack" shall mean any attempt to gain
182	illegal access, including any data breach, to a computer, computer
183	system or computer network for purposes of causing damage,
184	disruption or harm.
185	(b) "Ransomware" shall mean a computer contaminant or
186	lock placed or introduced without authorization into a computer,
187	computer system or computer network that restricts access by an
188	authorized person to the computer, computer system, computer
189	network or any data therein under circumstances in which the
190	person responsible for the placement or introduction of the
191	ransomware demands payment of money or other consideration to
192	remove the computer contaminant, restore access to the computer,
193	computer system, computer network or data, or otherwise remediate
194	the impact of the computer contaminant or lock.
195	(c) From and after July 1, 2023, all state agencies
196	shall notify the Mississippi Department of Information Technology
197	Services of any cyberattack or demand for payment as a result of
198	ransomware no later than the close of the next business day
199	following the discovery of such cyberattack or demand. The
200	Mississippi Department of Information Technology Services shall
201	develop a reporting format to be utilized by state agencies to
202	provide such notification. The Mississippi Department of

203	Information Technology Services shall periodically analyze all
204	such reports and attempt to identify any patterns or weaknesses in
205	the state's cybersecurity efforts. Such reports shall be exempt
206	from the Mississippi Public Records Act of 1983, pursuant to
207	Section 25-61-11.2(j).
208	SECTION 2. This act shall take effect and be in force from
209	and after July 1, 2023.
