SENATE RESOLUTION NO. 89

A RESOLUTION SUPPORTING THE EFFORTS OF THE FEDERAL GOVERNMENT

2 IN ENDING THE HIV EPIDEMIC IN THE STATE OF MISSISSIPPI. WHEREAS, in 2019, the U.S. Department of Health and Human 3 Services launched the "Ending the HIV Epidemic (EHE) Initiative" 4 5 with the goal of reducing new Human Immunodeficiency Virus (HIV) 6 infections by 90% by 2030, through the four key pillars of the EHE 7 initiative-Diagnose, Treat, Prevent and Respond; and 8 WHEREAS, many people may experience health literacy barriers due to social determinants, and this lack of awareness may limit 9 an individual's ability to recognize and advocate for necessary 10 11 medical care, including treatment that is best suited for their

14 WHEREAS, the U.S. Food and Drug Administration has approved

health needs, and engage in a shared decision-making approach with

15 multiple pre-exposure prophylaxis (PrEP) medications that are

16 extremely effective at preventing individuals from acquiring HIV

as studies have shown a correlation between increased PrEP uptake 17

18 and decreases in new HIV diagnoses in the U.S.; and

their providers; and

19	WHEREAS, inequities in access to PrEP across populations
20	vulnerable to HIV have led to increasing disparities in HIV
21	incidence, transmission, and viral suppression, with a lower
22	percentage of African American and Hispanics actively taking PrEP
23	or discussing PrEP with a healthcare provider; and
24	WHEREAS, in order to support EHE efforts to expand access to
25	HIV prevention therapies, all health care providers should be
26	educated on the value of PrEP, and should be available to provide
27	PrEP when an individual is ready for it; and
28	WHEREAS, states should prioritize access to PrEP, including
29	new innovative modalities, by enforcing Affordable Care Act
30	requirements that USPSTF Grade A- or B-rated services should be
31	available to beneficiaries at zero cost under private insurance
32	programs; and
33	WHEREAS, states should support the under and uninsured
34	populations through support of state and federally funded PrEP
35	programs:
36	NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF
37	MISSISSIPPI, That we do hereby recognize the importance of open
38	access to all FDA-approved HIV medications and HIV-related health
39	care services and treatments, including the crucial importance of

PrEP, to the "Ending the HIV Epidemic Initiative" and to improving

transmission of HIV, and encourage state policymakers to implement

health outcomes, reducing health disparities and reducing

policies to do the same.
