15 as follows:

16 51-15-118. The board of supervisors of any county that is
17 included in the Pat Harrison Waterway District, or the governing
18 authorities of any municipality not located in a member county but
19 that joined the district by petition, may elect to withdraw such

Such board of supervisors or municipal governing authorities may borrow funds as needed to satisfy the withdrawing county's or municipality's portion of the liabilities, obligations and indebtedness of the district as required herein. No withdrawal shall become effective until the close of the fiscal year in which the county has satisfied its obligations under this section.

SECTION 2. Section 51-15-119, Mississippi Code of 1972, as amended by Senate Bill No. 2526, 2023 Regular Session, is amended as follows:

51-15-119. (1) The Pat Harrison Waterway District through its board of directors is hereby empowered:

(a) To develop in conjunction with the United States Army Corps of Engineers, United States Secretary of Agriculture, or with the head of any other federal or state agency as may be involved, plans for public works of improvement to make navigable or for the prevention of flood water damage, or the conservation,

development, recreation, utilization and disposal of water, including the impoundment, diversion, flowage and distribution of waters for beneficial use as defined in Article 1 of this chapter, and in connection with the Oktibbeha River Basin project as authorized under Public Law 874, 87th Congress, October 23, 1962, and substantially in accordance with the recommendation of the Chief of Engineers in House Document 549 of the 87th Congress.

(b) To impound overflow water and the surface water of any streams in the Pat Harrison Waterway District or its tributaries within the project area, within or without the district, at the place or places and in the amount as may be approved by the Office of Land and Water Resources of the State of Mississippi, by the construction of a dam or dams, reservoir or reservoirs, work or works, plants and any other necessary or useful related facilities contemplated and described as a part of the project within and without the district, to control, store, and preserve these waters, and to use, distribute, and sell them, to construct or otherwise acquire within the project area all works, plants or other facilities necessary or useful to the project for processing the water and transporting it to cities and other facilities necessary or useful to the project for the purpose of processing the water and transporting it to cities and other facilities for domestic, municipal, commercial, industrial, agricultural and manufacturing purposes, and is hereby given the

power to control open channels for water delivery purposes and water transportation.

(c) To acquire and develop any other available water necessary or useful to the project and to construct, acquire, and develop all facilities within the project area deemed necessary or useful with respect thereto.

(d) To forest and reforest and to aid in the foresting and reforesting of the project area, and to prevent and aid in the prevention of soil erosion and flood within the area; to control, store and preserve within the boundaries of the project area the waters of any streams in the area, for irrigation of lands and for prevention of water pollution.

(e) To acquire by condemnation all property of any kind, real, personal or mixed, or any interest therein, within or without the boundaries of the district, necessary for the project and the exercise of the powers, rights, privileges and functions conferred upon the district by this article, according to the procedure provided by law for the condemnation of lands or other property taken for rights-of-way or other purposes by railroad, telephone or telegraph companies and according to the provisions of Section 29-1-1. For the purposes of this article the right of eminent domain of the district shall be superior and dominant to the right of eminent domain of railroad, telegraph, telephone, gas, power and other companies or corporations and shall be sufficient to enable the acquisition of county roads, state

highways or other public property in the project area, and the acquisition or relocation of this property in the project area. The cost of right-of-way purchases, rerouting and elevating all other county-maintained roads affected by construction shall be borne by the water management district, and new construction shall be of equal quality as in roads existing as of June 1, 1962. The county in which such work is done may assist in these costs if the board of supervisors desires.

The amount and character of interest in land, other property and easements to be acquired shall be determined by the board of directors, and their determination shall be conclusive and shall not be subject to attack in the absence of manifold abuse of discretion or fraud on the part of such board in making this determination. However:

reasonable regulations by the board of directors that will adequately protect the project; and

(iii) In drilling and developing, these persons are hereby vested with a right to have mineral interests integrated and their lands developed in the drilling unit or units that the State Oil and Gas Board shall establish after due consideration of the rights of all owners to be included in the drilling unit.

Moreover, when any site or plot of land is to be rented, leased or sold to any person, firm or corporation for the purpose of operating recreational facilities thereon for profit, the board shall, by resolution, specify the terms and conditions of the sale, rental or lease, and shall advertise for public bids thereon. When these bids are received, they shall be publicly opened by the board, and the board shall thereupon determine the highest and best bid submitted and shall immediately notify the former owner of the site or plot of the amount, terms and conditions of the highest and best bid. The former owner of the site or plot shall have the exclusive right at his option, for a period of thirty (30) days after written notice is received by the land owner of the determination of the highest and best bid by the board, to rent, lease or purchase the site or plot of land by meeting the highest and best bid and by complying with all terms and conditions of renting, leasing or sale as specified by the board. However, the board shall not in any event rent, lease or

147 sell to any former owner more land than was taken from the former
148 owner for the construction of the project, or one-quarter (1/4)
149 mile of shore line, whichever is lesser. If this option is not
150 exercised by the former owner within a period of thirty (30) days,
151 the board shall accept the highest and best bid submitted.

152 Any bona fide, resident householder actually living or
153 maintaining a residence on land taken by the district by
154 condemnation shall have the right to repurchase his former land
155 from the board of directors for a price not exceeding the price
156 paid for his land, plus any permanent improvements and plus the
157 cost of condemnation.

159 highways, railroad, telephone and telegraph lines and properties,
160 electric power lines, pipelines, and mains and facilities in the
161 project area, or to require the anchoring or other protection of
162 any of these, provided due compensation is first paid the owners
163 thereof or agreement is had with the owners regarding the payment
164 of the cost of relocation. Further, the district is hereby
165 authorized to acquire easements or rights-of-way in or outside of
166 the project area for the relocation of roads, highways, railroad,
167 telephone and telegraph lines and properties, electric power
168 lines, pipelines, and mains and facilities, and to convey them to
169 the owners thereof in connection with the relocation as a part of
170 the construction of the project. However, the directors of the
171 district shall not close any public access road to the project

For any other services, only reasonable compensation shall be paid for those services. The board shall have the right to employ a general

197 manager or executive director, who shall, at the discretion of the
198 board, have the power to employ and discharge employees. Without
199 limiting the generality of the foregoing, it may employ fiscal
200 agents or advisors in connection with its financing program and in
201 connection with the issuance of its bonds.

202 (m) To make contracts and to execute instruments
203 necessary or convenient to the exercise of the powers, rights,
204 privileges and functions conferred upon it by this article.

208 of the purposes for which it is created.

210 States of America or from any corporation or agency created or
211 designated by the United States of America, and to ratify and

231 and entity may agree. Any contract may be upon any terms and for
232 any time as the parties may agree, and it may provide that it
233 shall continue in effect until bonds specified therein and
234 refunding bonds issued in lieu of these bonds and all obligations
235 are paid. Any contract with any political subdivision shall be
236 binding upon the political subdivisions according to its terms,
237 and the municipalities or other political subdivisions shall have
238 the power to enter into these contracts as in the discretion of
239 the governing authorities thereof would be to the best interest of
