

Adopted
COMMITTEE AMENDMENT NO 1 PROPOSED TO

Senate Bill No. 2257

BY: Committee

**Amend by striking all after the enacting clause and inserting
in lieu thereof the following:**

SECTION 1. Section 63-5-33, Mississippi Code of 1972, is
amended as follows:

*** * ***

63-5-33. (1) Subject to the limitations imposed on wheel
and axle loads by Section 63-5-27, and to the further limitations
hereinafter specified, the total combined weight (vehicles plus
load) on any group of axles of a vehicle or a combination of
vehicles shall not exceed the value given in the following table
(Table III) corresponding to the distance in feet between the
extreme axles of the group, measured longitudinally to the nearest

foot, on those highways or parts of highways designated by the Mississippi Transportation Commission as being capable of carrying the maximum load limits and, in addition thereto, such other highways or parts of highways found by the commission to be suitable to carry the maximum load limits from an engineering standpoint, and so designated as such by order of the commission entered upon its minutes and published once each week for three (3) consecutive weeks in a daily newspaper published in this state and having a general circulation therein. The maximum total combined weight carried on any group of two (2) or more consecutive axles shall be determined by the formula contained in the Federal Weight Law enacted January 4, 1975, as follows: $W = 500 \left(\frac{LN}{N-1} + 12N + 36 \right)$ where W=maximum weight in pounds carried on any group of two (2) or more axles computed to the nearest five hundred (500) pounds, L=distance in feet between the extremes of any group of two (2) or more consecutive axles, and N=number of axles in any group under consideration.

100	56	79,500	80,000	80,000	80,000
101	57	80,000	80,000	80,000	80,000

102 (2) Moreover, in addition to the per axle weight limitations
 103 specified by Section 63-5-27, two (2) consecutive sets of tandem
 104 axles may carry a gross load of thirty-four thousand (34,000)
 105 pounds each, providing that the overall distance between the first
 106 and last axles of such consecutive sets of tandem axles is
 107 thirty-six (36) feet or more, except that, until September 1,
 108 1989, the axle distance for tank trailers, dump trailers and ocean
 109 transport container haulers may be thirty (30) feet or more. Such
 110 overall gross weight may not exceed eighty thousand (80,000)
 111 pounds, except as provided by this section.

112 (3) Notwithstanding the provisions of Section 63-5-27 and/or
 113 Section 63-5-29 to the contrary, vehicles hauling products in the
 114 manner set forth in this subsection, whether or not such vehicles
 115 are operating with a harvest permit, shall be allowed a gross
 116 weight of not to exceed forty thousand (40,000) pounds on any

tandem. Vehicles operating without a harvest permit shall be allowed a tolerance not to exceed five percent (5%) above their authorized gross vehicle weight, tandem or axle weight; except that the maximum gross vehicle weight of any such vehicle shall not exceed eighty thousand (80,000) pounds plus a tolerance thereon of not more than two percent (2%). Vehicles operating without a harvest permit loading at a point of origin having scales available for weighing the vehicle shall not be eligible for any tolerance over the gross weight limit of eighty thousand (80,000) pounds. Vehicles operating with a harvest permit shall be allowed a tolerance not to exceed ten percent (10%) above their authorized gross vehicle weight, tandem or axle weight, but the maximum gross vehicle weight of any such vehicle shall not exceed eighty-eight thousand (88,000) pounds. However, neither the increased weights in this subsection nor any tolerance shall be allowed on federal interstate highways or on other highways where a tolerance is specifically prohibited by the Transportation Commission, the county board of supervisors or the municipal governing authorities as provided for in Section 63-5-27. The tolerance allowed by this subsection shall only apply to the operation of vehicles from the point of loading to the point of unloading for processing, and to the operation of vehicles hauling sand, gravel, woodchips, wood shavings, sawdust, fill dirt, and agricultural products, and products for recycling or materials for the construction or repair of highways. The range of such

operation shall not exceed a radius of one hundred (100) miles except where the products are being transported for processing within this state.

(4) Notwithstanding the provisions of Section 63-5-27 and/or Section 63-5-29 to the contrary, vehicles hauling prepackaged products, unloaded at a state port or to be loaded at a state port, which are containerized in such a manner as to make subdivision thereof impractical shall be allowed a gross weight of not to exceed forty thousand (40,000) pounds on any tandem, and a tolerance not to exceed ten percent (10%) above their authorized gross weight, tandem or axle weight; except that the maximum weight of any vehicle shall not exceed eighty thousand (80,000) pounds plus a tolerance thereon of not more than two percent (2%); however, neither the increased weights in this subsection nor any tolerance shall be allowed on federal interstate highways or on other highways where a tolerance is specifically prohibited by the Transportation Commission, the county board of supervisors or the municipal governing authorities as provided for in Section 63-5-27.

(5) (a) Vehicles for which a harvest permit has been issued pursuant to Section 27-19-81(4) shall be allowed a gross vehicle weight tolerance of ten percent (10%), not to exceed eighty-eight thousand (88,000) pounds. However, the board of supervisors of any county and the governing authorities of any municipality may designate the roads, streets and highways under their respective

jurisdiction on and along which vehicles for which a harvest permit has been issued may travel. This subsection shall not apply to the federal interstate system.

(b) Any owner or operator who has been issued a harvest permit and who wishes to operate a vehicle on the roads, streets or highways under the jurisdiction of a county or municipality at a gross vehicle weight greater than the weight allowed by law or greater than the maximum weight established for such roads, streets or highways by the board of supervisors or municipal governing authorities, shall notify, in writing, the board of supervisors or the governing authorities, as the case may be, before operating such vehicle on the roads, streets or highways of such county or municipality. In * * * the notice, the permit holder shall identify the routes over which * * * the permit holder intends to operate vehicles for which the permit has been issued and the dates or time period during which * * * the person will be operating such vehicles. The board of supervisors or the governing authorities, as the case may be, shall have two (2) working days to respond in writing to the permit holder to notify the permit holder of the routes on and along which the permit holder may operate vehicles for which a harvest permit has been issued. Failure of the board of supervisors or the governing authorities timely to notify the permit holder and to designate the routes on and along which the permit holder may operate shall be considered as authorizing the permit holder to operate on any

192 of the roads, streets or highways of the county or municipality in
193 accordance with the authority granted to the permit holder by the
194 harvest permit.

195 (c) Any time a timber deed is filed with the chancery
196 clerk, the grantee, at that time, may make a written request of
197 the board of supervisors of the county or the governing
198 authorities of the municipality, as the case may be, for the
199 purpose of providing to the grantee, within three (3) working days
200 of the filing of the request, a designated and approved route over
201 the roads, streets or highways under the jurisdiction of the
202 county or city, as the case may be, that the grantee may travel
203 for the purpose of transporting harvested timber. Upon providing
204 such route designation, the county or city, as the case may be,
205 shall also provide to the grantee a map designating the approved
206 route. An approved route designation provided to a grantee under
207 the provisions of this paragraph shall be valid for a period of
208 six (6) months from its date of issue. The permit authorized to
209 be issued under paragraph (b) of this subsection shall not be
210 required for any person who obtains a permit issued under this
211 paragraph.

212 (d) This subsection (5) shall stand repealed from and
213 after July 1, * * * 2028.

214 (6) Nothing in this section or subsections (1) through (4)
215 of Section 63-5-27 shall be construed to deny the operation of any
216 vehicle or combination of vehicles that could be lawfully operated

217 upon the interstate highway system of this state on January 4,
218 1975.

219 (7) (a) Notwithstanding any provisions of Section 63-5-27
220 to the contrary, a vehicle that is operated by an engine fueled
221 primarily by compressed or liquefied natural gas may exceed the
222 gross vehicle weight limits by an amount, not to exceed a maximum
223 of two thousand (2,000) pounds, that is equal to the difference
224 between the weight of the vehicle attributable to the natural gas
225 tank and fueling system carried by the vehicle and the weight of a
226 comparable diesel tank and fueling system.

227 (b) The weight exception provided in this subsection
228 shall apply to all interstate highways per the exemption expressly
229 permitted by 23 USC Section 127.

230 **SECTION 2.** This act shall take effect and be in force from
231 and after July 1, 2025.

**Further, amend by striking the title in its entirety and
inserting in lieu thereof the following:**

1 AN ACT TO AMEND SECTION 63-5-33, MISSISSIPPI CODE OF 1972, TO
2 EXTEND THE DATE OF THE REPEALER ON THE PROVISIONS OF LAW THAT
3 PROVIDE FOR THE MAXIMUM WEIGHT OF HARVEST PERMIT VEHICLES AND
4 REQUIRE CERTAIN HARVEST PERMIT HOLDERS TO GET PRIOR APPROVAL FOR
5 THEIR ROUTES; AND FOR RELATED PURPOSES.
