43-13-117. (A) Medicaid as authorized by this article shall include payment of part or all of the costs, at the discretion of the division, with approval of the Governor and the Centers for Medicare and Medicaid Services, of the following types of care and services rendered to eligible applicants who have been determined to be eligible for that care and services, within the limits of state appropriations and federal matching funds:

(1) Inpatient hospital services.

(b) No service benefits or reimbursement limitations in this subsection (A)(1) shall apply to payments under an APR-DRG or Ambulatory Payment Classification (APC) model or a managed care program or similar model described in subsection (H) of this section unless specifically authorized by the division.

(2) Outpatient hospital services.

(a) Emergency services.

(b) Other outpatient hospital services. The division shall allow benefits for other medically necessary outpatient hospital services (such as chemotherapy, radiation, surgery and therapy), including outpatient services in a clinic or other facility that is not located inside the hospital, but that has been designated as an outpatient facility by the hospital, and that was in operation or under construction on July 1, 2009, provided that the costs and charges associated with the operation of the hospital clinic are included in the hospital's cost report. In addition, the Medicare thirty-five-mile rule will apply to those hospital clinics not located inside the hospital that are constructed after July 1, 2009. Where the same services are reimbursed as clinic services, the division may revise the rate or methodology of outpatient reimbursement to maintain consistency, efficiency, economy and quality of care.

(c) The division is authorized to implement an Ambulatory Payment Classification (APC) methodology for outpatient

339 hospital services. The division shall give rural hospitals that  
340 have fifty (50) or fewer licensed beds the option to not be  
341 reimbursed for outpatient hospital services using the APC  
342 methodology, but reimbursement for outpatient hospital services  
343 provided by those hospitals shall be based on one hundred one  
344 percent (101%) of the rate established under Medicare for  
345 outpatient hospital services. Those hospitals choosing to not be  
346 reimbursed under the APC methodology shall remain under cost-based  
347 reimbursement for a two-year period.

348 (d) No service benefits or reimbursement  
349 limitations in this subsection (A)(2) shall apply to payments  
350 under an APR-DRG or APC model or a managed care program or similar  
351 model described in subsection (H) of this section unless  
352 specifically authorized by the division.

353 (3) Laboratory and x-ray services.

354 (4) Nursing facility services.

355 (a) The division shall make full payment to  
356 nursing facilities for each day, not exceeding forty-two (42) days  
357 per year, that a patient is absent from the facility on home  
358 leave. Payment may be made for the following home leave days in  
359 addition to the forty-two-day limitation: Christmas, the day  
360 before Christmas, the day after Christmas, Thanksgiving, the day  
361 before Thanksgiving and the day after Thanksgiving.

362 (b) From and after July 1, 1997, the division  
363 shall implement the integrated case-mix payment and quality

monitoring system, which includes the fair rental system for property costs and in which recapture of depreciation is eliminated. The division may reduce the payment for hospital leave and therapeutic home leave days to the lower of the case-mix category as computed for the resident on leave using the assessment being utilized for payment at that point in time, or a case-mix score of 1.000 for nursing facilities, and shall compute case-mix scores of residents so that only services provided at the nursing facility are considered in calculating a facility's per diem.

(c) From and after July 1, 1997, all state-owned nursing facilities shall be reimbursed on a full reasonable cost basis.

(d) On or after January 1, 2015, the division shall update the case-mix payment system resource utilization grouper and classifications and fair rental reimbursement system. The division shall develop and implement a payment add-on to reimburse nursing facilities for ventilator-dependent resident services.

(e) The division shall develop and implement, not later than January 1, 2001, a case-mix payment add-on determined by time studies and other valid statistical data that will reimburse a nursing facility for the additional cost of caring for a resident who has a diagnosis of Alzheimer's or other related dementia and exhibits symptoms that require special care. Any

389 such case-mix add-on payment shall be supported by a determination  
390 of additional cost. The division shall also develop and implement  
391 as part of the fair rental reimbursement system for nursing  
392 facility beds, an Alzheimer's resident bed depreciation enhanced  
393 reimbursement system that will provide an incentive to encourage  
394 nursing facilities to convert or construct beds for residents with  
395 Alzheimer's or other related dementia.

396 (f) The division shall develop and implement an  
397 assessment process for long-term care services. The division may  
398 provide the assessment and related functions directly or through  
399 contract with the area agencies on aging.

400 The division shall apply for necessary federal waivers to  
401 assure that additional services providing alternatives to nursing  
402 facility care are made available to applicants for nursing  
403 facility care.

404 (5) Periodic screening and diagnostic services for  
405 individuals under age twenty-one (21) years as are needed to  
406 identify physical and mental defects and to provide health care  
407 treatment and other measures designed to correct or ameliorate  
408 defects and physical and mental illness and conditions discovered  
409 by the screening services, regardless of whether these services  
410 are included in the state plan. The division may include in its  
411 periodic screening and diagnostic program those discretionary  
412 services authorized under the federal regulations adopted to  
413 implement Title XIX of the federal Social Security Act, as

414 amended. The division, in obtaining physical therapy services,  
415 occupational therapy services, and services for individuals with  
416 speech, hearing and language disorders, may enter into a  
417 cooperative agreement with the State Department of Education for  
418 the provision of those services to handicapped students by public  
419 school districts using state funds that are provided from the  
420 appropriation to the Department of Education to obtain federal  
421 matching funds through the division. The division, in obtaining  
422 medical and mental health assessments, treatment, care and  
423 services for children who are in, or at risk of being put in, the  
424 custody of the Mississippi Department of Human Services may enter  
425 into a cooperative agreement with the Mississippi Department of  
426 Human Services for the provision of those services using state  
427 funds that are provided from the appropriation to the Department  
428 of Human Services to obtain federal matching funds through the  
429 division.

430 (6) Physician services. Fees for physician's services  
431 that are covered only by Medicaid shall be reimbursed at ninety  
432 percent (90%) of the rate established on January 1, 2018, and as  
433 may be adjusted each July thereafter, under Medicare. The  
434 division may provide for a reimbursement rate for physician's  
435 services of up to one hundred percent (100%) of the rate  
436 established under Medicare for physician's services that are  
437 provided after the normal working hours of the physician, as  
438 determined in accordance with regulations of the division. The

439 division may reimburse eligible providers, as determined by the  
440 division, for certain primary care services at one hundred percent  
441 (100%) of the rate established under Medicare. The division shall  
442 reimburse obstetricians and gynecologists for certain primary care  
443 services as defined by the division at one hundred percent (100%)  
444 of the rate established under Medicare.

445 (7) (a) Home health services for eligible persons, not  
446 to exceed in cost the prevailing cost of nursing facility  
447 services. All home health visits must be precertified as required  
448 by the division. In addition to physicians, certified registered  
449 nurse practitioners, physician assistants and clinical nurse  
450 specialists are authorized to prescribe or order home health  
451 services and plans of care, sign home health plans of care,  
452 certify and recertify eligibility for home health services and  
453 conduct the required initial face-to-face visit with the recipient  
454 of the services.

455 (b) [Repealed]

456 (8) Emergency medical transportation services as  
457 determined by the division.

458 (9) Prescription drugs and other covered drugs and  
459 services as determined by the division.

460 The division shall establish a mandatory preferred drug list.  
461 Drugs not on the mandatory preferred drug list shall be made  
462 available by utilizing prior authorization procedures established  
463 by the division.

464       The division may seek to establish relationships with other  
465 states in order to lower acquisition costs of prescription drugs  
466 to include single-source and innovator multiple-source drugs or  
467 generic drugs. In addition, if allowed by federal law or  
468 regulation, the division may seek to establish relationships with  
469 and negotiate with other countries to facilitate the acquisition  
470 of prescription drugs to include single-source and innovator  
471 multiple-source drugs or generic drugs, if that will lower the  
472 acquisition costs of those prescription drugs.

473       The division may allow for a combination of prescriptions for  
474 single-source and innovator multiple-source drugs and generic  
475 drugs to meet the needs of the beneficiaries.

476       The executive director may approve specific maintenance drugs  
477 for beneficiaries with certain medical conditions, which may be  
478 prescribed and dispensed in three-month supply increments.

479       Drugs prescribed for a resident of a psychiatric residential  
480 treatment facility must be provided in true unit doses when  
481 available. The division may require that drugs not covered by  
482 Medicare Part D for a resident of a long-term care facility be  
483 provided in true unit doses when available. Those drugs that were  
484 originally billed to the division but are not used by a resident  
485 in any of those facilities shall be returned to the billing  
486 pharmacy for credit to the division, in accordance with the  
487 guidelines of the State Board of Pharmacy and any requirements of  
488 federal law and regulation. Drugs shall be dispensed to a

489 recipient and only one (1) dispensing fee per month may be  
490 charged. The division shall develop a methodology for reimbursing  
491 for restocked drugs, which shall include a restock fee as  
492 determined by the division not exceeding Seven Dollars and  
493 Eighty-two Cents (\$7.82).

494 Except for those specific maintenance drugs approved by the  
495 executive director, the division shall not reimburse for any  
496 portion of a prescription that exceeds a thirty-one-day supply of  
497 the drug based on the daily dosage.

498 The division is authorized to develop and implement a program  
499 of payment for additional pharmacist services as determined by the  
500 division.

501 All claims for drugs for dually eligible Medicare/Medicaid  
502 beneficiaries that are paid for by Medicare must be submitted to  
503 Medicare for payment before they may be processed by the  
504 division's online payment system.

505 The division shall develop a pharmacy policy in which drugs  
506 in tamper-resistant packaging that are prescribed for a resident  
507 of a nursing facility but are not dispensed to the resident shall  
508 be returned to the pharmacy and not billed to Medicaid, in  
509 accordance with guidelines of the State Board of Pharmacy.

510 The division shall develop and implement a method or methods  
511 by which the division will provide on a regular basis to Medicaid  
512 providers who are authorized to prescribe drugs, information about  
513 the costs to the Medicaid program of single-source drugs and

514 innovator multiple-source drugs, and information about other drugs  
515 that may be prescribed as alternatives to those single-source  
516 drugs and innovator multiple-source drugs and the costs to the  
517 Medicaid program of those alternative drugs.

518       Notwithstanding any law or regulation, information obtained  
519 or maintained by the division regarding the prescription drug  
520 program, including trade secrets and manufacturer or labeler  
521 pricing, is confidential and not subject to disclosure except to  
522 other state agencies.

523       The dispensing fee for each new or refill prescription,  
524 including nonlegend or over-the-counter drugs covered by the  
525 division, shall be not less than Three Dollars and Ninety-one  
526 Cents (\$3.91), as determined by the division.

527       The division shall not reimburse for single-source or  
528 innovator multiple-source drugs if there are equally effective  
529 generic equivalents available and if the generic equivalents are  
530 the least expensive.

531       It is the intent of the Legislature that the pharmacists  
532 providers be reimbursed for the reasonable costs of filling and  
533 dispensing prescriptions for Medicaid beneficiaries.

534       The division shall allow certain drugs, including  
535 physician-administered drugs, and implantable drug system devices,  
536 and medical supplies, with limited distribution or limited access  
537 for beneficiaries and administered in an appropriate clinical

538 setting, to be reimbursed as either a medical claim or pharmacy  
539 claim, as determined by the division.

540 It is the intent of the Legislature that the division and any  
541 managed care entity described in subsection (H) of this section  
542 encourage the use of Alpha-Hydroxyprogesterone Caproate (17P) to  
543 prevent recurrent preterm birth.

544 (10) Dental and orthodontic services to be determined  
545 by the division.

546 The division shall increase the amount of the reimbursement  
547 rate for diagnostic and preventative dental services for each of  
548 the fiscal years 2022, 2023 and 2024 by five percent (5%) above  
549 the amount of the reimbursement rate for the previous fiscal year.  
550 The division shall increase the amount of the reimbursement rate  
551 for restorative dental services for each of the fiscal years 2023,  
552 2024 and 2025 by five percent (5%) above the amount of the  
553 reimbursement rate for the previous fiscal year. It is the intent  
554 of the Legislature that the reimbursement rate revision for  
555 preventative dental services will be an incentive to increase the  
556 number of dentists who actively provide Medicaid services. This  
557 dental services reimbursement rate revision shall be known as the  
558 "James Russell Dumas Medicaid Dental Services Incentive Program."

559 The Medical Care Advisory Committee, assisted by the Division  
560 of Medicaid, shall annually determine the effect of this incentive  
561 by evaluating the number of dentists who are Medicaid providers,  
562 the number who and the degree to which they are actively billing

Medicaid, the geographic trends of where dentists are offering what types of Medicaid services and other statistics pertinent to the goals of this legislative intent. This data shall annually be presented to the Chair of the Senate Medicaid Committee and the Chair of the House Medicaid Committee.

The division shall include dental services as a necessary component of overall health services provided to children who are eligible for services.

In either instance, the eyeglasses must be prescribed by a physician skilled in diseases of the eye or an optometrist, whichever the beneficiary may select.

(12) Intermediate care facility services.

(a) The division shall make full payment to all intermediate care facilities for individuals with intellectual disabilities for each day, not exceeding sixty-three (63) days per year, that a patient is absent from the facility on home leave. (c) Effective January 1, 2015, the division shall update the fair rental reimbursement system for intermediate care facilities for individuals with intellectual disabilities.

(13) Family planning services, including drugs, supplies and devices, when those services are under the supervision of a physician or nurse practitioner.

(14) Clinic services. Preventive, diagnostic, therapeutic, rehabilitative or palliative services that are furnished by a facility that is not part of a hospital but is organized and operated to provide medical care to outpatients. Clinic services include, but are not limited to:

611           (16) Mental health services. Certain services provided  
612 by a psychiatrist shall be reimbursed at up to one hundred percent  
613 (100%) of the Medicare rate. Approved therapeutic and case  
614 management services (a) provided by an approved regional mental  
615 health/intellectual disability center established under Sections  
616 41-19-31 through 41-19-39, or by another community mental health  
617 service provider meeting the requirements of the Department of  
618 Mental Health to be an approved mental health/intellectual  
619 disability center if determined necessary by the Department of  
620 Mental Health, using state funds that are provided in the  
621 appropriation to the division to match federal funds, or (b)  
622 provided by a facility that is certified by the State Department  
623 of Mental Health to provide therapeutic and case management  
624 services, to be reimbursed on a fee for service basis, or (c)  
625 provided in the community by a facility or program operated by the  
626 Department of Mental Health. Any such services provided by a  
627 facility described in subparagraph (b) must have the prior  
628 approval of the division to be reimbursable under this section.

629           (17) Durable medical equipment services and medical  
630 supplies. Precertification of durable medical equipment and  
631 medical supplies must be obtained as required by the division.  
632 The Division of Medicaid may require durable medical equipment

634 specifications as established by the Balanced Budget Act of 1997.  
635 A maximum dollar amount of reimbursement for noninvasive

ventilators or ventilation treatments properly ordered and being used in an appropriate care setting shall not be set by any health maintenance organization, coordinated care organization, provider-sponsored health plan, or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section. Reimbursement by these organizations to durable medical equipment suppliers for home use of noninvasive and invasive ventilators shall be on a continuous monthly payment basis for the duration of medical need throughout a patient's valid prescription period.

(18) (a) Notwithstanding any other provision of this section to the contrary, as provided in the Medicaid state plan amendment or amendments as defined in Section 43-13-145(10), the division shall make additional reimbursement to hospitals that serve a disproportionate share of low-income patients and that meet the federal requirements for those payments as provided in Section 1923 of the federal Social Security Act and any applicable regulations. It is the intent of the Legislature that the division shall draw down all available federal funds allotted to the state for disproportionate share hospitals. However, from and after January 1, 1999, public hospitals participating in the Medicaid disproportionate share program may be required to participate in an intergovernmental transfer program as provided

660 in Section 1903 of the federal Social Security Act and any  
661 applicable regulations.

662 (b) (i) 1. The division may establish a Medicare  
663 Upper Payment Limits Program, as defined in Section 1902(a)(30) of  
664 the federal Social Security Act and any applicable federal  
665 regulations, or an allowable delivery system or provider payment  
666 initiative authorized under 42 CFR 438.6(c), for hospitals,  
667 nursing facilities and physicians employed or contracted by  
668 hospitals.

669 2. The division shall establish a  
670 Medicaid Supplemental Payment Program, as permitted by the federal  
671 Social Security Act and a comparable allowable delivery system or  
672 provider payment initiative authorized under 42 CFR 438.6(c), for  
673 emergency ambulance transportation providers in accordance with  
674 this subsection (A)(18)(b).

675 (ii) The division shall assess each hospital,  
676 nursing facility, and emergency ambulance transportation provider  
677 for the sole purpose of financing the state portion of the  
678 Medicare Upper Payment Limits Program or other program(s)  
679 authorized under this subsection (A)(18)(b). The hospital  
680 assessment shall be as provided in Section 43-13-145(4)(a), and  
681 the nursing facility and the emergency ambulance transportation  
682 assessments, if established, shall be based on Medicaid  
683 utilization or other appropriate method, as determined by the  
684 division, consistent with federal regulations. The assessments

685 will remain in effect as long as the state participates in the  
686 Medicare Upper Payment Limits Program or other program(s)  
687 authorized under this subsection (A)(18)(b). In addition to the  
688 hospital assessment provided in Section 43-13-145(4)(a), hospitals  
689 with physicians participating in the Medicare Upper Payment Limits  
690 Program or other program(s) authorized under this subsection  
691 (A)(18)(b) shall be required to participate in an  
692 intergovernmental transfer or assessment, as determined by the  
693 division, for the purpose of financing the state portion of the  
694 physician UPL payments or other payment(s) authorized under this  
695 subsection (A)(18)(b).

696 (iii) Subject to approval by the Centers for  
697 Medicare and Medicaid Services (CMS) and the provisions of this  
698 subsection (A)(18)(b), the division shall make additional  
699 reimbursement to hospitals, nursing facilities, and emergency  
700 ambulance transportation providers for the Medicare Upper Payment  
701 Limits Program or other program(s) authorized under this  
702 subsection (A)(18)(b), and, if the program is established for  
703 physicians, shall make additional reimbursement for physicians, as  
704 defined in Section 1902(a)(30) of the federal Social Security Act  
705 and any applicable federal regulations, provided the assessment in  
706 this subsection (A)(18)(b) is in effect.

707 (iv) Notwithstanding any other provision of  
708 this article to the contrary, effective upon implementation of the  
709 Mississippi Hospital Access Program (MHAP) provided in

710 subparagraph (c)(i) below, the hospital portion of the inpatient  
711 Upper Payment Limits Program shall transition into and be replaced  
712 by the MHAP program. However, the division is authorized to  
713 develop and implement an alternative fee-for-service Upper Payment  
714 Limits model in accordance with federal laws and regulations if  
715 necessary to preserve supplemental funding. Further, the  
716 division, in consultation with the hospital industry shall develop  
717 alternative models for distribution of medical claims and  
718 supplemental payments for inpatient and outpatient hospital  
719 services, and such models may include, but shall not be limited to  
720 the following: increasing rates for inpatient and outpatient  
721 services; creating a low-income utilization pool of funds to  
722 reimburse hospitals for the costs of uncompensated care, charity  
723 care and bad debts as permitted and approved pursuant to federal  
724 regulations and the Centers for Medicare and Medicaid Services;  
725 supplemental payments based upon Medicaid utilization, quality,  
726 service lines and/or costs of providing such services to Medicaid  
727 beneficiaries and to uninsured patients. The goals of such  
728 payment models shall be to ensure access to inpatient and  
729 outpatient care and to maximize any federal funds that are  
730 available to reimburse hospitals for services provided. Any such  
731 documents required to achieve the goals described in this  
732 paragraph shall be submitted to the Centers for Medicare and  
733 Medicaid Services, with a proposed effective date of July 1, 2019,  
734 to the extent possible, but in no event shall the effective date

of such payment models be later than July 1, 2020. The Chairmen of the Senate and House Medicaid Committees shall be provided a copy of the proposed payment model(s) prior to submission. Effective July 1, 2018, and until such time as any payment model(s) as described above become effective, the division, in consultation with the hospital industry, is authorized to implement a transitional program for inpatient and outpatient payments and/or supplemental payments (including, but not limited to, MHAP and directed payments), to redistribute available supplemental funds among hospital providers, provided that when compared to a hospital's prior year supplemental payments, supplemental payments made pursuant to any such transitional program shall not result in a decrease of more than five percent (5%) and shall not increase by more than the amount needed to maximize the distribution of the available funds.

(v) 1. To preserve and improve access to ambulance transportation provider services, the division shall seek CMS approval to make ambulance service access payments as set forth in this subsection (A)(18)(b) for all covered emergency ambulance services rendered on or after July 1, 2022, and shall make such ambulance service access payments for all covered services rendered on or after the effective date of CMS approval.

2. The division shall calculate the ambulance service access payment amount as the balance of the portion of the Medical Care Fund related to ambulance

760 transportation service provider assessments plus any federal  
761 matching funds earned on the balance, up to, but not to exceed,  
762 the upper payment limit gap for all emergency ambulance service  
763 providers.

764                   3. a. Except for ambulance services  
765 exempt from the assessment provided in this paragraph (18)(b), all  
766 ambulance transportation service providers shall be eligible for  
767 ambulance service access payments each state fiscal year as set  
768 forth in this paragraph (18)(b).

769                   b. In addition to any other funds  
770 paid to ambulance transportation service providers for emergency  
771 medical services provided to Medicaid beneficiaries, each eligible  
772 ambulance transportation service provider shall receive ambulance  
773 service access payments each state fiscal year equal to the  
774 ambulance transportation service provider's upper payment limit  
775 gap. Subject to approval by the Centers for Medicare and Medicaid  
776 Services, ambulance service access payments shall be made no less  
777 than on a quarterly basis.

778                   c. As used in this paragraph  
779 (18)(b)(v), the term "upper payment limit gap" means the  
780 difference between the total amount that the ambulance  
781 transportation service provider received from Medicaid and the  
782 average amount that the ambulance transportation service provider  
783 would have received from commercial insurers for those services  
784 reimbursed by Medicaid.

785                               4. An ambulance service access payment  
786 shall not be used to offset any other payment by the division for  
787 emergency or nonemergency services to Medicaid beneficiaries.

788                               (c) (i) Not later than December 1, 2015, the  
789 division shall, subject to approval by the Centers for Medicare  
790 and Medicaid Services (CMS), establish, implement and operate a  
791 Mississippi Hospital Access Program (MHAP) for the purpose of  
792 protecting patient access to hospital care through hospital  
793 inpatient reimbursement programs provided in this section designed  
794 to maintain total hospital reimbursement for inpatient services  
795 rendered by in-state hospitals and the out-of-state hospital that  
796 is authorized by federal law to submit intergovernmental transfers  
797 (IGTs) to the State of Mississippi and is classified as Level I  
798 trauma center located in a county contiguous to the state line at  
799 the maximum levels permissible under applicable federal statutes  
800 and regulations, at which time the current inpatient Medicare  
801 Upper Payment Limits (UPL) Program for hospital inpatient services  
802 shall transition to the MHAP.

803                               (ii) Subject to approval by the Centers for  
804 Medicare and Medicaid Services (CMS), the MHAP shall provide  
805 increased inpatient capitation (PMPM) payments to managed care  
806 entities contracting with the division pursuant to subsection (H)  
807 of this section to support availability of hospital services or  
808 such other payments permissible under federal law necessary to  
809 accomplish the intent of this subsection.

810 (iii) The intent of this subparagraph (c) is  
811 that effective for all inpatient hospital Medicaid services during  
812 state fiscal year 2016, and so long as this provision shall remain  
813 in effect hereafter, the division shall to the fullest extent  
814 feasible replace the additional reimbursement for hospital  
815 inpatient services under the inpatient Medicare Upper Payment  
816 Limits (UPL) Program with additional reimbursement under the MHAP  
817 and other payment programs for inpatient and/or outpatient  
818 payments which may be developed under the authority of this  
819 paragraph.

820 (iv) The division shall assess each hospital  
821 as provided in Section 43-13-145(4) (a) for the purpose of  
822 financing the state portion of the MHAP, supplemental payments and  
823 such other purposes as specified in Section 43-13-145. The  
824 assessment will remain in effect as long as the MHAP and  
825 supplemental payments are in effect.

826 (19) (a) Perinatal risk management services. The  
827 division shall promulgate regulations to be effective from and  
828 after October 1, 1988, to establish a comprehensive perinatal  
829 system for risk assessment of all pregnant and infant Medicaid  
830 recipients and for management, education and follow-up for those  
831 who are determined to be at risk. Services to be performed  
832 include case management, nutrition assessment/counseling,  
833 psychosocial assessment/counseling and health education. The

(b) Early intervention system services. The division shall cooperate with the State Department of Health, acting as lead agency, in the development and implementation of a statewide system of delivery of early intervention services, under Part C of the Individuals with Disabilities Education Act (IDEA). The State Department of Health shall certify annually in writing to the executive director of the division the dollar amount of state early intervention funds available that will be utilized as a certified match for Medicaid matching funds. Those funds then shall be used to provide expanded targeted case management services for Medicaid eligible children with special needs who are eligible for the state's early intervention system.

Qualifications for persons providing service coordination shall be determined by the State Department of Health and the Division of Medicaid.

(20) Home- and community-based services for physically disabled approved services as allowed by a waiver from the United States Department of Health and Human Services for home- and community-based services for physically disabled people using state funds that are provided from the appropriation to the State Department of Rehabilitation Services and used to match federal

860 funds under a cooperative agreement between the division and the  
861 department, provided that funds for these services are  
862 specifically appropriated to the Department of Rehabilitation  
863 Services.

864           (21) Nurse practitioner services. Services furnished  
865 by a registered nurse who is licensed and certified by the

869 pediatric nurse practitioners, obstetrics-gynecology nurse  
870 practitioners and neonatal nurse practitioners, under regulations  
871 adopted by the division. Reimbursement for those services shall  
872 not exceed ninety percent (90%) of the reimbursement rate for  
873 comparable services rendered by a physician. The division may  
874 provide for a reimbursement rate for nurse practitioner services  
875 of up to one hundred percent (100%) of the reimbursement rate for  
876 comparable services rendered by a physician for nurse practitioner

878 nurse practitioner, as determined in accordance with regulations  
879 of the division.

881 qualified health centers, rural health centers and clinics of the  
882 local health departments of the State Department of Health for  
883 individuals eligible for Medicaid under this article based on  
884 reasonable costs as determined by the division. Federally

qualified health centers shall be reimbursed by the Medicaid prospective payment system as approved by the Centers for Medicare and Medicaid Services. The division shall recognize federally qualified health centers (FQHCs), rural health clinics (RHCs) and community mental health centers (CMHCs) as both an originating and distant site provider for the purposes of telehealth reimbursement. The division is further authorized and directed to reimburse FQHCs, RHCs and CMHCs for both distant site and originating site services when such services are appropriately provided by the same organization.

(23) Inpatient psychiatric services.

(a) Inpatient psychiatric services to be determined by the division for recipients under age twenty-one (21) that are provided under the direction of a physician in an inpatient program in a licensed acute care psychiatric facility or in a licensed psychiatric residential treatment facility, before the recipient reaches age twenty-one (21) or, if the recipient was receiving the services immediately before he or she reached age twenty-one (21), before the earlier of the date he or she no longer requires the services or the date he or she reaches age twenty-two (22), as provided by federal regulations. From and after January 1, 2015, the division shall update the fair rental reimbursement system for psychiatric residential treatment facilities. Precertification of inpatient days and residential treatment days must be obtained as required by the division. From

910 and after July 1, 2009, all state-owned and state-operated  
911 facilities that provide inpatient psychiatric services to persons  
912 under age twenty-one (21) who are eligible for Medicaid

944 to the department by a political subdivision or instrumentality of  
945 the state and used to match federal funds under a cooperative  
946 agreement between the division and the department, provided that

1149 charge.

1151 teaching hospital.

1152           (a) Payments may only be made to a border city  
1153 university-affiliated pediatric teaching hospital if the Centers  
1154 for Medicare and Medicaid Services (CMS) approve an increase in  
1155 the annual request for the provider payment initiative authorized  
1156 under 42 CFR Section 438.6(c) in an amount equal to or greater  
1157 than the estimated annual payment to be made to the border city  
1158 university-affiliated pediatric teaching hospital. The estimate

1159 shall be based on the hospital's prior year Mississippi managed  
1160 care utilization.

1161 (b) As used in this paragraph (60), the term  
1162 "border city university-affiliated pediatric teaching hospital"  
1163 means an out-of-state hospital located within a city bordering the  
1164 eastern bank of the Mississippi River and the State of Mississippi

1175 Medicaid beneficiaries under the age of twenty-one (21) years who  
1176 are treated by a border city university-affiliated pediatric  
1177 teaching hospital shall not exceed the cost of providing the same  
1178 services to individuals in hospitals in the state.

1179 (d) It is the intent of the Legislature that  
1180 payments shall not result in any in-state hospital receiving  
1181 payments lower than they would otherwise receive if not for the  
1182 payments made to any border city university-affiliated pediatric  
1183 teaching hospital.

1184 (e) This paragraph (60) shall stand repealed on  
1185 July 1, 2024.

1186 (B) Planning and development districts participating in the  
1187 home- and community-based services program for the elderly and  
1188 disabled as case management providers shall be reimbursed for case  
1189 management services at the maximum rate approved by the Centers  
1190 for Medicare and Medicaid Services (CMS).

1191 (C) The division may pay to those providers who participate  
1192 in and accept patient referrals from the division's emergency room  
1193 redirection program a percentage, as determined by the division,  
1194 of savings achieved according to the performance measures and  
1195 reduction of costs required of that program. Federally qualified  
1196 health centers may participate in the emergency room redirection  
1197 program, and the division may pay those centers a percentage of  
1198 any savings to the Medicaid program achieved by the centers'  
1199 accepting patient referrals through the program, as provided in  
1200 this subsection (C).

1201 (D) (1) As used in this subsection (D), the following terms  
1202 shall be defined as provided in this paragraph, except as

1205 the House of Representatives and the Senate, and "committee" means  
1206 either one of those committees.

1207 (b) "Rate change" means an increase, decrease or  
1208 other change in the payments or rates of reimbursement, or a

1209 change in any payment methodology that results in an increase,  
1210 decrease or other change in the payments or rates of  
1211 reimbursement, to any Medicaid provider that renders any services  
1212 authorized to be provided to Medicaid recipients under this  
1213 article.

1214 (2) Whenever the Division of Medicaid proposes a rate  
1215 change, the division shall give notice to the chairmen of the  
1216 committees at least thirty (30) calendar days before the proposed  
1217 rate change is scheduled to take effect. The division shall  
1218 furnish the chairmen with a concise summary of each proposed rate  
1219 change along with the notice, and shall furnish the chairmen with  
1220 a copy of any proposed rate change upon request. The division  
1221 also shall provide a summary and copy of any proposed rate change  
1222 to any other member of the Legislature upon request.

1223 (3) If the chairman of either committee or both  
1224 chairmen jointly object to the proposed rate change or any part  
1225 thereof, the chairman or chairmen shall notify the division and  
1226 provide the reasons for their objection in writing not later than  
1227 seven (7) calendar days after receipt of the notice from the  
1228 division. The chairman or chairmen may make written  
1229 recommendations to the division for changes to be made to a  
1230 proposed rate change.

1231 (4) (a) The chairman of either committee or both  
1232 chairmen jointly may hold a committee meeting to review a proposed  
1233 rate change. If either chairman or both chairmen decide to hold a

1234 meeting, they shall notify the division of their intention in  
1235 writing within seven (7) calendar days after receipt of the notice  
1236 from the division, and shall set the date and time for the meeting  
1237 in their notice to the division, which shall not be later than  
1238 fourteen (14) calendar days after receipt of the notice from the  
1239 division.

1240 (b) After the committee meeting, the committee or  
1241 committees may object to the proposed rate change or any part  
1242 thereof. The committee or committees shall notify the division  
1243 and the reasons for their objection in writing not later than  
1244 seven (7) calendar days after the meeting. The committee or  
1245 committees may make written recommendations to the division for  
1246 changes to be made to a proposed rate change.

1247 (5) If both chairmen notify the division in writing  
1248 within seven (7) calendar days after receipt of the notice from  
1249 the division that they do not object to the proposed rate change  
1250 and will not be holding a meeting to review the proposed rate  
1251 change, the proposed rate change will take effect on the original  
1252 date as scheduled by the division or on such other date as  
1253 specified by the division.

1254 (6) (a) If there are any objections to a proposed rate  
1255 change or any part thereof from either or both of the chairmen or  
1256 the committees, the division may withdraw the proposed rate  
1257 change, make any of the recommended changes to the proposed rate  
1258 change, or not make any changes to the proposed rate change.

1259                   (b) If the division does not make any changes to  
1260 the proposed rate change, it shall notify the chairmen of that  
1261 fact in writing, and the proposed rate change shall take effect on  
1262 the original date as scheduled by the division or on such other  
1263 date as specified by the division.

1264                   (c) If the division makes any changes to the  
1265 proposed rate change, the division shall notify the chairmen of  
1266 its actions in writing, and the revised proposed rate change shall  
1267 take effect on the date as specified by the division.

1268                   (7) Nothing in this subsection (D) shall be construed  
1269 as giving the chairmen or the committees any authority to veto,  
1270 nullify or revise any rate change proposed by the division. The  
1271 authority of the chairmen or the committees under this subsection  
1272 shall be limited to reviewing, making objections to and making  
1273 recommendations for changes to rate changes proposed by the  
1274 division.

1275                   (E) Notwithstanding any provision of this article, no new  
1276 groups or categories of recipients and new types of care and  
1277 services may be added without enabling legislation from the  
1278 Mississippi Legislature, except that the division may authorize  
1279 those changes without enabling legislation when the addition of  
1280 recipients or services is ordered by a court of proper authority.

1281                   (F) The executive director shall keep the Governor advised  
1282 on a timely basis of the funds available for expenditure and the  
1283 projected expenditures. Notwithstanding any other provisions of

1284 this article, if current or projected expenditures of the division  
1285 are reasonably anticipated to exceed the amount of funds  
1286 appropriated to the division for any fiscal year, the Governor,  
1287 after consultation with the executive director, shall take all  
1288 appropriate measures to reduce costs, which may include, but are  
1289 not limited to:

1290           (1) Reducing or discontinuing any or all services that  
1291 are deemed to be optional under Title XIX of the Social Security  
1292 Act;

1293           (2) Reducing reimbursement rates for any or all service  
1294 types;

1295           (3) Imposing additional assessments on health care  
1296 providers; or

1297           (4) Any additional cost-containment measures deemed  
1298 appropriate by the Governor.

1299       To the extent allowed under federal law, any reduction to  
1300 services or reimbursement rates under this subsection (F) shall be  
1301 accompanied by a reduction, to the fullest allowable amount, to  
1302 the profit margin and administrative fee portions of capitated  
1303 payments to organizations described in paragraph (1) of subsection  
1304 (H).

1305       Beginning in fiscal year 2010 and in fiscal years thereafter,  
1306 when Medicaid expenditures are projected to exceed funds available  
1307 for the fiscal year, the division shall submit the expected  
1308 shortfall information to the PEER Committee not later than

1309 December 1 of the year in which the shortfall is projected to  
1310 occur. PEER shall review the computations of the division and  
1311 report its findings to the Legislative Budget Office not later  
1312 than January 7 in any year.

1313 (G) Notwithstanding any other provision of this article, it  
1314 shall be the duty of each provider participating in the Medicaid  
1315 program to keep and maintain books, documents and other records as  
1316 prescribed by the Division of Medicaid in accordance with federal  
1317 laws and regulations.

1318 (H) (1) Notwithstanding any other provision of this  
1319 article, the division is authorized to implement (a) a managed  
1320 care program, (b) a coordinated care program, (c) a coordinated  
1321 care organization program, (d) a health maintenance organization  
1322 program, (e) a patient-centered medical home program, (f) an  
1323 accountable care organization program, (g) provider-sponsored  
1324 health plan, or (h) any combination of the above programs. As a  
1325 condition for the approval of any program under this subsection  
1326 (H)(1), the division shall require that no managed care program,  
1327 coordinated care program, coordinated care organization program,  
1328 health maintenance organization program, or provider-sponsored  
1329 health plan may:

1330 (a) Pay providers at a rate that is less than the  
1331 Medicaid All Patient Refined Diagnosis Related Groups (APR-DRG)  
1332 reimbursement rate;

1333                   (b) Override the medical decisions of hospital  
1334 physicians or staff regarding patients admitted to a hospital for  
1335 an emergency medical condition as defined by 42 US Code Section  
1336 1395dd. This restriction (b) does not prohibit the retrospective  
1337 review of the appropriateness of the determination that an  
1338 emergency medical condition exists by chart review or coding  
1339 algorithm, nor does it prohibit prior authorization for  
1340 nonemergency hospital admissions;

1341                   (c) Pay providers at a rate that is less than the  
1342 normal Medicaid reimbursement rate. It is the intent of the  
1343 Legislature that all managed care entities described in this  
1344 subsection (H), in collaboration with the division, develop and  
1345 implement innovative payment models that incentivize improvements  
1346 in health care quality, outcomes, or value, as determined by the  
1347 division. Participation in the provider network of any managed  
1348 care, coordinated care, provider-sponsored health plan, or similar  
1349 contractor shall not be conditioned on the provider's agreement to  
1350 accept such alternative payment models;

1351                   (d) Implement a prior authorization and  
1352 utilization review program for medical services, transportation  
1353 services and prescription drugs that is more stringent than the  
1354 prior authorization processes used by the division in its  
1355 administration of the Medicaid program. Not later than December  
1356 2, 2021, the contractors that are receiving capitated payments  
1357 under a managed care delivery system established under this

subsection (H) shall submit a report to the Chairmen of the House and Senate Medicaid Committees on the status of the prior authorization and utilization review program for medical services, transportation services and prescription drugs that is required to be implemented under this subparagraph (d);

(e) [Deleted]

(f) Implement a preferred drug list that is more stringent than the mandatory preferred drug list established by the division under subsection (A)(9) of this section;

(g) Implement a policy which denies beneficiaries with hemophilia access to the federally funded hemophilia treatment centers as part of the Medicaid Managed Care network of providers.

Each health maintenance organization, coordinated care organization, provider-sponsored health plan, or other organization paid for services on a capitated basis by the division under any managed care program or coordinated care program implemented by the division under this section shall use a clear set of level of care guidelines in the determination of medical necessity and in all utilization management practices, including the prior authorization process, concurrent reviews, retrospective reviews and payments, that are consistent with widely accepted professional standards of care. Organizations participating in a managed care program or coordinated care program implemented by the division may not use any additional

criteria that would result in denial of care that would be determined appropriate and, therefore, medically necessary under those levels of care guidelines.

(2) Notwithstanding any provision of this section, the recipients eligible for enrollment into a Medicaid Managed Care Program authorized under this subsection (H) may include only those categories of recipients eligible for participation in the Medicaid Managed Care Program as of January 1, 2021, the Children's Health Insurance Program (CHIP), and the CMS-approved Section 1115 demonstration waivers in operation as of January 1, 2021. No expansion of Medicaid Managed Care Program contracts may be implemented by the division without enabling legislation from the Mississippi Legislature.

(3) (a) Any contractors receiving capitated payments under a managed care delivery system established in this section shall provide to the Legislature and the division statistical data to be shared with provider groups in order to improve patient access, appropriate utilization, cost savings and health outcomes not later than October 1 of each year. Additionally, each contractor shall disclose to the Chairmen of the Senate and House Medicaid Committees the administrative expenses costs for the prior calendar year, and the number of full-equivalent employees located in the State of Mississippi dedicated to the Medicaid and CHIP lines of business as of June 30 of the current year.

1407                   (b) The division and the contractors participating  
1408 in the managed care program, a coordinated care program or a  
1409 provider-sponsored health plan shall be subject to annual program  
1410 reviews or audits performed by the Office of the State Auditor,  
1411 the PEER Committee, the Department of Insurance and/or independent  
1412 third parties.

1413                   (c) Those reviews shall include, but not be  
1414 limited to, at least two (2) of the following items:

1415                               (i) The financial benefit to the State of  
1416 Mississippi of the managed care program,

1417                               (ii) The difference between the premiums paid  
1418 to the managed care contractors and the payments made by those  
1419 contractors to health care providers,

1420                               (iii) Compliance with performance measures  
1421 required under the contracts,

1422                               (iv) Administrative expense allocation  
1423 methodologies,

1424                               (v) Whether nonprovider payments assigned as  
1425 medical expenses are appropriate,

1426                               (vi) Capitated arrangements with related  
1427 party subcontractors,

1428                               (vii) Reasonableness of corporate  
1429 allocations,

1430                               (viii) Value-added benefits and the extent to  
1431 which they are used,

1432                   (ix) The effectiveness of subcontractor  
1433 oversight, including subcontractor review,  
1434                   (x) Whether health care outcomes have been  
1435 improved, and  
1436                   (xi) The most common claim denial codes to  
1437 determine the reasons for the denials.

1438           The audit reports shall be considered public documents and  
1439 shall be posted in their entirety on the division's website.

1440           (4) All health maintenance organizations, coordinated  
1441 care organizations, provider-sponsored health plans, or other  
1442 organizations paid for services on a capitated basis by the  
1443 division under any managed care program or coordinated care  
1444 program implemented by the division under this section shall  
1445 reimburse all providers in those organizations at rates no lower  
1446 than those provided under this section for beneficiaries who are  
1447 not participating in those programs.

1448           (5) No health maintenance organization, coordinated  
1449 care organization, provider-sponsored health plan, or other  
1450 organization paid for services on a capitated basis by the  
1451 division under any managed care program or coordinated care  
1452 program implemented by the division under this section shall  
1453 require its providers or beneficiaries to use any pharmacy that  
1454 ships, mails or delivers prescription drugs or legend drugs or  
1455 devices.

1456           (6)   (a)   Not later than December 1, 2021, the  
1457 contractors who are receiving capitated payments under a managed  
1458 care delivery system established under this subsection (H) shall  
1459 develop and implement a uniform credentialing process for  
1460 providers. Under that uniform credentialing process, a provider  
1461 who meets the criteria for credentialing will be credentialed with  
1462 all of those contractors and no such provider will have to be  
1463 separately credentialed by any individual contractor in order to  
1464 receive reimbursement from the contractor. Not later than  
1465 December 2, 2021, those contractors shall submit a report to the  
1466 Chairmen of the House and Senate Medicaid Committees on the status  
1467 of the uniform credentialing process for providers that is  
1468 required under this subparagraph (a).

1469           (b)   If those contractors have not implemented a  
1470 uniform credentialing process as described in subparagraph (a) by  
1471 December 1, 2021, the division shall develop and implement, not  
1472 later than July 1, 2022, a single, consolidated credentialing  
1473 process by which all providers will be credentialed. Under the  
1474 division's single, consolidated credentialing process, no such  
1475 contractor shall require its providers to be separately  
1476 credentialed by the contractor in order to receive reimbursement  
1477 from the contractor, but those contractors shall recognize the  
1478 credentialing of the providers by the division's credentialing  
1479 process.

1480 (c) The division shall require a uniform provider  
1481 credentialing application that shall be used in the credentialing  
1482 process that is established under subparagraph (a) or (b). If the  
1483 contractor or division, as applicable, has not approved or denied  
1484 the provider credentialing application within sixty (60) days of  
1485 receipt of the completed application that includes all required  
1486 information necessary for credentialing, then the contractor or  
1487 division, upon receipt of a written request from the applicant and  
1488 within five (5) business days of its receipt, shall issue a  
1489 temporary provider credential/enrollment to the applicant if the  
1490 applicant has a valid Mississippi professional or occupational  
1491 license to provide the health care services to which the  
1492 credential/enrollment would apply. The contractor or the division  
1493 shall not issue a temporary credential/enrollment if the applicant  
1494 has reported on the application a history of medical or other  
1495 professional or occupational malpractice claims, a history of  
1496 substance abuse or mental health issues, a criminal record, or a  
1497 history of medical or other licensing board, state or federal  
1498 disciplinary action, including any suspension from participation  
1499 in a federal or state program. The temporary  
1500 credential/enrollment shall be effective upon issuance and shall  
1501 remain in effect until the provider's credentialing/enrollment  
1502 application is approved or denied by the contractor or division.  
1503 The contractor or division shall render a final decision regarding  
1504 credentialing/enrollment of the provider within sixty (60) days

1505 from the date that the temporary provider credential/enrollment is  
1506 issued to the applicant.

1507 (d) If the contractor or division does not render  
1508 a final decision regarding credentialing/enrollment of the  
1509 provider within the time required in subparagraph (c), the  
1510 provider shall be deemed to be credentialed by and enrolled with  
1511 all of the contractors and eligible to receive reimbursement from  
1512 the contractors.

1513 (7) (a) Each contractor that is receiving capitated  
1514 payments under a managed care delivery system established under  
1515 this subsection (H) shall provide to each provider for whom the  
1516 contractor has denied the coverage of a procedure that was ordered  
1517 or requested by the provider for or on behalf of a patient, a  
1518 letter that provides a detailed explanation of the reasons for the  
1519 denial of coverage of the procedure and the name and the  
1520 credentials of the person who denied the coverage. The letter  
1521 shall be sent to the provider in electronic format.

1522 (b) After a contractor that is receiving capitated  
1523 payments under a managed care delivery system established under  
1524 this subsection (H) has denied coverage for a claim submitted by a  
1525 provider, the contractor shall issue to the provider within sixty  
1526 (60) days a final ruling of denial of the claim that allows the  
1527 provider to have a state fair hearing and/or agency appeal with  
1528 the division. If a contractor does not issue a final ruling of  
1529 denial within sixty (60) days as required by this subparagraph

1530 (b), the provider's claim shall be deemed to be automatically  
1531 approved and the contractor shall pay the amount of the claim to  
1532 the provider.

1533 (c) After a contractor has issued a final ruling  
1534 of denial of a claim submitted by a provider, the division shall  
1535 conduct a state fair hearing and/or agency appeal on the matter of  
1536 the disputed claim between the contractor and the provider within  
1537 sixty (60) days, and shall render a decision on the matter within  
1538 thirty (30) days after the date of the hearing and/or appeal.

1539 (8) It is the intention of the Legislature that the  
1540 division evaluate the feasibility of using a single vendor to  
1541 administer pharmacy benefits provided under a managed care  
1542 delivery system established under this subsection (H). Providers  
1543 of pharmacy benefits shall cooperate with the division in any  
1544 transition to a carve-out of pharmacy benefits under managed care.

1545 (9) The division shall evaluate the feasibility of  
1546 using a single vendor to administer dental benefits provided under  
1547 a managed care delivery system established in this subsection (H).  
1548 Providers of dental benefits shall cooperate with the division in  
1549 any transition to a carve-out of dental benefits under managed  
1550 care.

1551 (10) It is the intent of the Legislature that any  
1552 contractor receiving capitated payments under a managed care  
1553 delivery system established in this section shall implement

1554 innovative programs to improve the health and well-being of  
1555 members diagnosed with prediabetes and diabetes.

1556           (11) It is the intent of the Legislature that any  
1557 contractors receiving capitated payments under a managed care  
1558 delivery system established under this subsection (H) shall work  
1559 with providers of Medicaid services to improve the utilization of  
1560 long-acting reversible contraceptives (LARCs). Not later than  
1561 December 1, 2021, any contractors receiving capitated payments  
1562 under a managed care delivery system established under this  
1563 subsection (H) shall provide to the Chairmen of the House and  
1564 Senate Medicaid Committees and House and Senate Public Health  
1565 Committees a report of LARC utilization for State Fiscal Years  
1566 2018 through 2020 as well as any programs, initiatives, or efforts  
1567 made by the contractors and providers to increase LARC  
1568 utilization. This report shall be updated annually to include  
1569 information for subsequent state fiscal years.

1570           (12) The division is authorized to make not more than  
1571 one (1) emergency extension of the contracts that are in effect on  
1572 July 1, 2021, with contractors who are receiving capitated  
1573 payments under a managed care delivery system established under  
1574 this subsection (H), as provided in this paragraph (12). The  
1575 maximum period of any such extension shall be one (1) year, and  
1576 under any such extensions, the contractors shall be subject to all  
1577 of the provisions of this subsection (H). The extended contracts

1578 shall be revised to incorporate any provisions of this subsection  
1579 (H) .

1581 (J) There shall be no cuts in inpatient and outpatient  
1582 hospital payments, or allowable days or volumes, as long as the  
1583 hospital assessment provided in Section 43-13-145 is in effect.  
1584 This subsection (J) shall not apply to decreases in payments that  
1585 are a result of: reduced hospital admissions, audits or payments  
1586 under the APR-DRG or APC models, or a managed care program or  
1587 similar model described in subsection (H) of this section.

1588 (K) In the negotiation and execution of such contracts  
1589 involving services performed by actuarial firms, the Executive  
1590 Director of the Division of Medicaid may negotiate a limitation on  
1591 liability to the state of prospective contractors.

1592 (L) The Division of Medicaid shall reimburse for services  
1593 provided to eligible Medicaid beneficiaries by a licensed birthing  
1594 center in a method and manner to be determined by the division in

1596 division shall seek any necessary waivers, make any required  
1597 amendments to its State Plan or revise any contracts authorized  
1598 under subsection (H) of this section as necessary to provide the  
1599 services authorized under this subsection. As used in this  
1600 subsection, the term "birthing centers" shall have the meaning as  
1601 defined in Section 41-77-1(a), which is a publicly or privately  
1602 owned facility, place or institution constructed, renovated,

1603 leased or otherwise established where nonemergency births are  
1604 planned to occur away from the mother's usual residence following  
1605 a documented period of prenatal care for a normal uncomplicated

1607 formal risk-scoring examination.
