10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

11 **SECTION 1.** (1) As used in this section, the term "public  
 12 swimming pool" means any structure, chamber or tank containing an  
 13 artificial body of water used by the public for swimming, diving,  
 14 wading, recreation or therapy, together with buildings,

 25 drained, cleaned, and refilled after each individual use.

26 (2) For protection of the public health and safety, the  
 27 State Board of Health shall adopt and the State Department of  
 28 Health shall enforce requirements for the design, construction,

34 operator has complied with the rules adopted pursuant to the  
35 requirements of this section.

36 (3) No single drain, single suction outlet public swimming  
37 pools less than eighteen (18) inches deep shall be allowed to  
38 operate.

39 (4) The State Department of Health shall disseminate not

42 departments, public swimming pool operators, and the general  
43 public of the presence of the ways to avoid hazards related to  
44 suction in swimming pools.

45 (5) At all public swimming pools which use a single main  
46 drain for circulation of water, signs shall be posted stating:
