138 (5) Whenever the director determines that funds are

148 respective Chairmen of the Senate Appropriations Committee, the  
149 Senate Finance Committee, the House Appropriations Committee and  
150 the House Ways and Means Committee of his determination of the  
151 need for the funds and the amount that he has requisitioned. Upon  
152 receipt of such a requisition from the director, the Executive  
153 Director of the Department of Finance and Administration shall  
154 ascertain if the amount requisitioned is available in the Working  
155 Cash-Stabilization Reserve Fund and is within the limitations set  
156 forth below in this subsection and, if it is, he shall transfer  
157 that amount from the Working Cash-Stabilization Reserve Fund to  
158 the trust fund. If the amount requisitioned is more than the  
159 amount available in the Working Cash-Stabilization Fund or above  
160 the limitations set forth below in this subsection, the executive  
161 director shall transfer the amount that is available within the

162 limitations. The maximum amount that may be transferred from the  
163 Working Cash-Stabilization Reserve Fund to the trust fund for any  
164 one (1) disaster occurrence shall be Five Hundred Thousand Dollars  
165 (\$500,000.00) and the maximum amount that may be transferred  
166 during any fiscal year shall be One Million Dollars

168 (6) Unexpended state funds in the Disaster Assistance Trust  
169 Fund at the end of a fiscal year shall not lapse into the State  
170 General Fund but shall remain in the trust fund for use under this  
171 article for as long as the funds are needed for the particular  
172 purpose for which they were appropriated, deposited or transferred  
173 into the trust fund. After any state funds in the trust fund are  
174 no longer needed for the particular purpose for which they were  
175 appropriated, deposited or transferred into the trust fund, the  
176 director may use those funds for any other purpose under this  
177 article for which they currently are needed and for which other  
178 funds are not available. If there is no current need for such  
179 funds for any purpose under this article, the funds and the income  
180 earned from the investment of the funds shall be transferred back  
181 to the particular fund or funds in the State Treasury from which  
182 they were appropriated or transferred into the trust fund, upon  
183 certification of the director to the Executive Director of the  
184 Department of Finance and Administration that the funds are not  
185 currently needed.

186 **SECTION 3.** Section 33-15-311, Mississippi Code of 1972, is  
187 amended as follows:

188 33-15-311. (1) The director shall make allocations from the  
189 trust fund in such amounts as he determines to be necessary to  
190 state agencies for out-of-pocket expenditures incurred for  
191 emergency response, preliminary damage assessments, estimates,  
192 reports and training of state agency personnel. Allocations also  
193 may be made from the trust fund for the purpose of preparing  
194 project worksheets, estimates and reports as may be necessary to

195 enable state or local agencies to obtain federal aid for disaster  
196 assistance purposes. The director may make allocations to any  
197 state agency or office from the trust fund or other funds  
198 available therefor in such amounts as are necessary to administer  
199 the provisions of this article.

200 (2) State agencies that are to receive allocations from the  
201 trust fund for carrying out the purposes of this article shall  
202 request the Department of Finance and Administration for  
203 escalations of their budgets as necessary for the expenditure of  
204 the allocated funds, in the same manner as the department  
205 escalates budgets for federal funds under Section 27-104-21(1).

206 **SECTION 4.** Section 33-15-313, Mississippi Code of 1972, is  
207 amended as follows:

208 33-15-313. (1) Subject to the conditions specified in this  
209 section, the director shall allocate funds from the trust fund to  
210 meet the cost of any one or more projects. The completion of all  
211 or part of a project before application for funds under this  
212 article shall not disqualify such project or any part thereof.

213 (2) To be eligible for state and/or federal funding, the  
214 governing body of the local agency must declare a local emergency  
215 within ten (10) days of the disaster occurrence and forward such  
216 declaration to the Governor.

217 (3) A state or local agency shall make application to the  
218 director for state and/or federal financial assistance within  
219 thirty (30) days after the date of the declaration of a major  
220 disaster or emergency declared by the President or a state of  
221 emergency declared by the Governor; however, the director may  
222 extend the time for such filing, but only under unusual  
223 circumstances. No financial aid shall be provided until an  
224 applicant has filed a Notice of Interest and a Request for Federal  
225 Assistance and a state and/or federal team has first investigated  
226 and reported upon the proposed work, has estimated the cost of the  
227 work, and has filed a project worksheet thereon with the

228 Governor's authorized representative and a project application has  
229 been prepared. The estimate of cost of the work may include  
230 expenditures made by the state or local agency for such work  
231 before the making of such estimate. "Unusual circumstances," as  
232 used in this subsection, means unavoidable delays that result from  
233 recurrence of a disaster, prolonged severe weather or other  
234 conditions beyond the control of the applicant. Delays resulting  
235 from administrative procedures are not unusual circumstances that  
236 warrant extensions of time.

237 (4) No funds shall be allocated from the trust fund to a  
238 state or local agency until the agency has indicated in writing  
239 its acceptance of the project application and the cost-sharing  
240 related thereto in such form as the director prescribes. The  
241 project application shall provide for the performance of the work  
242 by the state or local agency, shall provide for the methods of  
243 handling the funds allocated and the matching funds provided by  
244 the local agency, and shall contain such other provisions as are  
245 deemed necessary to ensure completion of the work included in the  
246 project application and the proper expenditures of funds as  
247 provided herein.

248 **SECTION 5.** Section 33-15-317, Mississippi Code of 1972, is  
249 amended as follows:

250 33-15-317. (1) Under procedures prescribed by the director,  
251 a state or local agency may receive an advance of funds to  
252 initiate a project. Such advances shall be limited to not more  
253 than seventy-five percent (75%) of the estimated federal share of  
254 the project under the President's state of emergency, or fifty  
255 percent (50%) of the estimated share of the project under the  
256 Governor's state of emergency.

257 (2) Disaster assistance funds provided from federal sources  
258 under the provisions of Public Law 93-288 as amended by Public Law  
259 100-707 and Public Law 106-390 shall be deposited in the trust  
260 fund, and the director shall make advances or reimbursement

261 therefrom for expenditures for eligible work or for payment for  
262 performance.

263 (3) State and federal contributions for the repair and  
264 restoration of facilities shall be reduced by an amount equal to  
265 the insurance settlement received or an amount equal to the amount  
266 the local agency would have recovered from an insurance settlement  
267 if necessary, adequate and reasonably available insurance had been  
268 maintained.

269 **SECTION 6.** This act shall take effect and be in force from  
270 and after July 1, 2004.
